Summary by ChatGPT

- Criticism of Kamala Harris: Trump condemns Vice President Kamala Harris for her policies on energy and climate change, accusing her of undermining Pennsylvania's economy and energy independence by shutting down the Keystone pipeline and banning fracking.

- Energy Policy: Trump highlights his own administration's actions to secure U.S. energy independence, including approving the Keystone XL pipeline and shutting down the Nord Stream 2 pipeline, contrasting these with Biden's policies.

- Attack on Harris's Record: Trump criticizes Harris for her inaction on border security, inflation, and various social issues, claiming she has failed to address important problems affecting American families and has been ineffective in her role as vice president.

- Support for Conservative Leaders: Trump praises several Republican leaders and candidates, including Mark Caskey, Dave McCormick, and others, emphasizing their commitment to conservative values and energy policies.

- Call to Action: Trump encourages voters to support him in the upcoming election to reverse current policies, restore energy independence, and address what he sees as failures of the Biden administration and Harris.

Donald Trump

00:00:01

Wow.

Donald Trump

00:00:01

Thank you very much, everybody. I love this place.

Donald Trump

00:00:05

I love it.

Donald Trump

00:00:06

We've had great luck here. So just to everybody, hello, Pennsylvania. How are we doing, Pennsylvania? And I'm thrilled to be back in this beautiful commonwealth with thousands of proud, hardworking american patriots.

Donald Trump

00:00:23

That's what you are.

It's coming. It's coming. Listen to this. 67 days.

Donald Trump

00:00:31

Wow.

Donald Trump

00:00:32

67 days from now, we're going to win Pennsylvania. We're going to defeat comrade Kamala Harris. Did you see her?

Donald Trump

00:00:42

Did you see her last night? Did you see her last night?

Donald Trump

00:00:46

I don't know. You think she's going to be able to handle President Xi?

Donald Trump

00:00:52

I don't know. I don't think so. China, North Korea, Russia, I don't know.

Donald Trump

00:00:58

But we're going to win back the White House. We're going to make this country greater than it's ever been. And everyone here today is part of the greatest political movement in the history.

Donald Trump

00:01:12

Of our country, you know, that.

Donald Trump

00:01:14

Make America great again. Maga and whoa.

Donald Trump

00:01:20

Look at all of the fake news. They gotta.

Donald Trump

00:01:23

They got a lot of fake news back there. That's a lot of fake news, David. That's a lot of people. Some I like, about 7% and some I don't like. Now, that's a lot.

Donald Trump

00:01:39

But, uh, you know, when I say the greatest political movement in the history of our country, if I say something even slightly wrong, they give me twelve pinocchios. Right? Twelve pinocchios. Now we can't say anything even a little bit wrong. I can't even joke.

Donald Trump

00:01:56

When I used to show Biden couldn't.

Donald Trump

00:01:58

Find the stairs off the stairway, they'd say Trump couldn't find. They'd say they took it and they would say, I couldn't. When, uh, different things. The worst thing you can do with them is sarcasm because it doesn't work with the fake news.

Donald Trump

00:02:14

So we won't have any fun. But we will have fun. We're going to have a lot of fun. And I recognize you. How are you? And I recognize you. But no, it's amazing, uh, what we.

Donald Trump

00:02:28

Built all together and started eight years.

Donald Trump

00:02:32

Ago, maybe a little before that, who knows? Probably started 40 years ago in our.

Donald Trump

00:02:37

Soul, but it started eight years ago.

Donald Trump

00:02:40

And nobody would have thought anything like.

Donald Trump

00:02:41

This could have happened. And it represents a tremendous piece of.

Donald Trump

00:02:46

The republican party, and more importantly, it.

Donald Trump

00:02:48

Represents a tremendous piece of this country, tremendous peace, a lot more than 50%, therefore, we have to get out and vote.

This past week, I was honored to.

Donald Trump

00:02:58

Receive two endorsements of former Democrats for.

Donald Trump

00:03:02

President Tulsi Gabbard and Robert F. Kennedy junior. And they're both great people. They were Democrats, as you probably know.

Donald Trump

00:03:13

And they, uh, felt very strongly about the endorsement, and I feel very happy to get it.

Donald Trump

00:03:19

Every day we are welcoming more republicans, independents, traditional democrats, and old fashioned liberals.

Donald Trump

00:03:26

You know, they don't use that term anymore. They use progressive. We don't use that term. We like liberal better.

Donald Trump

00:03:32

Progressive sounds so good.

Donald Trump

00:03:34

It sounds progressive. They're not progressive. They're the opposite.

Donald Trump

00:03:38

Together we're fighting to secure our borders, end the endless foreign wars, and defend.

Donald Trump

00:03:43

The working people of America. And coming in, I heard some of the most beautiful speeches. I heard just beautiful, beautiful speeches. I want to thank all of the speakers that preceded me. Beautiful speeches.

Donald Trump

00:03:58

We're joining forces to defeat government corruption, restore free speech, and make America healthy again.

Uh, we're going to make America healthy again. You know, we're a nation that is not doing well in a lot of ways, and we're not doing so well with health, but we're going to solve a lot of those problems, I think, over the next short period of time. A lot of it's common. A lot of that's common sense, too.

Donald Trump

00:04:22

It's all common sense when you get.

Donald Trump

00:04:24

Right down to it.

Donald Trump

00:04:25

But we're going to get toxic chemicals out of our environment, and we're going.

Donald Trump

00:04:29

To get them out of our food supply.

Donald Trump

00:04:31

We're going to get them out of our bodies. We'll get them out of our body. Right. Right. With victory this fall, we will enact this pro family agenda, and we will bring back the american dream, bigger, better, and stronger than ever before. They never talk about the american dream.

Donald Trump

00:04:50

They never mention it.

Donald Trump

00:04:51

They don't talk about the american flag, by the way, the american flag. We got some of the greatest congressmen, warriors here that you have anywhere. And congressmen go to Congress soon, like immediately, but soon. We should give a one year sentence.

Donald Trump

00:05:08

In jail to anybody that burns the american flag. You should do that.

Donald Trump

00:05:17

Mike. Do it, Mike.

00:05:22

Mike, do it.

Donald Trump

00:05:35

That looks so bad at, uh, the Democrat national.

Donald Trump

00:05:39

I always call it Democrat. You know, they want it to be called democratic. I said, then change your name. They don't change their name. Sounds worse, so I use it. But at the Democrat national Convention, I watch those american flags burning all over the place. I think it's a disgrace.

Donald Trump

00:05:56

And they said it's unconstitutional to stop it.

Donald Trump

00:05:59

Like hell it is. Okay? Like hell it's not unconstitutional.

Donald Trump

00:06:06

It's like when I stopped the riots.

Donald Trump

00:06:08

In Washington, they were going, they were taking down statues they were having a lot of fun. They didn't know what they were doing. Having a lot of fun. And I pulled out an old law from 1907, because we don't pass laws like that, that are tough. And it said, if you touch a monument, if you touch it, even touch it against the will of authority, if you take it down. But if you even touch it, you go to jail for ten years. And there's no nine years and five months. It's ten years.

Donald Trump

00:06:39

And so I signed it. I took it out. It was dusty.

Donald Trump

00:06:43

It was old and dusty. Hadn't been used in 78 years, I think they said. And I signed it, I announced it, and I watched about 10,000 asses I could watch from the back as they left town, they were all gone.

Donald Trump

00:07:02

I knew there was a problem when.

They started ripping down a statue of Abraham Lincoln. I said, they're going to take down the statue of Lincoln. I don't think that's, uh. We're not going to let that happen. And we've got to be tough, because if you see what's happening in Aurora, Colorado today, did you see that?

Donald Trump

00:07:17

Where venezuelan gang members have taken over parts of the city, they've taken over apartment houses, because these stupid people that we have leading our country are allowing these people, these criminals, to come and to come into our country, and we're going to get them the hell out of here. And, ah, this is just the beginning. Wait till you see what happens. Wait until you see what they're doing.

Donald Trump

00:07:49

Unbelievable.

Donald Trump

00:07:51

No, it's these congressmen.

Donald Trump

00:07:53

They're looking, they're just shaking their head. They can't believe it.

Donald Trump

00:07:56

They can't believe two things, actually. The size of these crowds. You know, you could fill this place up three times. Why didn't you get a larger arena? Somebody said, as we're riding by, oh.

Donald Trump

00:08:15

It'S too bad the arena hasn't started filling up. I said, no, you don't understand.

Donald Trump

00:08:19

It's totally full. But the line goes back for miles. It's already full. But we got to do that, fellas, you know, we got to do it. Because I've been saying for a long.

Donald Trump

00:08:32

Time, I said, these people are coming in from prisons and jails. Nobody listened to me.

Donald Trump

00:08:39

They're murderers.

They're drug dealers. If you take a look at Venezuela as an example, their crime is down 72% because they've taken their criminals from.

Donald Trump

00:08:49

Caracas, they've taken their drug dealers, they're emptying their prisons into our country.

Donald Trump

00:08:56

Their crime is down all over the world. Crime is down in the Congo in Africa. 22 people deposited into our country. Where do you come from? The Congo. Where in the Congo?

Donald Trump

00:09:08

Jail.

Donald Trump

00:09:09

What did you do? We will not say that you can imagine. Listen, they come from Africa, they come from the Middle east, countries that are not friends of ours. And they're coming by the millions. By the millions.

Donald Trump

00:09:26

And these fools, Kamala, who's a marxist, these fools are letting them come into.

Donald Trump

00:09:33

Our country, destroy our country. And I said, you know, did you ever see that? I don't want to brag, but they do have a big selling hat. You know what it says? Trump was right about everything, right?

Donald Trump

00:09:43

Front row joes. Front row joes, right? No, but it's. Hey, look, if I ran one of those countries, I would be doing better.

Donald Trump

00:09:55

Than them at getting the people out.

Donald Trump

00:09:56

Uh, you run a country, the country's.

Donald Trump

00:10:00

Inundated with really tough people that are, uh, criminals. I want to get them the hell out. If I was the head of a country, the president of a country, if I was in charge of anything having to do with the country, I would have moved them out even faster than they're doing. They are moving people into our country at numbers that nobody's ever seen. And those countries are becoming safe countries. Wait till you see what's going to happen. You know, they're just getting acclimated. You know what that means? Acclimated. They're getting used to a society that really goes too far.

Donald Trump

00:10:35

The only thing they go after is.

Donald Trump

00:10:37

Guys like Trump because he protests an election.

Donald Trump

00:10:40

That's the only thing they're good at going after. They don't go after criminals. They don't go after people that kill people.

Donald Trump

00:10:46

They don't go after drug dealers that kill, on average, 500 people during their lifetime. So a drug dealer kills 500 people, and the only thing they would understand would be the death penalty. If you had the death penalty for drug dealers, you wouldn't have any more drugs. You wouldn't have any more drugs.

Donald Trump

00:11:11

Instead, we form blue ribbon committees made.

Donald Trump

00:11:13

Up of our great first lady and lots of people, like Steve Witkoff, great developer in New York. But they don't do this for a living. The only thing they understand, I went to China. I saw President Xi, had a good relationship until Covid came in. Then I broke it off. That was too much.

Donald Trump

00:11:33

But I said to him, and I.

Donald Trump

00:11:34

Had a great relationship with him, and I will again, probably. But I said, do you have a drug

problem? 1.4 billion people? No, no, no. We have no drug problem. Why don't you have a drug problem? Because we have the death penalty, he.

Donald Trump

00:11:48

Said, for drug deals. If they sell drugs, they die, he said, so those people that sold drugs.

Donald Trump

00:11:57

They said, you know, let's go to another country. This is a little bit, uh, but they do. In many other countries, in countries where you have that, you don't have a drug problem. And we are becoming a drug infested nation. Whether you like it or not, we're becoming a drug infested nation.

Donald Trump

00:12:12

So we better get our act together.

Donald Trump

00:12:13

You know, years ago, centuries ago, China was taken over numerous times by smaller nations, much smaller nations, because they were all drugged out from the opium fields and all of that. And then one of their very powerful leaders said, no more. And they ended it. And we're going to have to end it, too, because we're really a country that is, we're a failing nation in a lot of ways. What they've done to our country is incredible. What is Kamala, who's a total lightweight. Did you see her on television last night?

Donald Trump

00:12:47

This is going to be the president. This is going to be the president of our country.

Donald Trump

00:12:54

I don't think so. Uh, sitting propped up in a desk.

Donald Trump

00:12:58

With this guy, this, uh, tampon, Tim Tampon.

Donald Trump

00:13:11

And it's the first interview she's done, and, like, nobody's ever seen anything like it.

Donald Trump

00:13:17

And if you're too weak to do.

A one on one interview with a person, that, uh, was so soft, you know, I know Dana. She's always, you know, always nasty. She was so nice to the Democrats. It's much easier to be a Democrat. But we don't agree with their policies because their policies will destroy our nation. So we can't do that. We can't do that. But it was a very weak interview from the standpoint of CNN. I think CNN should be ashamed of themselves.

Donald Trump

00:13:45

If that were me. Aren't, uh, there, sir, I heard you want the death penalty for drug dealers.

Donald Trump

00:13:51

Why? Well, you know, I'd like to end the drug epidemic, if that's okay. Remember this? And I said it. Every drug dealer, on average, kills 500 people. That's not mentioning all of the families that are destroyed forever. They're destroyed forever. And we have to do something about it because we are becoming, and we are a drug infested nation. We have to do something. And if you did that meaningfully, you will in one week stop the drug problem. Nobody's going to be selling drugs. Nobody.

Donald Trump

00:14:30

I don't know if the country is ready for it, but they should. They give you fake numbers, the real numbers.

Donald Trump

00:14:37

We lost, uh, probably 350,000 people last year to drugs, to fentanyl and other drugs. I had a deal with President Xi who was going to put that on the, on their ultimate crime list. That's where they give the death penalty. If they make it in China, they sell it here. He was going to give the death penalty when we had a rigged election. What happened is, when I left, they never picked it up. Biden never picked it up, so they never did it. But they were going to give the death penalty, which is their ultimate, ultimate, uh, punishment. You can't get too much more ultimate than that. They were going to give the death penalty to the fentanyl makers in China if they make it and sell it in here. And they were going to do it because, you know, otherwise, we weren't going to do trade. Little things like, we won't trade with you anymore. We won't pay you billions of dollars anymore. Uh, so easy. So easy. But people like Kamala, she let San Francisco die. She destroyed probably the greatest city, maybe one of the greatest cities, but could be a friend of mine, Bob Tisch, used to say, years ago, he said San Francisco's the greatest city in America. That was probably 1670. He passed away. Great guy. He passed away, but he used to talk about San Francisco all the time. Today, you can't walk into San Francisco. She destroyed it. She destroyed. She's the one that started it, too. Um, she was the district attorney. Then she destroyed California along with Gavin Newscomb, you know that.

One of the truly bad governors. But the fake news is doing everything.

Donald Trump

00:16:12

Possible, everything they can to help Kamala Harris. Do you ever notice nobody knows what her last name is? I go, okay, I'm gonna give you the first name. Tell me the last name. I say Kamala. Uh, they have no idea who the hell she is.

Donald Trump

00:16:29

But as they find out, you notice.

Donald Trump

00:16:31

Our poll numbers are starting to skyrocket. When they find out that she's a marxist, when they find out her father, you know, is a marxist. Professor, you know that.

Donald Trump

00:16:40

When they find out that she was the one that destroyed California and San.

Donald Trump

00:16:44

Francisco a long time ago, uh, you can't have this. Look, we have to put our country back into shape. Somebody said women don't like Donald Trump. I said, I think that's wrong. I think they love me. I love them.

Donald Trump

00:17:01

I love them. Speaking of them, North Carolina, these women, this is number 227 rally. And they've been to some other than rallies. 220, they're wealthy as hell. Look at them. They've got nothing but cash. Their husbands are great.

Donald Trump

00:17:31

But they allow them to go all over the country. They follow me all over the country.

Donald Trump

00:17:35

We have front row joes over here. We got the women from North Carolina.

Donald Trump

00:17:39

Look at them. And.

Donald Trump

00:17:44

No, but they're great patriots.

Donald Trump

00:17:46

They're great patriots. And, you know, I spoke to the husbands one time. I say, how do you put up with this? Your husband's. Your wives are traveling all over the place. Do you mind? We trust our wives, sir. Uh, we trust them implicitly. I said, well, you have great wives, let me tell you. But they've traveled. I think it's like 228, something like that. But it is beautiful to have you here. We love to have you here.

Donald Trump

00:18:08

Always perfectly coiffed. They're always perfectly coiffed. Right. They're beautiful. They're great women.

Donald Trump

00:18:17

Great women. And we appreciate them being here. We appreciate you guys being here. You, uh, were here in Butler. They were there in Butler. I remember they were standing there in the front.

Donald Trump

00:18:26

Front row joes.

Donald Trump

00:18:27

You know what they get here, like, three days early.

Donald Trump

00:18:29

They wait around for three days, four days.

Donald Trump

00:18:33

They probably got to know some of my guys by now, I would think. They don't have to be quite so, uh, anxious. They're going to be, uh. But they've done a great job. And then we have. Mister. Wall.

Donald Trump

00:18:43

Irving Wall.

Donald Trump

00:18:44

Would you please stand up? Irving wall.

He is a great guy. And he was there for Butler, too, wasn't he?

Donald Trump

00:18:57

He was there. I saw him there. But he's been to many shows. How many shows have you been to?

Donald Trump

00:19:02

He's lost track.

Donald Trump

00:19:03

I agree.

Donald Trump

00:19:05

I agree.

Donald Trump

00:19:05

But I appreciate it. We appreciate it. The whole place appreciates. Ultimately, they're. They're patriots. It's not about me. These are incredible patriots. These ladies are incredible patriots. So I just want to thank you. Incredible. Uh.

Donald Trump

00:19:21

But to show you how bad the fake news is, some of the.

Donald Trump

00:19:25

Gold star families, you probably read this over the last couple of days, and a lot of people say, sir, don't hit down. Don't hit down on them. The fake news. Don't hit down. Sir, don't even mention. I said, should I mention it? Don't hit down. Well, but it became sort of a story, so I always like to mention it, because if you don't mention it, our supporters don't really know what to believe, and they sort of believe this stuff. So the gold star families and, uh, incredible people. And I got to know them because the, uh, 13 families who were, as you know, lost a loved one in Afghanistan so needlessly because we have incompetent we have an incompetent president and vice president, grossly incompetent. And we had Milli and these incompetent generals that should have been fired immediately. Not one person was fired over Afghanistan. And by the way, Russia saw that they went into Ukraine, because they said, I had no idea that the United States was so stupid. So then, you know, when I was running that, I spoke to the leader of the Taliban. They run the whole deal. And I said, abdul, don't even think. Don't do it. Abdul, don't do it. Because they were shooting. They were killing our people, and they were really killing them. Um, previous to me and Obama, they were killing him in the Obama administration and with

Biden. Biden. But, uh, how did he do in the debate?

Donald Trump

00:20:42

A friend of mine said, sir, what did you do?

Donald Trump

00:20:45

You.

Donald Trump

00:20:47

I said, how good was I tonight, sir, you probably got him thrown out. Now you're gonna have to run against somebody new. I said, I don't care.

Donald Trump

00:20:55

I have to do what I have to do. We have to do what we have to do.

Donald Trump

00:21:01

And I look forward to the debate with her.

Donald Trump

00:21:05

But what happened? So with Afghanistan, you know, I do the weave. You know what the weave is? I'll talk about, like, nine different things, and they all come back brilliantly together, and it's like. And friends of mine that are, like, english professors, they say it's the most brilliant thing I've ever seen. But the fake news, you know what they say? He rambled. That's not rambling. When you have. What you do is you get off a subject to mention another little tidbit. Then you get back onto the subject, and you go through this, and you do it for 2 hours, and you don't even mispronounce one word of. And they say he had 100,000 people. You know, New Jersey, we had 107,000 people. They never would like to report it. So I say it. But in Wildwood, New Jersey, they announced 107,000 people.

Donald Trump

00:21:54

And then they say, well, look at this. I mean, if you gave me a big arena, we would have said 45,000 people or something.

Donald Trump

00:22:02

But it is rather brilliant. But they say, yes, he rambled. But in Afghanistan, so what happens is, you take the wonderful families, and they come in, and we're in Washington. They said, would it be possible, sir, would it be at all Possible for you to come? Because we're celebrating our child's life. The child was buried because of Joe Biden and Comrade Harris.

Would it be at all possible, sir, for you to be there. And I said, it's going to be real tough. I was really, like, far away, and sometimes it's tough. But I said, you know what? We have to do it. And I got my team and I said, let's go. We're going to Arlington Cemetery. I said, we're going to Arlington, because.

Donald Trump

00:22:59

Again, I got to know these people.

Donald Trump

00:23:02

Because honestly, they would send me death certificates of their child. They said, sir, would you sign it, please? Sign it. We refused to accept his name on this death certificate. They said, he killed our child. And honestly, the incompetence killed their children. The incompetence. Gross. And by the way, they lost almost 500 people that day, including the other side. They left Americans behind. They're still there. Nobody knows even what happened to them. Um, think of this. They left \$85 billion worth of brand new military equipment that I bought because I rebuilt the entire military, \$85 billion worth of equipment behind. They left everything. And they moved the military first instead of last. You say, you stupid people, you take the military out last for 18 months. And a lot of you know this, for 18 months, not one American. After I spoke to Abdul, the leader of the Taliban, not one person was shot. We didn't lose one person for 18 months. In fact, Joe Biden got up on television one day, um, and he said, for 18 months, not one person was shot during the Trump administration. Then the people started screaming at him, you stupid. Don't say that. You are so stupid. They tell him, but I appreciate it that he said that.

Donald Trump

00:24:27

But it's true.

Donald Trump

00:24:28

For 18 months, nobody was lost, and nobody would have been lost, and we would have. And we were getting out. I had it down to 5000 people, but we were going to keep Bagram, which is the big air base, one of the biggest in the world, had the biggest runways, most powerful runways, eight foot deep. You could land anything on those runways. Not because of Afghanistan. We were keeping bagram for a different reason. 1 hour away from where China makes its nuclear weapons. Right. So I got a call from the people, sir, we're going to be going to Arlington to honor our children who were killed, and they are devastated. The people, I had them over at Bedminster, uh, and they didn't think I'd see them. And they said, do you think we'll see him? And they said, well, we don't know. He'll try and make it. I ended up spending 4 hours late at night listening to music with all of the relatives of the people that were killed, so needlessly killed. And I got to know them.

I got to know them. And we were looking at the sky. Beautiful place.

Donald Trump

00:25:33

We're looking at the sky, and we're listening to Elvis, and we're listening to Elton John. We're listening to everybody. And I said, look, your son is looking down at you. It was, the whole thing was beautiful. And you get to know them. They didn't think I'd see them, but at most I would spend 15 minutes, and I ended up spending many hours. So I got to know them. So they called up and they said, do you think you could be there, sir? And I said, I'll try if I can. And we really had to turn things around. Anyway, I got there and we had a ceremony. We had the changing of the guard. No, uh, we had a beautiful ceremony.

Donald Trump

00:26:13

And then they said, sir, could you come to the graves?

Donald Trump

00:26:16

Could you come to the graves after the ceremony? They said, could you come to the graves? Would that be possible? I said, I will, but I got like this big stadium, something was waiting. I said, but I'm going to. Because those people are the love of our lives. They are the love of our lives, right?

Donald Trump

00:26:42

And in all fairness, I can say.

Donald Trump

00:26:44

There's, uh, the mother's father, sisters, the brother, but the various people that we're talking about, depending on who it is, but the various people, uh, they say it to me, I'll say it to you. I don't think they can ever be the same. I said, is it better now? Because it's three years. Is it better? No, it's not better. You know, they have an expression, time heals all wounds. But I said, is that expression true? No, sir. Maybe it's worse now, sir. It's devastating. These people are just so, ah, devastated. So anyway, we're there and they said a prayer, different graves, one here, one there. And they said to me, I mean, I'm not surprised. I never even thought about it. Sir, would it be possible for you to have a picture with us by the tombstone of, uh, my son? You know, the beautiful white tombstones, marble, beautiful, beautiful things and carved, engraved with the names on them. I said, absolutely. I wasn't doing it. I don't need publicity. I get a lot of publicity. I would like to get a lot less publicity. I would pay to get. I'm the only guy would hire a public relations agent to get less publicity. Most hired to get publicity. So I was taking pictures at the grave, one with the sister and then the mother and then the father come in and then another group at a different grave. And it was so beautiful. And we left, and everything was nice. And then later on that day, I heard that we were using the graves of those soldiers for public

relations purposes, you know? And that was all put out by the White House. Joe Biden killed those young people because he was incompetent.

Donald Trump

00:28:30

And then they tell me that I.

Donald Trump

00:28:33

Used their graves for public relations services, and I didn't. And I'll tell you what, it was a disgrace. And she was involved. Remember, she said she was the last person in the room right when they made the decision. And pulling out was okay, but not pulling out like a bunch of incompetent fools. And that's what they did. We had them in such a great position. But when I took those pictures, it was so beautiful. They were crying. Everybody was crying. They were talking about three years ago because of a grossly incompetent group of generals. And, ah, we have great generals. Don't forget, we defeated ISIS entirely with great generals, real generals, not these television morons that you see all the time. But, uh, when I saw that, I said, I think I have to talk about it now. My people said, don't do it. Don't do it. But if I don't tell you the story, you're going to read. It was front page of the Washington Post, which has lost approximately 57% of their readers over the last three years. It was a story in the New York Times, which is losing reader after reader. I'm happy about that. I have to be happy because they truly are the enemy of the people. They are the enemy of the people. They tell false stories about me. That's all they do, is they write false stories. They're incapable. I could do the greatest thing. I gotta tell you. I ran for office, and they were covering it viciously. But it was front page every day. Every day. And then I won. I beat everybody. And I had a story on page 17.

Donald Trump

00:30:12

So I won, David.

Donald Trump

00:30:14

And my story was on page 17.

Donald Trump

00:30:18

But I was always on page one.

Donald Trump

00:30:19

When I made a little or something. It's, uh. That's why they call it the fake news media. It's desperately trying to hide Kamala's failures and extremism from the public. They don't want the people to know how unfit she is to serve. She's unfit to serve. Everything she touches, she ruins. Uh, just to finish this. I love those people. I'm so happy. They took

pictures of me and theme and the tombstone and their lovely son or daughter. There was a daughter, too. And an incredible daughter. Frankly, I've almost gotten to know them, even though I never met them, but I know everything about them. The mother would walk up and say, sir, uh, may I tell you about my boy? You know, he was a football player, and he could throw the ball. So far, he played quarterback. Sir, uh, and one day, and I realized that she's telling me a story and crying about her son, who's now in a grave because of Biden and Kamala. And I listened to that whole story, how the ball was caught, how the ball was thrown, how the team did the season, the team had. And I let her talk. And then these people accused me of doing this for public relations reasons and the fact that we even.

Donald Trump

00:31:49

The fact that we even got there. The fact that we even got there. So I just want to. And they were so good. They said, how dare they do that? We asked him.

Donald Trump

00:31:59

They did ask me. And, you know, they actually came to my defense. It's nice because sometimes that doesn't happen, too. But they really did. They said, we asked him to be here, and we want him to be there always. And I just think that's great. And we love you all.

Donald Trump

00:32:13

Thank you. But I wrote for this particular group.

Donald Trump

00:32:20

You know, because this is, you know, she's anti fracking. She's anti everything this Pennsylvania. And I said, uh, do me a favor. Make a little, uh, reel of, uh, Kamala. Kamala Harris has no right being here.

Donald Trump

00:32:34

She got no votes. She ran. She was one of 22 people that ran. She was the first one to quit.

Donald Trump

00:32:40

She never made it to Iowa in the primaries. The first date, she was nasty to Biden. She called him a racist and everything else. You know, she probably called me a racist on in a week from now, week and a half. I look forward to that debate very much.

Donald Trump

00:32:58

But she called him a racist. Remember the school bus?

All she can do, she can memorize a little bit. Not a lot, but she memorized a little story about a girl taking a bus, and she used it on Biden. And so when Biden picked her, I was shocked because nobody treated him so badly as her. But let's take a look at, uh, the real Kamala Harris.

Kamala Harris (Tape)

00:33:21

Yeah. I am radical. You need to get radical about what we are doing and take it seriously. As president of the United States, I am prepared to get rid of the filibuster to pass a green movie. There's no question. I'm in favor of banning fracken buyback program. And I support a mandatory buyback program.

Interviewer (Tape)

00:33:45

I believe it will totally eliminate private insurance.

Kamala Harris (Tape)

00:33:48

Let's eliminate all of that but would you support changing the dietary guidelines? Yes.

Donald Trump

00:33:54

You know, the food parent?

Kamala Harris (Tape)

00:33:55

Yes. To reduce red meat specifically? Yes. I would.

Donald Trump

00:34:00

Raise your hand if your government plan would provide coverage for undocumented immigrants.

Interviewer (Tape)

00:34:08

Where do you stand on defund the police?

Kamala Harris (Tape)

00:34:10

This whole movement is about rightly saying, we need to take a look at these budgets.

Donald Trump

00:34:16

Harris asserted that ice is perceived as the modern day Ku Klux Klan.

Kamala Harris (Tape)

00:34:22

Are you aware that there's a perception there must be.

Donald Trump

00:34:24

No.

Kamala Harris (Tape)

00:34:25

Are you aware that there's a perception.

Donald Trump

00:34:26

There'S ice in the same category as the KKK? Is that what you're asking me? I see.

Kamala Harris (Tape)

00:34:31

I'm not finished, Andy. I am radical. We need to get radical about what we are doing.

Donald Trump

00:34:46

But that's her.

Donald Trump

00:34:48

And now she's changed everything. In fact, I think she is going to soon apply for. Give me an application for joining Maga.

Donald Trump

00:34:59

She's going to be wearing a MAGA captain now.

Donald Trump

00:35:02

Uh, that's her. And she can't do anything about it because that's where she is. Or with a politician, when they come out with something, that's where they end up. And she will destroy the great Commonwealth of Pennsylvania. Just remember that. And we should win a, uh, blowout. We should blow them out.

Donald Trump

00:35:18

You know, we win this state, we.

Donald Trump

00:35:19

Win the whole thing.

Donald Trump

00:35:29

And we won it in 2016, and we did much better in 2020. You know that?

Donald Trump

00:35:34

Much better with the whole election.

Donald Trump

00:35:37

Actually, with. In 2016, we did great. But 2020, we did much better. Generally, since Kamala and the media don't want to talk about her radical record, we will.

Donald Trump

00:36:00

That's beautiful. That's all right.

Donald Trump

00:36:04

That's okay. No, he's on our side. We get a little itchy, David, don't we? How are. No, no, he's on our side. You know what he's showing at?

Donald Trump

00:36:13

Ah, butler.

Donald Trump

00:36:14

An amazing thing happened. You had two american flags very far, apartheid held up, I think, by different cranes. There were very big flags, beautiful flags.

Donald Trump

00:36:23

And they were waving. And as that horrible event was taking.

Donald Trump

00:36:27

Place, the wind blew the flags together.

Donald Trump

00:36:29

And they formed a perfect angel. I don't know if we have it, but it was.

Donald Trump

00:36:35

A perfect angel was formed. I'll tell you, a lot of things happened. If we have it, put it up. If we don't have it, that's all right. Uh, that's it. That's it. That's it.

Donald Trump

00:36:54

He had the angel.

Donald Trump

00:36:55

He held up the angel and, uh, our people went after him.

Donald Trump

00:36:59

No, no, he's on our side.

Donald Trump

00:37:01

He's on our side. Thank you very much. It's very nice. I've never seen banners so beautiful.

Donald Trump

00:37:07

Right now, he's on our side.

Donald Trump

00:37:11

I mean, the problem is, if he wasn't our side, you know, we can have 35, 40,000 people trying to get in, and if one person stands up, says, I don't like you, Trump, it becomes a headline.

Donald Trump

00:37:24

Major problems right now.

Donald Trump

00:37:26

But he is on our side. Thank you very much. That's nice. For nearly four years, comrade Kamala Harris has overseen a nation wrecking border division, flooding our communities with 20 or 21 million. And it could be much more than that. And don't listen to 15 and 16. You're way gone.

Donald Trump

00:37:48

Those days are gone.

Donald Trump

00:37:49

20 million illegal aliens from 158 different countries as of now. Is there anywhere that's more fun to be than a Trump rally? Right? There's nowhere.

Donald Trump

00:38:42

There's nowhere.

It's a nice Friday. You know what?

Donald Trump

00:38:45

And we have plenty of time Friday afternoon.

Donald Trump

00:38:49

Steve is here. David's here.

Donald Trump

00:38:50

All my friends are here.

Donald Trump

00:38:53

We, uh, have the best sun in the world here, but all my friends are here.

Donald Trump

00:38:58

And, uh, let's just take our time and have a good time, right?

Donald Trump

00:39:01

Or should I hurry it up? Should we give you the short version or the long version? Harris lost.

Donald Trump

00:39:12

Listen to these numbers, though. Seriously. If this were a republican that be stringing them up. Now, listen to this number, because you have to understand what it means. 325,000 children have been lost. They've been allowed to be trafficked all across our borders.

Donald Trump

00:39:33

She flew in illegal aliens by the.

Donald Trump

00:39:35

Hundreds of thousands, and many of these were young children, but we have no idea where. Think of the number. 325,000 children are missing.

Donald Trump

00:39:47

Many are dead.

Many are involved in sex operations. Many are working as slaves in different parts of probably this country and probably many others.

Donald Trump

00:40:01

But she was the border czar.

Donald Trump

00:40:03

Now she says, I wasn't the border czar. Um, but she was. It was headlines. Border czar. Borders are. But now she doesn't want that term. But what she. Whether she was a border czar or not, she was in charge of the border. 325,000 children are missing. She created a fast pass entry program to speed the admission of illegals into all of our ports of entry. And remember when they said, no, no, we're, you know, we're going to.

Donald Trump

00:40:31

Oh, now they have a new line.

Donald Trump

00:40:33

We created a strong border. No, no.

Donald Trump

00:40:36

They keep saying it over and over.

Donald Trump

00:40:38

The worst border in history. But they think if they keep saying.

Donald Trump

00:40:41

It over and over, you know, most.

Donald Trump

00:40:42

People aren't like us. They're not that. You know, they drive a cab, they're carpenters, they're electricians or accountants. They're lords. They're not, like into it other than they like Trump. They like meaning they like our policies. Because it's not about me. This is not about me. I had a nice life. You can ask my friend. I had the greatest life. I could go to the most beautiful places, look at the most beautiful oceans in the world. Instead, here we are. And I'm happy as hell to be with you because I like it much better.

Donald Trump

00:41:13

I like this much better.

I like it much better. You know why?

Donald Trump

00:41:21

Because we're doing something.

Donald Trump

00:41:23

We're saving our country. I wouldn't do it just because I like it. We're saving our country. Our country needs saving. We're a failing nation, in case you have any question. We're a sadly failing nation and we're going to make America great again. It's very simple. So we're a failing nation. We're going to make America greater. And I think we have a chance to make America greater than ever before. And remember this, if we don't do it this time, you're never going to have another crack at it.

Donald Trump

00:41:51

November 5 is the single most important.

Donald Trump

00:41:55

Day in the history of our country. I believe that with all my heart.

Donald Trump

00:42:00

Because our country is going bad. And Kamala vowed to grant, remember, mass.

Donald Trump

00:42:08

Amnesty and citizenship to all of the millions of illegals that she let in.

Donald Trump

00:42:13

Which will obliterate Medicare and obliterate your Social Security for seniors. You will not have any Social Security and you're not going to have Medicare. The whole country is going bad. And no country, no matter who it.

Donald Trump

00:42:29

Was, no matter which country it was, no country could withstand this onslaught. No country could withstand this. And a lot of these people, remember these are rough people. The only thing good about it is they make our gangs and they make our bad ones look like nice people by comparison. We have bad ones, too. But compared to the people that are coming into our country, our criminals are very, very nice. These are really tough ones. They come from prisons. Remember that. Many of them come from prisons and they let them out of the prisons. Why should they keep them when the stupid United States will

take care of their situation? Remember that. And this is what you're voting on, by the way, at the end of September, much before November 5. I always use the term November 5, but I'm talking about because today we vote two months early. We vote after early. Nobody knows what the hell we're doing. The elections are so screwed up. We have to get back in and we have to change it all. We want to go to paper ballots, we want to go to same day voting.

Donald Trump

00:43:36

We want to go to citizenship papers, and we want to go to voter id.

Donald Trump

00:43:42

It's very simple.

Donald Trump

00:43:44

We want to get rid of mail in voting.

Donald Trump

00:43:48

Mail in voting.

Donald Trump

00:43:49

Jimmy Carter headed up a commission.

Donald Trump

00:43:51

By the way, the happiest man in the United States today is Jimmy Carter. President Jimmy Carter. Uh, my wife went to the funeral of Roslyn. Beautiful funeral. Like eight months ago. And I looked at Jimmy. Jimmy's old, but he's happy. You know why?

Donald Trump

00:44:10

Because his administration is considered brilliant compared to this administration. Brilliant. He's a happy man.

Donald Trump

00:44:24

But Kamala called for the abolishing of ice. Great patriots, tough as hell. Some of my friends are sitting right here. They're some of the toughest human beings I've ever met. They're not tough enough to be nice. They won't do it. These guys, they see a pack of MS 13 thugs that love knives. They love cutting people up better than guns because it's more painful. They killed two young girls in Long island not so long ago, 16 years old. They were walking to school. They cut them up into pieces. They cut them up into pieces. They will go

into a pack of MS 13 killers, our ice guys. And for two minutes, you see nothing but fists and legs and fighting. A lot of the people, like these young ladies from North Carolina, they're not into that. I don't know. I think they don't want to hear about that. They don't like to hear about people being cut up. They don't like to hear about MS 13. Have you ever seen MS 13? Typically, when you have tic tac toe boards on your forehead, it's not a good thing, right? They would go into these places and they would start fighting, and at the end of two, three minutes, it's over. And they would stand up and they'd take these thugs into paddy wagons, and they'd bring them the hell out of our country, and they'll get them out.

Donald Trump

00:45:49

And the problem we had, as you probably heard, was that the countries wouldn't take them back.

Donald Trump

00:45:54

Honduras, uh, all of these, El Salvador, Guatemala, Mexico. But they wouldn't take them back. They wouldn't take them back at all. And when I came into office, I said, we're going to get these Ms 13 killers. We had thousands of them in our country. They were set out by the countries where they came from, mostly those countries I just named. And a general told me, sir, we can't do that. They won't take them back. I said, why? Because Obama tried very hard to take them back. Barack Hussein Obama. Has anybody ever heard of Barack Hussein Obama? Remember Rush Limbaugh?

Donald Trump

00:46:29

Barack Hussein Obama. Rush the great Rush Limbaugh. Right.

Donald Trump

00:46:33

We miss Rush. We miss. We miss him.

Donald Trump

00:46:38

But they wouldn't take him back. And the general said, sir, they won't take him back.

Donald Trump

00:46:41

They put a planes on the Runway. When we're about to fly in, they'll take their commercial jets, put them on the Runway so you couldn't land. They'd stop up all the buses. So they'd bring them there and they'd have to turn around. Couldn't get them in. This is for years. I said, general, how much money do we pay them in aid every year, sir? I'll find out. So it comes in the fight. So we give them \$750 million a year, by the way. Sounds like a lot. That's penis compared to what we give some. But it's still a lot of money, sir. We give them

\$750 million. Okay. You let them know that effective immediately, they're no longer getting any foreign aid. They're no longer getting.

Donald Trump

00:47:25

No more help. So the time went by, and I.

Donald Trump

00:47:31

Came into the office the following morning, nice and early, uh, which I do, and what happened was very amazing. All three countries. These three countries called me, the heads of the countries.

Donald Trump

00:47:42

Sure.

Donald Trump

00:47:43

There seems to be a problem. What? Is there anything I can help you with? I heard you're very disturbed about us. Yeah. You're sending over in the caravans, your thugs, your killers, and your Ms 13 gang members, and you're not letting them, um, come back into your country. And we're bringing them back if we have to do. I don't give a crap what we have to do. We're bringing them back.

Donald Trump

00:48:06

Sure.

Donald Trump

00:48:08

Please, sir, we would be delighted to take Ms 13 back. They're wonderful individuals. I said, does that mean you're taken aback? Well, sir, I understand you're no longer making payment to us. They said, that's right, and you'll never see that money again. You better open up.

Donald Trump

00:48:27

Sir, we would be delighted to take them back.

Donald Trump

00:48:30

All you had to do was ask.

Donald Trump

00:48:33

Ten minutes later, I get a call from another.

The exact same conversation. Could have put it on tape. It would have been identical.

Donald Trump

00:48:39

Sir, is there a problem?

Donald Trump

00:48:41

Yeah. You're not taking your criminals back that you sent into our country. We would be delighted to do so. And we took out MS 13 by the thousands and thousands and thousands of.

Donald Trump

00:48:53

And now they're probably all coming back through this weak and pathetic administration that we have.

Donald Trump

00:48:59

Kamala has provided deportation immunity to the vast majority of criminal aliens. Immunity meaning you can't get them out.

Donald Trump

00:49:08

Living inside the United States.

Donald Trump

00:49:10

She's importing MS 13 gang members back into our country. Nothing's going to happen good with MS 13 gang members. And they're going into our high schools, and they're going to class in high schools, and they're accosting our kids. They're rough kids. These are rough ones. We are being conquered in a certain way from within, if you think about it. Like in Colorado today, Aurora, they're taking over the city. They're taking over. They're going in with these massive guns. AK, forty seven s and others, Ar 15s. Have you ever heard of that one? But they're going in and they're taking over our cities. You watch what's going to happen. We have hundreds of thousands of these people in certain of our cities. And if you think they're going to behave, they're not going to behave. These are rough people. These people came from rough places. And they're just sort of getting acclimated now, right? They're getting acclimated and now they're finding out, gee, we're not allowed to, you know, the police aren't allowed to talk rough to you, or, uh, the police gets arrested. I mean, if the police does, if the police people do their job, they end up losing their pension, they end up losing their families, they end up losing their house, their car, uh, and they're learning this, these guys, and wait until you see what's going to happen. But it's already been happening, and they've killed many, many people in our country. I was at the border last week, and I was with the parents and other family members of

some of the young kids that got killed, viciously, violently killed by illegal immigrants coming into our country. We can't have this. It's just our country. It's not sustainable. Our country is going to fail. These people are stupid people that are running our country. They don't have any common sense. They believe in an ideology. And if you look at Kamala and you look at what she's done to every place she's touched has turned to shit. Every single place she's touched.

Donald Trump

00:51:31

Every place she's touched.

Donald Trump

00:51:33

You know, you might have heard this. Franklin Graham is wonderful. And he wrote me a letter and he said, sir, I love your stories, and I love listening to your rallies, but could you please don't use foul language. Your speeches would be even better. If you didn't use foul language. But there's an example. It's not really that bad. How can you top that word for what I'm talking about? Right? What word?

Donald Trump

00:52:05

Every place she touches wouldn't be nice. People would. That would be a thud.

Donald Trump

00:52:11

It would land with a thud. No. And Franklin's probably right. I'm not sure I agree with him, but he's a great guy, actually. But he did say that to me. He said, please don't. And so I try and avoid it. My wife also, she said, please don't use foul language. But it's hard. You know, there's some words that can't be duplicated. They can't. I try, but it can't be duplicated.

Donald Trump

00:52:37

Comrade Kamala, uh, launched a radical f war on Pennsylvania energy that will destroy.

Donald Trump

00:52:44

The economy of your state.

Donald Trump

00:52:48

On Kamala's first day at office, she shut down the Keystone pipeline, which I approve. She shut down drilling on all federal land. She re entered the disastrous Paris climate accord.

Donald Trump

00:53:02

Do you know what that was? That was the worst deal. Other than it sounds so nice. The Paris climate. It basically said that this country is screwed. It said this country is going to pay billions and billions of dollars. Other countries are going to pay nothing. China, as an example, pays nothing because they consider it a developing nation. We're not. We better start developing faster. We're not going to have a country left. So I terminated it. I terminated it. We pay billions of dollars. Russia pays nothing. China pays nothing. India pays nothing. And they won't pay for years. But we pay because we're a bunch of suckers, and I terminated it. And one of the early things that Harris did, because she's the one that pushed it, is they renewed it for even more money than they were paying before. It's the craziest thing I've ever seen.

Donald Trump

00:54:02

You'd almost. You'd almost think they hate our country. Kamala Harris surrendered our energy independence, spent hundreds of billions of dollars on the green news scam. She's trying to take away gas stoves and heaters. Uh, she's vowed repeatedly that we will ban fracking. We will always ban fracking.

Donald Trump

00:54:23

She just said it today.

Donald Trump

00:54:24

I saw it.

Donald Trump

00:54:24

Uh, they have a clip from, like, two years ago. She said, no, no, I'm in favor of fracking. Like, last week. Oh, no, no. I'm afraid. Then they start playing clips.

Donald Trump

00:54:36

We will always be fracking. There will never be fracking.

Donald Trump

00:54:40

The people of Pennsylvania are smart. They're not going to fall for it.

Donald Trump

00:54:45

She will destroy if you don't have fracking, you don't have a. You don't have a commonwealth. She also imposed a crippling natural gas export ban on Pennsylvania oil and gas.

Another catastrophe for your state. And this is all stuff that she's done.

Donald Trump

00:55:03

And I want to call up.

Donald Trump

00:55:04

I'm flying, um, in with some, on a very nice plane, has a very nice television, and I'm watching RSBN and I'm watching Fox and I'm watching a lot of them, um, RSBN, by the way, how good is RSBN? They do a good job.

Donald Trump

00:55:20

So beautiful. It's like it's the Super bowl. Every time we do a rally, right. They do a great job. Thank you. RSBN. Where are you? Back there.

Donald Trump

00:55:29

RSBN.

Donald Trump

00:55:31

Thank you. Wow, what a job. What a job you do.

Donald Trump

00:55:36

But we were watching actually RSBN and.

Donald Trump

00:55:39

There was a man there named Mark.

Donald Trump

00:55:42

Caskey, the founder of Steel Nation. And he made the greatest speech. And it wasn't necessarily a Winston Churchill type speech because Winston didn't wear a pith helmet. And Winston's hair wasn't quite as long as Marx Hare. And, uh, Winston was brought up in the Oxford tradition, but it was actually just as good. He actually gave me ideas. I thought I was the one that was exposing how bad it's going to be in Pennsylvania and our country if we stopped doing the fossil fuel thing. Because, you know, in Germany they stopped and the country was ready to go down the tubes.

Donald Trump

00:56:25

Now they're building a coal plant a.

Week, a cold plant a week. And Angela is no longer with us. She's no longer with us. But where is Mark Caskey? Is he still around?

Donald Trump

00:56:36

Oh, look at him right here. Oh, he's probably shocked. I don't know who the hell he is. But you gave the greatest speech. Would you come up?

Donald Trump

00:56:43

Can I shake your hand?

Donald Trump

00:56:48

Man, you are something.

Donald Trump

00:56:51

Mark.

Donald Trump

00:57:11

Hey, Mark. He can say a little bit more, right?

Interviewer (Tape)

00:57:23

Uh, Winston Churchill. I'm not. I was born and raised in Carolina and Pittsburgh as an adult. And I've been a yinzer for a long time. President. You know, the war, the war on energy by the left. And it's not just here, it's worldwide. What's happening in Europe right now is a shame to even think about. Ev's here in America when the technology is not there. We would have to cover two thirds of America with solar panels to power this great country of ours. We have the Marcellus shale right below our feet in West Virginia, Ohio, Pennsylvania and New York. But New York's not bright enough to take advantage of it, that Cuomo family kind of shut that down a while ago. President, we have a. We were on stage with President Trump in 2019 at the convention center in Pittsburgh. We're going to have better results this year. But the people behind me, let's stick together. All the oil and gas and coal workers, nuclear workers, power plant workers, let's put Mister Trump, President Trump, over the line.

Donald Trump

00:58:54

Now.

Donald Trump

00:58:55

I'm watching Mark, and, you know, he's talking about all the things that happened.

When they shut down everything. They then closed up Keystone Excel. People forget, I had it approved. I approved it. It wasn't going to happen. Billions of dollars had been spent. I approved it. They came in, they shut it down. The only one they didn't shut down was the Russian pipeline going through Europe, right? Nord Stream two. Nobody ever heard of Nord Stream two, Mark, until I came along, Russia was building the biggest pipeline in the world, going to Germany and various other countries in Europe, countries that we defend against Russia. Think of this. So we defend them against Russia. With NATO, we pay billions and billions, far more than we're supposed to be paying, because they had a lot of people that were delinquent. But after I got finished, they all, ah, they paid. You know, they all paid. They said, would you defend us if we don't pay? I said, no, they all paid. Took about. Obama used to come and make a speech and leave. Bush came in, made a speech and leave. And, you know, remember the. Under Bush, Putin took a lot of land. Under Obama, Putin took a lot of land. Under Biden. He's trying to take all of the land, all of the land under Trump, he took nothing. Nothing, nothing.

Donald Trump

01:00:20

Right, Mark? But Mark said, and I said, write this down. Mark, do you have a copy of that speech, please?

Donald Trump

01:00:28

It's much easier. Just give me a copy. But no, he named, like, six things that happened immediately. But one of them was so big because the Keystone XL pipeline was a big deal, and that was going to bring a lot of oil in, and it was going to go. And, you know, his pipeline's underground. It's safer than trucks, I guess, right? And, uh, a lot more efficient. It was a big deal, and I approved it. And this guy came in and he immediately dropped it. But you know what? He did approve Nord Stream. I shut down Nord Stream. Russia was upset with me. Putin said, you know, if you're supposed to be my friend, that hate like hell to see as my enemy. I closed the biggest deal they've ever done. It was shut. And then this guy came in who's got a low iq. Very, very low. Now. He's got maybe no iq. You have to check it in. And he immediately. The first thing he did was approve the Nord Stream pipeline. And then they'd say, mister Congress. Oh, look who we have. Byron said that, please, superstar of the future.

Donald Trump

01:01:28

He's already a superstar, but he's a.

Donald Trump

01:01:30

Superstar of the future. Byron Donald. Um, Florida.

Donald Trump

01:01:35

Wow, that's nice to have you here. That's good.

Donald Trump

01:01:39

He's great. He's great. He knows exactly what I'm talking about. About that one is smart. You have smart ones, and you have some that aren't quite so good. But we have a group of people that are really great. But. So I stopped Nord Stream, two, stopped it cold. Wasn't going to happen. This guy comes in, he approves it. Then they say, oh, Trump was nice to Russia. I wasn't nice to Russia. But you know what? Getting along with Russia is a good thing, not a bad thing. Remember that. Getting along with these people is a good thing, not a bad thing. It's a smart thing to do.

Donald Trump

01:02:08

I got along with Kim Jong un of North Korea.

Donald Trump

01:02:10

Remember? I walked over, the first person to ever walk over from this country. And I. We also looked at his nuclear capability. It's very substantial. No, getting along is a good thing. It's not a bad thing. The fake news would say he likes Putin, or Putin likes him, let me tell you.

Donald Trump

01:02:27

They said President Xi likes Trump.

Donald Trump

01:02:29

Um, that's a good thing, not a bad thing. But we were tough with China, too. We took in hundreds of billions of dollars worth of taxes and tariffs. No other president took in \$0.10. When we win on day one, I will tell Pennsylvania to drill, baby, drill.

Donald Trump

01:02:47

We're going to drill, baby, drill. And you know a man named Mark Levin?

Donald Trump

01:02:58

Does anybody know Mark Levin? He's great. But he said something to me. He said, you know, he loves this country so much. His show is fantastic. And I do an interview with him this weekend, so I hope you're going to watch. But he's very smart, very tough, but he really loves the country, and he hates what he sees happening. But he sent me something. He said, if you'd like, you can read this at your rally today, and if you like it, you can use it anytime you want. And I think I'm going to do it because it's not very long, and we have plenty of time, and it's only about 100 degrees in here.

It's actually not that bad.

Donald Trump

01:03:37

But Mark is a great man, and he's a great patriot. And he writes, here's what we know about, uh, comrade Kamala Harris. She just doesn't care about the American people, especially hardworking, middle class Americans. She just doesn't give a damn about you. She does not care about the deaths, sex slavery, drugs, criminals coming across our border. She has been vice president for nearly four years, and she did nothing to stop it. All she does is complain. She says it's not her job, but it is her job. She does not care about the middle class struggling over inflation, the cost of gasoline, electricity, or the cost of food.

Donald Trump

01:04:28

She does not care if you lose.

Donald Trump

01:04:29

Your job or cannot find a job. She does not care if you have to run up your credit card. She does not care if your family are, uh, struggling, and she did absolutely nothing to fix it. She's the vice president, but she just does not care. She does not care about women's rights because she supported destroying women's sports and athletic scholarships. She wants men to play in women's sports.

Donald Trump

01:05:02

She does not care about protecting little.

Donald Trump

01:05:04

Children from sex change operations because she.

Donald Trump

01:05:08

Chose tampon Tim as a running mate who believes the state, not mothers and.

Donald Trump

01:05:14

Fathers, should have the final say on sex change operations for their children. Can you believe it? Can you believe it?

Donald Trump

01:05:24

Can you believe that Kamala Harris wants.

To outlaw your car and truck and.

Donald Trump

01:05:29

Force you to buy electric vehicles whether.

Donald Trump

01:05:32

You like them or not, whether you can afford it or not, and they don't go far.

Donald Trump

01:05:37

She does not care how it impacts.

Donald Trump

01:05:40

You or your family. Kamala Harris does not care about senior citizens because she believes illegal aliens should receive Social Security and Medicare, which she knows will bankrupt those insurance programs, making it impossible for you to receive your pension and health care, which you paid for for your entire working life. That's true.

Donald Trump

01:06:03

She wants to destroy your private health.

Donald Trump

01:06:05

Care, even if you like it, even if your employer contributes to it. And she wants Washington, DC, to make your medical decisions.

Donald Trump

01:06:14

She wants Washington to decide what procedures.

Donald Trump

01:06:18

And medicines and care you should receive. Whether or not you like it is not important. Kamala Harris had nearly four years to show us who she is. She is an uncaring politician with a radical ideology. She is a Marxist, despite her campaign of lies and flip flops. We know who Kamala Harris is. We know by her actions and we know by her inaction. We know she does not care about working people, about the middle class, about any of our great american citizens. She does not respect you. Ask the families of the 13 service member heroes who died during the surrender of Afghanistan if Kamala Harris cares about our young people. Just ask them that question. Does she care about our military? The answer is no.

Ask the cops in the street trying to protect you from murderers, rapists, and thugs.

Donald Trump

01:07:20

If Kamala Harris cares about law abiding.

Donald Trump

01:07:22

Citizens, ask the families of women raped.

Donald Trump

01:07:26

And murdered by illegal aliens and the teenagers cut to shreds by gangs from El Salvador and Venezuela. If Kamala Harris cares about you.

Donald Trump

01:07:37

Harris has opposed school choice for poor inner city kids.

Donald Trump

01:07:41

She's opposed police in schools to protect your children. And she's defended stocking school library shelves with filthy graphic. She refused to prosecute pedophiles who molested your children when she was Da and ag in California, two places she absolutely destroyed. Does this sound like someone who cares about children?

Donald Trump

01:08:07

Kamala Harris has failed you.

Donald Trump

01:08:09

She has failed as vice president.

Donald Trump

01:08:12

She has broken trust with you.

Donald Trump

01:08:14

She has done nothing for the middle class working families. She's done nothing even for hard working people.

Donald Trump

01:08:21

Your eyes don't lie. You see it.

We all see it. She's sitting as the vice president of the United States, and yet nobody knows who the hell she is. She does not give a damn about you. This is the real Kamala Harris. And now she wants a promotion. Well, I'm here to give her a demotion, not a promotion.

Donald Trump

01:08:57

She can hide and she can lie.

Donald Trump

01:09:00

All the way through and with her surrogates and the corrupt media. But the truth is coming out right now. It's already coming out much, um, faster than I thought.

Donald Trump

01:09:14

The american people are smart.

Donald Trump

01:09:16

They will not be manipulated by Hollywood, the fake news media, and all of the advertising. And you deserve a president who respects you, talks to you, who levels with you, and who always has your best interests at heart.

Donald Trump

01:09:30

This November, we are going to tell Harris that we've had enough, that we can't take it anymore. You've done a terrible job, Kamala. You're fired. Get out. Get out. Thank you very much. We're pleased to be joined today by some warriors.

Donald Trump

01:10:13

We want warriors. That's what we need. And they're friends of mine, and they fought by my side. And we've done so many things right to try. We all know what right to try is. You're terminally ill, and you weren't able to get our space age great, uh, medicines, cures. And we got the right to get it done. They tried for 50 years to try and get it done. They never got it done. We got it done. Got it done with the help of these people and so many other things that we did. Rebuilding our military building the wall we built. Hundreds of miles of wall. These people are great people. And some of the best of them are representing the great commonwealth of Pennsylvania representatives, Dan Muser. Dan. Thank you. What a job he does.

Donald Trump

01:10:59

Handsome devil, too.

He's a handsome devil.

Donald Trump

01:11:02

Thank you, Dan.

Donald Trump

01:11:04

Guy ressencealer. Thaler.

Donald Trump

01:11:07

Guy Restenshaller.

Donald Trump

01:11:08

Uh, what?

Donald Trump

01:11:09

That's the toughest name in all of show business. Thank you, Guy. That's great job.

Donald Trump

01:11:16

Lloyd Smucker, boy. Thank you very much. Thank you very much. Thank you, Lloyd.

Donald Trump

01:11:24

John Joyce. I saw him take the jacket off. That was quite a scene, huh? Uh, that was quite a scene. Byron Donalds from Florida, who you met, the winner and a star.

Donald Trump

01:11:42

And a man who, right from the beginning, he was with me. He's a tough guy, too. He used to sit outside. It was like ten degrees below zero, and he wouldn't wear even an undershirt. And he's not that pretty to look at, I'll be honest. But he's a tough cookie. And the people of the state of the commonwealth, they really. They really love him. He's a. He's a fantastic american. Fights like hell for everything. That's good. Congressman Mike Kelly.

Donald Trump

01:12:14

Right. How's that? Good job for you. Thanks, Mike. Good job, Mike. Today, he's wearing a shirt.

Donald Trump

01:12:23

I don't want to see it without a shirt.

Ambassador Carla Sands, who did a fantastic job a little while ago, and she was a great ambassador.

Donald Trump

01:12:34

Thank you, Carla.

Donald Trump

01:12:35

Beautiful job. Today. The mayor of slippery Rock, John David Longo.

Donald Trump

01:12:40

John. Thank you. Thank you, John.

Donald Trump

01:12:44

Great job.

Donald Trump

01:12:46

And the man who's going to defeat your terrible senator Bob Casey. Bob Casey, by the way, just so you look, I don't want to spend. Nobody knows who the hell he is. His father was there a long time. He's there a long time.

Donald Trump

01:12:59

They're tough to beat.

Donald Trump

01:13:00

You know, when they. I was telling they are tough to beat, but this guy's a hero. He's a star.

Donald Trump

01:13:06

He was a brilliant student.

Donald Trump

01:13:08

Everything he ever did, he went to Wall street.

Donald Trump

01:13:10

He became, like, one of the biggest people. And I know it's.

Donald Trump

01:13:18

It's.

Donald Trump

01:13:19

I just see it. Uh, some of these guys, they've been.

Donald Trump

01:13:21

There for years and years, and I'm not knocking them. They're survivors. What? They are survivors more than anything. But this guy is an outstanding person. This guy is not a, uh, survivor. He's somebody that can really turn the country around and somebody that we need. And maybe I'd like to have him come up and say a few words. Dave McCormick. M please. Come on. Up. Thank you, sir.

David McCormick

01:13:52

Thank you, mister President. Thank you, mister President. We are so proud to have you in the keystone state. This is ground zero, where you're going to go back to the White House based on what happens here in Pennsylvania. Right here, ground zero. And Mister president, I'm so optimistic that you are going to win in Pennsylvania. You're going to win the presidency for two reasons. Number one, when I'm, uh, going across our great commonwealth, the thing people say they want is common sense leadership. The kind of common sense leadership you showed when you were president. But the second thing, the second thing they say they want and I tell them, I say, listen, um, I was there with Mike Kelly and Dan Muser in Butler. I saw you get shot, I saw you come up and I saw strength when you said fight, fight, fight. Thank you, Mister President. We're glad to have you with us here today.

Donald Trump

01:14:57

Uh, he was there by the way.

Donald Trump

01:15:01

He had just left the stage, actually.

Donald Trump

01:15:03

That was good timing.

Donald Trump

01:15:05

That was good timing. Uh, just left the stage, right. I said, say hello to Dave. And then it began. A horrible thing. Also with us are Bob and Sherry Kapka. Where's Bob? Uh, I gotta see Bob. Where is he?

Where the hell is Bob? My golfing buddy, Bob Kepler. So he's a. He's the son of two great golfers.

Donald Trump

01:15:32

And they're both phenomenal people. One is Brooks. He's one of the best. He just won last week. That is some, um. Oh, look at him. He's shooting me as I'm talking. You, you can't, you can't do that. You're supposed to be standing up listening to every word. He's shooting it. I can't believe.

Donald Trump

01:15:49

Okay, so, hey, Brooks, your father's doing a great job. Your family is the greatest, but Brooks.

Donald Trump

01:15:55

Is one of the greatest players in the world. He's got five, uh, majors already as a young man. Five majors, that's hall of fame all the way, right, Steve?

Donald Trump

01:16:03

And I'll tell you, he gets it from somewhere. He gets it from that guy, because that guy can play.

Donald Trump

01:16:08

We play each other, but Trump can play too. We play each other.

Donald Trump

01:16:12

We have a good time, right?

Donald Trump

01:16:13

We have to say hello to the family. You two boys, everybody.

Donald Trump

01:16:16

Okay, thank you. Thank you both. Sherry, thank you. Great guy, great guy, great family. And two amazing puerto rican musical legends.

Donald Trump

01:16:26

They're legends. Justin Keyless and Arnwell. Do you know who they are? Do you know who the hell they are?

Uh, come up here. Just fast, fast fellas, come on. Because I don't know if these people know who the hell you are. But it's good for the puerto rican vote. Every Puerto Rican is going to vote for Trump right now. We'll take.

Donald Trump

01:16:45

Hi, fellas.

Anuel

01:16:54

Thank you Mister president, for having us here. For me, it's a real blessing to be here. I'm from Puerto Rico. We've uh, yeah, we are big part of United States. We really depend on the United States since Trump hasn't been around Puerto Rico. Yeah, it's not a secret. We've been going through a lot as a country. And yeah, Biden always promised, promise, a lot of politicians always promised through the years, but all of us know, the world knows, everybody's experienced it. The best president the world has seen, this country has ever seen. His name is President Trump. Thank you for having me here. To all my Puerto Ricans, let's stay united, let's vote for Trump. I personally spoke with him. He wants to help Puerto Rico grow and succeed as a country. So let's stand out tall and united, and we all want to remember that he wants to keep helping Latinos in the US. Let's do things the right way and let's keep growing. Let's keep growing as a family, and let's make America great again. God bless y'all.

Donald Trump

01:18:04

Thank you.

Justin Quiles

01:18:06

I'll also say a few words here. Mister President, I'm beyond honored being here with you today. Mister President, above all, I like you cause I always say this, you're not a puppet. I love that about you. Yeah, I really do. I back you because I feel you're the most honest president we ever had.

Donald Trump

01:18:28

That's true.

Justin Quiles

01:18:31

Saying things how they are, not what you think people want to hear. And that's very important. A lot of Latinos, we stand strong next to President Trump. A lot of Latinos, we love you as well. Thank you for sharing with us back there, uh, how important building back Puerto Rico is. Not only building up Puerto Rico, but let's make America great again.

Let's go. Wow, that's great. That's really nice. Great honor, fellas. Very talented guys, too. Um, just one final, a friend of mine who's been, uh, a friend for a long time, one of the most successful people in New York and Florida and all around, wherever he goes, he's successful. He never fails. He really doesn't. He's very extraordinary. Mister Steve Witkoff, he's right here. Steve, stand up. Thank you. Thank you, Steve. Thank you. Got one of the great families too. One of the great, great families.

Donald Trump

01:19:33

One of his boys is looking down right now, very proud of dad, right?

Donald Trump

01:19:37

Looking down, your brothers, he's looking down, saying, um, I'm so proud of my dad, but Steve is just extraordinary. So thank you, Steve, for being here. Appreciate it. Thank you.

Donald Trump

01:19:47

From the moment we take back the White House from Kamala and Kooka, Joe.

Donald Trump

01:19:53

We're going to have four of the.

Donald Trump

01:19:55

Greatest years in the history of our country. It's going to happen.

Donald Trump

01:19:57

We're going to get it done fast.

Donald Trump

01:20:00

Starting on day one, I will seal the border and stop the migrant invasion into our country. We will carry out the largest deportation operation in American history.

Donald Trump

01:20:12

We have no choice.

Donald Trump

01:20:15

We will halt the invasion and deport the illegals. She will let in the next 15 million people. And if they won, in four years, we will have had over 100 million people from all over the world enter our country. And many of them likewise will be.

From prisons, mental institutions, gang members, criminals. We're not going to do it.

Donald Trump

01:20:45

She will destroy this country. She's worse than Biden. Because Biden wasn't a real believer in the radical left.

Donald Trump

01:20:51

She is. That's all she knew. That's what her father taught her. A marxist professor. That's what he taught her.

Donald Trump

01:20:59

We will defeat inflation very quickly and.

Donald Trump

01:21:03

We will make America affordable again.

Donald Trump

01:21:05

People cannot afford to live here. We will make America the dominant energy producer in the world by far. I already brought it to number one. We were energy independent four years ago.

Donald Trump

01:21:19

Look what happened. We're energy. We're going to be energy dominant very soon.

Donald Trump

01:21:23

We have more liquid gold under our feet than any other country in the world. We will use it to reduce taxes.

Donald Trump

01:21:29

And energy costs for our people. We will also start paying down debt very substantially.

Donald Trump

01:21:36

In twelve months. We will cut your energy bills in half.

Donald Trump

01:21:39

We will cut them in half.

And that includes heating, air conditioning, electricity and gasoline. I will turn the United States into a manufacturing superpower very quickly.

Donald Trump

01:21:52

We are ready to do that. We had the most successful country economically in the history of the world, and we'll get it back very fast.

Donald Trump

01:22:04

We will no longer allow foreign countries to take our jobs and steal our wealth.

Donald Trump

01:22:08

In Mexico, they're building massive automobile factories that the UAW head doesn't know. The people know. That's why the people are for me within the UAW, United Auto Workers. But they're building massive plants. They're owned by China. They think they're going to make cars, sell them into the United States. No, they're not. Uh, I will put a 200% tariff on every single car, and no car will be coming to the United States.

Donald Trump

01:22:35

We will make our own products and buy far less from foreign countries that we are buying right now.

Donald Trump

01:22:41

Other countries that make us pay a tax to do business with them will be charged the same tax or tariff when they send their product into the United States. It will be called the Trump Reciprocal Trade act. So if China or any other country.

Donald Trump

01:22:59

Charges us a 100% or 200% tariff or tax, we will then charge them a 100 or 200% tariff or tax.

Donald Trump

01:23:11

In return.

Donald Trump

01:23:14

I will end the electric vehicle mandate. I will cut every job killing regulation of the Harris Biden administration. I cut more regulations than any president in history, by far.

Donald Trump

01:23:28

And I gave you the largest tax cuts of any president in history by far.

Donald Trump

01:23:34

And make our auto manufacturing business stronger than ever before.

Donald Trump

01:23:39

We're going to bring in tremendous numbers of factories, are going to all be brought in because it's going to be too expensive for people to make them outside. They're going to all come back. We're going to bring it back. We've lost 72% of our automobile manufacturing business over the last 30 years. It's going to come back when I'm.

Donald Trump

01:23:57

Back in the White House. We will pass large tax cuts for workers.

Donald Trump

01:24:00

And no tax on tips. Um, no tax on.

Donald Trump

01:24:06

So if you're a restaurant worker, a bartender, hospitality worker, a caddy, a barber, driver, or anyone else who relies on.

Donald Trump

01:24:15

Tip income, um, your tips will be yours. You know, they've given you inflation, they've taken all your money away. And, you know, she heard this, and two, three months later, she said, there will be no tax on tips. How original. That's why we talk about the american dreams. You heard that the other day. So she'll start talking soon about she's going to bring back the american. She doesn't know what the american dream is.

Donald Trump

01:24:39

I will fight for and protect your Social Security and Medicare with no cuts whatsoever. And we will have no tax on Social Security benefits for our seniors. No more tax. Yesterday, I made a major new announcement.

Donald Trump

01:25:04

If I'm elected this November, for the.

Donald Trump

01:25:05

First time ever, your government will pay for or require insurance companies to pay.

For all costs associated with IVF fertility treatment.

Donald Trump

01:25:20

We want more babies to be born in America.

Donald Trump

01:25:23

We want more babies. We need them. We need them.

Donald Trump

01:25:27

We will cut wasteful and unnecessary spending, and we will terminate the green new deal and spend that money on roads, bridges, real infrastructure, and paying down debt, not fake infrastructure that has caused massive inflation with no benefit whatsoever to our country. I will settle the war in Ukraine, and I will end the chaos in the middle east. And I will restore peace through strengthen. Very quickly, we will end the weaponization of government against the american people. We will protect religious liberty and we.

Donald Trump

01:26:01

Will end the war on Christmas is back.

Donald Trump

01:26:05

Remember, uh, eight years ago, I said.

Donald Trump

01:26:07

There'S a war on Christmas.

Donald Trump

01:26:09

They were afraid to say merry Christmas.

Donald Trump

01:26:12

And we had it won. But now, how much can it take? But we will stop that very quickly.

Donald Trump

01:26:17

Just don't buy. Anybody doesn't say merry Christmas, you don't buy. And that'll be back very, very quickly when I return to the White House. I will also stop the indoctrination of.

Donald Trump

01:26:28

Your children and protect your parents rights.

We're going to protect parents rights. We will rebuild our cities, including Washington DC, making them safe, clean and beautiful again.

Donald Trump

01:26:46

In Washington DC, you leave the commonwealth, you want to go see the Washington monument and you end up getting stabbed. You look at dirty roads with bad.

Donald Trump

01:26:56

Barricades, with graffiti all over the marble.

Donald Trump

01:27:00

It's going to be cleaned up real fast. We're going to take it over, we're going to run it properly, and we're going to have tough law enforcement. People aren't going to be shot in Washington DC anymore.

Donald Trump

01:27:11

And we will keep the US dollar as the world's reserve currency. It's fading.

Donald Trump

01:27:17

We're not going to let that.

Donald Trump

01:27:18

That would be like losing a world war.

Donald Trump

01:27:20

You can't let that happen. Then we would be a third world nation. This is how we will end the era of inflation, mayhem and misery. Under Kamala, uh, and Krokajo, we will.

Donald Trump

01:27:31

Unleash safety, prosperity and peace for Americans of every race, religion, color and creed. Together, we will deliver low taxes, low regulations, low energy costs, low interest rates.

Donald Trump

01:27:45

Low inflation so that everyone can afford groceries, a car and a home.

Donald Trump

01:27:50

We will stop the invasion, end migrant crime, support our police, strengthen our military, build a missile defense shield all around our country. Other countries have it. Why shouldn't we?

Donald Trump

01:28:09

We're going to all make it right here in Pennsylvania and other places. We're going to make a lot of it right here in Pennsylvania from what I hear. But Israel has it. It worked. 300 rockets shot, 299 got shot down. One got pretty seriously hit. But if you think about it, it's amazing technology. You know, Ronald Reagan wanted it many years ago, but the technology wasn't there. But now the technology is there. We're going to have it built. We're going to have that dome built right over us. We're going to have a beautiful, safe country. One way or the other, we're going to keep it safe.

Donald Trump

01:28:44

We're going to keep critical race theory and transgender insanity the hell out of our schools, and we're going to keep men out of women's sports. We will defend the second amendment, restore free speech, and we will secure our elections. Everyone will prosper, every family will thrive, and every day will be filled with joy and opportunity and hope. But for that to happen, we must.

Donald Trump

01:29:20

Defeat Kamala Harris, a Marxist, and we.

Donald Trump

01:29:24

Must stop her country destroying liberal agenda once and for all.

Donald Trump

01:29:29

We have to stop it. And I think a lot of things are happening. Look, people are seeing who she is. All you gotta do is watch yesterday. Give me a break. That's not a president. That's not a president.

Donald Trump

01:29:40

That's not a president.

Donald Trump

01:29:42

And we can't let that person destroy our country.

Donald Trump

01:29:46

So get your friends, get your family register, volunteer, and get the hell out to vote. Okay? Front row, Joe. Right? Because we want a landslide that is too big, too rigged, too big to rig. Too big to rig and go to. Swampthevoteusa.com dot.

Donald Trump

01:30:14

Swap the vote. Usa.com dot.

Donald Trump

01:30:17

On November 5, we will save our economy.

Donald Trump

01:30:20

We will rescue our middle class.

Donald Trump

01:30:23

We will reclaim our sovereignty and restore our borders.

Donald Trump

01:30:27

We will put America first, and we.

Donald Trump

01:30:28

Will take back our country. Together, we will make America powerful again. We will make America wealthy again. We will make America strong again. We will make America proud again. We will make America safe again. We will make America free again. And we will make America, uh, great again. Thank you very much, Pennsylvania. God bless you. God bless you.

Donald Trump

01:31:05

Thank you.

Donald Trump

01:31:06

Thank you.
