Ladies and gentlemen, please welcome the next President of the United States, President Donald J. Trump. And I'm proud to be an American where at least I know I'm free. And I won't forget the men who died who gave that life to me. And I gladly stand up next to you and they met her still today.

00:07:56

Cause there ain't no doubt I love this land. God bless the USA from the lakes of Minnesota to the hills of Tennessee across the plains of Texas from sea to shining sea. From Detroit down to Houston and New York to la where there's pride in every American heart. And it's time we stand and say that I'm proud to be an American where at least I know I'm free.

00:08:53

And I won't forget the men who died who gave that life to me. And I gladly stand up next to you and defend her still today. Cause there ain't no doubt I love this land. God bless the USA.

Donald Trump

00:09:20

And I'm proud.

To be an American where at least I know I'm free. And I won't forget the men who died who gave that life to me. And I glad they stand up next to you and defend her still today. Cause there ain't no doubt I love this land. God, just for you.

Donald Trump

00:10:01

Thank you very much. Thank you very much. Much. I am so sorry. Here's what they wanted to do. We got so tied up, and I figured you wouldn't mind too much because we're trying to win. And I got interviewed by, actually a great guy. I didn't know him too well, but I got to know him because it was the longest interview I've ever done in my life.

00:10:29

Joe Rogan, a good guy. And it's, you know, it's quite something. And we had other things really important. And I said, you know, we're going to get this stuff done. And my people came to me, sir, we could cancel our evening event. I'm sure the people wouldn't mind. I said, are you crazy?

00:10:51

I'm not canceling. There's no way. I'm not canceling. There's no way. We never even. So I apologize, but, you know, it's all about winning. We got to win. And we did some things today that will help us win. I think we did a lot of taping. A lot of this, a lot of that, a lot of everything.

00:11:10

And we're way up. I'm not supposed to say that, but we're way up. Not only the polls, but the early voting, I guess we're leading in all seven swing states. But, okay, forget I said it. Forget it. Because everybody has to go out and vote. Who's voted so far? Who's going to vote?

00:11:40

I always figure you like to vote a little bit late. This party just likes to vote a little bit late. And that's okay. I understood it. I never went crazy over the one or the other. But we're leading, actually, in places where traditionally the Republicans don't lead. In fact, they can go down 30 and then they catch them at the end, Right?

00:12:00

But a little scary, a little spooky. But we're leading in just about everyone, right? Just about everyone. And it's usually they lead and then we catch them, and then we. In our case, we usually beat him. We did great in 2016. We did much better in 2020. But, you know, a lot of bad things happened there.

But this one, this one blows it away because we've never had enthusiasm like this. And part of the reason is they're so bad. You got a little dose of bad management. You got a little dose of incompetent people. You know where she is tonight? She's out partying. So Israel is attacking. We got a war going on, and she's out partying.

00:12:45

At least we're working to make America great again. That's what we're doing. Kamala. Kamala. He's the worst president in the history of our country. She's the worst vice president in the history of our country. She was on CNN the other night, two nights ago. She couldn't put two sentences together. This is not going to be our president.

00:13:10

We better not let that happen. It'll be the end of our country. So I want to say a very big hello, Michigan. I'm thrilled to be back in this incredible state with thousands of proud, hardworking American patrons. And I'd like to begin by asking a very simple question. Are you better off now than you were four years ago?

00:13:32

Yes. Thank you all very much. We're going to have a good time. Look, I figured if it was a little bit later, it wouldn't matter. It's a Friday night. Right? But you lose total track. Remember when Biden used to get up and it say, it's great to be in Idaho, sir? You're in New Hampshire.

00:13:55

Oh. You know, if you do that, if you make that mistake, it doesn't matter. Winston Churchill was a great speaker. If you made that mistake, it doesn't matter who it is, the evening's over, you're dead. But he used to make it all the time, right? It's Great to be in Florida. And then you'd see it be Vermont or someplace crazy.

00:14:17

But we've gone through with this group of incompetent people. And you know what? We couldn't stand four more years. Or you couldn't stand another. I'm not sure we can stand another three, four months of it. You want to really know the two? But I'm here today with a message of hope for all Americans.

00:14:33

With your vote in this election, I will end inflation. I will stop the invasion of criminals into our country, and I will bring back the American dream. We're going to bring it back, and this is all you really need to know. They broke it and I'll fix it. We're going to fix it, and we're

going to fix it fast.

00:14:58

We're going to fix it fast. With your support, on November 5th, America will be bigger, better, bolder, richer, safer, and stronger than ever before. We're going to be. We're going to do it. We got a lot of. A lot of work to do. You know, when they allowed 21 million people to come into our country in three and a half years?

00:15:19

Think it was much more than that. I believe they have no idea. Nobody even has any idea. You don't even know how big the country is. Is it 325? Is it 350? Many. You know, countries usually know approximately what size they allowed so many people. You have no idea how big the country is.

00:15:34

But we'll figure it out. But we're going to get rid of the bad ones real fast. We have to. We have no choice. And this election is a choice between whether we will have and whether we're going to have four more years of incompetence and failure, or whether we will begin the four greatest years in the history of our country.

00:15:53

We're going to do that. That Kamala Harris. Kamala. Kamala. She's so bad, you know? No, no. She's so bad. Can you imagine President Xi? He's a fierce person. Somebody said, what's he like? I said, he's fierce. He walks in, we say hello. So we will immediately get back to work. You know, he's fierce.

00:16:25

There's no games. You know, there's no games. When he sees this, he can't believe it. I guarantee you that. What the hell has happened to our country? So I say this. They say the biggest thing on the polling, the biggest thing they have is the economy, and then they have inflation, and then they have the border.

00:16:43

And I disagree. I think the border is number One, I think the border and the inflation is terrible. And the economy stinks because of the inflation. It stinks because of the inflation. But I think the biggest thing is the border because they've allowed millions of people to come in from prisons and from mental institutions and destroy our country.

00:17:05

And we're not going to let that happen. But I really believe. Does anybody agree with that? Because I do. Kamala Harris is leading a hate campaign now. She's got a new thing going. You know, I think now they're calling me a dictator. So they started off where I was a dictator. None of it worked.

00:17:22

Then they went to he's an evil genius. That didn't work. Then they went, he's a dumb son of a bitch. That didn't work. That didn't last long. That didn't last too long. Then they went back to the dictator stuff. They don't know what they're doing. Those poor people, those poor lost souls. They're like lost souls.

00:17:42

They're radical left lunatic Democrats. And they all suffer from Trump derangement syndrome at a level. And she's joining. I saw Hillary today. We're having a big thing on Sunday at Madison Square Garden. And I guess in the 1930s or something, some guy who was inclined toward the Nazis had something and she said, it's just like the 1930s.

00:18:10

No, it's not. No, no, no. This is called Make America Great Again. That's all it's called. This is not right. You know, Hillary conceded. I don't know what's going on with her. 3:00, 3:01 in the morning, she called me and she conceded. I don't have to tell you the whole story, but she concede.

00:18:29

I don't want to be rude to her. Why would I be rude to her? She's rude to me. Why wouldn't I be rude to her while I am. You know when the crowd used to shout, lock her up. Lock her up. They shout, lock. And I used to go, right, just relax, we're going to win.

00:18:45

And then we won. And they still said, lock her up. And I said, just relax. We just won. Just take it easy. Because I couldn't see the wife of a president of the United States being put in the who's gal, right? I couldn't see it. Being put in jail, being put in prison.

00:19:02

And, you know, she was also Secretary of State. And I hear her talking like, you know, there's never been a man investigated like Donald J. Trump. Not Al Capone, Alphonse Capone. If he had Dinner with you and didn't like you, you were a dead person. I spent more time under investigation than Scarface, Al Capone, but it's amazing.

So there were a lot of people that wanted to put her in jail. They didn't give a damn. I said, no, you can't do that. The wife of a president. And then I get in there and they go after me, these animals, these dirty anim. Animals. I'm leading a movement of optimism and confidence and hope.

00:19:44

And I'm asking you to be excited about the future of our country again. Because there's nothing to be excited with these idiots running. You're going to start thinking about the big dream and the American dream. You're going to start dreaming again. And this will be America's new golden age. We're going to make it the golden age.

00:20:04

We have a little bit of a, you know, we're sort of behind the one yard line. We got to get rid of some of the problems that they've caused. But the reason the enthusiasm is so good is because of that. If we would have done it the more traditional way, like you win and you win and then you retire, I guess, for the rest of your life, right?

00:20:23

What the hell. So we won and we won, but they said, I'm sorry. And then we won again. We weren't thinking. It will say we won three times. But we don't want. We don't want the results of the second. We don't want those results. But we're going to clean up the results of the second.

00:20:44

And we're going to clean them up good. Because the results of the second, you take a look at the crime in our country. Take a look at the crime. It's never been like this. When I was debating that fake newscaster on abc, David Muir, a fake. A fake sleaze bag. I don't watch him anymore.

00:21:07

Everything I'd say, he'd say, well, no, no, I'd say crime is through the roof. It's rampant. He said, no, no, crime is down. I said, only a stupid person would say crime. You don't have to know anything. You don't have to see statistics. The crime is up. And then when you add the migrant crime, which is going to make even our crime look like peanuts.

00:21:26

And by the way, these migrant criminals, the only thing good about them is they make our criminals look like nice people, very nice people. Every problem facing us can be solved. But now the fate of our nation is in your hands. And it really is, you know, if we win,

Michigan we win the whole thing, and you have to vote for me.

00:21:52

I just killed the biggest car plant anywhere in the world in Mexico, owned by China. I just killed it. It's dead. It's dead. Detroit would have closed up. This thing's so big. And I heard about it. I've been talking about it. I've been up here a lot. I talked in front of the Detroit Economic Club.

00:22:16

It was very nice. And I talked about these plants that are being built in Mexico, near the border. They're going to make cars and sell them into the United States. It's going to be like making crackers owned by China. And they were going to come through and they were going to destroy your business up here.

00:22:35

You've already. I mean, your business over the years. Look, over the last 30, 40 years, it's been decimated compared to what it was. We're going to bring the car industry back to Michigan. We're going to bring it back to Detroit. But I heard about this big one in particular, but. But just these massive plants going to be built, and they're all set.

00:22:54

You heard the story. A friend of mine, he builds plants. I said, take me to a plant. I want to see a plant. He said, we'll have to go to Mexico. I said, I want to see one in the United States. He said, well, there's no big one being built by comparison. You want to see the big ones, you got to go to Mexico.

00:23:08

I said, you got to be kidding. What's this all about? He said, no, we're building some really big ones for China. So I immediately thought. I said, how do we kill those suckers? And I said, we're going to put 100, 200, 407. We're going to put the biggest tariffs. There won't be one damn car that's going to be able to come through our border.

00:23:32

And I said, I announced it. And at the club, I announced. And then, you know, a week ago I was. Two weeks ago, I was at an event, and I look and I see the guy's name is John. Great guy. He's the big guy. He's the one that builds a lot of the plants, most of them.

00:23:50

He's really amazing, actually. That's what he does. If you. If he had to build a little

apartment someplace, I don't know if he could do it, but he can build a plant that's two miles long and he's great at it. And I said, how's that plant come? This was a year ago. The first time I met Him.

00:24:08

And he said, well, sir, they just can't canceled the plant. Who just canceled it? China and Mexico is furious. Why are they furious? Because the plant was canceled. I said, really? They can't. Why did they cancel it? Because they said they thought you were going to win and that if you win, you're going to put big tariffs on them and they're never going to sell any cars into America and destroy, destroy Detroit.

00:24:32

And they just canceled it. So we're happy, right? I just found out about it a few days ago. So we just killed what would have been the biggest plant probably anywhere in the world that was going to destroy the state of Michigan. So you're going to now vote for Trump because let me tell you, Kamala is never going to be doing that.

00:24:52

Kamala doesn't know she's alive. If you watched her, if you watched her being interviewed by Allison Cooper the other night, who's a nice person. Do you know Allison Cooper, CNN Fake News. Oh, she said, no, his name's Anderson. Oh, no. If you watch that interview, you would never want her as your president.

00:25:21

She couldn't answer the simplest question. What's going to be the first thing you think about? What are you going to do? I grew up with a beautiful lawn. She said that in the debate, too. The same stuff I had David Muir and that other one. I don't even know who the hell her name is.

00:25:43

I don't want to know her name. Somebody said, oh, we'll get her name. So I don't said, I don't want to know her name. Why would I want to know her name? Just say madam. No name. But they were hitting me left and right. They're the worst, I'll tell you. Actually, ABC might be the worst.

00:25:57

But I think 60 Minutes has really topped it, though. 60 Minutes interviewed Kamala and she was incapable of answering questions. And they took the main question like one of the early but a big question they asked and it was, I don't like the word word salad. It's like

stupid. But it was just a big jumble of words.

00:26:20

It was just like rambling on. It didn't go anywhere. And okay, they asked a question, they took it out, threw it away, and they put a brand new answer in that was a fake answer, didn't even pertain to that question. And they got caught. And to me, it's the biggest scandal in broadcast history.

00:26:42

It's election interference, fraud. And 60 Minutes should be taken off the air. They should. And CBS should lose its license. You know, the government, the Government gives us license to NBC Fake News, ABC Fake News, and CBS Fake News. They have to. They have to pay. If they had to pay, they'd pay billions of dollars.

00:27:08

They get them for nothing. They pay nothing. They're Public Airways. They pay nothing. And you know what the one thing is, you have to be honest. And they were very dishonest. And ABC was very dishonest with David Muir when he just never asked her anything. Everything I. Boom. They would criticize. And they were wrong on, I think all of them.

00:27:29

And all of her answers were wrong. They never questioned her. This is interference with an election. But worse than that, I think, honestly, was 60 Minutes. They took her answer out and put a new answer in. Do you think they'd do that for me if I gave a bad answer? You know what they do with me?

00:27:51

I give a long, beautiful, flowing, weaving answer. It's the weave. I call it the weave. Very complex. You have to be very smart to do it. The main thing is you have to end up in the right location. If you end up out here, that's no good. But they call it the weave.

00:28:06

What they'll do with me is they'll take out a piece and another piece, you know, and that's bad. But it's not like they can say, well, we want to shorten the answer. We, you know, we have time, right? We need time. But they took this, and so I think it's the worst thing.

00:28:21

And we're going to be suing them because. And I'm suing them on behalf of you. I'm not suing them for me. I'm not suing them for me. I'm suing them for you because that's.

That's really a fraud on the American people. So why should they get a free license and they do that, sir?

00:28:38

They're so biased. It's so disgusting. And you don't get the real picture of a candidate when they do that. You don't realize she's close to a moron. Okay? You don't realize that because they give you another answer. It wasn't a great answer, but at least it was, like, semi normal. So we're going to probably sue him.

00:28:56

I think we're going to sue him. Should I sue him or not? All right, stay tuned. Stay tuned. It'll happen fast. It's such an easy thing. How do you go. How do they go to court and say, well, you, Honor, we did, but, I mean, that was a big thing. How do you.

00:29:14

It's got to be very embarrassing. For them. They have no answer. They actually said they have no answer for it. They got caught cheating. And we want the rest of their answers because they probably did it with other answers, too. Right? Because this woman, can you imagine this? Is going to be your president.

00:29:30

I don't think so. Michigan, you have to stand up and you have to tell Kamala Harris that you've been a horrible, horrible vice president. You've destroyed San Francisco when you were the D.A. you were horrible as the attorney general working with Gavin Newscom. You destroyed California. You're a disgrace to your nation. You shouldn't be running for president.

00:29:57

You picked the dumbest vice president in history, maybe even dumber than you. This guy is the dumbest guy. What a choice. Somebody said you got lucky, sir. Why they picked this guy? He's dumb as a rock. Of course, you could make the case that, you know, there's a theory. Pick a really bad vice president.

00:30:19

That way they never get rid of you. So maybe she did a very smart thing. Who knows? But we're going to say, kamala, you're horrible. Kamala, you're fired. Get the hell out of here. You're useless. You're horrible. You're horrible. I'll tell you what. Can you believe, though, she's out celebrating. You know what?

She's. How do you celebrate when you're down by, like, a lot? Do they realize it? Because, you know, the votes are so. This isn't even polls anymore. These are the votes of, you know, and if they come in, even. Not like they're coming in now, even, you know, less good. But. And, you know, things can happen.

00:31:05

Number one, they cheat like hell. So maybe they know something that we don't. Right? They might know something that we don't. I don't know. Why the hell would she be celebrating when you're down? Maybe never thought of that. Maybe she knows something we don't. But we're not. We're not going to let it happen.

00:31:21

We're not going to let it happen. Can't let it happen. But the polls are open for early voting here in Michigan, and we're setting all time records in the votes. You know, the votes. We are setting all time records in the votes because people look at this place. I mean, it's. What is it?

00:31:38

What time is it tonight? What the hell? What is it? Huh? Right? It's 11. He said it's 11. I mean, it's freezing out. Is anybody cold? I'm not cold. I'm not cold. So we're setting records with the votes, the early voting is records. The Trump people are coming out, they're voting like crazy.

00:32:04

And, you know, typically we get our voting, the big voting that we get is at the end. So we were anywhere near tied. And that's. We're more than tied. We're going to have a big time. It's going to be the greatest. It will be the single greatest political victory in the history of our country.

00:32:22

Right? Maga. Make America great again. So let's keep going. Don't let up. I shouldn't have told you what I told you tonight, but now, now I have an excuse. I said, well, we made a mistake. No, no, I shouldn't have done. They said, don't tell them, sir. Don't let them keep. You have to vote anyway because you can't trust them.

00:32:43

Right? Too big to rig. Too big to rig. We have to bury the hatred and the lies and the avalanche, and we have to do it in an avalanche of votes. And every time you see a smear, every time you hear them attack, take the motivation to go out and vote, vote, vote.

You just go and vote and get your friends and tell your girlfriend she's got a husband, he's a big slob of a guy, and tell him to get the hell off the couch. Harry, you big slob, get off the couch. We're going to vote for the president. We're going to make America great again.

00:33:21

We're going to make it great. Got to get them. Got to get them. With your help. Eleven days from now, we're going to win Michigan. We're going to defeat Kamala Harris, and we're going to make America great again. For generations, this state was the beating heart of the car industry and one of the greatest manufacturing centers anywhere in history.

00:33:54

Yes. Okay, Doctor, please. Doctor. Thank you. Take your time, Doctor. Take your time. Plenty of time. Time.

Tape

00:34:42

USA. USA. USA. USA. U.S.A. uSA. USA.

Donald Trump

00:34:53

Are they okay? Everybody okay? You all right? You let us know when we got plenty of time. We love our people. They have a little problem. They have a little problem. We're okay. We'll wait. We don't give a damn. Right? I'll tell you, we have such great doctors in these audiences. You know, you need a doctor, and those doctors are all over.

00:35:25

They're great doctors, too. Great, great doctors. How's that going? Let's go. Okay, thank you. Let's go. But year after year, globalist politicians like Kamala Harris sold you out. And they let other countries loot, pillage and plunder our wealth, our jobs, and our Dreams. They just stole it from us like we're a bunch of babies.

00:35:54

40% of Michigan auto jobs were annihilated after NAFTA, the worst deal, trade deal ever made. And I terminated it, by the way, if you don't mind. For the usmc and China's entry into the World Trade Organization was a disaster for this country. And they got all sorts of favorable trade status. They said they were a developing nation.

00:36:18

Well, Detroit's a developing area. You can't say Detroit is exactly. You know, when I said

the other day last time I was here, I said, we got to bring Detroit. Because honestly, for 45 years I've been hearing Detroit, Detroit to we're going to make it great. But when I sort of gave it a little knock, I said, let's face it, we've been ripped in Detroit.

00:36:41

We got to make Detroit. They said he was disparaging. I'm not disparaging. I'm telling you the facts. You need businesses to come back into this place. You need businesses. Otherwise, forget it. You can't. You can't make it. And people have to understand that. I guess probably a couple of politicians were hurt by that.

00:36:59

I said, don't be hurt. You'll be happy when we have auto plants moving in all over the place. Because we're going to do tariffs and we're going to do tax incentives and all this. You'll have so many plants and so many jobs, your head will spin. We're going to be bringing back the companies that we lost.

00:37:16

We lost companies that were just so stupid. How we lost them. And we lost them because we had dumb politicians. They're all coming back, every single one of them, because they want to be here. Under Kamala, the United States has lost 50,000 manufacturing jobs just in this year alone. You didn't know that, right?

00:37:38

US car sales are down 38% since I left office. Think of that. So you lost 50,000 jobs this year and the car sales down 38%. I mean, a little more yet. 50. Just think of it. Almost 50% if you think in just a short period of time. So where the hell are you going?

00:38:01

You have this union guy. They want to make all electric cars. We're going to end the mandate for electric cars on day one. On day one. And electric cars are great. And Tesla is great. And Elon's great. He is the greatest guy, by the way. He gave me the. And there's a great market for them, but they can't all be electric.

00:38:21

You need. We have liquid gold. We have gasoline. We have oil and gas. We have gasoline. China doesn't have gasoline. And the electric cars are all going to be made in China. That's the way it is. That's the way it is. So we're going to change it around. We're going to have hybrids, we're going to have gasoline powered cars.

We're going to have electric cars. We're going to have everything. Maybe not hydrogen cars. You know why? Because they blow up. And when they blow up, you are not recognizable. I just said today, I said your husband's driving a hybrid and it blows up. Ma'am, would you please come down and identify your husband?

00:39:01

He's alongside of that tree. And you go like this. I don't know if that's him. No, I don't like that idea. They say they work pretty well. That's not good. They work pretty well, but when they don't work, you can forget it. I think we should take them off our schedule. All right, so you got to vote for Trump.

00:39:20

And you will see a mass exodus of manufacturing jobs from Mexico to Michigan, from Shanghai to Sterling Heights and from Beijing to right here in Traverse City. Isn't that a nice, nice place? Nice place. And you people are great. I can't believe it. You know, I figured when I got here, there'd be like 20 people.

00:39:44

And I was ready to do the full look at this place. It goes back. I wish the cameras would show it. These cameras, the fake news. That's a lot of fake news, too. I got to tell you. Look. That's a lot of fake news. I wish they'd show. They never show the crowds, you know, they never show it.

00:40:01

You ever see Kamala's crowd? They put like 10 people. They bus them in. They take a bus and they pay people. People. That's true. They pay people. They don't get people. They put them like that. And the camera always shows those people. I don't know. It's so crazy, isn't it? We don't have buses bringing people.

00:40:19

The people come here and we. And we appreciate that. You stay. Really. I mean, look at that. All the way to the back. Starting in January, we will give our companies the lowest taxes, the lowest energy cost, the lowest regulatory burdens, and free access to the biggest and best market on the planet.

00:40:37

But we're not always going to be the best market. We're close to blowing it. We'll be. We'll blow it and we will lose everything. And we're going to keep our dollar standard by the way 100%. We're going to lose that and we're not going to go into World War 3, little

things like that.

00:40:53

The centerpiece of this plan will be a 15% made in America corporate tax rate, cutting the tax from 21% to 15. Now, I'm the one who's almost 40. I got it down to 21. But here's the key. We're going to cut it all the way down to 15. The jobs are going to be flowing companies because it's going to be about the most competitive rate in the world, but only for those who make their product here in the USA and hire American workers for the job.

00:41:28

You're going to have more people coming in than you would believe. Leave and you will, you'll see. I mean, it's, it's incredible. You know, Wall street, these four or five geniuses from Wall Street Court, they say, where the hell did you get that idea? You get the tax cut, but only if you build the cars here.

00:41:44

The other thing we're doing, I will tell you now, is we get you interest rates, we get you the interest, you're allowed to deduct it when you buy a car, but only if the car is made in like Detroit, meaning the US Anywhere in the USA is okay. But I would like to see it built here because I've been hearing about this experiment, this destruction for 45 years.

00:42:05

I've been hearing about it. And we're going to turn it around. We're going to do it. It's going to be a great legacy for all of us. And if these companies don't make their products here, then they will pay a stiff tariff when they sell. Look, when they put their products into our country, into the United States, for the privilege of competing with our workers, they're taking our workers away.

00:42:28

They're taking our jobs away. They're taking our product and our companies away. We're not going to let it happen. So they're going to have to pay a very stiff price to do that. But what they're going to do is they're going to bring their business here because that way they have no tariff to pay.

00:42:41

It's sort of simple. And it's what China has been doing for a long time. And I've been telling them for a long time. And what they're doing is unbelievable. These politicians, they're either dumb or they're crazy. Crooked. Okay? And I think it's probably a combination of both. We'll also pass the Trump Reciprocal Trade Act.

Reciprocal meaning if China or any other country charges us 100 or 200% tax then we will charge them a reciprocal tax of 100 or 200%. Right now we don't do that. And I was starting it and then we had a little bad election. Result, Result. Would you say, think of what this country would be like.

00:43:24

We wouldn't have inflation, you wouldn't have any wars. Because if you look at Iran, they were broke. They had no money to give to Hamas. They had no money to give to Hezbollah. They had no money and they were. There was no terror. You know, there was four years we had no terror.

00:43:42

Russia would never have attacked Ukraine. They wouldn't have done it. Think of it, we had gasoline at 1. I thought it was 187. It was 184. It was just adjusted 184 a gallon. Think of that. Would you like to have \$1.84 a gallon instead of \$4? I will never apologize for defending America.

00:44:03

I will protect our workers. I will protect our jobs. I will protect our borders. I will protect our families. And you know what I said? They said please don't say that sir. I think women like me, but they say, they say we're doing unbelievable with men. They've never had anything like it. White men, black men, men like me.

00:44:35

They say women don't. And I say they do because. Because we're going to protect. And I said I'm going to protect women and families. I'm going to protect from the criminals coming in from the border. We're getting them out from foreign bad players, from criminals, period. We're going to protect. They said, sir, please don't say you're going to protect women.

00:44:55

Why? Because it doesn't sound really. Well, I said I think it sounds fine. We want to protect. I mean that's our job. We have to protect. So I think I should override my ex experts. Do you agree? We're going to override them, if you don't mind. And I will protect the birthright of our children to live in the richest and most powerful nation on the face of the earth.

00:45:18

And thank you very much. If Kamala gets four more years, she will obliterate our economy,

kill millions of jobs and destroy your family finances forever. That's what's going to happen. You'll end up if this person who doesn't know anything, anything, she wants to raise taxes on everybody. If she gets in, you're going to have a 1929 style depression.

00:45:40

That's what it's going to be. It's going to be a disaster. You see it already. Think of it almost. Look at all the jobs. I just said you're losing all your jobs in three and a half years. They're going backwards. And you had the worst inflation in the history of our country. And when an inflation is a country buster.

00:45:59

But with all of that, the border is worse. The border is worse. I don't give a damn how bad the inflation is. What's coming into our country, the murderers that are coming in, all these people. That's the worst thing. Kamala's inflation nightmare has already caused the typical family over \$30,000 in higher prices.

00:46:18

And now she wants to raise the typical family taxes by more than \$3,000 a year. Lots of luck. All my life I've watched politicians, they say we will lower taxes. This is the only stupid politician. She's going around. She's trying to run. I will raise your taxes. She's bragging about it. I will raise your tax.

00:46:39

I'm saying, am I missing something? I don't know. We have some great people here. We're going to introduce them in a second. And some of the best in the world at exactly what we're talking about. The taxing queen, as she's called, is also demanding a shocking 33% tax hike on all domestic product.

00:46:57

All along the largest capital. She wants the largest capital gain increase in our history. And it's unbelievable. Take a look at this video. You're getting a beautiful video late in the evening. It's beautiful. Play a little music. Go ahead. Kamala Harris is going to significantly raise taxes. Taxes are going to have to go up.

00:47:21

Kamala's plan will raise families taxes by nearly \$2,600 a under Kamala, prices have already soared. Now she'd make it worse with even higher taxes. Taxes are going to have to go up. President Trump will cut taxes again. No taxes on tips, overtime or Social Security. I'm Donald J. Trump and I approve this message.

Thank you. So I am going to massively cut taxes for the workers. And included in that is no tax on tips, no tax on overtime, and no tax on Social Security for our great seniors. And we're going to get it done, too. Did you see where she copied me? Like a month and a half later, I am going to announce no tax on tax.

00:48:18

That's the last time we ever heard of it. Not going to happen. She wouldn't be able to get it passed anyway. We will quickly become energy independent and we will frack, frack, frack. And drill, baby, drill. Right? We're going to drill, baby, drill. And I'm going to cut your energy prices in half.

00:48:37

50%. We're going to cut them in half. In 12 months, we're going to cut your energy prices down. You know why? We have the liquid gold. We can do it. We buy our oil now from Venezuela. Can you believe? Believe it, Venezuela. It's not oil, it's tar. And the only refinery that can do it is in Houston, Texas.

00:48:55

So for the environmentalists out there, that stuff is dirty. That's dirty. And we have the best stuff in the world. The most. We have the most, and we have the best. And we're going to use it. And we're going to cut down on our debt, and we're going to cut down on everything.

00:49:10

We're going to turn this country around so fast. But your energy bills, your car, your air conditioning, your heat heating, your hot water, everything, it's going to be from January 20th, one year. From that, you're going to pay half, and you'll be able to do it. And that's going to bring down other prices, including food prices.

00:49:30

People are talking about groceries all the time. That's going to bring them down. As we restore our economy, we will also secure our borders. Over the past four years, Kamala has orchestrated the most egregious betrayal that any leader in American history has ever inflicted on our people. That's the border. She's eradicated, our sovereign border.

00:49:53

And she has unleashed an army of migrant gangs who are waging a campaign of violence and terror against our citizens. You're reading about it every day. They said, oh, no, there are fine people coming. They're not fine people. They got murderers. You got drug

dealers. Kamala has imported an invasion of criminal migrants from prisons and jail jails, insane asylums, and mental institutions all around the world, from Venezuela to the Congo.

00:50:21

And she's resettled them into your communities to prey upon innocent American people. And, you know, a lot of communities have them, and the ones that don't are even more scared because they don't want them. They don't want them. They're saying, please don't send them. And these are rough. These are rough people. Some.

00:50:39

Some of them are really deadly people. One of the deadliest and most vicious migrant gangs that Kamala has imported into our country is the savage Venezuelan prison gang. Isn't that nice? They formed a group in prison Trende Aragua, very well known. Ms. 13 is another one that's taking over apartment complexes in Colorado and Unleashing a violent killing spree all over America.

00:51:07

They've even taken over a place called Times Square in New York City. It's, it's a horrible thing going on in New York. Let's take a look. Open borders, deadly consequences. Border crisis Record high crossings are putting a strain on cities across America. It is a full blown invasion. Armed Venezuelan gang members storming an apartment.

00:51:32

When people talk about migrant crime, this is what they're talking about.

San Antonio Tech, just one of the.

Donald Trump

00:51:37

Latest cities to have apartment complexes taken over by members of the Venezuelan gang. Biden and Harris had created a program to bring them in under humanitarian parole. I am in favor of saying that we're not going to treat people who are undocumented across the border as criminals. More than 13,000 illegal immigrants convicted of murder have been released into the United States.

My 20 year old daughter Kayla Hamilton.

Tape

00:52:00

Was murdered in her own room.

Donald Trump

00:52:02

Kayla's murder murderer was apprehended by border patrol crossing illegally into the U.S. kayla's murderer had been improperly released into the United States. Abolish ICE Deon. We need to probably think about starting from scratch. More than a dozen people suspected of.

Tape

00:52:16

Being Trend Aragua gang members right here in San Antonio.

Donald Trump

00:52:19

The gang members had been terrorizing the apartment complex. New details in the murder of Lake and Riley. The illegal immigrant suspect who cops say committed the heinous murder is a Venezuelan and was paroled and released into the country by the Biden administration. If they had all been properly vetted, that probably wouldn't have happened.

00:52:36

Two men investigators say are in the country illegally from Venezuela are charged with capital murder and the death of Jocelyn Nungaray. Martinez Rangel wrapped his arms around at Jocelyn's neck, took off her pants and climbed on top of her. Later strangled Jocelyn to death and then tied up her hands and feet. Court documents suggest a group of men arrested for beating and robbing a Dallas woman last month are members of a Venezuelan street gang.

Tape

00:53:00

The men threatened to cut off her fingers if she did not cooperate. Manuel Hernandez Hernandez was booked by Colleyville police just two days earlier and released the day before the robbery.

Donald Trump

00:53:11

A Peruvian gang leader who is wanted for 23 murders, he was arrested by Border Patrol near Roma, Texas, then released into America. It's terrible. This is what we have coming into our country. It's terrible. The United States is now an occupied country. We're an occupied country and you don't maybe see it around here as much and who knows but

you probably will.

00:53:36

But all over, all over they're seeing it. And they're also taking Hispanic jobs and black jobs. They're taking jobs from the black population and the Hispanic population. And this crummy administration that we have is trying to hold back the numbers. The numbers are astronomical. Wait until you see the numbers of the black population lost jobs and the Hispanic population lost jobs.

00:54:05

And they're trying to hold it till after the election is over because it's a disaster. And I think they're going to be forced, you know, just like they had 818,000 phony jobs. Remember that? A couple of months ago. And they didn't release it. They wanted to release the correction after the election. But we had a whistleblower who I like very much.

00:54:27

I don't know who he is or she is, but I like. But they announced it before the election, and it would have been a scandal if it were anybody else but them. But they tried. They created 818,000 thousand phony jobs to pad their numbers. But it will soon be really an occupied country.

00:54:47

No longer. We're not going to have a country that's occupied. We're an occupied country. November 5, 2024, will be Liberation Day in America. We're going to have Liberation Day. Going to get them out. Kamala Harris is so grossly incompetent and unfit that she's obviously disqualified from being the president of the United States.

00:55:10

How can you have a president of the United States? And by the way, the border patrol. Go ahead. Take your time. Such spirit here. It's amazing, isn't it? Everyone. Everyone loves everyone. It's a great thing. Everyone loves. Yeah, Take. Take your time. Doctor, please. Should we listen to a nice song while we.

00:56:23

We wait? Okay. Ave Maria by Pavarotte. You want to do it? Listen to a song. I want the doctors to take their time.

Tape

00:59:06

Lost.

All right. Thank you very much. Thank you. Thank you very much. Thank you, doctors. Thank you very much. No one respects Kamala. No one trusts her. No one takes her seriously. And from humiliating our country in Afghanistan with Biden and her, the greatest humiliation in the history of our country, the time when we were most embarrassed by something.

01:00:29

We've never been embarrassed like that. To the invasion of Ukraine, to the nightmare on our border, to our inflation catastrophe, to our egregious hurricane response. It's been so horrible. Their response in North Carolina was horrible. Worse than Katrina, if you remember Katrina. The worst. Kamala Harris is a train wreck who has destroyed everything in her path.

01:00:59

She can't speak. She doesn't know how to speak. She can't put sentences together to make her president would be to gamble with the lives of millions and millions of people. We'd have a major possibility of getting into World War three, which will never happen with us. They're never going to play games with us because she's grossly incompetent.

01:01:23

She is not capable of doing the job. And normally I wouldn't be that tough on somebody. But you know what? We can't take a chance. You got to just get this. You got to get this horrible group of people the hell out of there. We're not going to have a. We're not going to have a country left.

01:01:40

We love our country. We're not going to have a country left. Kamala is also in total freefall with the Arab and Muslim population in Michigan. She's in a free fall. She set their jobs overseas, brought crime to their cities. And tonight in the Middle east, it's like a tinderbox. It's ready to explode.

01:02:02

People are being killed at levels that we've never seen before. And that's taking place right now. Now in Michigan. She is in literally a free fall. They've had it with her. Nobody's in charge. Joe Biden is asleep. Kamala is at a dance party with Beyonce. And why would Muslims support Kamala when she embraces Muslim hating Liz Cheney?

01:02:32

Can you believe Liz Cheney? A total loser whose father brought years of war and death to

the Middle East. Why would you support somebody if you're from the Middle east or even associated with the Middle East? Why would you be supporting somebody where the Cheney family. The father killed more Arabs than any human being on earth.

01:02:54

He pushed Bush and they went into the Middle East. This person cannot be oppressed, President. She's too weak, too foolish. To represent America on the world stage would be a great embarrassment. And we don't have four years. We just went through four years. We don't have four years to waste. Earlier this month, I was honored to receive the endorsement of over 400 national security and foreign policy officials.

01:03:23

Think of this, but I can't get the press to write about it. You know, to have some dope like Bolton and this stupid General Kelly is dumb as a rock. They have these people, they get front. I get 400 people from my administration, the biggest people. They're saying he was the greatest president.

01:03:41

They won't write the story about it, but we understand in the meantime, we're in first place and they're not. So somebody understands because they're fake news. They don't write the story. And great people too. They're great people. But they know that under my leadership we will have peace through strength. That we. That's what we had.

01:04:02

We didn't have any wars other than we took out ISIS at record time because we have great. We have a great military. Not the ones that you see on television. The dopes like Millie and Mattis and these guys. Real dopes on top of it all. Carmilization. She'd do nothing differently from Joe Biden.

01:04:21

Which has to disqualify her. I would do nothing differently. You know how bad a job he did? 89% wrong way. She would do nothing differently. Take a look.

Tape

01:04:36

Would you have done something differently than President Biden during the past four years?

Donald Trump

01:04:42

There is not a thing that comes to mind. I stood there on the tour Carmack watching you.

Check your watch. The chaotic and deadly US evacuation from Afghanistan stunned Americans and the world and cost the lives of 13 U.S. soldiers.

Tape

01:04:55

Would you have done something differently?

Donald Trump

01:04:56

There is not a thing that comes to mind. More than 13,000 illegal immigrants convicted of murder have been caught at the border and then released into the United States. An Afghan national is in custody today after being accused of plotting an election day. The suspect entered the US on a special immigrant visa.

01:05:14

Gut wrenching new details in the murder of Georgia nursing student Laken Riley. The illegal immigrant suspect who cops say committed the heinous murder is a Venezuelan.

Tape

01:05:23

National who crossed the unsecured southern border back in 2022.

Donald Trump

01:05:26

Two men investigators say are in the country illegally from Venezuela are charged with capital murder and the death of Jocelyn Nungaray. A fifth illegal immigrant accused of attacking two New York City police officers over the weekend. Showed no remorse or regret.

Tape

01:05:41

Would you have done something differently?

Donald Trump

01:05:43

There is not a thing that comes to mind. Only 18% say the economy is in excellent or good condition. US inflation has hit a new 40 year high increasing by 9.1% over the financial year. Authorities saying. Train day Aragua, which has been linked.

Tape

01:05:58

With more than 100 criminal investigations here in the US has now been found operating its criminal enterprise in apartment complexes.

Donald Trump

01:06:06

Were you the last person in the room? Yes. That's what you're going to have. And get used to it. It'll be. It'll be 100 times worse. Michigan, if you want to end this disaster, you must get out. And you have to vote. We can't play games. We got to end it. It'll happen fast.

01:06:23

We got to end it. We're going to have the biggest victory in the history of our country on November 5th, we're going to do things that people. We're going to be respected again. Look, four years ago, we were respected. Your president was respected. Your country was respected. Now they laugh at us. We're like a joke.

01:06:44

We're not going to be a joke anymore. And we had no wars. First time in 81 years, no wars. I had no wars other than we finished off isis. We didn't send your son or your daughter to war. War. We're pleased to be joined by some terrific people, a man who I just think is amazing.

01:07:07

North Dakota Governor Doug Burgum. Where is Doug? I hope. I hope he. Because, you know what? Oh, there he is. I said, I hope he's left, because, you know, I think I'm keeping the poor guy. And his wife is so incredible. Catherine, are you there? Yes. Look at them. And you're not dressed very warmly.

01:07:27

Well, you're used to it in North Dakota. These are unbelievable people. Tremendously successful people. The kind of people we want in the administration, and I hope we're going to be lucky enough. Thank you very much. Will you go home immediately? Please? Just go. Don't worry about it. Thank you very much. It's really an honor.

01:07:46

Thank you, Doug. Thank you, Katherine. It's real, really nice. What great people. Congressman Jack Bergman. Jack. Thank you. Thank you. Thank you, Jack. He's a tough guy, you know. You're not dressed very warmly either. Are you a little cold? Because. Okay, good. Unbelievable. That's great. A warrior. Michigan GOP Chairman Pete Hoekstra. And, Pete, thank you.

01:08:14

So how we do? How are we doing? How are we doing, Pete? I said, yeah, we're doing just fine. We're doing great. You happy? I said, pete, you got to do this. You got to take it over. And, boy, has he done a job well if we won, boy, has he done a job if we didn't.

I'll say, well, Pete, what the hell happened? But we're doing. Are we looking good? The votes? Yeah. No. There's your answer, right? That's your answer. Yep. Great. That's. That's great. And a friend of mine and a woman who is just really amazing, had a great father who I knew he was a steel man, and he loved his daughter.

01:08:54

And he's looking down. He passed away fairly recently, and he's looking down at his daughter, and he's saying, I'm proud of you, Tudor. Dixon Tudor. Thank you. Thank you, Tudor. Thank you, hon. Here are the facts. Kamala Harris is a radical left Marxist, rated even worse than crazy Bernie Sanders or Pocahontas not even close.

01:09:22

She destroyed our economy. She was an original creator of Defund the police movement. And anybody who wants to defund the police for even one week is not worthy of being President of the United States. She was one of the leaders of defund fund the police. You don't know that. You never heard that.

01:09:38

You know, they have this quick little thing with. Once he got out, they went to him, they said, get the hell out of here, you're going to lose. We had the debate and they go to him after the debate, they say, you're not going to make it. Get out. It's like. And then they say, threat to democracy.

01:09:52

They're the threat to democracy. Kamala Harris vowed to abolish ICE. The great. The great people from ICE. They're tough and they love our country. And without them, we would have a problem like you wouldn't believe. But she wants to get rid of them. She vowed repeatedly to ban fracking. And as California Attorney General, she redefined child sex trafficking, assault with a deadly weapon and rape of an unconscious person as totally non-violent crimes.

01:10:24

She pledged to confiscate your guns and endorsed a total ban on handgun ownership. Would anybody willingly like to give up their gun, please raise your hand. That's not an easy one, is it, huh? She even called for free sex changes for illegal aliens and detention at taxpayer expense. And you saw what happened a couple of days ago at McDonald's.

01:10:53

It was a monster story. It was just a little throwaway. You know, unlike her, she takes a

vacation today, yesterday. You know you're running for the hundred times super bowl, okay? Take the super bowl, multiply times a thousand and you got 12 days to go. And she's taking vacations. That's not off to a good start.

01:11:17

I've gone 58 days in a row without anything because we got to win this thing. We got to win this thing. But she lied about working at McDonald's on top of everything else, you know, she never worked at McDonald's. It was a part of her story, a big part. And on top of that, she would like to see our country go woke.

01:11:37

Take a look at this. Quickly, a little Marine video. Take a look.

Tape

01:11:48

You little scumbag. I got your name. I got your ass. You will not laugh. You will not cry. You will learn by the number. Happy Pride.

Donald Trump

01:11:57

Happy Pride Month. And actually, let's declare it a summer of pride.

Tape

01:12:01

So you're a killer. Sir, yes, sir. Let me see your war face. Sir. You got a war face. Ah, that's a War face. Now let me see your war face. Bullshit. You didn't convince me. Let me see your real war. I hear it and I know that I know you wanna take. You will be a weapon.

01:12:26

You will be a minister of death praying for war. But until that day, you are puked. You are the lowest form of life on earth. You are not even human fucking beings. You are nothing but unorganized dravastic pieces of amphibian shit.

Donald Trump

How to abracadabra. These bitches know I got answers. The way I look at me like.

Tape

01:12:47

The best part of you ran down to crack your mama's ass and ended up brown Spain on the mattress.

Donald Trump

01:12:58

I love working for.

Tape

01:13:01

Love working for Uncle Sam. Let me know who I am Lets me know just who I am 1, 2, 3, 4. United States Marine column.

Donald Trump

01:13:13

1, 2, 3, 4. United States Marine. So we won two World wars and. But don't worry about the military. They showed us with what they did with ISIS so quickly, the caliphate, 100% they're not woke. Only those people on the top are a little woke. They'll be gone fast. We have. We have great.

01:13:41

I say you could put them a woke cage for two years, they'd come out fighting. Let me tell you, they're not woke. They're not going to be woke. Don't worry about it. In conclusion, with your vote this November, we are going to fire Kamala and we are going to save America. We're going to save our country.

01:14:01

With your support, we will cut your taxes, end inflation, slash your prices, raise your wake wages and bring thousands of factories back to America and back to Michigan. We're going to bring them back here and Detroit, we're going to bring them back into Detroit. We will build American, we will buy American and we will hire American.

01:14:22

And you're going to see things happen at a pace that you're not going to believe. You're going to be very proud of this country. Very soon. I will end the war in Ukraine quickly. I will stop the chaos in the Middle east and I will prevent World War three. I know them all.

01:14:37

I know exactly what to do. We will crush the violent crime and give our police the support, protection, resources and respect they so dearly deserve. They're going to do it. They're going to be able to do their job. We will strengthen and modernize our military. I rebuilt our military. We gave a lot of it to Afghanistan, but actually still just a fraction.

01:15:00

But I lot we gave them a lot of brand new stuff. How crazy. More importantly, with their stupidity, we lost 13 great soldiers. Many were very badly hurt. The arms, the legs, the face, they were hurt. We left Americans behind and we lost Bagram, the biggest Air Force

base, one of the biggest in the world.

01:15:21

One hour away from where China makes their nuclear weapons. And you know who occupies it? China. China occupies it. How stupid. How stupid are these people? We will build a missile defense shield around our country. Mostly made in the usa. In fact, all made in the usa. And a lot of it's going to be made right here in Michigan.

01:15:45

We will rebuild our cities, including our capital in Washington, D.C. making them safe, clean, and beautiful again. We will teach our children to love our country, to honor our history, and to always respect our great American flag. We will get critical race theory and transgender insanity the hell out of our schools. And we will keep men out of Women's Sports Day 1.

01:16:19

I will defend religious liberty. I will restore free speech. And I will defend. Defend the right to keep and bear arms. Our second Amendment, which is under siege. After years of building up foreign nations, defending foreign borders and protecting foreign lands, we will finally. And we are going to do this. We are going to do it.

01:16:41

We're going to build up our country. We're going to defend our borders and we will protect. We're going to protect our citizens. Citizens for a change. Our citizens. We're going to put America first. And we will stop illegal immigration once and for all. We will not be invaded. We will not be occupied.

01:17:04

We will not be overrun. We will not be conquered. We will be a free and proud nation once again. We are now a nation in decline. We're not going to be a nation in decline for very long. Let me tell you that. Everyone will prosper. Every family will thrive. And every day will be filled with opportunity, hope, and the American dream.

01:17:28

We want the American dream for your children. They've got to have that dream. They will not amount to a lot. They've got to have the dream if they want to really go. They have to have something to aspire to. We're going to bring back the American dream. But for that to happen, happen, we must defeat Kamala Harris and stop her radical left agenda.

With the landslide that's too big to rig. Early voting is underway, so get out. Just who's going to vote? Who's going to vote, please? Yes. You gotta get. Does everybody here promise they're going to vote? Promise. Thank you. I agree. I accept it. I really do. I think everyone here is going to be voting.

01:18:10

Everyone. We just can't take it for granted. We have to get out and vote after we and all of the things have been what we've been through together. People don't realize what we've been through together. We've watched our country rot. We stand on the verge of the four greatest years in the history of our country.

01:18:28

With your help, from now until election day, we're talking about 11 days. We will redeem America's promise. We will put America first. And we will take back the nation that we love. We are one people, one family. And one glorious nation under God. We will never give in. We will never give up.

01:18:53

We will never back down. And we will never, ever, ever surrender. Together, we will fight, fight, fight. And we will win, win, win. November 5th will be the most important day in the history of our country. This will be the most important day because we're going to take back our country from these lunatics that have no idea what the hell they're doing.

01:19:23

They're destroying our country. They're destroying our family. Families. We're not going to take it anymore. We will very shortly be able to make America powerful again. Make America wealthy again. Make America healthy again. Make America strong again. Make America proud again. Make America America safe again. And we will make America great again.

01:20:04

Thank you, everybody. God bless you. Thank you. It's a great honor to be with you. Thank you. Thank you.
