**Donald Trump** 00:00:01

Well, thank you very much, everybody. This is great. I want to just, uh, thank Derek, who is an incredible congressman, so respected in Washington. He's really respected. And, uh, I don't know if there's somebody running against him or not.

**Donald Trump** 00:00:17

I guess there probably is. Will you make sure he wins, please? Okay.

**Donald Trump** 00:00:23

Totally respected by everybody. And I'm thrilled to be back in this beautiful state. I love the state. I just gave you the biggest, you know, I gave you, before I left, I gave you the biggest shipbuilding contract in the nation. And a lot of other states are angry at me.

**Donald Trump** 00:00:40

You know that, Derek, uh, you know where it is, right? Yes, we do, sir. That's a big one. And, uh, they're doing a beautiful job, too. But I gave you the biggest.

**Donald Trump** 00:00:48

And a lot of states aren't so happy with that. They still remember that. But I just want to really. I appreciate it. These are hardworking, beautiful Americans and, uh, it's something special.

**Donald Trump** 00:01:00

But outside we have thousands and thousands of people. Would anybody love to give up their seat? So we were going to have a thing outside someplace in an area where we could have held the people. And I would say, what do you think? 40, 50,000 people, at least out there.

**Donald Trump** 00:01:20

This one almost all the way to the airport and, uh, looked like when Lindbergh landed in New York. Do you remember that? He had all the way, the Broadway, the whole. The way they used to do it and this looked like it, but thousands and thousands of people, and they all could have had a lot of fun. Instead, now they're probably leaving and walking back

home because we have a nice little room that probably holds 1502 thousand, maybe less.

**Donald Trump**

**00:01:51**

And outside you have 40, 50,000 people because the administration couldn't give us the secret service necessary because they're guarding.

**Donald Trump**

**00:02:05**

Because they're guarding the iranian president who's looking to kill Trump. Can you believe it?

**Donald Trump**

**00:02:15**

Now we could add 30,000 for. I mean, you see it, um, it's, uh, unusual that you see something like that. We'll call in the National Guard. That's a very good. He's a smart guy.

**Donald Trump**

**00:02:27**

Stand up. I want to see what that guy. Very smart. That's a very good idea. They could have done that, come to think.

**Donald Trump**

**00:02:35**

But, you know, um. I think it's a disgrace. I think it's a disgrace. But nonetheless, 38 days from now, we are going to win Wisconsin. We're going to defeat Kamala Harris, and we are going to make America great again.

**Donald Trump**

**00:02:52**

Thank you for being here. Thank you. Thank you, fellas. That's great. Great job.

**Donald Trump**

**00:02:57**

Um, they're making your jobs much tougher, right? Your jobs. Oh, that's nice. People looking. Oh, look at the people behind.

**Donald Trump**

**00:03:04**

Are they relatives of yours, chief? I don't think so. Well, that's nice. Wonderful. Well, you got a lot of killers in our country.

**Donald Trump**

**00:03:15**

You saw that yesterday. Last night, after four straight years of obliterating our border, I watched this show that she put on four years of the most incompetent border anywhere in the world in history. Kamala Harris traveled to the scene. In fact, she stood near where I

put up border wall. That was her backdrop.

**Donald Trump**

**00:03:43**

And in one of the most heinous crimes ever committed by any administration in American history, that's what she did. By allowing these millions of people, millions and millions of people to come through our border and make our, uh, civilization very unsafe. It's a civilization very, very unsafe. It's a heritage border. Czar Harris went to the border to lie in the most shameless and horrible way possible at the very site where she released so much suffering, misery, and death.

**Donald Trump**

**00:04:21**

There's no greater act of disloyalty than to extinguish the sovereignty of your own nation right through your border. No matter what lies she tells, Kamala Harris can never be forgiven for her erasing, uh, our border. And she must never be allowed to become president of the United States. She must never be allowed. And Wisconsin.

**Donald Trump**

**00:04:46**

You can't do it. Can't do it. What she's done is a total disqualifier, what she's done. And, uh, so much death has already taken place. And we have some people up here and a friend of mine in particular, who's suffered greatly because of it.

**Donald Trump**

**00:05:06**

And this has already taken place by the hundreds, but it's going to take place by the tens of thousands, according to explosive data that was just released yesterday by ICE. And they've never released this before. They never talk about deaths and how many. They talk about certain things, but they've never released this kind of information. But it was so bad.

**Donald Trump**

**00:05:31**

Never done. But under Kamala Harris, more than 13,099 convicted murderers. So these are people that have gone through the system. They're convicted, they're in jails for life. Some are getting the death sentence.

**Donald Trump**

**00:05:47**

But instead of that, they've crossed our border, they've been taken out by their countries and set free into the United States of America. So they're free to kill again? Oh, they'll kill. These are killers. These are killers that at a level that nobody's ever seen, not even your great law enforcement has ever seen people like this.

They got a dose of it, though recently, they got a dose of it. Their jobs have become a lot tougher. And you remember when they said, no, no, these are migrants. And these migrants, uh, they don't commit crimes like us. No, no.

**Donald Trump**

**00:06:22**

They make our criminals look like babies. These are stone cold killers. They'll walk into your kitchen, they'll cut your throat. Kamala also let in 25,272 illegals convicted for rape, sex offenses, or sexual assault. 62,231 criminal aliens convicted of violent assault.

**Donald Trump**

**00:06:47**

Everything but death happened to the people they assaulted. In total, she let in 425,431 people convicted of. And these are convicted of the worst crimes. They're criminal aliens. Along with an additional 222,000 illegals with pending criminal charges.

**Donald Trump**

**00:07:14**

Many of those charges also are murder, which will add onto your 13,000 murderers that were let into the country. That's over 647,572 migrant criminals who Kamala set loose to rape, pillage, thief, plunder, and kill the people of the United States of America. And they're not going to change. They're only going to get worse. They're only going to get worse.

**Donald Trump**

**00:07:43**

And our law enforcement system, we have the greatest in the world, but our people are told not to do their jobs. You know, we don't want you to do anything. And they come from tough systems. They're going to love our system. Kamala is mentally impaired.

**Donald Trump**

**00:07:59**

If a Republican did what she did, if a Republican did what she did, that Republican would be impeached and removed from office, and rightfully so. For high crimes and misdemeanors. That would be high crimes and misdemeanors. Think of it, 13,099 murderers convicted of murder. Not like convicted of murder.

**Donald Trump**

**00:08:30**

Some of the worst murders you've ever seen. They're all in our country now, every one of them. And I've been saying this for three years, and the fake news has been saying, well, you don't know that. Well, now we know it. They've never released a list like this, not just on these.

**Donald Trump**

**00:08:44**

They've never done it over the years. They've never done it. She let in. And that's not even mentioning the rapists, the gang members, the drug dealers, the child predators, and the traffickers. In women.

**Donald Trump**

**00:09:01**

In women, mostly women, Joe Biden became mentally impaired. Kamala was born that way.

**Donald Trump**

**00:09:10**

She was born in Ireland.

**Donald Trump**

**00:09:21**

And if you think about it, only a mentally disabled person could have allowed this to happen to our country. Anybody would know this. And before I knew the numbers, I was saying it for a long time. They're coming in. They're murderers.

**Donald Trump**

**00:09:34**

I said it so much. They're from jails. I say jails and prisons. There's a difference. One's a little stronger than the other, as you understand.

**Donald Trump**

**00:09:43**

They come from mental institutions and insane assailants. How many times have you heard of. There's also a difference there? One's a little bit stronger than the others. And they're terrorists.

**Donald Trump**

**00:09:55**

They're terrorists. They're terrorists at the highest level. We have some of the greatest terrorists in the world in our country right now. We have no idea where they are. We have no idea anything about them.

**Donald Trump**

**00:10:06**

Um, they could be in Iowa, they could be in Idaho, they could be here. Because every border is, right now running around. Every state. Every state is a border town. Every state is a border state.

**Donald Trump**

**00:10:21**

They're flying them in by the hundreds of thousands. Can you believe it? Even yesterday when she was talking about how she's going to start getting very tough. Why didn't she do

this four years ago? And she lies so much.

**Donald Trump**

**00:10:34**

She lies so much. How about she lies? She said, donald Trump ripped the babies out of the crib. I ripped the babies out of a crib. No.

**Donald Trump**

**00:10:46**

And it was actually President Obama that built the cages. Remember when they were saying Donald Trump, and they show a picture of cages? And then I was lucky enough, somebody from border patrol said, no, that was in 2014. That was Obama. And then that story went away very rapidly.

**Donald Trump**

**00:11:04**

Remember, all of a sudden, the cages, the cage story went away when it wasn't me. Now she lies. Well, look, I mean, the simplest lie is that she worked at McDonald's and she never worked at McDonald's. She worked at McDonald's and I didn't work there. She didn't work there.

**Donald Trump**

**00:11:21**

But I'm going to go to a, uh, McDonald's, I think, over the next two weeks, and I'm going to stand over the French. She said, I stood over those french rights. She never did. It turned out to be a lie. And when I mention that, uh, they go, oh, he's fallen into a trap.

**Donald Trump**

**00:11:39**

Because he's. Did you ever see that? Whenever I criticize, they say, all the stupid people, the anchors back there. No. They say, he fell into a trap.

**Donald Trump**

**00:11:50**

Her trap. She can't. A mental trap. There is no. But if she says something wrong, like in the debate, she said something wrong.

**Donald Trump**

**00:11:59**

I question it. She said another thing wrong. I made her look bad. She said another thing they don't want me to ever question. They said, oh, he fell into a trap.

**Donald Trump**

**00:12:09**

He questioned the fact on Charlottesville, which was totally debunked. On all of these stories that were totally debunked. Fake stories. She mentions them, but yesterday, this is

one I never heard, that I ripped the baby out of the cribs. No.

**Donald Trump**

**00:12:24**

No. That might have been Obama and other people, but it wasn't us. We had the safest border in the history of our country. And even a sign that I put down. Fortunately, I put that sign down.

**Donald Trump**

**00:12:37**

And I love that sign. I love the graph. You know, the graph, the beautiful blue, gold and red graph. It's my favorite piece of paper, perhaps anywhere in the world. But she's so radical.

**Donald Trump**

**00:12:49**

She even wants to legalize fentanyl right away. Fentanyl will kill you. Just a little tiny on the top of opinion. You did. I have so many friends that have lost their children to fentanyl.

**Donald Trump**

**00:13:00**

No, we're going to do something else. We're going to get China that if they send us any fentanyl. I had this deal done with him, but, uh, Biden never got it finished. Do you think he lies awake at night thinking about fentanyl and death? No, I had the deal done.

**Donald Trump**

**00:13:17**

And, uh, then we had a bad election. We got more votes than anybody that ever ran for office. Think of it. More votes than any sitting president in the history of our country. We lost by just a little bit.

**Donald Trump**

**00:13:32**

Just a little bit. I was told if I got 63 million votes, which is what we got in 2016, we got millions, millions and millions more votes. Uh, more than anybody's ever gotten. More votes than any sitting president has ever gotten. And just pay a little bit.

**Donald Trump**

**00:13:50**

No, we got to make sure there's no cheating. And we're working hard on that. We got more lawyers, we got more people watching. And I told them if we win, and when we win, uh, we're going to prosecute people that cheat on this election.

**Donald Trump**

**00:14:08**

And if we can, we'll go back to the last one, too, if we're allowed, but we're going to prosecute people, so at least they know that's going to happen. And I said that because,

uh, we can't. We have to have strong borders. You need two things, strong borders and fair elections, and we have neither. But we're going to do numbers too big to rig, right?

**Donald Trump**

**00:14:32**

Too big to rig. And, uh, you know, there comes a point when they can't cheat. And when you see the lines going back, like, even today, lines going back for miles to get in and this lovely building. I don't want to insult anybody. It's a lovely building, but if this building were 20 times larger, it wouldn't be big enough.

**Donald Trump**

**00:14:51**

And why should they do that to all the people that journeyed from all over your great state? When I saw these migrant crime numbers yesterday, first time. First time they ever been released. They don't release numbers on murders, but they did. Somebody probably liked me.

**Donald Trump**

**00:15:10**

They said, boy, this is unfair. But they released them. I said, you know, this is, uh, the real deal. This is something that's very special. There's nothing as serious as this is.

**Donald Trump**

**00:15:21**

Nothing can be as serious as this, because this gets down to the very fabric of our society, your way of life. I mean, you're going to be looking around over your shoulder all the time. Communities that were safe. This is more important in a way, than inflation, which is a disaster in this country. She's destroyed our middle class, our senior citizens.

**Donald Trump**

**00:15:43**

This is more important than anything having to do with the economy will make it better. We'll make the economy. This is something bigger in a sense, because this is the fabric of our country. She's letting in people who are going to walk into your house, break into your door, and they'll do anything they want. They'll do anything they want.

**Donald Trump**

**00:16:06**

These people are animals. She's released people. These people are animals. Now they'll say, oh, that's a terrible thing for him to say. No, no, these people are animals.

**Donald Trump**

**00:16:14**

These are stone cold killers. They're heartless, and they wake up the next morning and they don't even think about what they did the day before. These are real killers. These are real killers. These are the worst.

These are people that have been in jail for many years. These are people that killed many people. They took them out of their jails. You know, in Venezuela, their jails are almost empty all over the world. You know, this isn't just South America.

**Donald Trump**

**00:16:41**

The Congo. Their jails are almost empty. The Congo in Africa, they took them out. They bring them into our country. Many, many countries.

**Donald Trump**

**00:16:50**

Their jails are almost empty. Some are empty. Some are much less than. I would do the same thing. I would have been better than any of them.

**Donald Trump**

**00:16:56**

I would have had everybody out of there. Some of them still have people. They probably couldn't get buses to get them in, right? You know, you need a lot of buses, but they're bringing them into our, uh, country at levels never seen before. And your law enforcement over here had, you know, you just had a problem here in this beautiful place.

**Donald Trump**

**00:17:13**

We'll talk about. But, uh, what they're doing to us. And I saw that it's also the fact that they're taking all of our black populations jobs and our hispanic populations jobs. You haven't seen the real job numbers yet. And I said this also two years ago.

**Donald Trump**

**00:17:31**

I said, these people that are coming across the border illegally by the millions are taking the jobs of the black population of America and the hispanic population of America. Have you seen their job numbers recently? They won't release them, I guarantee, until after the election. But you take a look at the black population job numbers, you take a look at the hispanic population job numbers, and the unions are going to be next. The unions are going to get hit hard by this.

**Donald Trump**

**00:18:05**

They come in illegally, they take everybody's jobs, and you don't know who you're hiring. Our country is being destroyed. This is the worst president and the worst vice president in history. And, uh, you got to get out and vote. Uh, isn't this a wonderful and inspiring speech?

**Donald Trump**

**00:18:27**

I got people sitting in the front row. They're going, oh, my God. They thought they'd be out

there jumping up and down, make America great again. We're going to do that. Don't worry.

**Donald Trump**

**00:18:37**

We haven't gotten to that part yet. I'm just saying, this is a dark. This is a dark speech. But we only heard the numbers yesterday for the first time. You know, I took a lot of, uh, a lot of abuse because they're saying, what does he mean?

**Donald Trump**

**00:18:50**

How dare he say that? Everyone thinks, oh, it's such beautiful people. Everyone's so wonderful. Coming in. Uh, no, no.

**Donald Trump**

**00:18:57**

Stone cold killers, drug dealers, gang members. Every country in the world is taking their worst people, their criminals that are outside of jail, the gangs that hurt people, the drug dealers, which are causing such problems that get death penalties in a lot of countries, and they don't have the problem with drugs, but they're taking their worst people, they're bringing them into our country by the tens of thousands. And yesterday, for the first time, I saw the numbers, it was reconfirmed. Some of the honest, fake news. Look at all the fake news back there.

**Donald Trump**

**00:19:41**

But, oh, uh, some of them turn the cameras off when I'm talking about this. No, they turned the cameras for whatever reason, they don't want people to hear this, you know, now we're gonna. We're gonna make them honest. If we don't have an honest press, that's your third leg, by the way. You need an honest press, and we have a very dishonest press, mostly.

**Donald Trump**

**00:20:02**

I mean, I know some, you know, there's a little sliver. That's good. But it's, uh. You're right. Right side's good.

**Donald Trump**

**00:20:08**

He said right side. It's true. Right side. Now, you have some good people back there, but it's true. You have some very good people, but you have mostly, mostly horror shows.

**Donald Trump**

**00:20:21**

But small towns in America are terrified of migrants coming in. And even when they haven't yet arrived, they're terrified. They're terrified. And a lot of these people don't want

to, they don't want to talk about it because they think it's so bad for the town. But they're going to have to talk because people are being killed.

**Donald Trump**

**00:20:40**

I spoke to people from Iowa, Ohio, Michigan, Wisconsin, Pennsylvania. They're beside themselves. And honestly, I tell you, they're not going to take it much longer. And I guess the easiest way, and the best way is on November 5, you got to vote for Trump because we're not going to let it happen.

**Donald Trump**

**00:21:21**

Thank you very much. Thank you.

**Donald Trump**

**00:21:28**

Uh, thank you. Oh, I love that young voice. Stand up. Young voice. What a beautiful person you are.

**Donald Trump**

**00:21:33**

Wow. Thank you very much. We love young people. One of those little things, right? They're so great.

**Donald Trump**

**00:21:40**

That's the future. That's who we're really fighting for when you get right there. That's who we're right. We're really fighting for that voice right there. We're fighting because we want them to grow up in, uh, insanity.

**Donald Trump**

**00:21:54**

This is insanity, what's happening in our country. Who would do what they're doing? Who would do this? Who would allow 435,000 criminals? Criminals, hardened criminals.

**Donald Trump**

**00:22:08**

13,000, think of it. Murderers. People that murdered people viciously. Some people murdered many people, and they're now in our country. They're not going to change.

**Donald Trump**

**00:22:17**

They're going to get worse, actually. So we're here today in Prairie Duchenne. Is that a good. Yeah, good pronunciation.

**Donald Trump**

**00:22:32**

You could have given me a little easier name than that, but I think. I think we got it right. Nailed it. Prairie Duchenne. What a beautiful name.

**Donald Trump**

**00:22:43**

And we have to keep it beautiful. And you have great law enforcement here, but they're going through a lot, and we're in Wisconsin, and every, uh, every person here knows exactly what I'm saying. Just this month, right here in this beautiful town, police arrested an illegal alien member of a savage venezuelan prison I gang known as Trende Aragua. Trende Aragua. These are really bad ones.

**Donald Trump**

**00:23:15**

This vile monster was charged with holding a mother and daughter captive against their will and sexually assaulting them again and again and again. This animal crossed Kamala's wide open border along with hundreds of, uh, thousands of others that are worse than him. That are worse than him. He was arrested and released in the sanctuary city of Minneapolis. And by the way, I'm going to end all sanctuary cities immediately upon taking over.

**Donald Trump**

**00:23:51**

Right, right.

**Donald Trump**

**00:23:58**

Thank you. All of them are ending. And you know, the people of these states with big sanctuary cities, these people are. I mean, they are. They want them out.

**Donald Trump**

**00:24:08**

It's only the politicians that want them. Someday we'll explain why. But he assaulted another woman in the sanctuary jurisdiction of Dane county and he had outstanding warrants for strangulation. All before coming to this small, uh, beautiful, idyllic Wisconsin town a few months ago in fond Dulac, Wisconsin. There's a lot of action going on in Wisconsin with these things.

**Donald Trump**

**00:24:40**

You know, usually I have, like, clark county, an illegal alien released by Kamala Harris was arrested for tying up and I blindfolding a twelve year old girl in the back of a van and viciously sexually assaulting her. Huh. A few weeks ago, yet another illegal alien, Kamala Leddin, was charged for sexually assaulting a woman in her home in Wausau, Wisconsin. How do you like that? Wah saw wausau.

Is that right? Wasaw? I like Wausau. No, but think of this. Sexually assaulting and what he did to her was, uh, so horrific that he's now facing up to 100 years in prison.

**Donald Trump**

**00:25:30**

100 years. These are towns that had no. These are towns and little beautiful areas of our planet that had no problems. Oh, you're gonna have a lot of problems. I don't care how good your law enforcement is, you're gonna have a lot of problems.

**Donald Trump**

**00:25:45**

They're all over the place. And I'm telling you what I said before. These towns, these little towns and cities. And by the way, the big cities too. New York.

**Donald Trump**

**00:25:52**

Look what's happened in New York. And they went after the mayor of New York because he was saying, we can't do this, we can't do that. They just indicted him for long before he was mayor. But look at what they do. These are vicious monsters in our government that are also stupid people.

**Donald Trump**

**00:26:14**

They're vicious, but they're stupid, which is a very dangerous combination. Today I stand before you to make this promise. I will liberate Wisconsin from this mass migrant invasion of murderers, rapists, hoodlums, drug dealers, thugs and vicious, uh, gang members. We are going to liberate our country. I will liberate.

**Donald Trump**

**00:26:42**

I will liberate our nation. Our nation will be free again if we win this election, and it's going to have to go fast because we're not going to be able to handle it. Our nation will be free again, and it'll be free. And I'm the only one that's going to be able to do it. Nobody else even.

**Donald Trump**

**00:27:02**

Nobody else even talks about it. Nobody else even. Do you ever notice the way these people, they don't want to talk about it because they think it's bad publicity for, for their town. It's bad publicity when people are killed all over the place. They don't want to talk about it.

**Donald Trump**

**00:27:16**

We will not allow these people to invade us, conquer us, and take all of our dignity and pride and everything we have stood for from the very beginning of our lives. You have

dignity and pride in this town and this area and this state, and they want to take that dignity and pride. They want to invade. They want to take over your homes. They want to take over your buildings.

**Donald Trump**

**00:27:36**

Look at what they're doing. Colorado, Aurora, Colorado, Venezuela, gangs are taking over real estate. They're real estate developers like I was. But they do it with a gun. I did it with bank financing.

**Donald Trump**

**00:27:51**

They do it with a gun. They will save your communities and we will work with your law enforcement. They're going to save your communities. You get the greatest people on earth and you got to respect them. And when you have good ones, you got to hug them and kiss them and tell them we love you, because they're great.

**Donald Trump**

**00:28:08**

They do. So I am endorsed by every law enforcement group, I think, or just about. I better say just about because they'll find some, one little person someplace. Up someplace up someplace. I don't really like Trump.

**Donald Trump**

**00:28:26**

Trump lied. Now, these are bad people, but virtually everybody, uh, just had the endorsement of a group of 400,000, the largest group, the largest law enforcement group, the fraternal order. Uh, she's got 400,000 people. Is, like they said, unanimous. I don't know if it's unanimous, but all the sheriffs all over Florida, all over the country, every sheriff's group, everybody, everybody's, uh, endorsed us.

**Donald Trump**

**00:28:57**

Or if they can't, if they're not allowed to, in some cases, they still state their preference. Border patrol endorsed me, and border, uh, patrol is like, it's hard. How do you endorse somebody and you're with this other group, but they can't do it. They're unbelievable patriots. They love the country.

**Donald Trump**

**00:29:14**

They hate to stand there and watch these people pour right by them. They want to do their jobs. They're great people. How on earth did a small town in the Midwest and America come to be so famous as some of these towns? Look at what's happening with some of these towns.

They're being talked about all over the world, but in a very horrible way, occupied by members of savage prison gangs from Venezuela. I mean, think of that. How does it, you're talking about areas of the midwest where they're becoming famous because they're being occupied. And this is hundreds of little cities and little towns. They're petrified and their law enforcement is petrified.

**Donald Trump**

**00:29:58**

You have a sheriff and a deputy, or you have a small group, and you'll have a group of venezuelan killers, street gangs occupying the town with MK forty seven s. I know that gun very well. I got to know it very well. I've become an expert on guns quickly. My sons know guns.

**Donald Trump**

**00:30:18**

They couldn't believe what the story they heard of the two stories they heard, actually. But I don't care because we're doing it for you. We're going to make our, I don't care. I just say, uh, we got to do it.

**Donald Trump**

**00:30:39**

Thank you.

**Donald Trump**

**00:30:44**

Thank you, thank you.

**Donald Trump**

**00:31:04**

I love that guy right in the front. He looks better than I do. And I think he's probably a little older, right? Uh, look at him. He looks fantastic.

**Donald Trump**

**00:31:11**

Four years ago, I handed Kamala Harris the most secure border in US history with the lowest illegal immigration on record, in the words of former ICE director Tom Holman. You know, Tom, President Trump was the greatest president in my lifetime by far. This country was never better off than when he was there. He was unprecedented in his success on the border and it saved so many lives. He got it done.

**Donald Trump**

**00:31:40**

Likewise, the head of the National Border Patrol Council, Art Deldeze. He's a great, incredible guy, he said of Kamala's visit to the border. Yesterday, I stood with President Trump when he actually went to the border to areas that are notorious for drug smuggling and human smuggling and are very dangerous. He stood there, he spoke to the agents for

a long period of time. He's been speaking to the boots on the ground for eight years and a lot.

**Donald Trump**

**00:32:13**

He stood there for over an hour in 110 degree temperatures with heat. Uh, it was a hot day, I will say, but the heat was crazy, but with families of victims and illegal aliens. And he spoke to reporters. Vice President Harris went down there. She didn't speak to the agents.

**Donald Trump**

**00:32:35**

And as a former president of the National Border Patrol Council, great guy. Brandon Judd said, President Trump's actions secured the border. Kamala Harris actions completely opened up the border and made it very unsafe. And I just want you to take a look at this little video. We had a video planned and were going to use it even though it was supposed to be for 50,000 people.

**Donald Trump**

**00:33:02**

But maybe they have a little television set outside that they're watching it. But you have to take a look at this, please. I know the importance of, uh, safety and security, especially at our border. Who really is Kamala Harris? She's been telling us her entire career.

**Donald Trump**

**00:33:21**

I support our sanctuary law. The illegal immigrant deported multiple times, who stands accused of killing Kate Steinle. An undocumented immigrant is nothing. And we must also have the courage to reject that term. Illegal alien.

**Donald Trump**

**00:33:39**

Are you aware that there's a perception are you aware that there's a perception there? Abolish Ice. In the same category as the KKK? Is that what you're asking me? Abolish Ice?

**Donald Trump**

**00:33:48**

Is that a position that you agree with? We need to probably think about starting from scratch. We're not going to treat people who are undocumented across the border as criminal. I am opposed to any policy that would deny any human being public health, period. Will you be committing to close immigration detention centers?

**Donald Trump**

**00:34:09**

Absolutely. On day one, a picture of supplied consequences. Last three and a half years, 10 million illegal encounters. Two men got out of ways. 600% increase in sex trafficking.

More terrorists coming across the border. A record number of people off the terrorist watch list, and over a quarter of a million Americans dead. Fentanyl that comes across world border consequences. There ought to be a consequence for her failure. We have a secure border.

**Donald Trump**

**00:34:35**

The border is secure. Sickening. New details about the murder of Georgia nursing student Lake and Riley. The 22 year old was beaten to death with a mystery object. We've been to the border.

**Donald Trump**

**00:34:45**

You haven't been to the border, and I haven't been to Europe. And I made my own. Kamala Harris. Do you trust her to stop the invasion?

**Donald Trump**

**00:35:02**

She is a disaster, and she's not going to ever do anything for the border. And she didn't even want to get tough now, except her poll numbers were tanking. And by the way, we're leading in the polls. We're doing great, but you got to get out and vote.

**Donald Trump**

**00:35:20**

You know, this can only happen to me. I had to beat Biden. We were 21 points up after the debate. And then I said, oh, uh, I can't believe it. I think they're going to get them out.

**Donald Trump**

**00:35:34**

Then we had to start all over again with this one. She had a little honeymoon period, but people are now finding out she's not a smart person. And she has no idea what the hell she's doing. And she's going to be dealing with the smartest people. President Xi, how do you think President Xi is looking?

**Donald Trump**

**00:35:53**

He's chopping. He's just grabbing his. Oh, he's so happy. He's grabbing his people all over the place and watching the same kind of things you just watched, but even better. And we can't have this.

**Donald Trump**

**00:36:05**

Look, we had four years of incompetence. We can't have another four years of incompetence because we're not going to have a country anymore. She's incompetent and a bad person, but she's incompetent. Grossly incompetent. She's a marxist.

You're right. She's a marxist. Her father's a marxist. Professor, think of it. Defund the police.

**Donald Trump**

**00:36:31**

She started the movement. This is a woman that we cannot allow to have in this. If she gets in, our country is finished. It's finished. Starting.

**Donald Trump**

**00:36:43**

On her first day in office, Kamala Harris terminated every Trump policy. I used to deliver the strongest and most secure border in the history of our country. We never had a Tom Holman said it, the best border. They interview people on the border that live in hell, on the border. They say, it was never like Trump had it.

**Donald Trump**

**00:37:00**

We had a great thing, and then as soon as she came in, it was, she ended up remain in Mexico. That means you couldn't come into our country. She terminated it. You know what it means? Remain in Mexico.

**Donald Trump**

**00:37:13**

It's what it means. Release and canceled little things like the safe third agreement, canceled title 42, halted the removal of virtually all criminal aliens, ended all of our programs that we instituted to stop child trafficking, which is at, uh, an all time record. Now, she said last night that we. I told you, ripped babies out of the crib. I ripped babies out of the crib.

**Donald Trump**

**00:37:43**

She's sick and she's a liar. And the reason I keep mentioning McDonald's, because it was so basic, she worked at McDonald's, and it was a lie. She's a liar. But Kamala, of all things, the worst thing is this. She lost 325,000 migrant children, and they're either dead, being sold into sex slavery, or just plain missing from their parents.

**Donald Trump**

**00:38:10**

They were stolen. 325,000. What? Kamala Harris, can you imagine if that were a Republican? Can you imagine?

**Donald Trump**

**00:38:20**

What Kamala Harris has done to our border is a betrayal of every citizen. It's a betrayal of her oath, and it's a betrayal of the american nation. Not only must she be defeated. But in light of this news, Kamala Harris should immediately resign the vice presidency and go

home to California in disgrace. She should resign to under both border czar Harris and sleepy Joe Biden.

**Donald Trump**

**00:39:05**

Where is he, by the way? What the hell? What the hell happened to him? Midwestern states from Pennsylvania to Wisconsin are, uh, being overwhelmed through two programs she created to deluge towns just like yours. First, she created a program to fly in migrants from Venezuela, Haiti, and Nicaragua, dumping them into cities and towns all throughout America.

**Donald Trump**

**00:39:32**

Right. You know that, right? Remember when she was saying, no, no. We're thinking they got a little tougher about three months ago on the border, a little bit. But they never stopped the flights because they didn't think.

**Donald Trump**

**00:39:42**

But we caught them about two months ago flying in hundreds of thousands of people over the border. They didn't think we'd catch them. Can you believe it? In addition, she's allowing virtually unlimited numbers of migrants to enter and be released at the press of a button through her phone app for illegal immigrants. They have a phone app so that people can come into our country.

**Donald Trump**

**00:40:07**

These are smart immigrants, I guess, because most people don't have any idea what the hell a phone app is, but they do. These are very intelligent Democrats. But you know who they're really meant for? The cartel people. The people that run the cartels.

**Donald Trump**

**00:40:18**

They can use them brilliantly. They're making billions of dollars among the most successful people in the world. This is why I get shot at so much. I mean, if you think about it, uh, only a consequential president gets shot at. Okay?

**Donald Trump**

**00:40:34**

Remember that in less than four years, she relocated almost 5% of the entire population of Haiti to the United States. And the rest are coming in rapidly, as rapidly as they can. As fast as they can come out. And 6% of the populations of Honduras and Nicaragua. And remember this, those governments, they send, the people that want to send, and those are the people we're getting.

These countries are so dangerous that the US State Department has travel advisories warning Americans, uh, not to go there. Yet Kamala is resettling all of those people here, anybody that wants to come. So we have, uh, travel warnings. Don't go here, don't go there, don't go to the various countries. And yet she's taken in the worst of those people.

**Donald Trump**

**00:41:29**

The killers, the jailbirds, all of the worst of the people. She's taking them in. And then I have to sit there and listen to her bullshit last night.

**Donald Trump**

**00:41:53**

And who puts it on Fox news and they shouldn't be allowed to put it on. It's all lies. It's all lies. Everything she said is a lie. But it all stops the moment I raise my hand and take the oath of office as your 47th president of the United States, it all stops.

**Donald Trump**

**00:42:29**

Thank you very much. Not far from where we are today, in a small, very beautiful town of 15,000. Whitewater. Do you know Whitewater? Right up the road a little bit.

**Donald Trump**

**00:42:45**

Kamala has flooded the town with an estimated 2000 migrants from Venezuela and Nicaragua. Very tough one. Some very tough people in that group. I know because I get the info. Housing costs have now soared by 25% because the government's buying houses for them.

**Donald Trump**

**00:43:06**

Diseases are spreading like wildfire. All sorts of disease. The police say they cannot handle the surge in crime, the schools can't teach and they're taking over the schools. And the town itself has plunged heavily into debt. The town's in big trouble.

**Donald Trump**

**00:43:23**

In Springfield, Ohio, 32,000 migrants from Haiti and other countries descended upon this idyllic town of 50,000 people. How idyllic town? 50,000 people. And now all of a sudden, a short time later, you have 32,000 more. They don't speak the language.

**Donald Trump**

**00:43:48**

They don't have the culture. Different culture, whole different culture. Everything's different. But yet 50,000 people with no crime, no problems, only happiness, love. Not anymore.

The mayor is a very nice man. I don't know him, but he's a very nice man. And he doesn't want to really talk about it, but he's got to talk about it. He wants to be politically correct. So rather than saying what he should be saying, which is you're all leaving, you're not coming in, we're not going to take you.

**Donald Trump**

**00:44:17**

We're not going to allow this to happen to our town.

**Donald Trump**

**00:44:26**

Instead of that, he was on television the other day. He said, no, no, we're trying very hard to get along with everyone. We're looking for interpreters because nobody speaks English. And I believe he actually intends on keeping the people in the town. The town is ruined.

**Donald Trump**

**00:44:46**

It's destroyed. I mean, I am politically correct, but not one that's this important. Your towns, your cities, your country is being destroyed. This is bigger than inflation, which is killing you all. Caused by Biden and Harris with their stupid energy policy and all of their spending on the green news scam.

**Donald Trump**

**00:45:08**

Billions and trillions on the green new scam on garbage that doesn't do anything, that actually brings our country back. They don't think about nuclear missiles from different countries. And by the way they can't handle them anyway. You'll end up in World War III. But they think about global warming, which is now called climate change, because global warming doesn't work anymore because it's actually cooling.

**Donald Trump**

**00:45:37**

It worked for a few seasons, but now it's not working. So climate change, a much better term, because that covers everything. Warming, cooling, rain, sun, it covers everything. Trillions and trillions of dollars they waste. You know, they want to go to 93 trillion.

**Donald Trump**

**00:45:55**

That's more money than every country in the planet is. And destroyed. Germany went that way for one year, and now they're building coal plants all over the place. You know why? Because they were getting destroyed.

**Donald Trump**

**00:46:06**

That's why Angela Merkel is no longer there. Already everybody is talking about leaving the different towns that we're talking about. The majority of the school cannot speak

English in Ohio, Springfield, they can't speak English. They're taking over the schools. There's nobody that can speak English.

**Donald Trump**

**00:46:29**

And the mayor is looking for interpreters. Isn't that wonderful? How can this happen? How can we allow it to happen? If Kamala has reelected your town and every town just like it, all across Wisconsin and all across our country, the heartland, the coast, it doesn't matter.

**Donald Trump**

**00:46:49**

We'll be transformed into a third world hellhole. That's what's going to happen 100%. Remember, there's a hat that's made that sells like crazy. Oh, there's a fly. Oh, I wonder where the fly came from.

**Donald Trump**

**00:47:07**

See, two years ago, I wouldn't have had a fly up here. You're changing rapidly, but we can't take it any longer. We can't take it any longer. It takes centuries to build up the unique, uh, character of the United States of America. Centuries and centuries goes on forever.

**Donald Trump**

**00:47:28**

Good and bad. It all comes out, and we ended up with a great country. But in three and a half years, they've really destroyed our country. They've really destroyed it, and we can fix it. But you know what?

**Donald Trump**

**00:47:44**

In four years, it's going to be too late. Just like we've seen in London and Paris and Minneapolis and Aurora and Colorado and Springfield, Ohio. But I'll not let it happen here in Wisconsin. I'm not going to let it happen. You're not going to let it happen, are you?

**Donald Trump**

**00:48:02**

And I will not let it happen to Prairie Duchene.

**Donald Trump**

**00:48:16**

So I just want to say we're pleased to be joined by so many great people. But one of them, as I said before, is Congressman Derek van Orden, who lives just a short distance away where a heinous sex assault that I mentioned before took place. It was terrible. And, Derek, I want to thank you very much for being here. You're doing a great job.

**Donald Trump**

**00:48:37**

But they had a hell of a time, right? Yes, sir. And this was from an illegal that came in through Kamala. And, uh, that won't be the last one. It'll only get worse.

**Donald Trump**

**00:48:46**

It's going to get so bad that it won't be sustainable. We have to get these people out. We got to get them out of here. Okay? Got to get them out of here fast.

**Donald Trump**

**00:48:55**

Now, the fake news would say, oh, he's such a mean person. I'm not mean. I'm a good person. I want to take care of. We got to take care of people.

**Donald Trump**

**00:49:02**

We've built this over 250 years. We got to take care of our country. Our country is being destroyed by these people, and you don't even know why. Are they, uh, stupid? Are they evil?

**Donald Trump**

**00:49:14**

Do they want us to be destroyed? It's so obvious that it can't work. It can't work. I mean, go and take a look at Springfield. Go and take a look.

**Donald Trump**

**00:49:24**

And the governor's a Republican. He's a nice man. I helped him very much. Without me, he wouldn't have been elected. But he's taken an attitude like, oh, uh, isn't it wonderful?

**Donald Trump**

**00:49:38**

Look, you got to do what you got to do. You got to get these people back where they came from. You have no choice. You're going to lose your culture. You're going to lose your country.

**Donald Trump**

**00:49:47**

You're going to have crime the likes of which nobody has ever seen before. Now, I'm speaking from common sense. You see, the republican party has really become the party of common sense. We need common sense.

**Donald Trump**

**00:50:07**

I mean, we're not going to have men playing in women's sports things. We want to have a border. We want to have a border. We want to have good education. We want to have low taxes.

We want to have a strong military. I rebuilt our military. Then they give away a big chunk of it to Afghanistan in the single most embarrassing day in the history of our country. The same idiots are dealing with us now on nuclear weapons in Russia and the problems in the Middle east. We have.

**Donald Trump**

**00:50:39**

This whole world is exploding. And, you know, one of the toughest, smartest people said very nicely, Viktor Orban. He's the, uh, head of a place called Hungary. He said, if you bring Trump back, everything's going to be good. Otherwise, his whole world is going to end up in a big, fat world war.

**Donald Trump**

**00:51:05**

You're going to end up having it. Also with us are, uh, Crawford county sheriff Dale McCulloch. Dale, thank you. Wherever Dale is. Thank you, Dale.

**Donald Trump**

**00:51:16**

Thank you. Good job. Prairie Duchin police chief Kyle Tiener. Kyle, uh, thank you very much. Thank you, Kyle.

**Donald Trump**

**00:51:26**

Good job. And Wisconsin gop chair Brian. Chiming thank you very, uh, much. Where's Brian? Oh, Brian.

**Donald Trump**

**00:51:35**

Stand up, Brian. Are we going to win, Brian? Okay, good. Brian's doing a great job.

**Donald Trump**

**00:51:45**

Doing a great job. Thanks, Brian. Good job. What kamala did not talk about in her lies last night just lied. Everything was a lie.

**Donald Trump**

**00:51:57**

And I always say, why didn't she do it? You know, she's been here almost four years. I'm going to do this. I'm going to do that. Reading off a teleprompter.

**Donald Trump**

**00:52:08**

Isn't it nice to have a president that doesn't need a teleprompter?

**Donald Trump**

**00:52:17**

But I keep asking. I said it in the debate. I said, so why don't you do it? Why don't you just do it? We're going to do this.

**Donald Trump**

**00:52:23**

We're going to. She's been there for almost four years. They didn't do anything except destroy our country. So why don't you do it? Then she says about a bill, it was such a bad bill, this bill that she talks about, you know, it's a fake bill.

**Donald Trump**

**00:52:37**

It was put in by the Democrats with a couple of Republicans that got duped and. And put before nobody wanted to vote. She said, I'm the one that talked them out. I wish I had that ability, that I was the one that said, don't vote for it. But I do have a certain say, but, uh, I would have never voted for that bill.

**Donald Trump**

**00:52:55**

It was so bad. It would have allowed everybody to become a citizen. It would have allowed at least 2 million people to come into our country. And very rough ones. It was a terrible bill, but they used that as an excuse.

**Donald Trump**

**00:53:09**

The fact is, all she has to do is go back to the White House. Wake up, sleepy Joe. It'll be 04:00. So he's gone to bed and say, joe, get your ass down here. I'm going to ask you to do me a favor because I'm losing in the election.

**Donald Trump**

**00:53:30**

Sign this piece of paper. What is the piece of paper? It says, to the border patrol, close the border. Three words like I did. And we want people to come in, but we want them to come in legally.

**Donald Trump**

**00:53:54**

Close the border, Joe, please sign it. Please sign it, Joe. I need help. Joe. I need help.

**Donald Trump**

**00:54:01**

They're killing me. On the border, I'm losing on the border. You know, I won in 2016 on the border. It was one of the big things. I mean, I won in a lot of reasons, but I won on the border.

**Donald Trump**

**00:54:09**

I won because I stopped people from coming on and killing our country with trade or the various countries mostly known as our friends. Our friends can be the worst on trade, okay? They kill us more than our enemies, frankly. They sort of come underneath, and all of a sudden you realize, gee, we got taken over, but I did great on that. But I probably won on the border, and I fixed the border.

**Donald Trump**

**00:54:30**

And then in 2020, I couldn't even talk about it yet. I got many. I got millions or more votes in 2020, but I still couldn't talk about it. And my people were saying to me, sir, they don't want to hear about the border because you fixed it. I said, well, I want to talk about it.

**Donald Trump**

**00:54:42**

They don't want to hear it. It's true. Nobody wanted to hear it. Today's border is 20 times worse than it was in 2016. 2016 was like a great day for this border.

**Donald Trump**

**00:54:55**

2016, I fixed it. I built hundreds of miles of wall. I had another 200 miles, and that's much more than I promised to do. 200 miles ready to go. And when they took over, because of our rigged election, when they took over, they didn't want anything to do with putting those panels up.

**Donald Trump**

**00:55:14**

You couldn't put them up. They were laying right there, right next to it. I don't know if you heard this story. So, you know, they had sections where they even said, we have to build a wall. And the panels that we put up were exactly what, uh, border patrol and ice wanted.

**Donald Trump**

**00:55:29**

Everything. They even have the anti climb panel on top, which I hated to look at, but it made it much harder to climb. So I said, well, do I give up the look for the climb? It's called an anti climb panel, and it's. Right.

**Donald Trump**

**00:55:42**

It's very hard to get over the top. These guys can do anything. And what happened is they didn't want to put up, so they went out and bought a totally different panel instead of just putting up, which is nothing by comparison, not nearly as good, not as good in any way. Rather than using the panel that was sitting 10ft away, they put different panels up. Looks like hell, too.

**Donald Trump**

**00:56:06**

Now you have a wall that doesn't, you know, they say, where the hell did that come from? But they admit, you know, I always said for years, I said, everything gets obsolete fast. Like, you have a computer and you think it's great. And then two weeks later, it's obsolete. You have a new cell phone.

**Donald Trump**

**00:56:21**

I love it. I love it. A week and a half later, they come out with a better one. The only things that don't get obsolete are the wheel and the wall. A wall is never obsolete.

**Donald Trump**

**00:56:34**

But what Kamala did not talk about in her remarks last night were the countless Americans who been brutally assaulted and killed by illegal aliens. And she let them in. Killed many, many. Killed just so many people already. You know, we think this is the beginning.

**Donald Trump**

**00:56:50**

It's not. This has been going on ever since they took over. Because from the day they took over, they said, we want an open border. And nobody believed them. It wasn't believable.

**Donald Trump**

**00:57:01**

And here today is Patty Moran, whose heartbreaking story is a tragic warning of what will come to every city in America. With four more years of Kamala Harris. I can't even believe she's being considered. Look, she was considered eight weeks ago, the worst vice president in history. A very dumb person.

**Donald Trump**

**00:57:25**

The fake news was calling her dumb. Stupid didn't have a chance. She was at the bottom of a list of twelve candidates. They voted. She came in last.

**Donald Trump**

**00:57:35**

She fought Joe Biden, crooked Joe. I call them two names. I call them crooked Joe, Sleepy Joe. I'm not sure. I've never figured out which is better.

**Donald Trump**

**00:57:44**

He said they're both good. I agree. I actually tried them together, but it doesn't work together. I sort of interchange. But, uh, think of it.

**Donald Trump**

**00:57:54**

This person, what they've done to our country and what's done to Patty. She lost the most beautiful person, her daughter, you've ever seen. And I've gotten to know her, and none of this would have happened. Just like the war with Ukraine and Russia would have never happened if I was president, no chance, zero chance. Putin would have never done it.

**Donald Trump**

**00:58:18**

Just like the attack on Israel would have never happened on October 7. Just like that horror show in. If you look at Afghanistan, would have never happened. Inflation would have never happened. We would right now be energy dominant.

**Donald Trump**

**00:58:32**

Instead of looking for energy, you know that our reserves, we have a reserve, and very. It's really meant for war. It's meant for very important things, strategic reserves. Right. Just reported today they're at the lowest point they've been maybe ever.

**Donald Trump**

**00:58:47**

But they know in 40 years because Biden used that to keep suppress the numbers. Because without that, the oil prices for your car, it wasn't supposed to be for your gasoline, in all due respect. And it's peanuts compared to the amount we're talking about. But now we have the lowest strategic oil reserves in the history of our country, we think, or many, many decades. And it's a shame, but Patty's precious daughter Rachel was a 37 year old mom of five precious children.

**Donald Trump**

**00:59:19**

A beautiful woman who lived in Maryland, 15, uh, hundred miles from the border. That's a long way from the border. Earlier this year, while Rachel was out on a run, she was brutally raped and murdered by this disgusting illegal alien who was let into the United States by Kamala and her lax law. Everyone might kill her. We had the great he, ah, would have never been able to get in.

**Donald Trump**

**00:59:50**

She stopped every single one of them. She was the border czar. Now, she doesn't admit that whether you call her a czar or not, she was no czar, because she really wasn't a czar. Uh, she didn't give a damn about the border. She never spoke to border patrol.

**Donald Trump**

**01:00:03**

Do you ever see the agents? All the top people, they never spoke to Biden or her. And yet it's like the most important thing. But Patty has suffered greatly. I've gotten to know Patty.

She's a great woman. And she lost an amazing person in her family. Her family is suffering tremendously. But, uh, I'd like to ask Patty to come up and just say a few words about Rachel, please. Patty, thank you very much.

**Donald Trump**

**01:00:31**

Thank you. Thank you. Um, I'm not a politician, so I'm not here to give you a sense. Um, I do want to say vote for Trump, though, because I really believe that he's going to close our borders. Rachel.

**Donald Trump**

**01:00:52**

Rachel was a very fun, loving, down to earth, compassionate woman. She worked really hard. She took good care of herself, good care of her children, and she loved people. Stammering, stuttering problem. So she was bullied when she was a child, so she really has compassion for other people.

**Donald Trump**

**01:01:15**

She was like the american mom. She took care of her kids. She worked hard. And because of this open border, her life was taken away. And her children have been robbed of their mother.

**Donald Trump**

**01:01:29**

And it's just, we, uh, can't have it. Another four years of Kamala Harris. This story is going to be multiplied by the thousands.

**Donald Trump**

**01:01:50**

So unnecessary. And, Patty, we're so sorry for the terrible suffering that you've, uh, had to endure. I've had lunch with Patty. We've spoken. We've spoken to the whole family.

**Donald Trump**

**01:02:01**

And I've spoken to many other families. Same thing. And it's incredible. It's just incredible that a thing like that could happen. No reason for who has, who has an open border, where people could.

**Donald Trump**

**01:02:11**

They don't have the names of anybody. You know, those 13,000 murderers, they don't have any idea where they are, who they are. They don't have their names. Uh, we just know they're all out of jails, all convicted of really bad murders. And now they're in our, uh, country.

And that's a lot of people. In honor of Rachel's life and every other victim of migrant crime, we will win this election. We will secure our border. We will secure that border on day one. I always say, you know, they say, what are the first things you're going to do?

**Donald Trump**

**01:02:43**

Or the first two things I always say. Number one, we're closing our border. And number two, we drill, baby, drill. Drilling behind the border.

**Donald Trump**

**01:03:06**

A reporter asked me that question last night. What's the first thing? But, I mean, the first thing I said, well, there's a couple of things I said I want to hear the first thing I said, you know, the first thing. Close the border. The second thing is, drill, baby, drill.

**Donald Trump**

**01:03:21**

But I'll do them at the same time. We're going to bring down your costs at a level that you wouldn't believe because that's what you have to do. We're going to have. We will give you, you know, your electric costs here are the highest in the nation. I think you probably know that.

**Donald Trump**

**01:03:33**

We will bring down your energy costs within the first twelve months of my administration by 550%. And it'll be easy. We have more liquid gold under our feet. We're going to bring down your electricity and your air conditioning and your gasoline. We're going to bring down your energy costs by 55 0% within twelve months of January 20.

**Donald Trump**

**01:03:58**

So hold me to it. I hope I make it. All right. I hope I make it. You can hold me to it.

**Donald Trump**

**01:04:07**

And that in turn is going to bring down everybody, everything else. You're going to bring down the cost of food. You're going to bring because your food costs have gone. You know, the biggest complaint I actually get is groceries. When you talk to the people, they say, uh, I say, what's the biggest problem?

**Donald Trump**

**01:04:22**

Groceries? And it's true. You look at the cost of bacon, the cost of cereal, the cost. These things went up at numbers that nobody's ever seen before because we have an incompetent administration. And she is.

I believe she's more incompetent than Joe. I really do. I believe that she's more incompetent than Joe. A president's first duty and sole allegiance is to his own citizens, the citizens of his country. And Kamala's allegiance is to illegal aliens and foreign migrants.

**Donald Trump**

**01:04:52**

That's what it is. And maybe that's, uh, a marxist thing, I don't know. And where is her father? I'd love to speak to him. I'd love to speak to him because nobody's heard from him, but I would like to speak to him.

**Donald Trump**

**01:05:04**

My heart is loyal only to the american people. I just feel for the american people.

**Donald Trump**

**01:05:16**

And unless I'm elected, it's only going to get worse. It's only going to get worse. Hey, look, you have two people. So you had, let's say, 350 million people. You have no idea how many people you have in this country.

**Donald Trump**

**01:05:28**

You know, normally you say we have. We have no idea how many people. They've lost control. But let's say you have 350 million people. Then you had some people running as Republicans and a lot of people running as Democrats.

**Donald Trump**

**01:05:41**

She was the first one out, by the way. I think you had 22 people running as Democrat when they started. And is that the right number? Right, 22 people? And she was the first one to quit.

**Donald Trump**

**01:05:54**

She quit the first. She never got to Iowa. And then you had them fade and you ended up with, uh, crooked Joe. And that's okay. I said, this is crazy.

**Donald Trump**

**01:06:05**

He's the one that got the nomination. He got 14 million votes. You know how many she got? Nothing. And everyone said she'll never get the nomination.

**Donald Trump**

**01:06:12**

But they were afraid because they wanted to be politically correct, so they gave it to her. But she was the weakest person on the whole list. But she's got the fake news. They're all

fake. And they.

**Donald Trump**

**01:06:23**

They're behind her. Nobody knows why. I'm sure they don't know why. They do it out of habit. They do it out of habit because there's no reason why anybody would be behind her.

**Donald Trump**

**01:06:32**

She's not qualified. She'll do a horrible job. She'll be the worst president. She'll be worse than Joe, which is hard to believe. The happiest president right now is Jimmy Carter because his administration was brilliant compared to the one we have right now.

**Donald Trump**

**01:06:49**

And it's a very nice thing. He's an old guy, but he's the happiest guy in the world because he was brilliant. By comparison to these people, they are the worst ever. On day one of my new administration, I'll stop all of the migrant flights into our country. You know, those planes are flying over right now and they don't count them in the numbers.

**Donald Trump**

**01:07:07**

I don't know if you know, they. And the phone app, which are thousands and thousands of, they're not counted in the numbers. That's why they do it, because they don't want to count it. I will end catch and release. I will restore, remain in Mexico.

**Donald Trump**

**01:07:20**

I will bring back title 42. That's the medical. Send in federal law enforcement to rescue every town that has been taken over by migrant gangs and criminal alien thugs.

**Donald Trump**

**01:07:38**

And by that time, many of your towns in this great state will be in that position. It's happening fast. It's happening fast. And again, the politicians don't like talking because they think it's bad publicity. Worst publicity is to let it happen.

**Donald Trump**

**01:07:55**

The governor of Colorado, he's a Democrat liberal guy. He's beside. He doesn't know what to do. These Venezuelans have come in. They're taking over big parts of his towns, and he doesn't.

**Donald Trump**

**01:08:07**

And they're armed with weapons that the military doesn't even have. We will seal the border. We will stop the invasion immediately. We will begin the largest deportation operation in the history of our country because we have no choice.

**Donald Trump**

**01:08:35**

No matter what obstacles and dangers are thrown in our path, I will keep on fighting for you and for this country that we all love. That's why I'm doing this. I tell you what, I had a good life before I did this. Nobody was shooting at me. I had a hell of a life.

**Donald Trump**

**01:08:53**

Oh, uh, those locations, those beautiful. I could have been. I could have been sunbathing on the beach. You have never seen a body so beautiful. Much better than.

**Donald Trump**

**01:09:04**

Much better than sleepy Joe. No, but think of it. Here's a guy. He's president Monday, Tuesday, Wednesday, he goes to the beach. And then he's got a lot of cameras, you know?

**Donald Trump**

**01:09:15**

Uh, and somebody told him he looks good in a painting suit, but. And he doesn't know, you know, what's he, 82? It's hard. Generally speaking, it looked great. But the mind can be good.

**Donald Trump**

**01:09:28**

You know, the. I know so many people in their nineties that are sharp. He's not one of them. But any guy that can lie down and in front of cameras fall asleep stone cold out. And he's the president of the United States.

**Donald Trump**

**01:09:46**

And it's a Tuesday, Wednesday, Thursday. He's laying on the beach, and he's sleeping. I say, how the hell do you fall asleep in front of the fake news media? But see, he can do it. If I did that, I would be.

**Donald Trump**

**01:10:01**

But because they protect him, he can do it. But he's out cold and in certain ways I respect him. I wish I had that ability to fall asleep like that. I would love that ability. I'd get a lot more sleep.

**Donald Trump**

**01:10:12**

That would be a good thing. But he goes to sleep stone cold in front of the media. I never saw anything like it. He's sleeping. I said, what the hell?

**Donald Trump**

**01:10:20**

How do you do that? And, you know, honestly, our people don't want to see him at the beach on a Tuesday sleeping. We really don't want to see that our American ancestors shed their blood and tears to build this magnificent land. And we are not going to let Kamala Harris and her party of absolute lunatics like Nancy Pelosi. How about Nancy?

**Donald Trump**

**01:10:46**

Did you see. Did you see this crazy Nancy? She's crazy as a bedbug. Listen, crazy Nancy. Ok.

**Donald Trump**

**01:10:53**

Visa, uh, announces that they're under major investigation. Majority by the Department of Justice. Major Visa. She owns a lot of visa stock. And they said Nancy Pelosi, she sold it the day before it was announced one day.

**Donald Trump**

**01:11:15**

Her and her husband, they sold their stock the day before this was announced. Can you imagine if that were a Republican? I don't think so. Oh, uh, no, it's terrible. That's terrible.

**Donald Trump**

**01:11:28**

No, it's terrible. That they're allowed to do that is terrible. But you're the people of America. You're the soul of America, and you will be trampled over it no longer. We're not going to let this happen.

**Donald Trump**

**01:11:41**

We got to stop it. We've got to stop it now. You know, I used to say they're trying to destroy our country. And I always hated the sound of that. The truth is, they have destroyed our country.

**Donald Trump**

**01:11:50**

What they've done, they have destroyed. But we're going to bring it back. We're going to bring it back fast. In this election, we need record turnout from our small towns. We need the heartland of America to stand up and to rescue this nation.

**Donald Trump**

**01:12:03**

We have so many great little towns and cities. You add them all up and they're big. They're big. That's what I've always had. But they're trying to destroy them.

**Donald Trump**

**01:12:12**

And they're petrified. I told you, they're petrified of what's happening. Even if they haven't gotten the migrants yet, they're all coming. We need the entire midwest to get out and vote and early mail in voting for everywhere. The Midwest has been so powerful for us.

**Donald Trump**

**01:12:27**

This area has been so powerful for us. You've been powerful for us. But Wisconsin, I mean, honestly, any place where there's honest voting has been powerful. For us. When you look at California, which, by the way, she destroyed San Francisco.

**Donald Trump**

**01:12:47**

She was the Daeinhead. Then she became the attorney general of California. She destroyed California along with Gavin Newscomb. You know that, Gavin. So I want to ask you to, uh, go and vote and really go vote to save America.

**Donald Trump**

**01:13:03**

I believe this is the most important election in the history of our country.

**Donald Trump**

**01:13:11**

With your support, we will get the border shut. We will send the illegals back. We will repel the invasion immediately. It won't take long. We'll defend our territory, reclaim our sovereignty.

**Donald Trump**

**01:13:24**

We've lost our sovereignty. And restore the allegiance of our government to the people of this country. Together, we will make America powerful again. Make America wealthy again. Make America healthy again.

**Donald Trump**

**01:13:41**

Make America strong again. Make America proud again. Make America safe again. And we will make America great again. We are going to make it greater than ever before.

**Donald Trump**

**01:13:58**

So, Wisconsin, get out and vote. God bless you all. I'll be back. I'll see you soon. Thank you.

Get out and vote. Save our country. Save our country.
