Donald Trump

00:00:00

Such great spirit. I want to start by saying it's going very well. Uh, there are some bad spots in Pennsylvania where, uh, some serious things have been caught or in the process of being caught. But the, uh, election itself is going very well. We're leading, I believe, in all seven swing states. So, uh, I appreciate everybody's.

Donald Trump

00:00:26

And the spirit is unbelievable. I don't think there's ever been anything like it in our country's history, frankly, because we want to see our country get better. And that's why we're here, just to do a statement, uh, and it's an honor to have some of our friends here. In less than four years, Kamala Harris has obliterated our borders.

Donald Trump

00:00:49

Obliterated. We've never had a situation like this. Decimated the middle class and runaway inflation has caused problems the likes of which we never thought possible. Bloodshed, squalor to our cities is common, and they've unleashed a war and chaos all over the world. You take a look, everything's blowing up or getting ready to blow up.

Donald Trump

00:01:19

No respect for our country anymore. No respect for our leadership. No person has caused so much destruction and death at home and abroad should ever be allowed to be the president of the United States. You can't have that. Can't have that. So I'm running on a plan to save America. We're going to save America.

We have no choice. It's the greatest there is. We love it, and we're going to save it. We have no choice. And it's going to be saving it from the incredible destruction that's been caused by crooked Joe Biden and Kamala. And she's responsible because he wasn't responsible. And she never said that. He didn't know too much about what was happening.

Donald Trump

00:02:09

Maybe that was exposed during the debate. And yet still, the way they took that away from him was not. Was not right. It wasn't right. It shouldn't have happened that way. They walked in, they said, we're taking it away. They took, uh, they stole the presidency of the United States. You can call it a coup, you can call it whatever, but they stole it.

Donald Trump

00:02:28

They went in, like taking candy from a baby and can't, uh, have that. And she's running on a campaign of demoralization and really a campaign of destruction. But really, perhaps more than anything else, it's a campaign of hate. It's a campaign of absolute hate. And, you know, I said yesterday that, uh, she's a vessel.

Donald Trump

00:02:55

She is a vessel. It's a very big, powerful party with smart People, I have to be smart. But it's, uh, vicious. They're vicious, and they're perhaps even trying to destroy our country. Because who would want open borders where millions of people can flow in from prisons and from gangs. Gangs. The worst gang members anywhere in the world?

Donald Trump

00:03:20

Who would want this for our country? Who would want, uh, all of these transgender operations all over the place, like, at will, even if you're in detention? I, uh, want a transgender. These are things she used to have. Who wants to defund the police? She's wanted her whole career to defund the police.

Donald Trump

00:03:36

She only changed recently. She changed on 15 different items. Fracking. She, uh, was against fracking at the highest level. Wouldn't even think about it. Now all of a sudden, oh, I like fracking very much. But they change after the election in about two minutes. And I think Pennsylvania understands that after two assassination attempts in just over three months, her lies and her slanders are very shameful and really inexcusable.

Donald Trump

00:04:07

And I can say that if I were president and somebody was being threatened, openly threatened, like they've threatened me, I would say if you do that, even if this was an

opponent, an opponent who I disliked, if you do that, we will obliterate your entire country, and it would all stop. But they wouldn't make that statement.

Donald Trump

00:04:29

They won't make that sad. And essentially, that statement has been made by other presidents, even concerning their opponents. As you know, today we're going to talk about the real character of Kamala and, uh, a person who has no remorse for the anguish she's inflicted upon families all across America. On the contrary, I have to tell you, Kamala intends to conflict and keep this misery going, and she's going to keep it going as long as she can, because that's the only way she can get elected.

Donald Trump

00:05:12

Uh, she's going out and only criticizing, talking about Hitler and Nazi, because her record is horrible. Her borders are the worst in the history of the world. There's never been a border in the world like this. I always say in third world countries, banana republics. They'd fight them away with sticks and stones if they had to.

Donald Trump

00:05:34

We let them come in, come on in, knowing in many cases, they're murderers, they're drug lords, they're. They're traitors in so many ways to our country. If they were involved in our country at all, even that they're coming back in. People that left because they were traitors are, uh, coming back in. Everybody's coming back in.

Donald Trump

00:05:55

And it's at a level that we've never seen before criminals off the streets. And, you know, other countries from where they're coming are now setting records, good records for them, where crime is down 70 and 75% because they're taking the criminals off the street. They're emptying their jails into our country. And they're not finished yet.

Donald Trump

00:06:16

They've got. I'm amazed. I thought they would have done it by now. But they're. If you take a look at Venezuela, their crime is way, way, way down. Then you go to Caracas, and you wouldn't recognize it. You can actually walk the streets without being shot or killed or mugged. It's becoming a safe city because they've taken all their criminals, most of them.

Donald Trump

00:06:38

The rest are coming. They're all coming. They've taken their drug dealers, and they've put them into the United States of America. Thank you very much, Kamala. I appreciate it. But she continues, and she will continue this misery. And her policies have caused, uh, such

harm and such pain. And the three great people up here with me are going to just discuss that for a little while about what's happened to them, how their lives have been shattered.

Donald Trump

00:07:07

I'd like to begin with the story of one mother whose life Kamala has utterly destroyed, destroyed this life. And we're talking about thousands, thousands of people in very similar situations every day under Kamala Open border policies. She. And if you remember, Joe Biden appointed her as the border czar. Uh, she doesn't want to use that term, but let's say we'll just use a different term.

Donald Trump

00:07:35

She was responsible for the borders. Totally responsible. She never made one call to border patrol. Two weeks ago, the border patrol endorsed me with the most beautiful endorsement I think I've ever gotten. And in all fairness, they've endorsed me every single year. But they've endorsed me again. And they, uh, endorsing me, saying I was the best president we've ever had and the best president by far.

Donald Trump

00:08:04

On the border, they said that. They said that. And this is not easy for them to say. They said that she was easily the worst person ever to work with them on the border. Most incompetent, uh, the least caring. Think of it. Not one call in almost four years was made to border patrol.

Donald Trump

00:08:27

Like, how we doing? I used to call all the time. I'd say, how we doing, fellas? How's it going? Is it going well? And they're great people, men and women, border patrol, great people that want to do their job. She didn't call them once she released the two, uh, men who murdered this woman's very precious daughter.

Donald Trump

00:08:50

Everything you need to know about what happened and the character, the character of Kamala Harris, you'll know from just watching this video. We had it done yesterday. It's very quick, very easy to do, but it was very heartbreaking. We showed it in room full of people, and everybody was just. Everybody was crying.

Donald Trump

00:09:15

Some pretty people were crying. Uh, please take a look.

Tape

00:09:21

Sunday night, I asked her to not stay up super late because of, um, her coming to work with me in the morning for us to do her summer school. She said okay. I told her good night and I love you. I went to bed not realizing that that was going to be the last time I saw her.

Tape

00:09:41

We're best friends.

Tape

00:09:46

Again.

Tape

00:09:48

I woke up to notice she wasn't in her bed. I'm in my heart trying not to lose my mind because I don't know where she is. I finally remembered her phone had a location on and her phone was pinging just minutes down the road, right behind the skate park. I start driving to the direction the phone was being pinged at, and I see a couple cop cars with lights on.

Tape

00:10:17

I see yellow tape, and immediately my heart drops and sinks to the bottom of my stomach. My daughter's hands and ankles were both bound. She was strangled to death, left with no pants. And I know in my heart she fought incredibly hard. She was not going down without a fight.

Donald Trump

00:10:47

We begin with two men. We're learning our charge with capital murder tonight. Accused of killing a 12 year old girl. Police say these men strangled her before dumping her into that creek. Both men were in the country illegally.

Tammy Nobles

00:10:59

Apprehended, then released by border patrol less.

Donald Trump

00:11:02

Than three weeks before Jocelyn's death.

Tammy Nobles

00:11:04

The men accused of killing Jocelyn Nungare are affiliated with the gang known for brutal violence.

Kamala Harris was in charge of immigration in our borders. If we had better border policies and not open borders and not these catch and release policies, I truly believe this all could have been prevented under her being vice president of this country. My daughter's life was ripped away from her. She had her entire life ahead of her.

Donald Trump

00:11:38

Happy birthday, dear Jocelyn.

Tape

00:11:41

Uh, my daughter is six feet in the ground based off of policies that she allowed to keep. Kamala Harris did have one job, and she not only failed, not me, she failed my daughter. She failed Jocelyn. You know, she was only 12. President Trump reached out, gave me his sincerest condolences as not a, uh, former president, but just as a father, someone who cares.

Tape

00:12:14

I believe Donald Trump needs to be back in Office. I can at least know that my next child will be safe in this country.

Donald Trump

00:12:38

Thank you very much. So I know we talk about inflation and the economy, but there's, to me, there's nothing, nothing more important than the fabric of our country being destroyed by people placed there, violently placed there, as far as I'm concerned, foolishly, stupidly placed there. I think, uh, what's happening on the border is the single biggest issue.

Donald Trump

00:13:06

And I'm seeing it more and more when I speak. I see it more. Inflation's terrible. It's hurting our country. It's just decimating our seniors. That's why I talk about Social Security. No tax for our seniors on Social Security because they've been decimated by, they've been decimated by inflation. But what Kamala did to Jocelyn and her family is the most heartless, uh, and cold blooded betrayal imaginable.

Donald Trump

00:13:37

Thousands of cases just like that, uh, thousands in throwing open the border. Think of it. Open borders. They come in from parts unknown. People have no idea who they are, where they're from, anything about them. They know nothing. They just walk into our country. And as soon as I heard they were doing that, I said, well, I know these countries.

I know every one of the leaders of all these different countries. They're very smart, they're very sharp. The very street was, they said, I know what they're going to do. They're going to open up their jails and just dump them into the United States. And that's what happened. They opened up their jails, and some of the most ruthless killers in the world are now roaming our fields and our streets all over the United States.

Donald Trump

00:14:21

I knew that was going to happen. And I would do the same thing if I were running one of those many countries that we're talking about, and not just the three or four that we constantly mentioned that are near us all over South America, all over the Middle east, all over Asia, all over Europe, all over Africa.

Donald Trump

00:14:40

Tremendous numbers of people are coming out of Africa. And, uh, they're coming from all over the world. They're dumping them at our border, pushing them across the line and say, don't ever come back. If you come back, we're going to kill you. And we're stuck with them, but we're not going to be stuck with them for long.

Donald Trump

00:15:02

So Kamala violated her oath. Um, she desecrated our laws, and she got innocent girls like Jocelyn tortured and killed. Anyone who knowingly sets loose these monsters into our country has absolutely no right to be running for office, let alone the office of President Bill. Right. So here today is another great person, an American mom, Tammy Nobles.

Donald Trump

00:15:40

Two years ago, Tammy's 20 year old daughter, Kayla Hamilton, who had an autism diagnosis, was found raped, tied up and strangled to death with a telephone cord in her home. Kayla's murderer was an illegal alien. Ms. 13 gang member, among the most vicious gangs anywhere in the world. I took him out by the thousands, thanks to ice.

Donald Trump

00:16:09

We're going to protect ice. Kamala wanted to defund ice. We didn't have ice. We'd never get anybody out. They're tough and they're smart and they love our country. But an MS.13 gang member who was apprehended by border patrol, but under the policy of our border czar, Kamala, he was released into the United States to kill Tammy.

Donald Trump

00:16:34

Please come up and say a few words. Please. Thank you. Please.

I just wanted to say that Homeland Security did not do their job. Health and Human Services did not do their job. The Biden Harris administration did not do their job. If they would have done their job, made that one phone call to El Salvador, my daughter would still be alive today. Kayla was a very beautiful young lady inside and out.

Tape

00:17:11

She was independent. Learning to become independent. She had two jobs. She overcame obstacles dealing with autism and was able to find a job that she loved. She loved animals, especially her cat Oreo, and she cared about the homeless. She loved God and she loved going to church. And her life was just ripped from her three days after she celebrated her 20th birthday.

Tape

00:17:40

Thank you for having me here today.

Donald Trump

00:17:49

Thank you, Tammy. And we will not forget Kayla. And she's looking down. She's very proud of mom. Kamala's cruel and, uh, immoral actions on our border are actually disqualifying, in my opinion. She's unfit. She's an unfit person. And she knows this is going on. She never called anybody, including the 13 soldiers that were so needlessly killed in Afghanistan with that horrible, that horrible moment in time where our country was just lost all respect from the whole world when they saw that.

Donald Trump

00:18:28

That's one of the reasons that Putin went. And he would have never gone in, ever. He wouldn't have gone in if I were president, he would have never gone in. I ended his pipeline in Europe, no problem. And what happened? Biden comes in, he proves it right away, but he kills the Keystone pipeline.

Donald Trump

00:18:44

Putin never would have come in. And he didn't, by the way, for four years. There was never a threat that he was going to do that. But he saw weakness. And I think a lot of it was seen in that horrible, that horrible period of time. She is also aiding and abetting the cartels, allowing vast quantities of deadly drugs to pour unchecked into our country.

Donald Trump

00:19:08

And remember this, uh, they now have an app. You call the app and you bring whatever you want. You bring them over, they'll tell you exactly. Can you believe it? They have an app and they have airplanes, big beautiful Boeing airplanes flying back and forth over our

border. They were saying, where are those planes coming from?

Donald Trump

00:19:26

Where are they going? They were loaded up with migrants. They're dropping them out in the midwest. They're dropping them all over the place. And I will tell you, if you look at, uh, Aurora in Colorado or in Springfield in Ohio, in OHIO they dropped 32,000 illegal aliens, they tried to give them legal terminology, but not illegal aliens.

Donald Trump

00:19:51

32,000 into a 50,000 person town. Beautiful town, no problems. And now they don't know what to do. And they want to be nice. And the mayor wants to be nice. His big thing is to get interpreters because they don't speak English. It's very hard to get interpreters. And he's trying to get interpreters.

Donald Trump

00:20:10

But in the meantime, they're taking up the hospital. So when people from Springfield would routinely be able to check with a doctor, go to a hospital, they're unable to get in. They're packed. The whole town has changed. And uh, this is happening all over our country. Aurora probably is an even worse situation because you have the meanest, worst gang from Venezuela in the world, probably maybe as bad or worse than MS.13.

Donald Trump

00:20:35

And they've literally taken over the town. They've taken over large sections of the town. They've gone into the real estate business, they've taken over apartment complex, they took over a number of complexes where the people are paying them rent. They've become the landlord. Isn't that nice? And they're rough, tough people and they have the latest weapons, they have military quality weapons.

Donald Trump

00:21:00

And everyone's saying, where did they get them? Um, we got to get them out of here. We're going to get them out fast. We're going to get them out fast. So today I'm announcing that, uh, for the first time under my administration, we will be seizing the assets of the criminal gangs and drug cartels.

Donald Trump

00:21:24

And we will use those assets to create a compensation fund to provide restitution for the victims of migrant crime. And the government will help in the restoration. The government will help in the restitution. Uh, but something has to be done and we're going to get it done. Kamala has also caused untold misery through her destruction of our economy.

Our economy is not. This is just. It's like a fake economy. Uh, some of the best. Some of the best people on Wall street are saying the economy is only good because they think. I don't want to say this because other people. People have said it. That's not me saying it, but they think Trump is going to get elected.

Donald Trump

00:22:09

That's the only reason our economy is. That's the only reason the stock market is up. Uh, Scott is here, I think, someplace, and he's one of the most respected people on Wall Street. He's been. He's actually made a very big point of it, that the stock market is only doing well because of the fact that they think Trump is going to win the elections.

Donald Trump

00:22:31

So, uh, we'll see the Kamala cast the deciding votes that caused the worst inflation in our lifetime, maybe the worst inflation we've ever had. Because I don't think they're. I mean, I know for a fact they're not adding all of the numbers. If they did. I think it's the worst inflation probably in the lifetime of the country.

Donald Trump

00:22:57

And, uh, it's costing typical American families over \$30,000. Nearly half of Americans now say they're broke. Think of that. Half of Americans are saying they're broke. They have no money. Two thirds say they're living from paycheck to paycheck. And that's a record. Never. We've never had that to that extent. We've never ever had that.

Donald Trump

00:23:19

Millions of Americans are lying awake at night, worried about how they're pay their bills because Kamala wrecked their family finances. And she's done that. She's done nothing good. They have done nothing good. And I speak of Kamala, but it's partially Joe. But Joe's out of it. You know, Joe's sort of out of it.

Donald Trump

00:23:38

She's been out of it for a long time now. She wants to raise taxes for the typical family by \$3,000 a year. She's got no empathy for the hardworking Americans whose dreams she's killed. And said recently that there is not one thing that she would do differently from Biden that's only because she choked.

Donald Trump

00:24:01

I'm sure she could have come up with a couple of things if she really thought about it, because there's been so much destruction caused by the Biden administration. One of the things that people don't talk about and the news never talks about, they don't talk about.

As an example Afghanistan. But this is something that's incredible because we, when you think of the numbers, 325,000 children are missing, dead sex slaves or slaves.

Donald Trump

00:24:33

325,000 children who came in through the open border are now missing. Many of them are dead, and nobody talks about it. Uh, I said, this must be a mistake. This can't be possible. When I read it first, when I read it, I said, this can't be. You're talking about take your largest stadium and fill it up many times.

Donald Trump

00:24:53

That's what the kind of numbers are. Here today is Michael Coppe, a small business owner who runs a dry cleaner and is struggling to get by because of what Kamala has done to his business. They've destroyed small businesses in this country. Michael, please.

Tammy Nobles

00:25:17

The opportunity and the high honor of joining you here today and sharing my small business story with you folks and the American people. So it's, uh, a chain of eco friendly dry cleaners throughout the tri county here in West Palm. And, um, it seems not too long ago, just a few years, uh, the customer and us, the small business owner, we were able to keep up with inflation.

Tammy Nobles

00:25:41

There were resources available to us for expansion, um, or if you had a bad month, you know, if there was something you needed to make up for, it seemed like the support was there. Um, and now, just a few short years later, uh, it seems like all of those resources have dried up.

Tammy Nobles

00:25:59

The support's no longer there. Uh, we had an expansion plan about, uh, six years ago, um, that we had to pause because we have to wait for our customers now to catch up with, um, the inflation, the supply chain issues. Still, because we, as a small business, we can't double our price points.

Tammy Nobles

00:26:20

Although the cost of doing business now is two, three or four times what it was just a few years ago. So we've had to get creative. Our industry, probably 30% in the dry cleaning industry never survived Covid. And, uh, just recently, this summer, I was contacted, my wife and I, by another local dry cleaner here in West Palm.

They were asking advice. So husband and wife been there for about 35 years. Their lease was up and the landlord was doubling their rent, which would have meant that that's what they've been paying themselves for probably the better part of 20 years. So they had to make a decision. Do they hand the keys back, or do we get creative, work together, pool resources?

Tammy Nobles

00:27:00

And so what we did was we figured out the right price point for them, but we did their cleaning for them, at least until we figured it out. And so they were not able to pay their operations, they couldn't keep that going. But they were able to save their business by strategically partnering.

Tammy Nobles

00:27:16

And by the end of summer I think I was contacted by about 12 other local dry cleaners saying, can you guys help us also? Because we're going through the same thing.

Donald Trump

00:27:26

Thank you.

Tammy Nobles

00:27:30

And it seems now so the Delta between the reality of what inflation is right now and we have in front of us the reality of that and the small business owners capabilities, that Delta is too great. So unless we affect change immediately, I fear that in the next few years, if we don't see that change, we might see another 30% of our industry and others no, uh, longer exist.

Tammy Nobles

00:27:58

So I just want to say thank you again Mr. President for allowing me to share my go green dry cleaner story. And um, thank you.

Donald Trump

00:28:12

Thank you very much. We really helped a lot of people during the prime time of the China virus. And we helped a lot of people and we did it intelligently. Then when they took over, they just threw money around like it was dirt. And as you know, the uh, recent uh, monster hurricane Helene just wiped out so much.

Donald Trump

00:28:36

If you look at the different states, North Carolina, Georgia, Alabama, South Carolina, Florida, Tennessee, it was uh, just devastating, devastating. And the response was the

worst since uh, Katrina. But really uh, a lot of people think it was much worse than Katrina. It's still. They haven't shown up. They're not in north, they're not in North Carolina.

Donald Trump

00:29:03

The people of North Carolina have suffered incredibly and there's just nobody to help them. FEMA has been a total disaster. We had FEMA that was fantastic when we did this because we had our hurricanes too. We had some bad ones, but we uh, did a great job with it. Uh, it's not there.

Donald Trump

00:29:20

And then you see that they, you know, originally blamed. And then they tried to take it back, but it was a little late. But they said that the money was spent on bringing illegal migrants into our country. They spent close to a billion. And these were funds, and these were funds that were spent.

Donald Trump

00:29:37

And you have to see. I mean I was in North Carolina recently and I looked at devastation that was just, it was just uh, unbelievable. There was nobody there from the federal government. The local people have done incredible things. Franklin Graham has done incredible things. He's been amazing. But there was nobody there.

Donald Trump

00:30:00

So we're pleased also to be joined by Christie Shamblin, a person I know and I've gotten to know over the last year or so. The mother in law, fallen Marine Corps sergeant Nicole. Gee, Nicole made the ultimate sacrifice during the disastrous withdrawal. Not that we were withdrawing. I was going to withdraw, but we were withdrawing with dignity and strength and power.

Donald Trump

00:30:22

And we were going to keep Bagram, the big air base, because of the fact that it was so close to where China makes their nuclear weapons, one hour away. We should have kept it, and we didn't do that. But, uh, the way they withdrew, they took the soldiers out first. No, you take the soldiers out last.

Donald Trump

00:30:42

I went 18 months without one soldier. I spoke to Abdul, the leader of the Taliban. We went 18 months without one soldier even being shot at. Uh, no soldier being killed for 18 months. Then we left. And you had this group of incompetent people take over. Guys like Millie should have been fired.

They should have been fired. Anybody that was involved with that disaster should have been fired. She was one of 13 U.S. service members who lost their lives. Kamala said she was the last person in the room. That Kamala was the last person in the room. She was involved in everything. She takes credit for that.

Donald Trump

00:31:25

She was involved in everything. That means she was involved in disaster after disaster, because nothing good has happened with this administration except that our country has gone to almost a third world status with Biden. When, uh, Biden made a decision, she said she was there. Oh, she was there. But the Afghanistan decision was a disaster in so many different ways.

Donald Trump

00:31:49

And now you take a look at it, they're right back to what they were doing before, except much worse. Much worse to women. They're worse to women right now than they were even before it started. But Kamala never reached out to the family members of the Warriors. And she said she was going to, but she never did.

Donald Trump

00:32:06

She never called anybody. And, Christie, I'd like you to come up and say a few words, please.

Christy Shamblin

00:32:19

Hi. Good afternoon. Good morning. Um, my name is Christie Shamblin, and my daughter in law was Sergeant Nicole Leanne Gee. And she was killed in the botched Afghanistan exit at Abbey Gate. She was the cornerstone of a very large family. And instead of planning family gatherings and holiday meals and Christmases and baby showers, our family and thousands of other families plan outings at funeral grave sites.

Christy Shamblin

00:32:54

And that is where we as a family celebrate. My daughter in law at Arlington National Cemetery, because she is in the ground. Her story isn't unique to our family. She's just ours. There are thousands and thousands and thousands of wounded veterans who came home from that war, who need our help and who are ignored by our current administration.

Christy Shamblin

00:33:24

President Trump demonstrates peace through strength. I know what he told the Taliban when he was negotiating with them because I've made it my business to know. And what

he said to them when he was negotiating with the Taliban. He said, I will kill you if you harm one hair on one head of an American president.

Christy Shamblin

00:33:58

Trump shows up, he reaches out and he can fix our country, and we can all heal together.

Donald Trump

00:34:14

Thank you very much. So sad. So many cases. So many cases like this. Nobody should have died. First of all, when they left, the soldiers should have been there. They shouldn't have been home watching. Except for a small group and many of them got killed. And large numbers. Nobody ever mentions the arms, the legs missing, gone, the face just obliterated.

Donald Trump

00:34:36

Nobody talks about them. I talk about them all the time. But I want to thank you, Christy, and we'll carry, uh, Nicole's memory in our hearts forever. The full consequences of Kamala's four year reign are almost too terrible too discuss or contemplate. We're coming to the end of a great campaign. I think we've had a great campaign.

Donald Trump

00:35:08

We've really not been provided the kind of protection that I needed as president, but I said, we have to do it anyway. When Secret Service would ask for additional people, oftentimes we would be turned down. They were constantly asking for additional people. And I found Secret Service to be very brave. When I went.

Donald Trump

00:35:25

When I was hit and went down, they were right on top of me. Within seconds, I tell you what, those bullets were flying right over my head. I heard them. And these guys were right. Uh, I don't know how they didn't get hit, actually, but they were right there. You take a look at the video.

Donald Trump

00:35:42

One thing you would say, the video is there for people to see, but. But they were never given the kind of help, uh, that they requested because our rallies were massively large and they needed more people, and they were always fighting for more people, and it was never given to them. Now they're being given, I hope, what they need.

Donald Trump

00:36:04

But, uh, we were. That was a constant fight. They'd come to me and they'd say, you, uh,

guys don't want to give us the people. And yet Biden was covered. And they'd have, like, two people show up. But, uh, Kamala is grossly incompetent, a total train wreck who has destroyed everything in her path.

Donald Trump

00:36:27

She's destroyed everything. She left 21 million aliens poor across our country, and then she maybe in a short while, has to go home and she'll get herself a job someplace. Who knows? But think about it. And she can look, and she can look at the Carnage. And she can look at all the people that have been killed, and you haven't seen anything yet because they've just started.

Donald Trump

00:36:53

They're just getting comfortable in our country. These are very tough people. These criminals make our criminals look like nice people. And, uh, she let the more than 13,000 convicted illegal aliens. Nobody would have let these people into our country. And remember, they came out of the worst prisons in the world. The meanest, nastiest prisons in the world.

Donald Trump

00:37:16

And when she says that she wouldn't do anything different, does that mean that she would have let 325,000 migrant children probably die? Most of them. Many of them. But at a minimum, they're slaves or they're sex slaves, and they're all over the country. Does that mean that she wouldn't have changed that. Does that mean that she wouldn't have changed so many of the other things that led to so much death and destruction and even financial destruction of our country itself?

Donald Trump

00:37:47

We could end up in a depression because of what she's left with us. Uh, they are the worst combination. President, vice president, in the history of our country. And I often say Jimmy Carter is a happy man because his administration, by comparison, was totally brilliant. It was brilliant. After Kamala, uh, endorsed defunding the police, she bailed out rioters, looters, and murderers, took them right out of jail.

Donald Trump

00:38:18

During the violent crimes in the United States. Remember, that was in Minnesota. Minneapolis was burning down. It was burning to the ground. I watched the CNN announcer say, this is a friendly group of people. And over his shoulder, the entire skyline was burning. I've never seen it, but that's the fake news. But violent crime in the United states is up 37%.

All of these different crimes are up, um, anywhere from 37 to 105 over a very short period of time. And it's almost like nobody even cares about it. Very simply, Kamala Harris is not fit to be your president. We can't have it happen. We can't have it happen. We're going to make this country strong again.

Donald Trump

00:39:06

We're going to make it great again. We're going to be respected again. Her message has been a message of hate and division. And my message is about saving our economy, securing our border, bringing together the greatest and broadest coalition in American history. There's never been a coalition like this. Everybody's included. And on issue after issue, she broke it.

Donald Trump

00:39:46

They broke it together. But for purposes of this election, she broke it. Can't let her go, and I'm going to fix it. And I'm going to fix it very fast. And on the illegal. Thank you very much. Thank you very much. Uh, on the illegal immigrants that will be taken out of the country, as you know, we're, uh, going to be taking them out.

Donald Trump

00:40:14

And if they come back, we have laws that will be immediately enacted where they serve 10 years in prison. They won't come back. And if that's not long enough, we'll have to do something else. But we don't want them back. They're not going to come back. And as you know, we're asking for the death penalty for any migrant who comes into our country and kills an American citizen or a police or law enforcement person, because we have to protect our police.

Donald Trump

00:40:47

Our police are under siege also at numbers that nobody thought were possible. The worst they've ever seen is very hard to recruit. And really, for not just the danger, that's hard to recruit because they don't have the spirit anymore for our country, because they're being led with people that are spiritless. They really are spiritless.

Donald Trump

00:41:04

They can't instill spirit. But, uh, so that's any citizen, they get killed, uh, it's a death penalty, and that includes police or law enforcement officers. But we're going to revive our economy. We're going to use a system of very fair, very reasonable tariffs, as I said, so powerful. We've never used them. I used them.

Donald Trump

00:41:34

China paid us hundreds of billions of dollars, hundreds of billions of dollars, and no other president has gotten 10 cents from China. China had a free ride, but so did many other countries. European Union is taking advantage of us. They don't take our product, and yet we take their product all over the place.

Donald Trump

00:41:50

We take their farming product. We take their cars left and right, right. BMW, Mercedes Benz, Volkswagen. Millions and millions. They don't take our cars. I said to Angela Merkel at the time, Angela, how many Chevrolets do we have in Berlin? Why? I don't believe you have any. I said, you're right about that, Angela.

Donald Trump

00:42:12

Well, we're going to change it, but we. They don't take our product. We have a deficit with them of over \$300 billion. Think of that. And people think of them as friendly, but they're very tough and very, uh, very fair. I mean, look, they united in order to take advantage of the United States.

Donald Trump

00:42:28

That's why they united. That's why they formed their coalition. And, uh, that was done to take advantage of the United States. So we know how to take advantage of them. We're going to take it back we're going to take it all back. Those countries, many of many of those companies will be coming back.

Donald Trump

00:42:45

They'll be coming back because when they're told that they're going to have to pay a 25% tariff or a 50% or 100%. We saved our steel industry. When I imposed large tariffs on China steel coming in, they were dumping steel here by millions and millions and millions of yards of steel. Like nobody has ever seen our steel businesses.

Donald Trump

00:43:06

We're going out of business. We can't lose our steel industry. If for no other reason, our own security. We need steel. If we'd go to war. We're not going to go to war. We're not going to have World War Three. But if we ever go to war, you better hope that we have a steel industry or those beautiful tanks and everything else that we need to make won't be made.

Donald Trump

00:43:24

The planes, the tanks, the whole thing. And I saved it by imposing tariffs. They were dumping it. I think they were dumping it in order to destroy. Every steel plant would have

been closed if I didn't do what I did. And we happened to be taking in, you know, billions of dollars. In fact, it's so good that Biden has been trying his best to end it, but he's unable to do it.

Donald Trump

00:43:44

Too much money. It's been too much money. They're paying a fortune. But I would have had it a lot different. And we'll get along with China, we'll get along with Russia. We'll get along with everybody. We had the fake Russia, Russia, Russia hoax, which took two years. And then they came out with a report that we did absolutely nothing wrong.

Donald Trump

00:44:01

And that was a stacked deck, too. The people doing it, they couldn't, they couldn't say there was nothing. We had nothing. They checked millions of phone calls. Not one call made to Russia. Not one call. Uh, it was a terrible thing they did to the country and actually put us in a lot of danger, to be honest with you.

Donald Trump

00:44:17

If I didn't have somewhat of a relationship with Russia and Putin and all we had to have. And by the way, getting along with President Xi and Putin and Kim Jong Un of North Korea. If you remember when I met with Obama, his wife was very nasty to me the other day. Oh, that was not nice.

Donald Trump

00:44:35

She was very nasty. She said nasty things. I was always. I was always very. I was a, uh, always very respectful of her. But she got up there, which shows you how nervous they are about what's happening. But she was nasty. Two days ago, she got up and said some bad things. She shouldn't have said they were wrong, too.

Donald Trump

00:44:56

But we're going to turn our country around and. And we're going to pay a lot of respect to the three representatives, because that's what they are. They're representatives of millions of people. I mean, the businesses. So many businesses are just dying right now that millions and millions of people they're representative of. And our wounded, Our wounded and our hurt soldiers, we have to take care of them.

Donald Trump

00:45:26

They came back from Afghanistan. Boy, nobody talks about them. They just don't talk about them. But I talk about them, and we're going to take care of them. You know, we had the greatest success with the VA, the Veterans Administration. We had a 92% approval

rating. We got it. So they had choice, because they were waiting 4, 5, 6.

Donald Trump

00:45:46

They were waiting 4 or 5, 6 months, 7 months to see a doctor. And I came in and I got, with the help of some of the great congress people that are here, we have some great ones. Thank you very much. Thank you. Thank you. We've got quite a few of them. And, uh, I didn't even tell them to be here.

Donald Trump

00:46:03

They want to be here because they know. Exactly. Oh, yes, very good. We have one of. One of the greats. But, uh, they wanted to be here. A lot of people wanted. I didn't tell anybody to be here, actually, but they wanted to be. But we have to take care of our military.

Donald Trump

00:46:22

Think of this. Soldiers who are waiting six months to see a doctor. Can you imagine yourself? You don't feel good. You could be cured with a pill or with a shot. It was something very minor, like a minor operation. And after six months, you're now terminally ill. So I made it. And they've been trying to do this for 48 years.

Donald Trump

00:46:42

I made it. We call it choice, like school choice, which is also a very good thing, by the way. But we call it choice where you have your choice. You go to a doctor. If you have to wait more than one day, you go outside, you get a doctor, you get yourself fixed up, and we pay the bill.

Donald Trump

00:46:56

And it's been, um, unbelievable. I heard just the other day for the first time that. That, uh, Kamala and Biden are trying to destroy that. They're trying to make it so that you have to wait for six months again back to where it was. We had a 90, 92% approval rating. And now, uh, if they do.

Donald Trump

00:47:15

If they go back to that you were going to have. I did another thing. You weren't able to get because of civil service. You weren't able to get fire people. If somebody was a degenerate, if somebody was terrible, if they treated our heroes badly, we want them fired. We want them fired immediately.

Donald Trump

00:47:32

But we were unable to get them fired because they were protected by unions and by civil

service. And I had it passed in Congress, which people have also been trying to get. And we were able to fire 9,000 people out of the VA and replace them with people that love our heroes, as opposed to.

Donald Trump

00:47:51

As opposed to sadists. We had sadists. We had sick. We had sick people. We had sadists in there that really, uh, harmed our great people, our great veterans. And we were able to get rid of them. And we got them out and we replaced them with people that can love our love and take care of these, uh, wonderful people that served us so well.

Donald Trump

00:48:14

So we did good. We had a 92% approval rating. Nobody's ever. They've been in the 40s and the 30s, and now it's heading back in that direction. I'm afraid. Afraid. I hear they want to dismantle everything. And, uh, it's almost like you'd say, why? Why would they do that? Why would they do that?

Donald Trump

00:48:28

And yet they'll spend. You know, you can't save money because they give away hundreds of billions of dollars to anybody that needs it. But they won't take care of our veterans, they won't take care of our people, they won't take care of our soldiers, they won't take care of our elderly. They won't take care of anybody.

Donald Trump

00:48:43

But they give. Every time certain people come to town, they walk away with \$100 billion for countries that many people have never even heard of. So I just want to tell you this is a campaign that's been, uh, long and hard. Uh, I've been on the road or campaigning for 58 straight days.

Donald Trump

00:49:02

I haven't taken a day off. Proud of. And I won't be taking one off. We have seven days to go. You can be sure I won't and do many, many things every year. And I just want to end by. I've watched their commercials, and they're really fraudulent. They'll say, he doesn't want to frack.

Donald Trump

00:49:30

I've wanted to frack always. They'll say everything exactly the opposite. Oh, I want to destroy Social Security. No, they're going to destroy. I'm the one that saved it. And for four years we made it even better. I'm the one. And I didn't raise ages. I didn't do the things that they're going to do because they're allowing millions of these people to go onto Social

Security, Medicare.

Donald Trump

00:49:53

They're going to destroy it. She's going to destroy the whole country because it's not sustainable by any country. But the ads and the statements that they make are exactly the opposite. They will say, oh, I'm going to raise taxes. He is going to raise taxes. Just the opposite. I'm going to lower taxes.

Donald Trump

00:50:11

And I have done that, but I've got to lower taxes. And she's raising taxes by 30, 40, and 50%. But they'll have a commercial. And I just say this to you because I hope people understand. These people lie. They lie. They're very disingenuous. And we are going to, uh, finish up our campaign.

Donald Trump

00:50:31

And it's interesting because I haven't, uh, taken any time off for a long time. I tell you who can tell you about that. All the people that follow us, including the people in the campaign, but including Secret Service, who has been working very, very hard. I will tell you. They've really been working very hard.

Donald Trump

00:50:50

And yet a couple of days ago, she took off. And then she took off again and again and again I say, how many times, you know, you're running for president of the United States, you had like, at that time, about 20 days left. How the hell do you take off, right? You got to work.

Donald Trump

00:51:08

You gotta work. So she says her teleprompter broke. Yeah, well, she better hope. She better hope it doesn't. You know, they break and m. If you don't. If you don't know how to do it without a teleprompter, you're, uh, you've got a problem. And she doesn't know how to do it without a teleprompter.

Donald Trump

00:51:22

So I just wish they'd stop lying because the lies are vicious and probably some people believe them. But the good news is seven states, Republicans never lead in the early voting because for whatever reason, it's habit or it's a certain security they feel in going to the booth. They believe. Well, they believe in.

Donald Trump

00:51:46

They believe in principle, but we never lead in. I don't know if we've ever led in early. Every single state. We're leading in every single state at an early. And that. And we don't need all of them, but. And some states are in play that nobody thought would ever be in play, but I think, uh, people are seeing, because again, we're the party of common sense.

Donald Trump

00:52:11

We're the party of common sense, and we want to have strong borders. We want to have great elections. We want to have fairness. We don't do things like, we're not going to have men playing in women's sports. I mean, that's okay. So we're the party of common sense and with a party of fairness, and we have a coalition.

Donald Trump

00:52:35

Nobody's ever seen anything like. I don't think anybody has ever seen anything like what happened the other night at Madison Square Garden. The love. The love. The love in that room. It was breathtaking. And you could have filled it many, many times with the people that were unable to get in. But politicians that have been doing this for a long time, 30 and 40 years, said there's never been an event so beautiful.

Donald Trump

00:53:02

It was like a love fest, an absolute love fest. And it was my honor to be involved. And hopefully, you know, they. They started to say, well, in 1939, the Nazis used Madison Square Garden. Well, and you know what? Every. No, but can you imagine, in 1939, the Nazis, they were. But how terrible to say, right?

Donald Trump

00:53:25

Because, you know, they've used Madison Square Garden many times. Many people have used it, but nobody's ever had a crowd like that. And I tell you what, right now, nobody's ever had love like that. That was love in the room, and it was love for our country. It was really love for our country.

Donald Trump

00:53:41

So we're going to fight like hell for the next seven days and then hopefully, and then hope. Hopefully. And most importantly, we're going to be fighting even harder for the next four years because we're going to turn this around and we're going to make this country greater than it has ever been. Thank you.

Donald Trump

00:54:05

Thank you very much. Thank you.
