Notes:

Summary by ChatGPT

- Tax Cuts: Proposed cuts for workers, small businesses, and family caregivers.

- Energy Policy: Aimed to reduce inflation by promoting American energy.
- Immigration: Focused on enhancing border security and curbing illegal immigration.
- Defense: Suggested a missile defense shield for national security.
- Elections: Urged voters to oppose Kamala Harris's agenda.

Donald Trump

00:00:00

Whoa, whoa. This a lot of people. This is a lot of people. What's going on with Virginia? What's going on? We're going to win Virginia. You know that. We got to get out, involved and outside. You have exactly five times the number of people. So you're going to win this. We are going to win this on Tuesday.

Donald Trump

00:00:29

Thank you, Mr. Governor. We're going to win. Thank you very much. You have a great governor in this state. He did a great job. And your attorney general and the whole group. Thank you, Glenn. What a job. So, a very special hello to Virginia. I know it well, to put it mildly, and I'm thrilled to be back in this beautiful Commonwealth with thousands of proud, hardworking American patriots.

Donald Trump

00:00:58

That's what you are. You're patriots. And I'd like to begin with a very simple question for you to answer, if you don't mind. Are you better off now than you were four years ago? I've come today with a message of hope for all Americans. With your vote on Tuesday, that's our big day.

Donald Trump

00:01:21

You got to get out. We win. I'll, uh, tell you what. We win Virginia, we win the whole thing. Without question. The whole thing. Now, it's very possible that without winning Virginia, we're going to win the whole thing, too. But it'd be. Wouldn't it be cool? Wouldn't it be nice? We got to do it.

Donald Trump

00:01:45

We're going to win Virginia. I really believe it. We felt it. Your governor felt it. I felt it for a long time. But I will end inflation. I will stop the invasion of criminals into our country, and I will bring back the American dream. This is all you really need to know, Kamala.

A low IQ person broke it, and I will fix it. I promise I will fix it. Go quickly. It's going to go quickly. They've done a lot of damage, but it'll go quickly. America will be bigger, better, bolder, richer, safer, and stronger than ever before. And this election is a choice between whether you will have four more years of incompetence and failure or whether we will begin the four greatest years in the history of our country.

Donald Trump

00:02:48

That's what's going to happen. And I'm asking you to be excited about the future again. Be excited. You know, it's hard for you to be excited. You watch what they've done to this country. It's hard. Just be excited. It's coming back, and it's going to come back for us. And I'm asking you, remember this.

Donald Trump

00:03:12

To dream big again. You're Going to dream big, and we're going to do some incredible things, because this will be America's new golden age. It's going to be a golden age of America. We're going to get the stupid people out of here as quickly as possible. What they've done, every problem facing us can be solved.

Donald Trump

00:03:41

But now the fate of our nation is in your hands. It really is. It's in your hands. On Tuesday, you have to stand up, you have to tell kabbalah, and you can't call her Harris. You know why? Because nobody knows. I mean, you say Harris, who the hell is Harris? The whole thing doesn't work.

Donald Trump

00:04:07

So we'll just call her Kamala. You're going to tell her that you've had it. You've had it, Kamala. You're the worst vice president in history. You're terrible at what you do. You've destroyed our, uh, country. Kamala, you're fired. Get the hell out of here. Get the hell out of here. I'm here today in this incredible commonwealth for one very simple reason.

Donald Trump

00:04:38

Because I believe we can win Virginia. And that would be unbelievable. And working with your governor, we will get ms.13 the hell out of your communities. You load it up with them. We load it up. They don't want to touch them. We're going to touch them, going to get them out. We're going to have ice all over the place.

Donald Trump

00:04:59

You know what ice is? You know what ice is? They're very tough people that love our country. And if you don't have, uh, very tough people, you're not getting ms.13 out

anytime soon. No, ice doesn't mind. Ice is like ms.13 is their cup of tea. We will cut your taxes, create millions of jobs, fix your school, stop the indoctrination of your children, and we will not let them try to change your kids gender.

Donald Trump

00:05:32

No, you will not be doing that. We won't be changing your children's gender with their transgender craziness. And we will protect parents rights and we will protect school choice. You're going to have school choice here, school choice. And we'll bring back an education system based on merit. Don't forget our supreme court gave us a very great ruling, a decision that we're actually allows allowed to use merit again.

Donald Trump

00:06:08

Merit. So that if somebody works hard, if somebody works hard, they do well. They work so hard and do so well. We actually have a merit based country again. Can you believe it? Isn't that nice? And we will, of course, keep men out of women's sports. I Promise. Last year, the radical left's gender insanity arrived right here in Salem when a man was allowed to transfer onto the Roanoke College women's swim team.

Donald Trump

00:06:50

And I just met them backstage. They're great swimmers. I didn't notice a male on that particular team. I didn't notice a male on that team. Perhaps I don't understand what's happening, but I didn't see any males on that team, believe me. But the brave members of the swim team stood up to the transgender fanatics.

Donald Trump

00:07:13

Something new in our country. And those strong, and I would say beautiful, but I'm, um, m not allowed to use that term anymore with women. Because if you say beautiful, it means the end of your career in politics. You're not allowed to say a woman's beautiful. So I will not tell you how beautiful they are.

Donald Trump

00:07:33

But they are beautiful. But those strong, beautiful, intelligent women, they won. They won. And today we're joined by seven of the great members, really championship incredible swimmers of the Roanoke College women's swim team that have gotten a little publicity. They've gotten more publicity than I have. What the hell's going on here? Including team captain Lily Mullins, a real champion.

Donald Trump

00:08:02

Come on up. Uh, come on up, ladies. M. Lily, everybody.

Sorry.

Lily Mullins

00:08:40

Thank you so much, President Trump. Um, as female athletes especially, we know that men have an inherent advantage over women in sports. And due to current policies, though, men are competing against women of, uh, all ages in all sports. Joe Biden and Kamala Harris have advocated for, they've advocated for and pushed for this anti woman sex based discrimination to continue all over this country.

Lily Mullins

00:09:13

And point blank, it's unfair. So I would like to thank you, President Trump, for standing with women and promising to protect the rights of all of us. We are so lucky to have a leader like Donald Trump with common sense who knows what a strong woman is and will fight for generations of girls to come.

Lily Mullins

00:09:46

Thank you so much, and God bless America.

Donald Trump

00:09:59

What a good job. Thank you, Lily. How about if we introduce each member of the team? Lily, can we do that? Come on up here. Just say your name and come on up. Lily, you handle it.

Lily Mullins

00:10:10

So, I'm Lily Mullins. I'm Kate Pearson.

Speaker D

00:10:17

I'm Katie Blankenship.

Donald Trump

00:10:20

I'm Julianna Morrow.

Tammy Nobles

00:10:23

I'm Halle Shart. I'm Susanna Price.

Donald Trump

00:10:30

And I'm Carter Satterfield. M. What the hell is going wrong with our country? Can you imagine? And the men don't realize they're tougher and smarter than us. I hate to say it,

but they're tough. Um, the Men. All right. That's a great job. Good job. You did, Lily. Beautiful. Thank you very much.

Donald Trump

00:11:14

Girls, go win that championship now, please. So we're just three days away from the greatest political victory in the history of this country, probably in the history of the world. But we have to get you guys out. You got to get out. We have to get out. Uh, we want to win everything.

Donald Trump

00:11:37

We want to win the popular vote. We want to win everything. And, you know, it's always tough when you have California. They send out, like, 38 million ballots. They don't know where they go. Well, they actually do sort of know where they go, but they don't know where they go. They don't know where they're coming from.

Donald Trump

00:11:53

They come pouring back in the millions, and then they lose. A Republican always loses from 5 to 7 million. You know, I was in California. You know, we took a poll just recently. Not us. It just came out, like, today. Did you see it? That I'm winning with Hispanics over the Democrat by 8 points.

Donald Trump

00:12:17

And I'm telling you, if God came down and agreed to be our vote taker for one day, just one day, God would only need one second, actually, if he came down and he was going to be our, uh, vote taker, meaning if we had an honest election in California, we would win California.

Donald Trump

00:12:42

But when you have New York, Illinois, and California, that, like, automatically. It's, like, ridiculous. Automatically goes to a Democrat. It's tough to win the popular vote because there are three big states, and it's, like, automatic. Nobody's supposed to question them. You have Gavin Newscom, who's a governor of California, and he just signed a bill.

Donald Trump

00:13:08

And in signing the bill, you know what it says. If you're an official, if you're anybody, you are not allowed under any circumstances to ask whether or not somebody has voter id. If you say, let me see your voter id, you are criminally liable, they will give you the electric chair. Ma'am, may I please see your voter id?

How dare you ask me for voter id? How crazy is this place? But you have a very sane, very solid governor. There's something very nice. I can imagine. Glenn's like me. M. I think when we heard that, when we said, this is getting a little bit crazier. So now it's not only that you don't have to have voter ID now you're not even allowed to ask for it under penalty of a lot of problems.

Donald Trump

00:14:04

It's crazy. We got to straighten that whole mess out. And then they say he lost the he lost the popular vote. But, you know, it's, uh, tough. But I have a feeling, I mean, the polls are showing we're going to win everything. We're going to win the popular vote. We're going to win everything.

Donald Trump

00:14:27

And I'd love to win the popular vote with them cheating. You know, let them cheat, because that's what they do. They do it very well. They're very professional. But I think we have a really good chance to win the popular vote. And I think things are going to be very interesting. It's going to be one of the most interesting days in the history of our country, and it's going to be the most important election in the history of our country.

Donald Trump

00:14:49

And if we win, which we should, because we got a big lead. This is like Lily. She's swimming and swimming, and she's 10 yards advanced with about 5 yards to go. That's where we are. In other words, we're going to win. But I have put everything on the line for you, I guess.

Donald Trump

00:15:16

I guess I don't want to say this too much, but I guess, you know that little incident somebody said, even his life, he put in the lines. I don't know. But I know one thing. I wouldn't have changed it for anything. I wouldn't have changed it for anything because we're going to make our country great again.

Donald Trump

00:15:36

We're going to make. We have such potential. We're going to make our country great again. And I only want one thing from you. I don't want your money. We don't need your money. You keep that money. I only want a little thing called your vote. And that's what would be great. So we want your vote.

Donald Trump

00:15:55

And it would be a great tribute to Glenn and to me and to your great lieutenant governor

who endorsed me recently. Thank you very much. Thank you very much. Thank you very much. With your help, we're going to defeat Kamala Harris, and we're going to indeed make America great again. So yesterday was a big day.

Donald Trump

00:16:26

I can't believe this happened. I can't believe it happened. You know, uh, I don't think anybody can believe. I've never seen numbers like this in my life. Because it was announced that Kamala's economy is like in a depression. The worst numbers I've ever seen. The worst numbers in many, many, many years, Kamala's economy added only 12,000 jobs.

Donald Trump

00:16:47

I've never heard of that. Because before, just by normal growth, you add 100, 150. And for years, we've been looking for many years, for decades. 200, 250,000. So yesterday it was announced that they added only 12,000. It's the lowest number in many years. But that's the good part. That's the good part for them because we lost nearly 30,000 private sector jobs, along with nearly 50,000 manufacturing.

Donald Trump

00:17:18

Manufacturing jobs in one month. This is not recession stuff. This is depression. I hate to tell you that under Kamala's catastrophic agenda and crooked Joe, but I don't even know. Is he still around? What the hell? You know, in all fairness to him, you might have noticed I'm not a big fan, but he was running.

Donald Trump

00:17:42

I spent \$150 million trying to defeat this guy. We spent. Think of it. And we were doing well. We had the debate. He didn't do great, but he did fine. We had the debate, and his numbers weren't great. And they walked into him and they said, uh, we want you out. He said, I'm not going to get out.

Donald Trump

00:18:01

I got 14 million votes. You didn't get anything. We want you out, Joe. You're going out. Think of what. No, but think of the consequences of this. This is a guy who's the president. He won it in the primaries. Whether you think he's great or horrible, it doesn't matter. He won it in the primaries.

Donald Trump

00:18:16

Right. You know, they would look at me if that. If we ever did that, they would say, this is a threat to democracy. Right? Everything I do, he's a threat to democracy. If I walk two feet

over in the road, he's a threat to. These people are sick. Can you imagine if I walked into somebody, a president's office said, we want you out.

Donald Trump

00:18:41

But, you know, crazy Nancy, she's crazy as a bedbug. And I don't know, I think the Attorney General, maybe you can look at it. You have a great Attorney General, by the way. We just want a big. We just want a big case of. Mr. Attorney General. We just want a big case because our, uh, Republicans have to activate a little bit.

Donald Trump

00:19:06

So. Did you know that Nancy Pelosi was a big investor in Visa? Okay. A big. Hey, she started off with nothing, and now she's worth \$200 million. Other than that, I think she's been quite honest. Her average pay was about \$139,000 over those years, and now she's worth 200 million. But she's quite an honest woman.

Donald Trump

00:19:32

But did you. Mr. M. Attorney General, I think this is most important for you. I don't know, maybe you can. Maybe you can look at it, you know, you touched that little Washington area a little bit, so maybe you could look at it. So she's a big investor in Visa, right? Big. I mean, you know, she's got plenty of money, plenty of cash.

Donald Trump

00:19:49

And not a good woman's bad woman. Bad woman thinks she hates our country. Actually, when she impeached me, knowing that I did nothing wrong, I said, that's a bad woman. Bad. But she had Visa stock. Um, she had Visa. Big position of visa. Mr. M. Attorney General. And guess what happened? She sold her whole stake.

Donald Trump

00:20:10

And then the following morning, the Department of Injustice announced that we're doing a major investigation of Visa. Uh, Anderstock. So, I don't know, maybe it's coincidence, Mr. Attorney General, but think of it. She has. She has Visa stock. She sells and the following. Sold all of it. She had it for years. And the following morning, they announced a major, major investigation into Visa.

Donald Trump

00:20:40

You know what happened to that stock? It wasn't a pretty thing. So we'll check that out, I think. I hope that he checks that out. Because you know what? She's a crook. And, uh, she's been doing that for years. She's been doing that crap for years. You ought to look at her. Under Kamala's catastrophic agenda.

More than 100,000 manufacturing jobs. This was just announced yesterday. They've been wiped out since just the start of the year. These are our prime jobs. These are manufacturing jobs. These are the best jobs. 150,000 Americans joined the unemployment rolls. Can you imagine? This stuff is just all coming out. Remember, 818,000 jobs two months ago were fake.

Donald Trump

00:21:30

They put them in. It was going to be through the election. They put in 818,000 fake jobs. And they were going to announce and revise. Biggest number ever. They were going to revise the numbers right after the election. These are crooks, okay? And fortunately, there was a whistleblower that couldn't stand it, and he blew the whistle.

Donald Trump

00:21:54

And we've learned. And now yesterday, with these numbers, we learned a revision down also of an extra 112,000 jobs. These are big numbers. You know, Normally it's like 2,000 jobs, 4,000 jobs. It's almost a million jobs that were fake. These are fake jobs. That's why they call them Crooked Joe, I guess, right?

Donald Trump

00:22:17

Crooked Joe Biden. And so all of these jobs and all of it was going to be announced right after the elect. Could you imagine? M. You run in the election, you lose. And then they announced that they just screwed you for a million jobs in order to look better and this is what we're dealing with in our country.

Donald Trump

00:22:35

This is what we're dealing with. 818,000 plus 112. Nearly a quarter of a million people dropped out of the labor force this month. How about that? That's like a depression. I never wanted to be Herbert Hoover. Honestly. They say, who's your favorite president? I give him names. And I do like Ronald Reagan, right?

Donald Trump

00:22:57

I like him. But they say, who's your favorite president? I tell you, he could have been a little tougher on trade. Frankly, I would have liked him even better if he was tougher, because we are tough. You know, China paid us hundreds of billions of dollars in taxes and tariffs. No other president got 10 cents from China.

Donald Trump

00:23:19

Hundreds of hundreds of billions of dollars. But I always said, I don't want to be Herbert Hoover. I refused to be Herbert Hoover. That was a bad one. He was the president. And we

had the Great Depression. You could end up with a Great Depression right now, the way that's going. Nobody can believe the numbers.

Donald Trump

00:23:37

Nobody ever was shocked. I was shocked. I heard it and I said, oh, let me. You know TiVo, one of the greatest inventions in history, right? TiVo or its equivalent. Now they're going to use me in a damn ad. I got to be careful. You cannot use that for ad purpose. No. TiVo or its equivalent, you know, you just play it back.

Donald Trump

00:23:55

I said, oh, uh, I must have misunderstood it. 12,000. And we lost hundreds of thousands of jobs. We cannot take four more years of these incompetent people running our country. And a statistic that's really terrible is 100% of. Of all net job gains in the past year. In other words, all of the gains, you know where it went to migrants.

Donald Trump

00:24:19

100% of the gains. And the other stat that you have to see, and if you are an African American, you're not going to be happy with these numbers. But African American jobs have been decimated by the people that are coming into our country illegally. And they refuse to give the numbers. The fake news.

Donald Trump

00:24:42

Look at all of that fake news. That's a lot. That's a lot. They must have heard that your governor is going to be here. He has done a job. He's not going to take it easily. Because think of it. The numbers are so bad, they came in and they come in illegally. And many are murderers, drug dealers and criminals of all kinds.

Donald Trump

00:25:13

You know, the crime rate in Venezuela and other places where they come, they come from all over the world. But the crime rates in many of these countries, all of the countries is way down because they're giving us. They're criminals. They're bringing them into our country. But for African Americans, the job numbers are horrific, and they're not going to be announced until right after the election.

Donald Trump

00:25:37

I think people should demand because I heard numbers that are so bad. And Hispanic Americans. Great Hispanic Americans. I just had a poll. Can you believe it? I'm leading the Democrats with Hispanics. That wasn't supposed to happen. You think that's shaking them up a little bit? That's not a number that was supposed to happen.

But it does happen because they're great people, and they know I know it. They're entrepreneurial, they're hardworking, and in many ways, I've faced them many times. They're brutal. They can be brutal. They're unbelievable. But you know what? They're starting to be affected, too. But the African American population of this country is being decimated by the hundreds of thousands of people that just keep pouring through the open borders of stupid Kamala.

Donald Trump

00:26:33

And you know what? They should announce those numbers right now before the election, because you won't have one black person that votes for Kamala. You won't have one, because when you see those numbers, you're going to know exactly what I'm talking about. That's just like they didn't want to announce these other numbers, but they had the whistleblower.

Donald Trump

00:26:54

Maybe there's going to be a whistleblower for what's happened to the job markets for hardworking, wonderful black people that have had jobs, that have had jobs for years, for 20 years, and they have houses with mortgages on them and everything else, and what the hell is going to happen to them? So you ought to take a good look at what they're doing, because they're holding those numbers because they want to get the election over with.

Donald Trump

00:27:19

And I don't think it's going to matter. I think we're going to win anyway. But you ought to take a look at those, uh, at those numbers. Uh, It's a terrible. Honestly, it's a terrible thing. I stand before you today as the only candidate who can rescue our economy, and I mean from obliteration and restore it to strength, prosperity, and greatness again.

Donald Trump

00:27:47

I will do a real job for you. I'm going to work my ass off for you. And I didn't need this. I didn't need to be with you today. I could have been at a gorgeous beach in lots of places. I own some of the most beautiful beaches. I could have had that salt Water from the ocean.

Donald Trump

00:28:10

I like oceanfront property best. I could have been standing on a beach, my beautiful white skin getting nice and tan, uh, being smacked, being smacked in the face by a wave, loaded up with salt, salt water. And I could have said, to hell with everything. I could have had the greatest life in the world.

Instead, I got missing a little piece of my ear. Thank you. Thank you very much. Thank you very much. Thank you very much. That's nice. Uh, that's nice. I like these people, Glenn. I tell you, I like these people. These are. These are great people. These are great people. No, I could have been anywhere.

Donald Trump

00:29:20

I could have had the greatest life. I could have had everything. The best hotels, the best everything. I could have had a, ah, life that nobody had. You know what? I've had it to do again. I want to be right here with you. We're going to make our country great again. We're going to make our country great again.

Donald Trump

00:29:36

Nobody else could do that. No, we're going to make our country great. I wouldn't switch. A lot of people have said, if you had it to do again. You know, I've been abused. I've had always. There was Andrew Jackson, president. He was a great general and a very good president, and he was considered to have been the worst abused of our presidents.

Donald Trump

00:29:54

And second was Abraham Lincoln. Have you heard of him? Uh, and he was abused, too. But, you know, in all fairness, he was in a civil war. So I guess, you know, things like that happen. But I think now I've gone to the top of the list. And I am so honored because we're exposing some very bad, bad sick people.

Donald Trump

00:30:14

We're exposing them. But a lot of people ask, if you had it to do again, would you do it? I said I wouldn't even think about it. This is the greatest thing. This is the greatest political movement in the history of our country without crisis, probably in the history of the world. And remember this for everybody, if you're thinking about, like, uh, sitting down to watching some stuff, like a stupid football game or something, remember this.

Donald Trump

00:30:46

If we win this election, it will go down. And you're a big part of it. You're a part of it equal to me. As far as I'm concerned, if we win this election, it will go down as the greatest political event in the history of our country. If my opponent knew how to fix the economy, it would already be fixed.

Donald Trump

00:31:16

Right? Why didn't she do it? You ever see where she gets up, um, and she. We're going to do the Today she had a new thing. When I get to office, I've got this three, four months. Do

it now. What's wrong with it? She says when I get to office, she gives the worst news conferences I've ever seen.

Donald Trump

00:31:36

And they're the shortest, too. They last for about, like, two questions. No. But she never does anything. If Kamala wins, you're three days away from the start of a 1929 style economic depression. You are, uh, I meant it. And if I win, you're three days away from the best jobs, the, uh, biggest paychecks, the brightest economic future that the world has ever seen.

Donald Trump

00:32:04

Kamala's inflation nightmare has caused the typical American family \$30,000. And you know what they did? They screwed up my energy policies and they spent money at levels that nobody's ever seen before. I will say. And now she wants to impose the largest tax hike in American history and raise your taxes by more than \$3,000 a year.

Donald Trump

00:32:29

Congratulations, Virginia. You know, I've watched politics all my life and stuff, and I've been involved now in it for longer than I would have even thought because I never thought I was going to run for office. I never thought I was going to run. And then one day I looked at how stupid everything was because we are now.

Donald Trump

00:32:49

You know, we're really. It's not like conservative, liberal. Uh, they like to call themselves progressive, so I call them liberal specifically for that reason. But, you know, it's not like progressive or conservative. We are the party of common sense. Right? Uh, we need borders, we need walls. I built over 500 miles of wall.

Donald Trump

00:33:15

Walls work. Two things work. What are they? Walls and wheels. Everything else is obsolete. In about 15 minutes, they come up. Sir, I have a new computer. Look at this. Oh, I say that's beautiful. You get it? And about three weeks later, it's obsessed elite. Speaking of computers and brilliant people, Elon Musk.

Donald Trump

00:33:33

How good is Elon Musk? Do you know, he's right now campaigning. He put that big 22 story rocket right in place. And, uh, locked in. I said, what the hell is going on? I saw it take off. It was a beautiful white. I saw it landing. It was all burned to a crisp.

Well, that's what you get when you travel at 10,000 miles an hour. I guess they tell me the metal gets a little bit hot. It sort of burns the hell out of the paint. But he, uh, he did something because I've never. He's a friend of mine, but he gave us the greatest endorsement that, ah, you've ever heard.

Donald Trump

00:34:11

He said, our country, if Trump doesn't win, our country is not going to make it. We also got a great endorsement, the best from the Border Patrol. They gave us. They said, he's the greatest president that we've ever had. I said, does that include George Washington and Abraham Lincoln? Yes, sir, it does.

Donald Trump

00:34:37

I said, that's okay. I'll take it. You can't. One guy got up and said, sir, you're the greatest president in my lifetime. He's about 40 years old. They said, that's not that good. I like the one with Lincoln and Washington better. But, no, the Border Patrol went and they gave us. Gave, uh, me.

Donald Trump

00:34:55

Us. Uh, he gave us. They didn't just give me. We're all in the same mindset. It's really. I view it as us, actually, more than I do me. But they gave us the best endorsement you've ever seen. And they said, she is incapable. Incapable of doing anything. You know, for four years, she's been in charge of the border almost.

Donald Trump

00:35:16

We're getting very close. I said, how many times? In front of a whole big room just like this? I said, how many times did she call you? 10 border patrol people. The top guys. All of them want to. We got a unanimous endorsement from thousands of Border Patrol. And they're great people. They're great.

Donald Trump

00:35:32

They want to do their job. Uh, I said, how many times? How many times did she call you over the four years? She didn't have a call? Okay, this was not exact. I don't consider that a trip. This was a trip that a lot of the young guys over there with those beautiful girlfriends would like to take their girlfriend there for dinner.

Donald Trump

00:35:59

But you wouldn't want to go about, uh, 15 miles left of that. But she never called them once, and she never visited the border once. And she was in charge because Joe Biden appointed her. Now, she said, I'm not the border czar, but she just started saying that

because the numbers are so bad.

Donald Trump

00:36:16

But she was in charge of the border. She never called Border Patrol one time. Think of that. Not one time. Never called them one time. Never visited one time. And to me, it's the single greatest threat to our nation. Far greater than those horrible numbers I just read out. Far greater than inflation or the economy, because you're killing the fabric of our country.

Donald Trump

00:36:38

You're loading our country up with criminals and people from mental institutions, and no country can take them. So I want to thank the Border Patrol. I want to thank. I also want to thank all but Elon. See, I weave you know, this is a weave. It's all. And it always comes back. They used to say he's rambling.

Donald Trump

00:36:59

Now they say he's a genius to weave. See the way. And he felt it was more important than. He sends his regards. But he gave us the most beautiful. But I said, I watched this thing going and I told the story. You might have heard it two nights ago. I'm on the phone with you.

Donald Trump

00:38:39

It wasn't Glenn. It wasn't your attorney general or your lieutenant governor, because I wouldn't do that to them. But this guy was very, very, like one of the most important guys. I'm watching the screen of the television, and I'm on the phone and I say, could you hold on a minute? I'm seeing something that I don't believe.

Donald Trump

00:38:56

That was the. Not one by my ex. I wasn't sure it was a science fiction movie I'm watching. I never saw. I said, do you mind hold on Facebook. I put the phone down and I turned up the sound and I said, man, I said, that's unbelievable. Um, the bad part, by the way, I never picked the phone up again.

Donald Trump

00:39:19

And you know the really sad thing? He's so important. He's such a big guy. But because I was president. But maybe more importantly, because I'm the leading candidate. Because I'm the leading candidate. The poor guy never hung up. He just. He just. 45 minutes later, I picked up the phone. Hello. And you know, you press.

They're so bad, they'll say, see, he's cognitively impaired. I'll let you know when that day happens. Not going to happen for a long time. And isn't it nice to have a president that doesn't have to look at teleprompters? I haven't looked at these suckers in the last. But anyways, I'm watching this rocket come down, and it's coming down, and it's going to come down.

Donald Trump

00:40:22

I'm looking. I'm saying, how big is that Circuit? 22 stories. 20 stories. And he's coming. I said, oh, no, it's going to hit the gantry. You saw that the bottom part was swinging left in the gantry. That caused billions. And it's going to hit. No, it's going to crash. I didn't even know it was Elon's.

Donald Trump

00:40:38

I just said, this thing is unbelievable. And then all of a sudden, you see fire and flame come pouring out of the bottom and purchase. Or just on the left side. And then you see it pushing over, and then it comes down Slowly, boom, inches from perfection. And then you see those arms, like, you grab your beautiful baby, your beautiful child.

Donald Trump

00:40:59

See, the old days, I would have said, like, you grabbed your girlfriend. Now, I don't say that. I say, like, you grabbed your child and those big arms came in and they grabbed that sucker and they held it in place like you grabbed me a job. Because I called him. He picked up immediately.

Donald Trump

00:41:35

If I wasn't there, I think I would have gotten a call back about three days later maybe. But he picked up the phone. I said, was that you, Elon? Yeah. Ah, I said, can Russia do that? No, they won't be able to do it for many years. I said, what about China? Nope, they won't be able to do it for you.

Donald Trump

00:41:51

What about the US Other than you? Nope, they won't be able. They don't have the technology. How good is this guy? Right? Oh, I'm looking at the back of my head. I don't like. I look over at junk and now I look up, um, there I see I'm having a bad hair day.

Donald Trump

00:42:17

This is not. I have to have a bad hair day in front of Virginia. That's not good. Well, at least it's a nice picture. No. How good is it? But. And just to finished with Elon. So I, uh, went down to North Carolina right after the hurricane. We couldn't go. I didn't want to go to

now.

Donald Trump

00:42:39

I wanted to let people, you know, FEMA has totally let them down. Fema, you know why? Because they spent all their money on illegal migrants. They spent like almost a billion dollars. They don't have any money and we'll take care of it, but they don't have any money. It's a horrible thing. North Carolina got hit hard and one of the officials in North Carolina said, sir, do you know Elon Musk?

Donald Trump

00:43:01

I said, yeah. Why? He said, ah, didn't he just endorse you? I said, he did. He's great. Why? Uh, he said, well, they have something called Starlink, and North Carolina has literally been cut off from the mainland. We have rivers where we never saw water before, and we literally have rivers and people are dead and people are missing and we have no communication to.

Donald Trump

00:43:24

Now they're calling it the mainland. Before it was part of the mainland. Now you had to see. I was there shortly after, actually on the site. I've never seen anything like it. The devastation. Massive trees are just ripped out like they're toothpicks and houses. The foundations are pulled out. Everything's pulled out. I've never seen anything like it.

Donald Trump

00:43:40

And why, you know, a hurricane goes this way and narrow. Uh, but this thing was just like a hurricane, but it was, you know, hundreds of miles wide, but the worst section. And I said, what do you need with Elon? He said, he has something called Starlink. I said, well, I said, what do you want?

Donald Trump

00:43:58

He said, we desperately need it in North Carolina because we have no communication and people are dying and we're missing and it's a disaster we have because all the poles were ripped down, the wires are all lying all over the ground dangerously. I said, well, I'll get them and what do you need?

Donald Trump

00:44:12

He said, we need Starlink as much as we can have. I didn't know what the hell it was. I said, elon. I called up Elon, Elon. Uh, I mean, North Carolina, they desperately need. And so they need in Georgia a little bit, but they needed a lot. And North Carolina got hit hard.

That was like center. And I said, we need, we need Starlink. He said, I stole him. I said, I don't know what the hell it is, but that's all they want is Starlink. I said, so, you know, if you could, uh, would you get as much as you can? And I gave him the guy's number.

Donald Trump

00:44:46

In the meantime, I get a notice from the guy I'm still talking to Elon. I get a notice. President Trump, thank you so much. The Starlink will be arriving tomorrow morning at 8:00. No, but here's the point. I wasn't even off the phone, so I'm talking to him and, um, I say, elon, I just got a notice that Starlink is going to be arriving, but I'm talking to you on the phone.

Donald Trump

00:45:19

How the hell did you do that? He said, well, I have a very unusual way of communicating. I mean, I don't, I don't have to waste a lot of time on small talk. He tells me. I said, that's good. No thinking. Is that the coolest story there? So anyway, they got the Starlink and it has been, it was a lifesaver.

Donald Trump

00:45:38

I mean, they got this great guy. Uh, we need our brilliant people and another brilliant person, you know, and this is not easy for him because they've been Democrats for about 5,000 years. RFK Jr. Right, Bobby, he's a great guy. I was with him last night. Uh, we did a thing together and Tucker Carlson did an interview with me and it was great.

Donald Trump

00:46:07

And Joe Rogan did an interview that was great. Good people. They're great people. They're great. People, Smart people. Like, we need our smart people. We have to protect our smart people, don't we? But, uh, Bobby's going to be working on, uh, the food and the pesticides and all of the things to make it healthy.

Donald Trump

00:46:32

When I told him yesterday I was with him in the plane, I told him, bobby, look, here's the story. You can work on food. You can work on anything you want. He wants health. He wants women's health. He wants men's health. He wants kids. He wants everything. I said, here's what. You can't touch, Bobby.

Donald Trump

00:46:49

You can't touch our, uh, liquid gold. I'm handling that. We got more than anybody. And, Bobby, we cannot. That's the only thing, Bobby. You got to leave that to me. We're going to make so much money. We're going to pay off debt, reduce your debt. We got more

liquid gold than Russia, Saudi Arabia, Bobby.

Donald Trump

00:47:09

So have fun with pesticides, but the liquid gold, you have to leave with me. We'll do very well. Nice, clean energy. We're going to give you so much energy. Um, but we have a lot of people. We have all these endorsements. Uh, Tulsi came in. She actually just turned Republican. Tulsi Gabbard. We have, uh.

Donald Trump

00:47:33

Oh, Brett Favre. How about Brett? No. How nice was that? I was in Wisconsin. Brett Favre. He's a great guy. He has a hand, but he was a great guy. But that was a big one yesterday. That was something that was really nice. Hard for athletes to do it, as I said. But I will massively cut taxes for workers and small businesses.

Donald Trump

00:47:55

And we will have something called no tax on tips, no tax on overtime, um, and no tax on Social Security for our great seniors. And to lift up American families, I will protect and expand the child tax credit that we already created. And I will support a tax credit for family caregivers who take care of a parent or a loved one.

Donald Trump

00:48:27

Do you know they're not spoken about angel moms and angel wives. A lot of great people, but you know that if we did, if they didn't exist, they take care of their son who may be horribly, horrifically wounded in an accident or in war, that if we didn't have these angels. I call them angels.

Donald Trump

00:48:50

They're all angels. If we didn't have these people, you could build your hospital system three times bigger, and it wouldn't be big enough. The money that they save us and the incredible credit that they give, the care that they can give is something that's unbelievable. And I just think you know, we have to acknowledge it.

Donald Trump

00:49:10

So we're going to do a nice big credit for them. And they didn't even ask for it. They didn't ask for it. They don't ask for anything. You know, they don't ask. A lot of people ask. Everybody asks for everything. Everybody wants. They want, want, want. They didn't want. They just want to take care of their beautiful baby.

Donald Trump

00:49:28

The baby may be 45 years old, maybe 40. To them, it's their baby. They want to take care of their baby. I mean, think of that. How incredible. And you could never give that kind of care in a hospital. I don't care what hospital you're talking about. You could never do what they do.

Donald Trump

00:49:43

But you'd have to triple your hospitals, and you wouldn't be able to do that. And it could never be what they, what they give. So it's, uh, pretty amazing. So we're going to take care of them, right? It's going to be good. We got so much. We got so much. We have so much liquid gold.

Donald Trump

00:49:59

We'll just take a little bit of extra. Think of it. Think of it. More than Saudi Arabia. And, you know, I had approved and then Biden ended it. Anwr. ANWR is the biggest fund. It's in Alaska. The biggest. Everybody. Every president for years. Uh, Ronald Reagan couldn't get it done. Nobody could get it done.

Donald Trump

00:50:21

They all tried. I got it done. All that. This guy gets in. He gets in and he terminated it, like, immediately. He terminated it. But we're going to get that going. That would supply all of Asia. It would supply all parts of Europe. It would be. We would make so much money. We have such great wealth.

Donald Trump

00:50:40

We have, but we have to use it. We don't need to buy our oil from Venezuela. Can you believe it? To rapidly reduce inflation, I will end common war on American energy. And we will, um, drill, baby, drill. We're going to be drilling. We are going to be drill. And I will cut your energy prices in half within 12 months, 50%.

Donald Trump

00:51:10

12 months from January 20th. That's when we assume the office of president. Assuming we win. We got to win. You got to get out. You got to vote. Crazy things have happened. But you got to get out and vote. Otherwise, we're. We didn't win anything yet. All we're doing is we have a nice lead.

Donald Trump

00:51:27

We're heading down. We're heading down the home stretch. But, uh, you got to get out. You got to vote. You got to bring everybody, you know, just make it. And by the Way the bigger the victory, the more it looks like we can do the kind of things we want. So. And as

we rescue our economy, I will also restore our borders.

Donald Trump

00:51:49

We're going to restore them. You know, we had the safest borders and would you drop if you haven't drop my all time favorite chart. I love this chart. I love this chart. I wouldn't be here if it wasn't for this chart. Where the hell I love it? I go to sleep with it every night.

Donald Trump

00:52:13

I hug it, then I kiss it. My wife says, what the hell are you doing with that damn chart? No, if I didn't turn to the right, I wouldn't be talking to you. And I go, bing. That chart was over there. It's always on my left. Tonight it's on my right, but it's always on my left.

Donald Trump

00:52:32

And it's usually at the very end, not the beginning. And it was like in the first paragraph, first sentence. And I said, let me see the chart. I was talking about how well we did with illegal immigration. And uh, that's what came down. I looked to the right. If I didn't look to the right, I wouldn't be looking at you at all right now.

Donald Trump

00:52:49

So it was pretty amazing. So I love that chart. But, but. So if you look at the arrow on the bottom, that's when I left off. That was the day I left office. That was the lowest in the history of the border, illegal immigration. That was the lowest point. We had the border fixed.

Donald Trump

00:53:10

It was so good. All this stupid person had to do is leave it the way it was. We had remained in Mexico. You couldn't come into the country. We had catch and release into Mexico, not into the US we had everything perfect. And then they decided to just blow everything up. It was so sad.

Donald Trump

00:53:29

Do you think it was easy to get remain in Mexico? For Mexico? Not that easy. Although they were nasty. But I was much more nasty and they agreed. Tijuana was probably the fastest growing town in the history of the world. Tijuana was growing at levels that nobody's ever seen anything grow. And it was all in Mexico.

Donald Trump

00:53:48

They couldn't. And by the way, they couldn't get by. You know why? Because I built the wall. But that chart tells you. And look what happened as soon as I left. It looks like an Elon

Musk rocket ship. Look at that. It went from the best numbers in history to the worst numbers in history.

Donald Trump

00:54:10

And all of those criminals started pouring in. There were criminals, massive numbers of criminals. And I said that was going to happen. I know all the guys that had all those countries, but it's much more than South America. It's from all over the world. But I know all those guys. They're very smart.

Donald Trump

00:54:24

They're very street smart. They're very savvy. They're like your governor. They're savvy. He's a savvy guy. You know, he has that nice way. Hey, how you doing? Hi, I'm Glenn. Hi. Hi. He's a killer. Okay. I say that affectionately. Hi, I'm Glenn. Hello, everybody. Nice guy. Oh, he's a killer. Okay. Trust me.

Donald Trump

00:54:43

You know, that's a compliment. It's a compliment, but it is. He's smart. But they're smart people. And they are. They're street wise. Uh, I said, if you have an open borders policy, every country in the world is going to drop their prisoners into our country. And that's what happened. They're criminals, they're gang members, they're drug dealers, they're terrorists.

Donald Trump

00:55:05

They're all in here. You know, I had. In 2019. I don't even believe this number. Border patrol numbers. They had zero. Terrorists, zero. The next year, they had 11. My years. Two of my years, two of my four years. This is after I got it really fixed and really good. Think of it.

Donald Trump

00:55:22

11. That's not a lot. It's dangerous, but it's not a lot. But they actually had zero. I don't even believe that. I don't. I think somebody had it, but they had it at zero. Now, um, you look at it. They come in by the thousand. The worst. The worst terrorists in the world are in our country from the Middle east, from all over.

Donald Trump

00:55:42

And nothing good is going to happen here. Nothing good is going to happen. These people are so. What they've done to our country is unthinkable. It's the single biggest problem that we have. And we're going to fix this problem, and we're going to fix it fast. Thank you. Over the past four years, Ms.

Kamala has orchestrated the most egregious betrayal that any leader in American history has ever inflicted on our people. She has violated her oath, eradicated our sovereign border, and unleashed an army of, uh, gangs and criminal migrants from prisons and jails, from insane asylums and mental institutions. You know who comes from the insane asylums.

Donald Trump

00:56:31

You know who it is, right? They always give me a hard time. Hannibal Lecter. The great head of a. Lecter. You know, the press to show you how bad they are. Um, I'm talking about insane asylums. And then I'm talking about Annabelle Lecter. A little light hearted humor about a very unfunny subject.

Donald Trump

00:56:51

And they always go, he always brings up Hannibal Lecter. What does that have to do. It has to do with the fact that these are the kind of people coming into our country from insane asylums. That's what I said to. They always say, oh, he's, he's rambling. But now most of them realize that it's the weave.

Donald Trump

00:57:12

And nobody else can do a weave like Trump. No, um, Joe Rogan said it the other day. Day we did a great interview. He's a great guy. And I started talking about something and then I went to another very pertinent subject, but it was, you know, related, barely. Bing and bing, bing, bing.

Donald Trump

00:57:31

And he goes, that's brilliant. That's the weave, isn't it? I said, that's the weave, Joe. Huh? But they come from Venezuela to the Congo and they're stealing countless of American lives. I mean, they're stealing American lives. They're. In other words, they're just killing people. These are violent people. The only thing good is they make our criminals look like nice people.

Donald Trump

00:57:52

These are killers and they're just killers. You know all about MS.13. You have an MS.13 problem. I'm going to work with your governor and we're going to get MS.13 out of Virginia within one month. One month. And you know what? Uh, she wants to defund ice. Think of that. She wants to defund.

Donald Trump

00:58:22

If we didn't have ice, I couldn't make that promise. I'll get them down here in force. They're

going to clean out this state and we're going to get them the hell out of here in one month. But today I want to hear directly from a mother and I'd like you to, uh, just listen because this is a such a sad thing.

Donald Trump

00:58:45

This is brand new from a couple of days ago. And, uh, the people that I was in a room of people when they first put the tape on, because you have a lot to choose from. There's so much crime and so much horrible crime with the migrant crime, I call it migrant crime.

Donald Trump

00:59:00

And, uh, we saw that and I had some of the toughest people and like 75% of them were absolutely crying. All over the place are men that probably haven't cried since they were a baby. Maybe they didn't cry even then and they're crying all over the place. But I'd like you to take a look at this and it's so unnecessary.

Donald Trump

00:59:17

It should have never happened. Please. Thank you.

Speaker D

00:59:21

Sunday night, I asked her to not stay up super late because of her coming to work with me in the morning for us to do her summer school. She said okay. I told her good night and I love you. I went to bed not realizing that that was going to be the last time I saw her.

Speaker D

00:59:41

We're best friends.

Donald Trump

00:59:45

I'm going shake it again.

Speaker D

00:59:48

I woke up to notice she wasn't in her bed. I'm in my heart trying not to lose my mind because I don't know where she is. I finally remembered her phone had a location on and her phone was pinging just two minutes down the road, right behind the skate park. I start driving to the direction the phone was being pinged at and I see a couple cop cars with lights on.

Speaker D

01:00:17

I see yellow tape and immediately my heart drops and sinks to the bottom of my stomach.

My daughter's hands and ankles were both bound. She was strangled to death with left with no pants. And I know in my heart she fought incredibly hard. She was not going down without a fight.

Donald Trump

01:00:48

We begin with two men.

Tammy Nobles

01:00:49

We're learning our charged with capital murder tonight.

Donald Trump

01:00:51

Accused of killing a 12 year old girl.

Speaker E

01:00:54

Police say these men strangled her before dumping her into that creek.

Donald Trump

01:00:58

Both men were in the country illegally, apprehended, then released by border patrol less than three weeks before Jocelyn's death. Uh, the men accused of killing Jocelyn Nungare are affiliated with the gang known for brutal violence.

Speaker D

01:01:11

Kamala Harris was in charge of immigration in our borders. If we had better border policies and not open borders and not these catch and release policies, I truly believe this all could have been prevented under her being vice president of this country. My daughter's life was ripped away from her. She had her entire life ahead of her.

Donald Trump

01:01:38

Happy birthday. Hey.

Speaker D

01:01:40

Dear Jocelyn, my daughter is six feet in the ground based off of policies that she allowed to keep. Kamala Harris did have one job and she not only failed, not me, she failed my daughter. She failed Jocelyn. She was only 12. President Trump reached out, gave me his sincerest condolences. As not a former president, but just as a father, someone who cares.

Speaker D

01:02:14

I believe Donald Trump needs to be back in office. I can at least know that my next child will be safe in this country.

Donald Trump

01:02:36

So sad, so unnecessary. Would have never happened if you had like the chart shows, you would have never happened. What a sad, sad situation. Here today is another American mom, Tammy Nobles and her wonderful husband, Jeremiah. Two years ago, Tammy's 20 year old daughter Kayla was found raped, tied up and strangled to death with a Telephone cord in her home in Maryland.

Donald Trump

01:03:09

Kayla's murderer was an illegal alien MS.13 gang member who was apprehended by border patrol. But under the policy of Kamala Harris, he was released into the United States to kill and kill at will. Tammy, please come up. Thank you. Mhm.

Tammy Nobles

01:03:50

I would like to take this opportunity to thank President Trump for inviting me here today and bringing Kayla's story. To all of you, he brings real people and real stories. Kayla celebrated her 20th birthday three days before she was murdered. She was struggling with autism, um, and obstacles. She finally found a job that she could do and that she could do well.

Tammy Nobles

01:04:18

She had two jobs. She loved animals, especially her cat Oreo. She loved going to church, and she loved God. Department of Homeland Security did not do their job. Health and Human Services did not do their job. The Biden and Harris, um, administration did not do their job. If they would have made that one phone call to El Salvador to know that her murderer was an Ms.

Tammy Nobles

01:05:04

M13 gang member and had a criminal record in 2020 for illicit gang activity, he, my daughter would still be alive today and he would not have been allowed to even cross this border. Health and Human Services did not verify his sponsor. Under the Biden Harris administration, ICE refused to retain him until DNA results came back.

Tammy Nobles

01:05:39

Guess where he got to go? Child Protective Services put him in an unsecured group home with other children and enrolled him into two different Maryland high schools. He was in school in Maryland with other people's children, putting those children at risk. I am Kayla's

voice. For those that have not voted yet, please think of Kayla and the countless others who lost their lives to an open border.

Tammy Nobles

01:06:18

Thank you.

Donald Trump

01:06:36

Thank you very much, Tammy. So many, so many. Well, we're going to, we're going to do that. So many stories like that. It's, uh. You could go on all day, all night, forever. And this is just the beginning. You haven't seen anything. These people, they don't do anything. They're oblivious to it. They don't even treat the people that have been so badly hurt.

Donald Trump

01:07:00

They don't even call them. They don't talk to them. They couldn't care less. It's incredible, actually. I don't get it. Nobody gets it. But we will hold Kayla's memory in our hearts forever. It's a story like so many other stories and many different forms of crime. There's gang crime taking place. There's crime that we've never seen.

Donald Trump

01:07:27

There's some crimes that we've never seen anything like it. They run over People in the sidewalk for sport. For sport. See that guy? I'll run him over. Watch. These people are sick. We just can't. We can't have a country like this. When you vote on Tuesday, vote in honor of Kayla and Jocelyn and Laken Riley and Rachel Moran and every American who has been stolen from us by Kamala's open border.

Donald Trump

01:07:55

The day I take the oath of office, the migrant invasion ends and the restoration of our country begins. Because the United States is now an occupied country. Think of this. Think of this. With the United States, we're an occupied country. This is all over. This is in small towns. Look at our beautiful Ohio.

Donald Trump

01:08:22

We have Springfield where they drop 30,000 illegal migrants into a 50,000 person town. Think of it now, just think of it. But it will be an occupied country. We will not have this no longer. And that's going to, that's going to happen very soon. We're going to get them the hell out of here and fast.

Donald Trump

01:08:51

Look at Aurora in Colorado. You have a governor, unlike your governor, he's radical left. So

lunatic is petrified because you have one of the toughest gangs in the world there. And they're taking over large swaths of Aurora and other places in Colorado and all over the country. November 5, 2024 will be Liberation day in America.

Donald Trump

01:09:18

It's going to be a little worse. On day one, I will launch the largest deportation program of criminals in the history of America. I will rescue every city and town that has been invaded and conquered. And we will put the vicious and bloodthirsty criminals in jail or kick them the hell out of their country.

Donald Trump

01:09:42

We're going to get them out of our country. And to expedite removals of, uh, trend day. Aragon, this is said to be the most vicious gang anywhere in the world, although I think MS.13 gives it an awfully good shot. And other of these savage gangs, I will invoke the alien enemies act of 1798.

Donald Trump

01:10:12

And think how far back we had to go because they ran a little different country. They ran it a little bit, a little bit tougher. Then we had to go back to 1798 to target and dismantle every migrant criminal network operating on American soil. And if they come back into our country, it's an automatic 10 years in jail with no possibility of parole.

Donald Trump

01:10:40

And I am hereby calling for the death penalty for any migrant that kills an American citizen or a law enforcement officer. And we are going to protect our law enforcement officers. They protect us. They protect us. And we're going to protect them. We're going to protect them. And I will immediately ban all sanctuary cities in the United States of America.

Donald Trump

01:11:24

And despite all of the damage that Kamala has caused, she has spent the final week of her campaign comparing her political opponents to the most evil master murderers in history. That's us. Uh, she compares us. Then sleepy Joe Biden called our supporters garbage. Called you, me, all of us garbage. We're garbage. And then he tried to get out of it.

Donald Trump

01:11:56

Did you see? He wanted to change the transcripts. Can you imagine? It's like 60 minutes.

Speaker D

01:12:00

So I.

He reminds me of 60 minutes. Let's, uh, change their answers. You ever see that one before? She gave a bad answer. They took the answer out, and they put another answer in. They haven't done that for me, but because I think it'll make you happy. I'll tell you right now, we just sued them yesterday for a lot of money.

Donald Trump

01:12:22

Because we consider it to be. Mr. Attorney General. Um, election interference, fraud. We have a good case. My response to Joe and Kamala is very simple. You can't lead America if you don't love Americans. You can't. They don't love America. And you can't be president if you hate the American people. Everything Kamala says is a lie.

Donald Trump

01:12:54

Her entire campaign. Campaign is one hoax and slander after another. But the only way to stop the lies is to swamp them with the votes. We're going to swamp them like they haven't been swamped before. Kamala has no vision, no ideas, and no solutions. All she can talk about is Donald Trump. Can you believe it?

Tape

01:13:23

Good evening, everyone. Tonight I will speak Good evening, everyone. Tonight I will speak about Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump. Donald Trump.

Donald Trump

01:13:45

Trump. That was the other night. That was two nights ago. She's supposed to be talking about economic development, which she knows nothing about. She kept saying, donald Trump this Donald Trump. She's crazy. She has got a massive and untreatable case of Trump derangement syndrome. There are some people who thrive under pressure, and there are some people who crack under pressure.

Donald Trump

01:14:24

If Kamala can't handle an interview with Joe Rogan, then she can't handle the presidency of the United States. Can't she? She will get completely overwhelmed. Meltdown, and millions of people will die. No, uh, we can't have this. It's not a charity event. Running for president or being president. This is an election for the biggest and toughest job in the history of the world.

Donald Trump

01:14:54

There's no job. Tougher, bigger, more important. We can change the whole world. And for the positive. For the positive. Do you want to lose your life savings because we put a weak and ineffective person in the White House? Do you want to lose your job and maybe your house and pension because Kamala has the economic understanding of a mere child?

Donald Trump

01:15:19

And would you trust Kamala Harris to talk Russia or China out of a war? I don't think so. In fact, they tried that, you know, three days before Russia invaded Ukraine. Right? They tried it. She went and she met with a lot of people. And right after she came back, they invaded. Good job, Kamala.

Donald Trump

01:15:41

Would, uh, have never happened if I was president. Would have never happened. Nothing is more dangerous than to give immense power to a very weak and incompetent person with an extremely low iq. At the end of the day, you need to ask yourself, can you afford to put someone this incompetent in charge of the United States of America?

Donald Trump

01:16:07

On top of it all, Kamala says she would not do one thing differently from Joe Biden. Think of this. You know, right track, wrong track. She's Wrong track almost 90% of the time, the both of them. And yet she says nothing different. Please take a look.

Tammy Nobles

01:16:31

Would you have done something differently than President Biden during the past four years?

Tape

01:16:37

There is not a thing that comes to mind.

Donald Trump

01:16:39

I stood there on the tarmac watching you. Check your watch. The chaotic and deadly US Evacuation from Afghanistan stunned Americans and the world and cost the lives of 13 U.S. soldiers.

Tammy Nobles

01:16:49

Would you have done something differently?

Tape

01:16:51

There is not a thing that comes to mind.

Donald Trump

01:16:53

More than 13,000 illegal immigrants convicted of murder have been caught at the border and then released into the United States. An Afghan national is in custody today after being accused of plotting an election day terrorist attack. The suspect entered the US On a special immigrant visa.

Tammy Nobles

01:17:09

Wrenching new details in the murder of Georgia nursing student Laken Riley. The illegal immigrant suspect, who cops say committed the heinous murder is a Venezuelan national who crossed the unsecured, um, southern border back in 2022. Two men investigators say are in the.

Donald Trump

01:17:23

Country illegally from Venezuela are charged with.

Tammy Nobles

01:17:25

Capital murder and the death of Jocelyn Ngarai, A fifth illegal immigrant accused of attacking two New York City police officers over the weekend showed no remorse or regret. Would you have done something differently?

Tape

01:17:38

There is not a thing that comes to mind.

Donald Trump

01:17:40

Only 18%. You say the economy is in excellent or good condition. US inflation has hit a new 40 year high, increasing by 9.1% over, uh, the financial year, authorities saying train day. Aragua, which has been linked with more.

Tammy Nobles

01:17:53

Than 100 criminal investigations here in the US has now been found operating as criminal enterprise in apartment complexes. Were you the last person in the room?

Tape

01:18:02

Yes.

Donald Trump

01:18:08

Nothing comes to mind. Nothing comes to mind. That's true in our case. Nothing. And it never will. If you want to end this disaster, this horrible trip that we're on, get out and vote Tuesday. Just get out and vote. So we're pleased to be joined by a wonderful guy, and with this name, I really believe he's going to win for the Senate.

Donald Trump

01:18:35

Hong Kong. Do you know who Hong Kong. Come here. Come here. You're doing a great job. Um, you're doing a great job.

Hung Cao

01:18:56

You know, sir, the Italians make this car called Fiat. And it made me think of something. You know what FIAT stands for? Fix it Again, Trump. Joe Biden and Kamala Harris broke it. And we need you to fix it again, Trump. Virginians, look to your left and look to your right. These are your American brothers and sisters.

Hung Cao

01:19:22

These are people I fought and bled for. These are put people that President Trump took a bullet for. We're not done fighting for you. So on Tuesday, when we go out, unlike the left, we're not going to vote for the hatred of one man. We're going to vote for the love of God, for love of family and love of country.

Hung Cao

01:19:53

And, Mr. President, we will deliver 13 electoral votes for you. And I will stand by your side as the next US Senator from the Commonwealth of Virginia, because we need you to fix it again, Trump.

Donald Trump

01:20:09

Um, thank you very much. He's going to do well. You've got to get out. Vote for him. It's a big deal, too. That would be a big one, and he deserves it. A great hero. You know, he's a great hero. Great military hero. A man who's also a hero. My book. A man who's, um, done a spectacular job running your beautiful Virginia.

Donald Trump

01:20:44

He's done a beautiful job. He's, you know, I called him about this. I think. Do you think we should do it? What do you think he said? I'm telling you, we can win. And he's worked so hard on this event. We spoke many, many times, Glenn, didn't we him. Many, many times. And I just want to thank you.

Donald Trump

01:21:01

And I know you spoke before, but if you'd like to come up and say a couple of seconds, or you could just stay where the hell you are. Come on up. Uh, come on. Come on.

Speaker E

01:21:21

Virginia. We had the greatest economy in the world. And Kamala Harris and Joe Bryden broke it. And Donald Trump will fix it. We had the most secure border in the history of America. And Kamala Harris broke it. And Donald Trump will fix it. We had no wars. We didn't have war in Ukraine.

Speaker E

01:21:54

We didn't have war in the Middle east. And China was not threatening Taiwan. Kamala Harris and Joe Biden broke it. Donald Trump will. My friends, America needs Donald Trump. Let's go win Virginia.

Donald Trump

01:22:35

Thank you. You got a great governor. You have a great governor and a great guy. Thank you very much. Also with us, Lieutenant Governor Winsome Sears. Lieutenant Governor, thank you very much. Great honor to have you. Thank you very much. Your Attorney General, Jason Wiz. Jason, what a job, Jason, what a job you're doing.

Donald Trump

01:23:05

Thank you, Jason. Good job. Good victory we had too, huh? Huh? Had a big victory on the voting. That was at the Supreme Court. That was a good victory. Wow. Also, members of Congress, friends of mine, warriors are always fighting and winning. We win a lot in Congress. Ben Klein and Morgan Griffith, thank you very much.

Donald Trump

01:23:28

And congressional candidate John McGuire. John, thank you very much, John. Good luck. And a special guy who's really doing a job. Rich Anderson, Virginia GOP chairman. Thank you. Thank you, Richard. Good job. What do you think, Rich? We're going to make it. You're going to win here, huh? Huh? You better work. We got to.

Donald Trump

01:23:53

Good job. Thank you, Rich, very much. And we have RNC chair Michael Watley is here. Michael Watley. What a job he did. He's doing a job. Thank you, Michael. You know, Michael was the head of the GOP in a place called North Carolina. And we won it easily. And there was no theft.

Donald Trump

01:24:15

He had 601 lawyers working. I said, that's the guy I like for this. And I said, you don't have to worry about the votes, just worry about the theft. And that's all I had because we got plenty of votes. We got so many votes, but we need. We want more. Michael, say hello, please.

Donald Trump

01:24:33

Just raise that beautiful hand. Thank you very much. He's doing a great job. And one of the greatest entrepreneurs in America, Mr. Steve Witkoff. He's a great gentleman. Thank you, Steve. Wherever you may be. Thank you, Steve. Most generous guy. Um, but here are the facts. Kamala is a radical left Marxist, rated even worse than crazy Bernie Sanders himself, even worse than Pocahontas.

Donald Trump

01:24:59

I would say. Kamala destroyed our economy. She was an original creator of Defund the police movement. Is anybody that wants even defund the police for one Day One second is not worthy of being President of the United States. Kamala vowed to abolish ice. She pledged to confiscate your guns and endorsed a total ban on handgun ownership.

Donald Trump

01:25:26

She wants to confiscate. She will confiscate your guns. Would anybody in the room or anybody outside, you have 20, 25,000 people outside. I wish I could show them. Can we show them? Is there a way? Because they are outside, and I mean, they are the greatest people. We got. 25,000. Is there anybody here that would like to give up their gun to Kamala?

Donald Trump

01:25:56

She even called for free sex changes for illegal alien and detention at taxpayer expense. And perhaps worst of all, she never worked at McDonald's. Can you believe it? She's a liar. She's a liar. In conclusion, with your vote this November, we are going to fire Kamala and we are going to save America.

Donald Trump

01:26:31

We will cut your taxes, end inflation, slash your prices, raise your wages and bring thousands of factories back to America and back to Virginia. We're going to get them here for you to lend. You're going to have so many factories, you're going to say, please, Mr. President, we can't handle anymore. We have too many jobs.

Donald Trump

01:26:51

He's going to come to Washington with Hung. He's going to bring Hung Cao, and they're

going to say, we have to see the president. And they're going to say, Mr. President, Virginia cannot handle so much business. We cannot handle it. You're getting too many companies wanting to come in. It's too much. I'll say.

Donald Trump

01:27:11

I'm sorry, Glenn. I want them to keep coming anyway. Ah. Uh, thank you, Glenn, for doing the job. This was a great thing. What a great job you did. This is really, really good. We will build American, we will buy American, and we will hire American, and I will end the war in Ukraine and I will stop the chaos in the Middle East.

Donald Trump

01:27:41

October 7th would have never happened if I were president and I will Prevent World War 3 from happening. We're going to prevent it. And we've never been so close to World War iii. We have never, ever been so close to it with the Middle east all over the place. You know, the great leader of Hungary, Viktor Orban, he made a statement very recently.

Donald Trump

01:28:07

He says it a lot. He said, what's happening with the world? It's blowing up in the Middle East. It's blowing up with Russia, Ukraine. Nobody knows what's happening, what's going on. He said, put Trump back as president. When he was president, there were no problems with the world. We will crush violent crime and give our police the support, protection, resources, and respect they so dearly deserve.

Donald Trump

01:28:38

And we will strengthen and modernize our military. I rebuilt our entire military. Then we gave a nice chunk of it to Afghanistan. How do you like that? What a horrible call. Uh, I think it was the lowest point in the history of our country. 13 dead soldiers. I got to know their parents and relatives a lot.

Donald Trump

01:28:59

Really? Well, they wouldn't even call them. They've never gotten one call from Kamala or Crooked Joe. Never got a call. Think of it. We left billions of dollars of equipment behind. They had a parade the other day. Wasn't that nice? Showing our equipment that they got from the stupid American leader. They had a parade.

Donald Trump

01:29:18

Yeah. Through their main boulevard, showing brand new armored vehicles, brand new tanks, brand new goggles, you know. Thank you. Thank you. What a nice group. Uh, where's that group? Let me see. Stand up. Let me. Whoa. We're going to get you a better

seat next time. You're right at the top row. We will build a missile defense shield around our country.

Donald Trump

01:29:50

It's going to be made, a lot of it right here in Virginia. It's going to be made in the usa. We're going to rebuild our cities, including our capital in Washington, D.C. making them safe, clean, and beautiful again. We will get critical race theory and transgender insanity the hell out of our school.

Donald Trump

01:30:14

And we will teach our children to love our country, to honor our history, and to always respect our great American flag. I will defend religious liberty. I will restore free speech, and I will defend the right to keep and bear arms. After years of building up foreign nations, defending foreign borders, and protecting foreign lands, we are going to build up our nation, defend our borders, and protect our lands and our citizens.

Donald Trump

01:30:51

And we will stop illegal immigration once and for all. We will not be invaded. We will not be occupied. We will not be overrun. We will not be conquered. We will be a free and proud nation once again. Everyone will prosper. Every family will thrive, and every day will be filled with opportunity and hope and our beautiful American dream.

Donald Trump

01:31:18

We're going to have our American dream back very soon. But for that to happen, we must defeat Kamala Harris and stop her radical left agenda with a landslide. That is too big to rig. You have to get out and vote. That's all you have to do. I'm one of the few politicians that comes up like, can you believe I'm calling myself a politician?

Donald Trump

01:31:44

I never. I just realized that's a terrible think to say, but I'm one of the few politicians that, uh. I don't want your money. I don't want anything. I just want that vote. You got to get out of the vote. I don't want your money. For the past nine years, we have been fighting against the most sinister and corrupt forces on earth.

Donald Trump

01:32:06

We have very, very evil people and forces. With your vote in this election, you can show them once and for all that this nation does not belong to them. This nation belongs to you. It belongs to you and you. It was hardworking patriots like you who built this country. And three days from now, it is hardworking patriots like you who are going to save our country.

Donald Trump**01:32:36**

After all we have been through together, we stand on the verge of the four greatest years in American history. They will be great years. And we're starting from so far behind. But they will be great years. With your help, from now until election day. Four days, even less. We will restore America's promise.

Donald Trump**01:33:00**

And we will take back the nation that we love. We are one family, one people. And one glorious nation under God. We will never give in. We will never give up. We will never back down. And we will never, ever surrender. Together, we will fight, fight, fight. And we will win, win, win.

Donald Trump**01:33:22**

Thank you. We will win, win, win. Thank you. Thank. November 5th will be the most important day in the history of our country. And together, we will make America powerful again. We will make America wealthy again. We will make America, uh, healthy again. We will make America strong again. We will make America proud again.

Donald Trump**01:34:10**

We will make America safe again. And we will make America great again. Thank you, Virginia. Thank you very much. Thank you. God bless you all. God bless you. Thank you. Thank you, Virginia.
