Summary by ChatGPT

- Economic Critique and Promises: Trump criticizes the current administration's handling of the economy, pointing out high inflation and increased costs for Americans. He promises to restore a strong economy, emphasizing job creation, energy independence, and lower inflation.

- Focus on Border Security: He argues that border policies have been mismanaged,

attributing increased crime and unregulated immigration to the current administration. He pledges to take a strong stance on border control and immigration reform.

- Media Distrust: Trump expresses distrust in mainstream media, accusing them of reporting "fake news" and losing credibility. He suggests that his campaign has exposed media bias and attributes a decrease in media approval ratings to this.

- Kamala Harris and "Incompetence" Claims: He criticizes Vice President Kamala Harris's performance, especially on immigration, stating that she has failed to fulfill her role effectively. He blames her for what he describes as record-high inflation and other economic problems.

- Support from High-Profile Figures: Trump mentions support from prominent individuals like Elon Musk, framing it as a testament to his campaign's credibility and influence. He also notes high attendance at his rallies as an indication of strong grassroots support.

Donald Trump

00:00:00

Thank you very much. Wow. Thank you. Thank you very much. Wow, what a crowd this is. Look at this. These are incredible people. You're incredible people. Unbelievable. So many people outside would like to let them in. Would anybody like to give up their seat or their standing area? Well, a very special hello to Allentown, a great place, and hello, Pennsylvania.

Donald Trump

00:00:44

I'm thrilled to be back in this incredible Commonwealth with thousands of proud, hardworking American patriots. That's what you are. But I'd like to begin with a very, very simple question. Are you better off now than you were four years ago? I don't think so. I'm here today with a message of hope for all Americans with your vote this election.

Donald Trump

00:01:14

Oh, do I look forward to this election? Do we look we? I'm going to say we because we're going to do it as a group. Look, Mr. Wall over here. He's the greatest guy. I want to buy one of those suits. We will end inflation. We will stop the invasion of criminals into our country.

Donald Trump

00:01:38

And we will bring back the American dream. We're doing it together, Pennsylvania. Our country will be bigger, better, bolder, richer, safer and stronger than ever before. This

election is a choice between whether we will have four more years of gross incompetence and failure. The worst administration in the history of our country. Jimmy Carter is a happy man.

Donald Trump

00:02:05

Jimmy Carter looks like a brilliant, brilliant president by comparison. Um, uh. But whether we will begin the four greatest years in the history of our country. We're going to turn it around, and we're going to turn it around fast. I'm asking you to be excited about the future again. You have to be excited about the future.

Donald Trump

00:02:26

They've taken all that excitement away from you. They've embarrassed us. They've embarrassed us. Kamala has embarrassed us. She doesn't have what it takes. I'm asking you to dream big again. You're going to dream big. And this is going to be a very special time. It's going to be America's new golden age. We're going to make it a golden age.

Donald Trump

00:02:58

It seems impossible, doesn't it? Doesn't it seem impossible with these stupid people that we've had to put up with over the last four years? We had, ah, the greatest economy in the history of our country. We were energy independent four years ago. Every problem facing us can be solved. But now the fate of our nation is in your hands.

Donald Trump

00:03:22

It's in your hands. If we win Pennsylvania, we're going to win the whole deal. Got to do it next Tuesday. You have to Stand up. And you have to tell Kamala that you've had enough. You're not going to take it anymore, Kamala. You're fired. Get out. Get out of here. You're fired. You're fired.

Donald Trump

00:03:52

Get the hell out of here. You were a terrible vp, but you were at even worse. Borders are. How bad our borders are. Uh, and border patrol last week endorsed me with the strongest endorsement they've ever given. And they said that she was unfit to run the border. Can you imagine? I said, how many times did she call you in four years, Almost four years?

Donald Trump

00:04:21

They said, she never called us once. I said, how about you? No, she never. She never called any of us, sir. Uh, never called us. She was the border czar, but she never called. She's incompetent. She's incompetent. We've set an all time record in the early voting, by the way. So if you have a mail in ballot, get that damn ballot in, please, immediately.

Because they've already started cheating in Lancaster. They've cheated. We caught them with 2,600 votes. No, we caught him cold. 2,600 votes. Think of this. Think of this. And every vote was written by the same person. Ha ha. I wonder how that happened. Must be a coincidence. It must be a coincidence. And then in York, I know York because I used to be a big weightlifter.

Donald Trump

00:05:16

Then after about three days, I decided to give it up. It wasn't for the extra. That's where they had all the weights, right? They had the weights. I built that room. I love building it. I enjoyed it so much. Then we put the weights down, and I said, I don't like that. That's no fun.

Donald Trump

00:05:31

I like building the room. I just didn't like lifting the weights. But York, they had a great bodybuilder. Uh, this was the bodybuilding capital of the world, right? Isn't it? I wanted to be here as a contestant one day. I just didn't want to do the work. It's too much work. We had enough to do.

Donald Trump

00:05:52

But if not, get everyone you know to the polls on November 5th. And you have to vote, vote, vote. We got to vote. We got to get these people out of there. We got about fast today. They're busing people. You know, they're in a place in Washington and they're bus. They got buses all up.

Donald Trump

00:06:12

They're busing people because they couldn't get anybody to show up for her tonight. I didn't bus anybody. You're all here. This place is packed. She can't she can't get anybody. Three days ago, she said Beyonce was coming. So people came to see Beyonce, but Beyonce went up. Thank you very much, everybody. And then she left.

Donald Trump

00:06:36

She didn't sing. And then they all left. She was speaking. Nobody. And they were booing the hell out of her, by the way. And the fake news doesn't report those stories. That's a lot. No, that's a lot. Look at that. See, you must. We must be coming. That is a lot of fake news.

Donald Trump

00:07:04

When they lose their final ounce of credibility, they'll probably turn good again because they're losing some much credibility. Do you know when I first started running their approval rating? When I very. At the very beginning, before maybe I even started, it was

like 92% favorable rating. You know what it is now? 12%.

Donald Trump

00:07:24

I drove it down, like, almost 90 points. I drove it down. Numbers. I'm very proud of it. I've exposed them as being fake. But with your help, one week from today, we're going to defeat Kamala Harris and the media, and we're going to win back that beautiful, beautiful White House, and we're going to make America great again.

Donald Trump

00:07:57

In less than four years, Kamala has shattered our middle class. You notice I don't mention Joe. Crooked Joe. He's so crooked, it's hard to believe because they basically took the presidency away from me. You know, they just walked up, said, you're not running anymore. I don't use the word coup. It's too Frenchy sounding for me.

Donald Trump

00:08:25

No, they just took it away. I like that better. They took it away. They walked in, they said, no. He, uh, had a rough debate. I would say it was rough. But after the debate, he went down very big, and, you know, he should have been allowed. He got 14 million votes. He got no votes.

Donald Trump

00:08:39

He was the first one. Look at that front row Joe, this guy. These guys are unbelievable. They follow me. They follow me all over the place. But he's in the second row. What the hell happened to you tonight? Front row Joe is. That's a big story. The press is going to get you.

Donald Trump

00:08:58

He's a great guy. They're Patriots, the front row Joes and the ladies from North Carolina. They've been here 259 times, and they're beautiful. They're beautiful. And we have Mr. Wall. I'm going to buy one day, I'm going to buy that suit, but I don't have that much time left because hopefully we're going to win and then we're not to be playing games.

Donald Trump

00:09:22

Anymore. We got to straighten out our country. So we're going to be meeting, but a different forum. Um, we're going to be meeting, as I tell you, how well we're doing, how we're winning. We're going to win big. We had the best economy in history. We're going to make it much better than even that.

Donald Trump

00:09:35

We're going to bring all these companies that left us because of stupid politicians on our side. They allowed it to happen. They're all coming back. Either that or they're going to have to pay tariffs like they never had to even think about before. Kamala cast the deciding votes that launched the worst inflation of your lifetime.

Donald Trump

00:09:58

I believe it's the worst inflation in the history of our country because they don't show the real. It's like, did you see, about a month ago, they came up with 818,000 jobs that were fake. They put them in. These are cheaters. And today they got caught. Think of it. They got caught cheating in Lancaster County.

Donald Trump

00:10:19

They got. They got caught in York. But think it's no different. Think of it. They put in 818,000 fraudulent jobs. So the job reports came out, oh, they're doing pretty good. That's good. That's good. And they weren't going to adjust. You know, you adjust when you find out that somebody was a fraud, you adjust.

Donald Trump

00:10:42

And they weren't going to do it until right after the election. But we had a whistleblower that blew the whistle on them. Really dishonored. You know, I always say we meet to decide where we're going to campaign, what we're going to say, how we're going to. They meet. How can we cheat? This is their meeting.

Donald Trump

00:11:07

Because who the hell can win an election with open borders? Transgender everybody. Men playing in women's sports. No, think of it. Men allow millions of people through an open border, totally unvetted, totally unchecked. They come from parts unknown. They come from countries you've never even heard of. And then you find out that they came from jails and mental institutions.

Donald Trump

00:11:34

No. No. They cheat like hell, and it's a damn disgrace. So we're going to get it straightened out. We got to get it straightened out. No, they caught us in Pennsylvania. We haven't seen it elsewhere, but we've seen it. And by the way, just to feel good, I don't like to speak too early, but you have to get out and vote, because we need.

Donald Trump

00:11:57

We need that real. We want a big, beautiful number. We're leading in every single swing because normally Republicans, they like to vote at the end. No matter what you say, they

like to vote at the end. They like to be there on Tuesday where they can watch it actually go into that beautiful, uh, often corrupt machine.

Donald Trump

00:12:27

No, we're going to get it straightened out. Kamala cost a typical American family over \$30,000 in higher prices because. Because of their ridiculous inflation. And listen to this. They killed 50,000 manufacturing jobs just this year alone. They're killing our country. And Scott Bessett, one of the biggest and best, one of the most brilliant.

Donald Trump

00:12:56

Oh, look at that. They know him. It's not a huge amount of people. It's pretty good. Whoa. Scott Bassett, he's one of the great Wall street analysts, considered one of the best. He said the economy is no good, but the stock market is only going up for one reason. Because everyone thinks that Trump is going to win the election and we're going to take it to new levels.

Donald Trump

00:13:23

That's what he said. It's true. You want to see a market crash? If we lost this election, I think the market would go down the tubes. Now, Kamala, she says, God forbid. God, I like you. Who are you? Stand up. I like this woman. Thank you. God forbid. Thank you, darling. She's got a lot of spunk, doesn't she?

Donald Trump

00:13:52

Thank you, darling. She said, I say, if we lose this, and she starts screaming, God forbid, do you think she's voting for Trump? I think so. Uh, thank you. Thank you, Doug. You are something. We have the greatest people, don't we? Greatest people. The other day, Madison Square Garden on Sunday night, and we had them all.

Donald Trump

00:14:21

That was the greatest evening anyone's seen politically. I mean, Madison Square Garden is really big. It's big and it's beautiful, and it's msg. And the Dolan family, Jim Dolan, they were so nice. They said they've never seen a crowd like this. The thing went all the way back to the river. And I don't mean, like, single line or double.

Donald Trump

00:14:42

I mean, like, massive amounts of people went back to the Hudson River. The love was unbelievable. We had Elon. We had incredible people. Elon. You know, Elon has been. Elon Musk has been campaigning every single day in Pennsylvania. You're a great guy. You know, when that rocket landed last week, I saw that rocket land.

I say, this guy, if that's his, I got to call him. I said, was that yours? He said, that was mine. That sucker came back down. I thought there was something wrong. I told people I was on the phone with somebody. I put it down I forgot about the guy. He was a very important guy.

Donald Trump

00:15:27

45 minutes later, he's still holding you. Still holding. I said, I got to watch this. Excuse me. And I saw it come down and it looked like in big trouble, right? It came down. It was all beautiful white when it lifted off. And now it's coming down. It's dark black because of the heat.

Donald Trump

00:15:43

10,000 miles. Think of that. 10,000 miles an hour, as opposed to we drive at 50 or 60, right? 10,000 miles an hour. The heat is so hot, you couldn't even get near it. You couldn't touch it. It's coming down and now it's baked. Totally different looking machine, right? And it's coming in and it's going to crash.

Donald Trump

00:16:04

I'm saying, oh, no, it's going right next to the gantry. It's coming down at an angle. I don't like that. It's not good. But what the hell do I know? It's up to Elon, not me, but it's coming. And then all of a sudden, you see the fire and the jets go in the bottom and fires ripping the, uh, ripping in the river, and the fire's just ripping the bottom of it and pushing it away.

Donald Trump

00:16:39

It was right next to ripping the whole gantry down. The whole thing was going to come crashing down. And those jets went off and the flames and every. I never saw anything like it. And it straightened it out. Then it came, and those beautiful arms came and they, uh, hugged it like you would hug your little beautiful baby, like you'd hug a baby.

Donald Trump

00:17:00

See, I stay away from the other thing that you hug on occasion. No, it's like you're hugging your beautiful baby, just hugged it right in there. So I call him, I say, that was you, wasn't it? Yeah, that was me. Can Russia do it? No. Can China do it? No. Can the US do it?

Donald Trump

00:17:17

Other than you? No. Nobody can do that. I've never seen anything like it. I said, so why do you do that? That was a stupid question. Why do you do that? Well, you know, it costs about a billion dollars to build the soccer. It's nice when you don't drop it into the ocean

and have to start over.

Donald Trump

00:17:31

It's nice to be able to use it about 30 times more, right? Uh, now. He's a fantastic guy, and he's a part. He gave me the best, the best endorsement virtually of anybody. He said, if Trump doesn't win, our country is gone. Think of it. Think of it. And he's campaigning. You know, he put on the black hat right now.

Donald Trump

00:17:55

I never even knew we sold the black hat. The red hat, yes. The white hat, yes. But I never knew he had a black hat. And he's just a different kind of a guy. And he has a black hat, and it says, make America great again. But it's also in black. So it's very.

Donald Trump

00:18:10

So I said, where'd you get the hat? He said, it's dark Maga. That was the thing. And he wore it to butler. We had 107,000 people in Butler. Can you imagine? We had 107,000 people in butler celebrating the life of a great gentleman, a great fireman, Corey, a great firefighter and respected guy.

Donald Trump

00:18:34

Yeah, that was a beautiful 107,000 people. And they came from all over. I mean, it was, you know, because it's not a very sparsely population. It is sparsely populated, and it's, uh, not lots of people there. And, man, you couldn't see the end of the cars. You couldn't see the end of the crowd.

Donald Trump

00:18:54

It was so beautiful. The whole thing was beautiful. We had the opera singer there. We had the bells. I said, give us. We're going to do a moment of silence. Give us some, um, bells. Okay, sir, we'll try buying them. And they couldn't buy, like, the bell. The biggest bell they could buy was like that.

Donald Trump

00:19:08

They said, no, the bells of Notre Dame. They say, we can't get them here, sir. They're too heavy. They're too heavy. They happen to be taken right now. I said, no, no, just get them off the Internet. Don't worry about it. And we. It's amazing what you can get off the Internet. We had the bells playing, and we had.

Donald Trump

00:19:29

Then we had Christopher. We had the great opera singer. He's a great singer. He's a great

voice. And he's saying Ave Maria. And, uh, the whole place, I'm looking at 107,000 people. I would say 100,000 of them were crying. And the other seven are beyond. You know, they're too tough for me. I don't like those 7,000.

Donald Trump

00:19:51

Everybody was crying. And it was a beautiful. It was a beautiful thing. But Elon's wearing the black hat. And the good news is this. We didn't sell Eddie. He was the only one that bought one. After that weekend. You know what we sold 10,000 black hats the following day. Can you believe it?

Donald Trump

00:20:09

There was a run on black hats. Boy, do we have great congressmen and senators here today. This guy Rubio is pretty good, isn't he, though? I watched him on the plane coming in, and I wanted him to speak again. I said, they don't mind hearing you twice. That's how good you are, Marco.

Donald Trump

00:20:33

But at a minimum, Marco, when it's your time, I'm going to bring you up and shake your hand because he has been a great senator and he's a great guy. Um, true. It's true. He's a great guy. Smart guy. He's a smart guy. Sometimes he's a little too smart. He's a good guy.

Donald Trump

00:20:54

He's a good man. Thank you, Marco. Now Kamala wants to raise the typical family's taxes. By the way, you know, every time she does a commercial, she lies. She's a real liar. She's worse than crooked Hillary. Crooked Hillary was a liar. Remember? Remember irredeemable? What was the word before? Irredeemable. Right. I thought irredeemable was going to be the bad word.

Donald Trump

00:21:24

Right. Little did I know. Little did I know. But crooked Hillary used to lie a lot, but she's nothing compared to Kamala. And the difference is, crooked Hillary is much smarter, but she suffers from a major case of Trump derangement syndrome. Now. Got big. Big. They all do. Well, these Democrats were driving them crazy.

Donald Trump

00:21:49

We don't like them because they don't love our country. Now Kamala wants to raise the typical family's taxes by nearly \$3,000 a year and oppose a 33% tax hike on all domestic production. And she wants to get rid of. You know, I gave you something that's great. If

you're a small farmer, if you're a business owner.

Donald Trump

00:22:08

Small business owner, Estate taxes were killing you because you pass away. If you love your child, I would say, don't even bother listening. If you love your child, good. If you don't love your child, it doesn't matter. Then don't leave the stuff. But if you wanted to leave your estate to your beautiful kids, which most fam.

Donald Trump

00:22:28

Does anybody in here not love? Their child or their children? I've only had one hand raised at about 20 times I asked, and people beat that person up. Actually, they actually went after him. That guy was in bad shape. Ah. Because I actually think he meant it. No, but you know what? They want to get rid of the estate tax.

Donald Trump

00:22:48

So you have no estate tax to pay. If you leave your farm to your kids. If you leave your business to your kids, you have no estate tax to pay. She wants to get rid of that. She doesn't like that. Uh, and you know what was happening, especially with the farmers, because they Leave their beautiful farm.

Zoraida Buxó

00:23:02

Farm.

Donald Trump

00:23:02

And it's a. You know, it's got asset value, but it's a hard kind of a business, but a beautiful business. And they'd leave. Think of it. They'd leave their farm, and then the kids have to go out and they had to borrow money because you had, like, a 50% tax. So they appraise it.

Donald Trump

00:23:15

You have to go out, borrow money, and they end up always, like, 80%, 82% of the time or something. They end up losing the farm. It turns out to be a nightmare. I got rid of the, uh, estate tax or the death tax. So you don't have that anymore. And she wants to get rid of that.

Donald Trump

00:23:31

She's a tough guy. She's a tough one. She destroyed the city of San Francisco, one of the greatest. It's one of the greatest cities of the world. She destroyed it. And she worked with Gavin Newscomb, one of the worst governors in history, to destroy California. And we're

not going to let her destroy the United States of America.

Donald Trump

00:23:51

We're not going to let her. If Kamala gets four more years, your family will never, ever recover. And by the way, Michelle Obama. Ah. Was very nasty to me. Ooh. Oh, she was nasty. I've gone out of my way to be nice to Michelle. I've gone out of my way to be nice to Michelle.

Donald Trump

00:24:15

Never said a bad thing about her when other people didn't like her so much. And she hit me the other day because they're desperate. They don't want Trump back because we're going to turn this country around and show how bad they were and how incompetent they were. But she hit me. Now, the fake news doesn't care about that.

Donald Trump

00:24:37

But if I hit her, they'll say, oh, what a horrible thing it was. She can hit me. She can go and she can say whatever the hell she wants if I hit her just a little tiny bit. Oh, he's a bully. He's a bully. Nah, she shouldn't have done that. That was a mistake.

Donald Trump

00:24:54

That was a mistake. Right, Mr. Wall? Can't do that. Can't do that, Sal. Uh, if I win, we will quickly build the greatest economy in the history of the world. We will rapidly defeat inflation, and very simply, we will make America affordable again. We're going to make it affordable again. I will massively cut taxes for workers and small businesses, and we will have no tax on tips, no tax on overtime, and no tax on Social Security benefits for our seniors.

Donald Trump

00:25:31

Right. And I've just announced that that I will support a tax credit for family caregivers who take care of a parent or a loved one. You know, these people are just not recognized. If they had to go through the hospital system, the people they're caring for, we wouldn't have hospitals. You could build hospitals every day in America, you wouldn't have enough.

Donald Trump

00:25:58

They take care of our country. They really do. And we're going to get them a big, beautiful tax credit. And they do it with love. No hospital could do the job. They do it with love. They have great love, and they take care of people. And they're going to be. And they're entitled to it.

They're entitled to it. They can't go out and work. They can't do it. They have to watch and they have to stay home. Oftentimes, it's a beautiful. But wounded soldier. Soldiers come back and they're in bad shape. And their mother or their wife. Their wife sometimes is incredible. Call them angels. Uh, they're angels that do this.

Donald Trump

00:26:32

The mothers, they take care of them. They have to take care of them. And we would have no hospital system that could do it. So they're entitled to it, right? We got so many other things we can do. We don't need that. We don't need that. You know, we have so much liquid gold down there.

Donald Trump

00:26:51

We'll drill so much, we'll knock the hell out of everything. With that, I will also restore the salt tax deduction. I don't know if you know what that means, but just trust me, it's a good thing. Most people have no idea. They say, what is salt? You don't want to know about. It's a big deduction.

Donald Trump

00:27:12

And your state got, you know, pretty battered by it. And, uh, we're going to restore it for you and for New York and for some other places. Starting on day one of my new administration, I will end Kamala's war on Pence Pennsylvania Energy, and we will frack, frack, frack and drill, baby, drill.

Donald Trump

00:27:30

We're going to drill, baby, drill. I've only seen her a hundred times saying, we will never frack again. We will never. We are going to stop fracking. We're not going to frack. Frack, frack, frack. We're not going to frack. We're never going to frack again. Then her polls, you know, drop to the.

Donald Trump

00:27:52

You only have 500,000 jobs in Pennsylvania, and the income is like, you can never replace it. So she sees the polls. Um, I think fracking would be a wonderful idea. She's such a phony, makes you sick. And, uh, she's also crushing your energy industry with the vicious natural gas export ban. You know, you're under this ban.

Donald Trump

00:28:23

It's the craziest thing. And, uh, it's costing your state a lot of money. Now with me, one thing. You know, I'll never be stopping fracking. You know that. I've been very consistent for about 25 years drilling and fracking is good. You know, I was with somebody from

Saudi Arabia recently, one of the top people.

Donald Trump

00:28:43

I said, uh, when you buy the 150 planes that you just bought, magnificent Boeing 777s, I said, where do you get your financing? He looks at me, financing. He didn't know what financing was. They don't finance. They have money. We have more oil and gas than they do. And you know what? If you include ANWR in Alaska, it's the biggest oil find in the world.

Donald Trump

00:29:05

As big as, uh, Saudi Arabia. And I opened it. Reagan couldn't get it done. He worked so hard, he couldn't. Nobody could get it done. I got it done. And this guy, the biggest in the world. As big, they say, maybe as Saudi Arabia. And we could have taken care of all of Asia.

Donald Trump

00:29:27

We would have made so much money. This guy comes in, he doesn't know what the hell's going on. Where am I? Can't even find the stairs off a platform. And he tells you no, he can't. Look, stare, stare like four stairs behind us. If you have to. You could jump off the front.

Donald Trump

00:29:42

You know, you could probably. The guy can never find his way off. Secret Service has to come up and take him off. It's terrible. I will terminate the green news scam and I will cut your energy prices in half within 12 months. Going to be cut in half. And to bring back millions of jobs, we will give our companies the lowest taxes, the lowest energy cost, the lowest regulatory burdens, and free access to the best and biggest market on the planet.

Donald Trump

00:30:14

The problem is, if we had more of these idiots running our country, you won't have a big and best market anymore. Because we're a nation in decline. We're going to turn that around. So you're going to be so proud of this country. Country. And within 12 months of us taking over, you're going to be so proud of this country.

Donald Trump

00:30:38

But we're only going to treat. Thank you. Thank you. You know, while you guys were shouting, I was checking out my hair. Not that bad, not that bad. I'm looking for a little skin in There. And I don't see it tonight. I'm very happy. I'm very happy. Not bad. Oh, uh, no, not bad.

Not the greatest. Thank you very much. Uh, this is a feisty little crowd. You know, I wish the fake news would show the crowd, you know, you could go to the far reaches of the place the stadium is, Basil. But they don't want to do that. They never want to do it because they are fake.

Donald Trump

00:32:05

They don't want to do it. There's never been anything like it. And, you know, I have to be. I'm going to be. We're going to stop with a joke and I'm going to tell you. It's sort of sad. We've been on this journey together. Almost every one of us has started together, right?

Donald Trump

00:32:19

And we've been doing it for nine years. This is the final week. We're seven days now. We'll be six days tomorrow. When you think about it, we've created the greatest movement in the history, probably of mankind, but certainly within the United States. Maga. Make America Great Again. There's never been anything like it.

Donald Trump

00:32:39

We, uh, we never have empty seats. We go to the biggest arena. Look, we go to Madison Square Garden everywhere. It's so big, we could have filled it up six, seven, eight times with all the people trying to get in. Whoever thought it's the greatest political movement in the history of our country.

Donald Trump

00:32:57

And maybe, especially if we win, this will be the greatest movement, I think, in the history, the world. Okay? Never been anywhere. And we're going to miss these giant rallies. I love the rallies. Sometimes they'll have me do like a Q, uh, and A. I'd get to a place and there'll be a Q and A, and I'll say, gee, I love those rallies.

Donald Trump

00:33:22

I just. I don't know. It invigorates all of us, right? Everyone here. And, uh, we're only going to be doing them for like a few more days, and then we have a different kind of get together. We're going to have a get together where we're going to talk about all the good things we're doing.

Donald Trump

00:33:42

It's going to be a very positive thing. But this is something that's been a special journey for all of us, I think for all of us. You have people that have been to hundreds of these. You have people that have been. You have the front row Joes. They've been to everyone. I think.

Look at these guys. They've been to everyone. And, uh, it's just special. And, you know, all My geniuses backstage, they think it's them. Oh, they did. They said, take a regular guy, take a regular politician. Let's see how many. So what's going to happen is in four years, somebody's going to be running for president.

Donald Trump

00:34:15

They're going to hire these guys because they think they're great, and they're going to come and they're going to do a rally and there'll be about 300 people show up, because that's the standard. If you took the greatest politician in the United States in history, and you said, we're going to make a speech in Pennsylvania tonight, you'd have 300, 200, maybe 400 people if they were great.

Donald Trump

00:34:39

We get, every time, 25, 30, 40,000 people. 100,000 people in Butler, 110,000 people in California, where the elections are so rigged, it's disgusting. We were out There, we had 110,000 people in California three weeks ago. 110,000 we had in New Jersey. 107. 107,000 people. But that Butler rally was something special, I would say.

Donald Trump

00:35:09

Ah, that was something that was special for a lot of reasons. And if these companies don't make their products here, then they will pay a very stiff tariff when they send their products into the United States for the privilege of competing with our, uh, workers and our protected companies. We're going to protect our companies and we're going to protect, through very strong tariffs.

Donald Trump

00:35:31

We're going to protect our whole system. And by the way, China does it and others do it, but we can do it better because we have a better product. We have a better product. The product is the usa. We have a great. And we'll also pass the Trump Reciprocal Trade Act. That means if China or any other country.

Donald Trump

00:35:51

It's not only China, it's everybody ripping us off. They all. Ah, we changed it a lot. We changed it a lot. We renegotiated South Korea's deal, Japan's deal. We were in the process of the European Union. I'll tell you what, the European Union sounds so nice, so lovely, right? All the nice European little countries, they get together, they're brutal.

Donald Trump

00:36:13

They don't take our cars, they don't take our farm products. They sell millions and millions

of cars in the United States. No, no, no. They are going to have to pay a big price. And you know, you know, just like I stopped, just like I stopped that plant that was going to be built in Mexico, Biggest plant in the world.

Donald Trump

00:36:35

World going to be built. And I said. And I was just, I was In. I was in Detroit at the economic forum, at the economic Club, and I said, uh, you know, they're going to build the biggest plant there. It's going to wipe out all of Michigan. Michigan is. I mean, we're way up tonight in Michigan.

Donald Trump

00:36:51

You know why? Because of things like that. Because if they built that plant, then Detroit and Michigan as a whole, I don't think they made as many cars as this one monster plant that was owned by China. It was near the border. They were going to make millions of cars and just keep sending them into our country and destroy our jobs, destroy our whole market.

Donald Trump

00:37:12

We already lost about 65% from the heyday. We're going to bring it back to the heyday. We're going to bring it back, and, uh, we can do it so easily and so smartly. And I said, I'm going to put tariffs on those cars, and if 100% isn't enough, I'll make it to it.

Donald Trump

00:37:28

They're not going to have one car come into the United. They'll be sitting there with all these cars and never coming in, because all they're going to do is destroy our automobile manufacturing business. And you know what happened today? The guy that built it the other day, he calls me up. I see him, I say, what's happening with that plant?

Donald Trump

00:37:48

He's the biggest builder of these auto plants. I said, I want to see one. He said, you'll have to come to Mexico. I said, I want to go to Mexico. I want to see one here. He said, we're not building them in the United States. We're building them in Mexico. I said, who owns them?

Donald Trump

00:38:01

China. I see. So China now, in order to save the trips, going to build them, and then really knock the hell out of her car, which they're doing in Europe, by the way. They're killing them in Europe. He said, not going to happen. I said, I don't want to see it. I don't have to see it.

How big is it? He said, the biggest in the world. They said, all right, let them know that I'm putting a 100% tariff on every car that they make, and if that's not enough, I'll double it. And I forgot about it. This was about six, seven months ago, and I forgot about it then.

Donald Trump

00:38:30

I was making a speech the other day, and I see the same guy. He's the best. The biggest builder of auto plants. That's all he wants to do is. If you told him, build an apartment, he wouldn't know how to do it. But an auto plant, fully computerized. I see him at the speech that I'm making in Detroit and I call him over.

Donald Trump

00:38:46

After I finish, I say, John, let me ask you, how's that big monster doing? And Mexico, he said, oh, sir, they canceled it last week because they think you're going to be elected president and you're going to put tariffs on. How about that? Is that beautiful? They canceled it, but if Kamala got in, they would restart it very quickly.

Donald Trump

00:39:11

Believe me. She doesn't. She doesn't exactly think too much about that stuff, does she? If China or any other countries charge us a 100 or 200% tax, then we will charge them. This is the reciprocal act that we're calling it. I'll put my name on it if they want, or I'll leave my name off.

Donald Trump

00:39:29

I couldn't care less. But we're going to have a reciprocal tax. We're going to charge them the same 100 or 200% tariff or tax called an eye for an eye. Um, and all of the rip off will stop immediately. I will never apologize for defending America, but isn't that a beautiful story with the plant?

Donald Trump

00:39:49

I mean, if Michigan didn't vote, wouldn't I be surprised? We have a big lead in Michigan, by the way. A very big lead. We have a big lead in Arizona. We have a big lead. And the fake news won't tell you, but you'll see it hopefully on Tuesday night. But by the way, you got to get out and vote.

Donald Trump

00:40:07

Otherwise I would be very embarrassed. This is all, this is all subject. You voting? You vote? Uh, we don't have a problem in the world, but great. We're doing great in Nevada. We're doing great, great in Arizona. We're doing great, really good in North Carolina. How about the people of North Carolina? They showed up to vote in record numbers and the place

was practically demolished by Hurricane Helene.

Donald Trump

00:40:37

I was worried about that. I said North Carolina. We thought maybe 50%, maybe 40 or 30% would show up. More people showed up to vote for this election than any election in the history of North Carolina. Is that right thus far? Can you believe it? They set a record and they're voting for Trump.

Donald Trump

00:41:02

But I'll protect our workers, I'll protect our jobs. I will protect our borders, I will protect our families and. And I will protect the birthright of our children to live in the richest and most powerful nation on the face of the earth. And as we rescue our economy, I will also restore our borders.

Donald Trump

00:41:23

Over the past four years, Kamala orchestrated The most egregious betrayal that any leader in American history has inflicted upon its people. She allowed this to happen to us. She allowed us to be invaded. We were invaded. This was a massive invasion of criminals. She has violated her oath, eradicated our sovereign border, and unleashed an army of migrant gangs who are waging a campaign of violence and terror against our citizens.

Donald Trump

00:41:57

It's vicious what's happened. They're killing our people. Kamala has imported criminal migrants from prisons and jails, insane asylums and mental institutions from all around the world, from Venezuela to the Congo. Over to Congo. They're supplying lots. They're taking them out of their jails. They're opening up their jails, and they're busing them. They can't get enough buses, frankly.

Donald Trump

00:42:24

Because I'm shocked. Venezuela is only about 60% empty. Do you know that Venezuelan crime is down 72%? You know why? Because their criminals are being taken into the United States of America. It's like. It's like I said this. The press gave me a hard time on this one. They said it was very.

Donald Trump

00:42:50

No, I don't think it's dis. It's like we're a giant garbage can. That's what they treat us like. They're drunk. And these are killers. These are drug dealers. These are gangs, gang members. These are some of the worst people. These are terrorists. And they're treating us and dumping. They're dumping like we're a dumping ground.

And it includes savage criminals who assault, rape, and murder our women and our girls. And then they say, oh, my. People said, sir, please don't say that. What, you're going to protect the women? It sounds very like I said. Well, don't they want protection? I think they want protection. No. Don't they? Sure.

Donald Trump

00:43:29

It doesn't sound good. Doesn't, uh, sound good. I'm going to protect our women from criminals coming into our country and going up to the suburbs and doing really bad things. We're going to protect our men, our women, our children. We're going to protect our country 100%. Protect our country. But they said it sounds.

Donald Trump

00:44:09

Sounds terrible. It sounds so terrible when you say they can take care of themselves. No, no. When you see MS.13 coming through your front door, you're not taking care of yourself. And your husband's not going to take care of you too good either, believe me. And she wants to take your guns away.

Donald Trump

00:44:26

We're not taking your guns away ever. Are there any women in this giant, massive arena that do not want protection? Please raise your Hand. Do women want to be protected? Anyone who would let monsters kidnap and kill our children does not belong anywhere near the Oval Office. Does it belong today? I want America to hear directly from a mother whose world has been shattered forever by Kamala.

Donald Trump

00:45:16

This is difficult to watch. I had a group of people watching it. It's a difficult thing to watch. But, uh, this is what's happening in our country thousands and thousands of times. Please watch.

Tape

00:45:29

Sunday night, I asked her to not stay up super late because of, um, her coming to work with me in the morning for us to do her summer school. She said okay. I told her, good night and I love you. I went to bed not realizing that that was going to be the last time I saw her.

Tape

00:45:49

We're best friends.

Donald Trump

00:45:53

My God.

Tape

00:45:54

Shaking again, I woke up to notice she wasn't in her bed. I'm in my heart trying not to lose my mind because I don't know where she is. I finally remembered her phone had a location on and her phone was pinging just two minutes down the road, right behind the skate park. I start driving to the direction the phone was being pinged at, and I see a couple cop cars with lights on.

Tape

00:46:25

I see yellow tape, and immediately my heart drops and sinks to the bottom of my stomach. My daughter's hands and ankles were both bound. Um, she was strangled to death, left with no pants. And I know in my heart she fought incredibly hard. She was not going down without a fight.

Tape

00:46:55

We begin with two men. We're learning our charged with capital murder tonight. Accused of killing a 12 year old girl. Police say these men strangled her before dumping her into that creek. Both men were in the country illegally, apprehended, then released by border patrol less than three weeks before Jocelyn's death. The men accused of killing Jocelyn Nungare are affiliated with the gang known for brutal violence.

Tape

00:47:19

Kamala Harris was in charge of immigration in our borders. If we had better border policies and not open borders and not these catch and release policies, I truly believe this all could have been prevented under her being vice president of this country. My daughter's life was ripped away from her. She had her entire life ahead of her.

Donald Trump

00:47:46

Happy birthday, dear Joseline.

Tape

00:47:49

Uh, my daughter is six feet in the ground based off of policies that she allowed to keep. Kamala Harris did have one job, and she not only failed, not me, she failed my daughter. She failed Jocelyn. She was only 12. President Trump, um, reached out out, gave me his sincerest condolences as not a former president, but just as a father, someone who cares.

Tape

00:48:22

I believe Donald Trump needs to be back in office. I can at least know that my next child

will be safe in this country.

Donald Trump

00:48:41

Oh boy, that's a tough one. What a beautiful woman and what a beautiful child. And that child is no longer with us. It's just like crazy. And what they did to her. What they did to her. So, uh. And you know, you have so many others. Lake and Riley, you have so many others.

Donald Trump

00:49:09

I could name 15 others right now, but they have thousands of them. You have thousands of cases like that many young girls. But many people are being killed by the people that come in illegally through a open border. The day I take the oath of office, that migration and this horrible migrant invasion ends and the restoration of our country begins.

Donald Trump

00:49:43

And it begins in a very strong way. The savages charged with brutalizing and murdering Precious Jocelyn are members of the same vicious, uh, Venezuelan prison gang Trende Aragua that has taken over apartment complexes and unleashing a violent killing spree all over America. They're all over America. In Colorado they've taken over big complexes.

Donald Trump

00:50:10

The governor is a radical left Democrat who's petrified. He doesn't know what to do. They have the weapons of a fine military. They've even taken over recently. Times Square in New York, please take a look.

Tape

00:50:24

Open borders, deadly consequences. Border crisis Record high crossings are putting a strain on cities across America.

Donald Trump

00:50:32

It is a full blown invasion.

Tape

00:50:34

Armed Venezuelan gang members storming an apartment complex in Aurora, Colorado.

Donald Trump

00:50:38

When people talk about microcrime, this is what they're talking about.

San Antonio, Texas, just one of the latest cities to have apartment complexes taken over by members of the Venezuelan gang.

Donald Trump

00:50:48

Biden and Harris had created a program to bring them in under humanitarian parole.

Tape

00:50:53

I am in favor of saying that we're not going to treat people who are undocumented across the border as criminals.

Donald Trump

00:50:58

More than 13,000 illegal immigrants convicted of murder have been released into the United States.

Tape

00:51:04

My 20 year old daughter, Kayla Hamilton was murdered in her own room. My Kayla's murderer was apprehended by border patrol crossing illegally into the U.S. Kayla's.

Donald Trump

00:51:14

Murderer had been improperly released into the United States.

Tape

00:51:17

Abolish ICE. We need to probably think about starting from scratch.

Donald Trump

00:51:20

More than a dozen people suspected of being Renteria gang members right here in San Antonio.

Tape

00:51:25

The gang members had been terrorizing the apartment complex. New details in the murder of Lake and Riley. The illegal immigrant suspect who cops say committed the heinous murder is a Venezuelan.

Donald Trump

00:51:35

National and was paroled and released into the country by the Biden administration. If they'd all been properly vetted, that probably wouldn't have happened.

00:51:42

Two men investigators say are in the country illegally from Venezuela, are charged with capital murder and the death of Jocelyn Nungaray. Martinez Rangel wrapped his arms around Jocelyn's neck, took off her pants and climbed on top of her. Later strangled Jocelyn to death, uh, and then tied up her hands and feet.

Donald Trump

00:51:59

Court documents suggest a group of men arrested for beating and robbing a Dallas woman last month are members of a Venezuelan street gang.

Tape

00:52:06

The men threatened to cut off her fingers if she did not cooperate. Manuel Hernandez. Hernandez was booked by Colleyville police just two days earlier and released the day before the robbery. A Peruvian gang leader, uh, who is.

Donald Trump

00:52:20

Wanted for 23 murders, he was arrested by border patrol near Roma, Texas, then released into America. This is what we're allowing into our country through these open borders. The United States is now an occupied country. Whether you like it or not, we're an occupied country. Thousands and thousands, tens of thousands of these people.

Donald Trump

00:52:48

But it will soon be an occupied country. No longer. On, uh, November 5th, 2024, liberation of America begins. On day one, I will launch the largest deportation program in American history. We're going to get them out. I will rescue every city and town that has been invaded and conquered, and we will put these vicious and bloodthirsty criminals in jail or kick them the hell out of our country fast.

Donald Trump

00:53:25

To expedite approvals of Trende, Aragua and MS.13, an equally savage gang I took out thousands of them to during my administration. Thousands. And you know who's great? Uh, ICE and border patrol, they're great. But in order to do what we have to do, I will invoke the alien enemies act of 1798. Think of that.

Donald Trump

00:53:53

1798. That's how far back we have to go to target and dismantle every migrant criminal network operating on a murder American soil. And we will do it so fast. And if they come back into our country, it's an automatic 10 years in jail with no possibility of parole. And I am hereby calling for the death penalty for any migrant that kills an American citizen or a law enforcement officer.

Under Kamala, America is a sanctuary for criminal illegal aliens. It's what it is. These sanctuary cities are just unbelievable. There's sanctuaries for criminals, not anybody else. I will immediately ban all sanctuary cities in the United States of America. Immediately. I will end catch and release. I will end all migrant flights into our country with planes loaded up with criminal migrants.

Donald Trump

00:55:13

And I will ban all welfare and federal benefits for illegals. And then they won't come. Kamala's gross incompetence disqualifies her from being president of the United States. She is unfit for office. Everyone knows it. No one respects her. No one trusts her. No one takes her seriously. Everyone knows she is a low IQ individual.

Donald Trump

00:55:38

You know that low IQ from humiliating our country in Afghanistan to the war in Ukraine, which would have never happened if I were president, to the nightmare on our border, to her inflation catastrophe, to her egregious hurricane response, worse than perhaps even Katrina. Just ask the people of North Carolina, Georgia, uh, Alabama, Tennessee, South Carolina, Florida.

Donald Trump

00:56:10

Kamala Harris is a train wreck who has destroyed everything in her past. She's a total catastrophe. To make her president would be to gamble with the lives of millions of people. She would get us into World War 3, which will be a war like no other war. This will be a war at a level that we have never seen before, that the world has never witnessed because of the weaponry.

Donald Trump

00:56:33

Um, this is no longer army tanks going back and forth and shooting it. This is the big deal, because she is too grossly incompetent to do her job. And then all of your sons and daughters will end up getting a draft notice. Oh, mom, dad, what does this mean? Son, this means you're being drafted into the military so you can potentially lose your life fighting for a country that you've never heard of.

Donald Trump

00:56:59

How crazy is it? How crazy are we? We give money away to all of these countries. So far away. So far away. But we don't have enough money to take care of the people of North Carolina during a hurricane. Our enemies are laughing at her. But if we win, our enemies won't be laughing anymore.

They're not going to be laughing. They never laughed at us. Viktor Orban, the very powerful prime minister of Hungary, said, uh, bring back Trump and everything will stop. All these wars, Everything will stop. They respected him. He actually said differently. He said they feared him. But I don't care. What difference does it make?

Donald Trump

00:57:47

But you know what? They said they would do what he wanted. China was afraid. Russia was afraid. They're all afraid. And you know what? I don't want them to be afraid. I just want respect. And they're going to respect us again. Right now. They're laughing at our country. They're laughing at us. If we win, America will be feared and respected again.

Donald Trump

00:58:09

And on issue after issue, Kamala broke it. And I will fix it, and I'll fix it very quickly. But we're also going to make America healthy. Again, as many of you know, we have talked a lot about getting dangerous chemicals out of our environment and out of our food supply. Today, I'm adding that we are going to tackle the exploding rates of childhood depression, suicide and pediatric cancer.

Donald Trump

00:58:42

We have numbers that other countries don't have. We don't just want to manage these problems. We want to prevent them from happening in the first place. I will assemble the best and brightest minds, including Robert F. Kennedy, Jr. RFK, with the goal of reducing by 50% within four years the rates of childhood cancer, depression and suicide and ultimately to end these epidemics entirely.

Donald Trump

00:59:14

They are indeed epidemics. We are not just running against Kamala. Remember that or Joe. She means nothing. She is purely a vessel. She can't put two sentences together. Just like we were not running against crooked Joe Biden, we are running against something far bigger and far more powerful and more destructive than them, which is a massive, vicious, crooked, radical left machine that runs today's Democrat party.

Donald Trump

00:59:44

Very smart. They're smart, they're vicious and they hate our country. These are the people who are doing such harm to our country with their open borders policies, record setting inflation, green news scam and everything else. But we are not going to let it happen any longer. We are going to have the biggest victory in the history of our country on November 5th, and we are going to make America great again.

On top of it all, Kamala says she would not do one thing differently from Joe Biden, which in itself is totally disqualifying.

Tape **01:00:28**

Please, would you have done something differently than President Biden during the past four years? There is not a thing that comes to mind.

Donald Trump **01:00:38**

I stood there on the tarmac watching you check.

Tape **01:00:41**

The chaotic and deadly US Evacuation from.

Zoraida Buxó **01:00:43**

Afghanistan stunned Americans and the world and.

Tape **01:00:46**

Cost the lives of 13 U.S. soldiers. Would you have done something differently? There is not a thing that comes to mind.

Donald Trump **01:00:53**

More than 13,000 illegal immigrants convicted of murder have been caught at the border and then released into the United States.

Tape **01:01:00**

An Afghan national is in custody today.

Donald Trump **01:01:02**

After being accused of plotting an election day terrorist attack.

Tape **01:01:05**

The suspect entered the US On a special immigrant visa. Gut wrenching new details in the murder of Georgia nursing student Lake and Riley. The illegal immigrant suspect who cops say committed the heinous murder is a Venezuelan national who crossed the unsecured southern border back in 2022. Two men investigators say are in the country illegally from Venezuela are charged with capital murder and the death of Jocelyn Nangarai, a fifth illegal immigrant accused of attacking two New York City police officers over the weekend.

Ken showed no remorse or regret. Would you have done something differently? There is not a thing that comes to mind. Only 18%. So the economy is in excellent or good condition.

Donald Trump

01:01:44

US inflation has hit a new 40 year high, increasing by 9.1% over the financial year.

Tape

01:01:50

Authorities saying train day Aragua, which has been linked with more than 100 criminal investigations here in the US has now been found operating its criminal enterprise in a apartment complexes. Were you the last person in the room? Yes.

Donald Trump

01:02:04

Nothing comes to mind. What mind? You know that 325,000 children are dead slaves or sex slaves right now. They came through the open border. That's many stadiums filled with uh, 300. Remember that number? Because if that were on the other side, like the Republican side, the fake news back there would make it the biggest story in the history of our country.

Donald Trump

01:02:33

375,000 children are dead, missing or slaves right now through her open border. And they don't even write stories about it. It's the worst thing that I've ever heard of. I think if you want to end this disaster, you must get out and vote. You just have to get out and vote. We're going to beat them so badly.

Donald Trump

01:02:58

So we're thrilled to be joined by some incredible people. I already mentioned Senator Marco Rubio. Marco, will you come up here please? Come on. Good, good man, this one. Do you want to say something? Go ahead.

Marco Rubio

01:03:22

All right, well, I wasn't going to say anything, but I have breaking news for you, Mr. M. President. You may not have heard this just moments ago. Joe Biden stated that our supporters are garbage. Are, uh, garbage. He's talking about the border patrol. He's talking about nurses. He's talking about teachers. He's talking about everyday Americans who love their country and want to dream big again.

Marco Rubio

01:03:50

And support you, Mr. President. And I hope their campaign is about to apologize for what

Joe Biden just said. We are not garbage. We are patriots who love America. And thank you for running, Mr. President.

Donald Trump

01:04:06

Wow, that's terrible. That's what it says. That's what it says. So you have remember Hillary? She said deplorable and then she said irredeemable. Right? But she said deplorable. That didn't work out. Garbage I think is worse. Right? But he doesn't know. You have to please forgive him. Please forgive him for he not knoweth what he said.

Donald Trump

01:05:00

These people. Terrible, terrible, terrible to say a thing like that. But he really doesn't know. He really. Honestly, he doesn't. And I'm convinced that he likes me more than he likes Kamala. But that's a terrible thing. Also with us is a wonderful woman, highly respected Puerto Rico Senator Zoraida Buxo, who's terrific. Uh, come up here for a second.

Donald Trump

01:05:29

She's fantastic. Great woman. So respected in Puerto Rico and beyond. Please.

Zoraida Buxó

01:05:48

It's an honor to share the stage with you, Mr. President. And, uh, we have some unfinished business to do with respect to Puerto Rico. And if there is a leader that can get us to a final resolution. That is you. That is you. So the people of Puerto Rico trust you, and we have high hopes as many Americans.

Zoraida Buxó

01:06:18

We need this man back in the White House. We need this man to be our commander in chief. He will make us feel safe, and he will protect us. Thank you very much.

Donald Trump

01:06:41

Thank you. Highly respected person. And I'm so proud that we're getting support from Latinos like never before. We're setting every record. Hispanics, Latinos. Nobody loves our, uh, Latino community and our, uh, Puerto Rican community more than I do. Nobody. You know, it's interesting because I've done more for Puerto Rico than any president by far.

Donald Trump

01:07:16

Nobody close. I provided historic funding, and the hospital ship, when we had. They were hit with a couple of really bad ones right in the road. We got the ship over there with thousands of rooms, actually. It was amazing. A floating hospital, the biggest in the world. I will deliver the best future for Puerto Ricans and for Hispanic Americans.

Kamala will deliver you poverty and crime. That's all they're going to do. And by the way, she has slandered the people of the Catholic Church. I don't know what it is with Catholics, but they are after Catholics. But we're going to protect the Catholics, too. We're going to protect. I don't know what you.

Donald Trump

01:07:58

What you did Catholics, but you're being persecuted by Kamala and her group. I will keep your families safe. I will defend religion. I will bring jobs, wealth, and factories back. And Puerto Rico in itself will be very thankful. The whole Hispanic Latino community will be very, very thankful. And I appreciate the, uh.

Donald Trump

01:08:25

You know, we have numbers that nobody's ever had before. Nobody has ever had these numbers. No Republican. Republicans even come close. You take a look at some of our Republicans. They were at a tiny fraction. I may get. I may get 50% of the vote. Nobody has even heard of that before. And more and more and more and more, we're just.

Donald Trump

01:08:45

We're doing the right thing. Incredible people. Energetic, smart, great, entrepreneurial people. We appreciate, and we have a lot of them here tonight. Thank you very much. Latinos. Hispanics. Puerto Rico. Thank you. Thank you. Thank you, Senator. Thank you very much. And thanks. Also, I want to just thank some great people that are here.

Donald Trump

01:09:09

Members of Congress. They're warriors, they're tough, and they're smart, and they love this commonwealth, and they also love our country a lot. Dan Meuser. Dan, thank you very much, Congressman. A fantastic man. How are we doing here, Dan? How are we doing? I think he says great. Yeah, we're doing great. We got to keep the cheating from these people.

Donald Trump

01:09:33

They're cheats. Keep it down. Watch it. Call the police if you see them doing it. When? Not if. When you see them doing it. Wesley Hunt. You just heard. I heard his speech. Boy, that was a, uh, barn burner, Wesley. A great family. Beautiful guy. Thank you very much. Westport, the whole deal.

Donald Trump

01:09:52

He's got. He got the West Point thing going. Thank you, Wesley. And Republican National Committee Chairman Michael Watley, who you just met, and he is a fantastic man. Thank

you, Michael. What a job. What a job, Michael. Hopefully, we're going to have the biggest celebration next week that we've ever had in the history of our country.

Donald Trump

01:10:15

Right. Here are the facts. Kamala is a radical left Marxist, rated even worse than crazy Bernie Sanders or Pocahontas. She destroyed our economy. She was an original creator of Defund the Police. And anybody who wants to defund the police for even a brief moment is not worthy of being President of the United States.

Donald Trump

01:10:41

We have to protect our police. Kamala vowed to abolish ice. She wants to ban fracking in Pennsylvania. She wants to ban it. She's going to ban it. She will do it in two seconds if she lucks out or if they cheat their way into office. And as California Attorney General, she redefined. I don't know if you heard this, redefined the terms child sex trafficking, assault with a deadly weapon, and rape of an unconscious person as totally nonviolent crimes.

Donald Trump

01:11:16

She pledged to confiscate your guns and endorsed a total ban on handgun ownership. This is all the stuff she wants. She's a Marxist. She's a Marxist. A lot of people say, don't use the term Marxist because people don't understand, okay? She's a communist. She's a communist. And our country is not ready for a communist.

Donald Trump

01:11:40

It will never be ready for a communist. Remember I used to say, we will never be a socialist country. At the State of the Union address, I said, we will never be a socialist country. And I like to be right, because I was right. We're not a socialist. She Skipped socialism. She went right down to communism.

Donald Trump

01:12:03

She even called for free sex changes for illegal aliens in detention. All paid for. All paid for by the taxpayers of the United States of America. And then what did she do? She lied about working at McDonald's. She never worked at McDonald's before. And I went to McDonald's last week. Did you see that, by any chance?

Donald Trump

01:12:30

That turned out to be. That turned, uh, out to be a big monster. And on top of all of this, Kamala tried to turn our military woke. But it's not Woke. We defeated ISIS. You know, I'm the only president in 82 years. I didn't start a war. When Hillary said, look at him.

Look at him. He's going to start a war. No, I said, I'm going to be the one that keeps you out of war. I'm going to keep you out of war. And I did. You didn't have a war. You didn't lose your children. You didn't lose your son or your daughter like others did with stupid leadership.

Donald Trump

01:13:08

No, we're going to really do something. In conclusion, with your vote this November, we're going to fire Kamala and we are going to save America. We will cut your taxes, end inflation, slash your prices, raise your wages, and bring thousands of factories back to America and back to the great Commonwealth of Pennsylvania.

Donald Trump

01:13:36

We will build American, we will buy American, and we will hire American. I will end the war in Ukraine. Should have never happened. Would have never happened. I will stop the chaos in the Middle East. October 7th. Would have never happened. And I will prevent World War three very easily. I will prevent it.

Donald Trump

01:13:56

I know everybody. I know all the players. We can't have World War Three. We have very, very, very, very stupid people running our country. We could end up. I'm actually worried about three months. You know, they're still there. We will crush violent crime and give our police the support, protection, resources, and respect that they so dearly deserve.

Donald Trump

01:14:19

We will strengthen and modernize our military. We will build a massive missile defense shield over our country, and it will all be made in the usa. And I promise Pennsylvania will get a big piece of it. We will rebuild our cities, including our capital in Washington, D.C. making them safe, clean, and beautiful again.

Donald Trump

01:14:43

We will teach our children to love our country, to honor our history, and to always respect our great American flag. And I will put forward a bill that anybody burning or destroying an American flag will go to prison for one year. We will get critical race theory and transgender insanity the hell out of us, our schools.

Donald Trump

01:15:14

And we will keep Men out of women's sports. I will defend religious liberty. I will restore free speech. And I will defend the right to keep and bear arms. Our Second Amendment. After years of building up foreign nations, defending foreign borders, and protecting

foreign lands, we are finally going to build up our country, defend our borders and protect our citizens and our land.

Donald Trump

01:15:50

And we will stop illegal immigration once and for all. We will stop criminals from coming into our country. We will not be invaded. We will not be occupied. We will not be overrun. We will not be conquered. We will be a free and proud nation once again. Everyone will prosper. Every family will thrive.

Donald Trump

01:16:17

And every day will be filled with opportunity and hope and always filled with the wonderful and beautiful American dream. The American dream will come back. But for that to happen, we must defeat Kamala Harris and stop her radical left agenda with a landslide. That is too big to rig. Too big to rig.

Donald Trump

01:16:41

You need to get out and vote. For the past nine years, we have been fighting against the most sinister and corrupt forces on earth. With your vote this election, you can show them once and for all that this nation does not belong to them. This nation belongs to you. This nation belongs to you.

Donald Trump

01:17:06

It was hardworking patriots like you who built this country. And seven days from now, it will be hardworking patriots like you who are going to save our country. After all we have been through together, we stand on the verge of the four greatest years in America, American history. With your help, from now until election day.

Donald Trump

01:17:30

Seven days. Oh, it's so nice. It's so nice. We will restore America's promise. And we will take back the nation that we love. We are one people, one family, and one glorious nation under God. We will never give in. We will never give up. We will never back down. And, uh, we will never, ever surrender.

Donald Trump

01:17:58

Together, we will fight, fight, fight. And win, win, win. November 5th will be the most important day in the history of our country. And together, we will make America powerful again. We will make America wealthy again. We will make America healthy again. We will make America strong again. We will make America proud again.

We will make America safe again. And we will make America great again. Thank you, Pennsylvania. Get out and vote. God bless you. God bless you. Thank you, everybody. Thank you very much. God bless you all.
