## Notes:

Summary by ChatGPT

- Crime Increase: Trump criticizes rising crime rates, attributing them to lenient policies that allow thefts under certain thresholds to go unpunished.

- Immigration and Criminal Elements: He claims that foreign countries are dumping criminals into the U.S., leading to increased crime and societal instability.

- Police Restrictions: Trump argues that police are not allowed to do their jobs properly

due to fear of losing their pensions, homes, and jobs.

- Kamala Harris Criticism: He criticizes Kamala Harris for being ineffective and claims she avoids interviews because she cannot handle hard questions.

- U.S. Leadership Decline: Trump expresses concerns that the current administration is damaging the country, and believes strong leadership is needed to reverse this.

**Donald Trump** 00:00:00

What's going on here? What's going on?

**Adin Ross** 00:00:02

Well, today is going to be the most important stream I've ever done, first of all, and I want to say thank you for doing this. Seriously, thank you. Yeah.

**Donald Trump** 00:00:10

Um, get some good ratings today.

**Adin Ross** 00:00:12

We're going to get some good ratings. Everyone thought this was going to be fake today, but, uh, you know, we proved them wrong.

**Donald Trump** 00:00:17

Uh, you're right in the living room of Mar a Lago, which I don't allow this to be ever done. So you're the first. Just about.

**Adin Ross** 00:00:25

Thank you.

**Donald Trump** 00:00:25

And, uh, we'll have a little fun today. And my son Baron says hello. He's a great young guy, but he's a big fan of yours.

**Adin Ross** 00:00:32

What's up? Baron? Yeah, Baron's awesome. He's a great kid. Amazing. He's tall. Very tall.

00:00:36

Good student.

**Adin Ross**

**00:00:37**

Yeah, he's very smart, I'll tell you that. I do want to, first off, you know, say this. You know, everyone in the chat, everyone in this room, everyone loves you. And, um, I just want to say you're a true hero for this country, and I really appreciate you. Um, yeah, again, I'm really thrilled we can do this today.

**Donald Trump**

**00:00:54**

I'm so happy now that I'm doing it. That's great.

**Adin Ross**

**00:00:59**

I, um, do. So do you know what live streaming.

**Donald Trump**

**00:01:02**

Is on these platforms?

**Adin Ross**

**00:01:03**

Yeah.

**Donald Trump**

**00:01:04**

I'm gonna wave.

**Adin Ross**

**00:01:05**

It's the new wave. It's the new way. I'm gonna explain it to you.

**Donald Trump**

**00:01:07**

Right?

**Adin Ross**

**00:01:07**

So I'm gonna show you this, this chat right now. Let me show you this. So, this is a live chat. So you already broke the website in five minutes? Yeah. You broke it. The chat wasn't working. Um, but we ended up fixing it. It's just very slow. Everyone in the chat, say hello.

**00:01:20**

You guys could put high in the chat, and w's mean. It's good. W means win. Yeah. Yep. So there are other putting w's and stuff. W trump. All right, so, yeah, everyone, everyone is

just super thrilled.

**Donald Trump**

00:01:32

You're gonna have big ratings today, I can see.

**Adin Ross**

00:01:34

Yeah. I want to, I want to break a million. I think we could do it. You think so?

**Donald Trump**

00:01:37

I think so.

**Adin Ross**

00:01:39

I'm thrilled. Elon, uh, elon actually, already, uh, he commented on, uh, the, uh, the ex post that I went live already.

**Donald Trump**

00:01:45

Elana's a great guy.

**Adin Ross**

00:01:47

Yeah, he's great.

**Donald Trump**

00:01:48

Really a fantastic person. Little imagination he's got, doesn't he?

**Adin Ross**

00:01:52

Yeah.

**Donald Trump**

00:01:52

Rockets and tunnels and.

**Adin Ross**

00:01:54

Yeah.

**Donald Trump**

00:01:55

Everything. He's, uh, a fantastic guy.

**Adin Ross**

00:01:57

Uh, he's great. So, uh, let's get started today. Let's have some fun. We'll touch base on some topics and then we'll do some fun stuff.

**Donald Trump**

**00:02:04**

Sounds good.

**Adin Ross**

**00:02:04**

Cool. Let's have a good time. All right. Well, the first thing is, you know, the reason why, you know, I really wanted to make this stream happen is because, because there's a lot of people that are first time voters watching today. Um, you know, and I, I want to make it very clear to everybody that you're a human being.

**00:02:17**

You're a great human being. Um, and, um, I want you to basically talk, to talk in this camera, talk to them and explain why it's very important as a first time voter to go out and vote and why they should vote for you.

**Donald Trump**

**00:02:28**

Uh, I'd love to do that. And I love having a young audience. This is young. I think you have some oldsters, too, because I also know some oldsters that are listening and watching. But, uh, it's about the american dream right now. You don't have the american dream. We have a country that's not respected, a country that's being laughed at, a country that just a little while ago, we're having a stock market explosion in a negative way as opposed to a positive way.

**00:02:52**

And that's been happening for quite a while. It's, uh, it's been simmering and really happening for quite a while. And we're going to make this, uh, country so strong and so great. And when you're ready for your job, you're going to get a great job. A job you can make the kind of money this guy's making, maybe even more, if that's possible.

**Adin Ross**

**00:03:09**

I'm trying to get like you, boss.

**Donald Trump**

**00:03:10**

But, uh, you'll love your life and you'll be successful. And at a young age, it's really wonderful to think about the american dream. And with, uh, Kamala and Joe, I took him out. He was, uh, we had a debate and the debate didn't go so well for him. And they sort of what they did, you know, it was really a coup of somebody.

He had 14 million votes. He had it. And all of a sudden they went to him and they said, we don't want you as we don't want you running anymore. And it's sort of like a prize fight from my standpoint here. You're focused on this one man and all of a sudden you're fighting somebody else, but she's actually worse than he is.

**00:03:44**

And you're starting to see that. I think people are going to see that very, it's going to be very evident. So, uh, go out. We want the american dream. We're going to give you the american dream and you're going to be real happy. Thank you.

**Adin Ross**

**00:03:54**

I, uh, have another question. And again, mister president, you know, I'm not really fully into politics, but, you know, I'm getting there and I do want to make this very clear as well. Now that's on my mind. You know, back when I was in, uh, I went to high school in California. Okay.

**00:04:06**

Um, and, you know, a lot of the teachers, uh, were basically at the time, you know, this is, this is your first term, they were telling me how horrible a person you are and all these things. And the teachers, you're not supposed to do that. It's inappropriate to have teachers, you know, discuss politics in school, but it's becoming really normal for there are a lot of teachers.

**00:04:25**

Uh, and you're a kid, when you're a kid, your brain is like a sponge. So, um, I want to know what your thoughts on that. Kind of the corruption in the school system. In a way, they're teaching some pretty bad stuff in there.

**Donald Trump**

**00:04:36**

It's been brainwashed to a certain extent. Even the teachers have been brainwashed. They've learned from a long time. This is long before me, this liberal way, or now they call it progressive, they don't like the term liberal. You're not allowed to use that anymore. So I usually use it. But, uh, this liberal way that they have, and it's a bad thing, a bad thing for the country.

**00:04:54**

You know, we want to have borders, we want to have low taxes, we want to have great schools, really, you know, great schools so you can go and learn and be successful and have a wonderful life and all of that. But we want to have a good military so we can protect

ourselves, of course, from some bad players.

**00:05:09**

You got some bad players out there. And, you know, it's interesting, during my four years, we had no war. We had nothing. Everybody was afraid we're going to have wars. And just the opposite, North Korea. Uh, I remember Barack Obama's telling me, oh, the biggest problem we have is North Korea. I didn't have a problem with North Korea.

**00:05:28**

No big nuclear presence. I didn't have a problem. Uh, the only war we had was already started long ago, and that was isis. And we defeated, I defeated them in a very short amount of time, very quickly, and we had no wars under the Trump administration. And that's a great thing. You know, that's a really great thing.

**00:05:46**

It was, I think, 82 years since that's happened. And we won't have wars again, but we could have a war before we even get there. That's the problem. We have a number of months. We have four months, and, uh, the election is starting very soon, and I guess five months before you actually get in.

**00:06:01**

And a lot of damage can be done in five months by incompetent people. And we have very incompetent people right now. And I'm not saying that out of happiness. I'm saying that out of sadness, because our country's in tremendous danger, not only of stock market crashes or depressions or whatever it may be.

**00:06:16**

It's a tremendous military danger. We have Israel's blowing up. The Middle east is blowing up. Russia's going wild with Ukraine, and things are out of control. And we have nobody that knows how to talk. We have nobody that knows. I was watching when Russia was thinking about going in, and they never would have done it with me.

**00:06:33**

They never, and they didn't, but they never. After I got in, they started loading up the border. I thought he was doing it for negotiation purposes. And Biden said all of the wrong things, everything wrong, and ultimately, they attacked, and they wouldn't have done that if I were president. So we got to get back in and get it straightened out.

**Adin Ross**

**00:06:50**

We'll get that one worked out 100%.

**Donald Trump**

**00:06:51**

A lot of people dying.

**Adin Ross**

**00:06:52**

Yeah. It's a lot of innocent lives being lost. You know, you had mentioned, um, you know, the stock market crashing. I don't know if you. You obviously, I saw the post you made on your app, truth. You know what I just saw yesterday and the day before, I'm in crypto, and I'm in stocks myself, and I couldn't believe what's going on.

**00:07:10**

You have Japan. You have everybody just falling. And, um, I want to ask you, how do we basically get it back up and flowing and back up and running? Um, and what's causing this?

**Donald Trump**

**00:07:23**

Well, right now, you have no confidence. You have somebody that now is taking over from Biden because, uh, he just wants to stay in bed all day. He can't get up. He wants to stay in bed. No, it was a fraud. They tried to tell people he was competent. He knew what he was doing.

**00:07:36**

And in the debate, he was, uh, adjudged to be not so good. Yeah, but, uh, you can go back four years, too. You know, he campaigned from his basement. He didn't campaign. I said, where is this guy? During COVID they used Covid as an excuse not to let him talk. The whole thing was a fraud, and everybody knew it.

**00:07:53**

And they knew it strongly. And, uh, we're going to get it going again. We have to get it going again. Uh, they put us in a very bad position. The worst thing is we have probably, I think, eight and 20 million people came into our country, uh, with open borders, and many come from prisons.

**00:08:11**

And you can be a liberal and your people can be. But coming from some of the meanest prisons all over the world, not just South America, from all over the world, from the Congo and Africa. They come from all over the world. They're coming and they're releasing their prisoners into the United States.

Now, you can be a liberal guy, you can be progressive as anybody in the world, and you can't think that's a positive thing. They're coming out of mental institutions. They're pouring into the United States, and they're hurting and damaging our country, and they're killing our people. And the crime rate with what you're talking about and, uh, what we're talking about, we call it migrant crime.

**00:08:48**

It's a new form of crime and it's a very violent crime. And it's, uh, going to take on proportions the likes of which this country has never seen before. And remember, these people are just getting accustomed. These are people coming out of mental institutions, prisons and jails and many terrorists. We're having record numbers of terrorists coming in.

**00:09:07**

So I'm talking, I assume, mostly to a young audience, but a young audience. No matter where they're coming from, they can't be happy about this.

**Adin Ross**

**00:09:15**

No, they can't. Uh, jobs are being taken, a lot of crime. Uh, you know, so what, president, uh, Trump, what do we do to fix that issue? What if, uh, you know, I happen to be born in another country and I want to come the right way? How, uh, would that work?

**Donald Trump**

**00:09:29**

Well, that's what we want. We want people to come in, but they have to come in through a system, through a legal system. And, you know, one of the things that's unfair is we have hundreds of thousands of people that have applied to come in, and this administration doesn't talk to them, right?

**00:09:42**

But if they walk through the southern border, they have no problem getting in. I don't even know why they're doing this, but some people are waiting ten years to come in, and they've studied, they learned all about the United States, about our constitution, about everything, and, uh, they're not let, they're not being let in.

**00:09:56**

And we're allowing people to come in from really rough places, really bad places, and they come in through caravans and, you know, these caravans have 10, 20, 30,000 people, and they're pouring through Mexico.

That's crazy.

**Donald Trump**

**00:10:11**

And Mexico was great when I was there. They were helping us. I had stay in Mexico. You can imagine what that is. That means you have to stay in Mexico. You can't come into this country until we approve you. They gave it up. Now they just walked right in. They had catch and release.

**00:10:25**

We had catch and release. That's. You catch a criminal and you release them into our country. I said, no, no. We catch a criminal, and we release them into Mexico. I think you feel better about that.

**Adin Ross**

**00:10:35**

Yeah.

**Donald Trump**

**00:10:35**

So, definitely, you know, it's one of those things. There's so many things. They are so bad. It's like amateur night. It's either amateur night or they want to destroy our country.

**Adin Ross**

**00:10:45**

Right. Right. Do you, uh. What do you. What do you think about what's going on in Venezuela, uh, the whole situation out there?

**Donald Trump**

**00:10:51**

Well, I know it very well. And Venezuela is right now, uh, being run by a dictator where we were enemies with Venezuela. Venezuela was going to collapse, and people could have gone back to Venezuela. They were in our country. Now they've released tremendous numbers of criminals into our country. If you look at Caracas, it was known for being a very dangerous city, and now it's very safe.

**00:11:13**

In fact, the next interview we'll do, we'll do it in Caracas, Venezuela, because it's safer than many of our cities after they've released their criminals into all of our cities. Um, and you know. I'm kidding.

**Adin Ross**

**00:11:23**

I know.

You know the reason I have to say that, because the fake news media knows that, too. But they'll say, he suggested they go to Venezuela. You know, they are so bad, it's hard to believe. But anyway, so Venezuela, their crime is down 72% because they've taken their criminal elements, which are large. Very.

00:11:40

It was a very dangerous place, especially Caracas and the different cities, and they've moved them, um, into the United States of America. I know you're very happy. I know that your mother and father must be thrilled when they hear that.

**Adin Ross**

00:11:52

Yeah.

**Donald Trump**

00:11:52

Who happened to be here. I believe they are.

**Adin Ross**

00:11:54

They're right over there.

**Donald Trump**

00:11:55

Hey.

**Adin Ross**

00:11:55

Mommy, dad.

**Donald Trump**

00:11:56

Are you thrilled with what they're doing? I don't think so. I don't think they're thrilled. I don't think so, but. So their crime rate is down 72%.

**Adin Ross**

00:12:06

Right?

**Donald Trump**

00:12:06

Because they're drug dealers. Uh, they're criminals, they're murderers, they're rapists. Everything's being moved into the United States, and soon they will have moved all of their criminals into the US. They won't have crime. So that's why I say we'll go to Venezuela for our next interview. Okay? It's a very serious problem. I mean, honestly, what they're doing to this country.

They're destroying our country, Aidan. They're destroying stupid people. He's not a smart man. He wasn't smart 35 years ago, he wasn't smart 20 years ago, and now he's really not smart. And you saw that from the debate. I mean, he's really gone down the tubes. And she is. Look, she couldn't even pass her law exam.

**00:12:43**

She couldn't pass her bar exam. And I'm not saying that because I know other people didn't pass their bar exam, but she thought she'd never be able to pass it. And, uh, this is who we have running our country. It's a shame. She's ultra left, ultra radical. I just see where 99 vicious terrorists when she was, I guess, attorney general.

**00:13:02**

Because she was attorney general of California, she destroyed California. Her policies have destroyed California. Her policies when she was the district attorney, have destroyed San Francisco. San Francisco was the best city in our country 20 years ago. And now it's, uh, you know, not even. Frankly, it's not even livable. We, uh, have to bring our cities back.

**00:13:22**

We're gonna have to focus on bringing our cities back.

### **Adin Ross**

**00:13:25**

It's actually really sad. You know, I live in California for a long time. Even Los Angeles. It's. It's. It's not safe. It's just. It's not safe. Everyone I know that lives in multimillion dollar, you know, homes that do what I do, you know, content. They're getting robbed. You know, they're getting robbed.

**00:13:37**

The police don't really, you know, uh, they're not active out there as they are in some other states. And I. It's really sad. And I agree. I saw a video in San Francisco where people just walk into a Louis Vuitton in an Apple store and just loot, loot, loot, loot, and leave like nothing ever happened.

**00:13:52**

It's crazy.

### **Donald Trump**

**00:13:52**

They loot. And not only that, they have like \$1,000 or \$1,500 where she started, where she won't even prosecute if it's less than 1500 bucks.

Wow.

**Donald Trump**

**00:14:01**

So you see these people go in with, like, calculators and they're adding the stuff that they're stealing because they won't be prosecuted. Uh, so that if they get a. They say, no, no, it's less than whatever it is, \$1,000. And she started the concept of that, and it's now spreading. Our country, uh, we need strong leadership.

**00:14:21**

We didn't have stuff like this. You know, when you look at what's happened to this country and you look at other countries, crime rates all over the world are down. You know why? Because they're all dumping their bad people, their prisoners, and all of the people that are bad. I mean, not only the people on the streets, the people that are in jails, you know, what they save by doing that, but they're dumping their prisoners and their criminal elements.

**00:14:47**

They're dumping them into the United States of America. And our crime is going to go through the roof. It's going to go through the roof. And, uh, you know, if we win, and I hope we win, we should win. Uh, we seem to be winning. And, you know, you can't even imagine that anybody would want these.

**00:15:03**

This has nothing to do with me. Who would want these people? But can you imagine? Uh, they're just getting comfortable now, and they're criminals, so they're sort of laying low a little bit now because they're not comfortable. But soon they'll be comfortable, and they'll find that our police are. They're great, but they're not allowed to do their job.

**00:15:21**

They're not allowed to be strong, and they're allowed. They could do their job if they were let. But if they do their job, uh, they have their pension knocked out, they have their car taken away, their family taken away, their house taken away. Everything's taken away, and they lose their job. It's a very, uh, rough thing being a policeman today, I'll tell you.

**00:15:40**

But they could do their job. We're going to have to let them do their job. We have a crime infested nation. We're a drug addicted nation, and we're a crime infested nation. Other than that, we're doing quite well.

Yeah. Yeah. Uh, I want to, uh, move topics a little bit here. You know, I saw, um, I'm unfamiliar with exactly what it was called. You were speaking on stage, uh, with three other women, uh, and you just got ambushed. They were late and not a high. Hello, how are you? Just straight into it.

**00:16:11**

Just straight trying to rip you apart. And I think you handled it pretty well. But I, uh, wanted to ask you a question. Like, why do you think, like, they just straight up do that for you? But then they're gonna ask the other side. Oh, what's your favorite flavor of ice? Cream.

**Donald Trump**

**00:16:22**

That's right. I, uh. Well, I did this as a favor. This was the black journalists. Uh, the room had maybe 2000. It said 2000. It looked more like 1000 to me. But whatever it was, it was backed.

**Adin Ross**

**00:16:34**

Yeah.

**Donald Trump**

**00:16:35**

And I did it because I thought it was a good thing to do. And they had a, uh, journalist. I don't know. I didn't know who she was, but she was nasty. She was a terrible person. And I walk in and instead of saying, hello, thank you very much for doing this, they also said, kamala is going to do it.

**00:16:50**

But then Kamala said, I want to. She wants to do it because she can't talk to people. She can't answer questions. She hasn't done one interview. You know, she's not doing any interviews.

**Adin Ross**

**00:16:58**

Yeah.

**Donald Trump**

**00:16:59**

Because if she did one interview where hard questions asked, she's incapable of answering it. But I walk in and this woman starts talking about, uh. She talked about, we have, let's get rid of the elephant in the room. And she starts talking about racism and everything. I said, you didn't even say hello to me.

And I'm doing them a favor by doing this. I'm doing this out of respect to the black community. And we're getting record numbers, as you know, in the black community. And she came across, you know, she's with ABC fake news, which is one of the worst. ABC is one of the worst.

**Adin Ross**

**00:17:28**

Right.

**Donald Trump**

**00:17:29**

And she is horrible. So she was very nasty. Harris Faulkner was there. She was excellent. The other person, I didn't know she was okay. I wouldn't say she was great, but she was okay. But I did it, and it was quite a sensation. I see a lot of people think it was, uh, well handled.

**00:17:44**

The woman was so rude. So rude that, you know, it's hard to believe you can walk into a thing and I do them a favor and I do this. Most people said, why are you doing it? I feel I have an obligation to do it. I want to look with it. You become the president for all of the people, not for a certain segment, not even for just my, you know, they talk about my base, a very big base.

**00:18:06**

But you become president for all of the people. So I feel you have an obligation to do that. Now she's not doing anything. She's not doing any interviews because I don't believe she's capable. She starts, I don't know. She's strange. The whole thing is strange. Let's put it this way. Our country is in big trouble.

**Adin Ross**

**00:18:24**

Yeah. I spoke to, uh, your son, Don Junior. Uh, when I met you in Doral. Um, I spoke to Don Junior a little bit. He said, man, I feel for the young generation you guys are. Look at this. Look what's going on here. It's like, you need these next four years. If not, he's like, I don't know how well the country's gonna do after these four years.

**Donald Trump**

**00:18:44**

Um, I don't think it survives. I really don't. Look, we're gonna have 20 million people in by the time this election takes place. 20 million people. That's bigger than New York state. Uh, many of those people are people that you should not have. And we're all for everything. You know, all men are created equal, as the expression goes.

Right, of course.

**Donald Trump**

00:19:05

And now today, they say all men and women are created equal. When they wrote that, it was a slightly different time. Today. Uh, that alone is a politically incorrect.

**Adin Ross**

00:19:13

Yeah, it is.

**Donald Trump**

00:19:13

So all men and women are created equal. Everything. But the fact is, uh, when you're dumping all of these criminals and all of these, uh, drug dealers, uh, all of these people into our country, you're really hurting our country badly. And it has to be, uh, we have to take very strong measures.

**Adin Ross**

00:19:31

We definitely do. We definitely do. Um, moving to the next. Oh.

**Donald Trump**

00:19:38

Oh. I didn't know. I didn't know they were allowed to applaud this.

**Adin Ross**

00:19:41

Yeah, they're allowed to applaud. You guys can keep it close.

**Donald Trump**

00:19:43

All right. Common sense, right? You know, it is about common sense. I mentioned that term because whether you're conservative, liberal, it's all about common sense.

**Adin Ross**

00:19:52

It is.

**Donald Trump**

00:19:53

You want to have good education, you want to have borders, you want to have low interest rates to be able to buy a house. You want to, you know, so many different things, but you gotta have common sense. And we're run by people. And, you know, just a little thing. When I started campaigning almost like, eight years ago, I talked about merry Christmas.

We should have merry Christmas again. Let's bring back merry Christmas. Uh, you weren't allowed to say merry Christmas. I got it back.

**Adin Ross**

**00:20:24**

It's a nice crowd, huh?

**Donald Trump**

**00:20:25**

Even if you're jewish. They like to say merry Christmas, every one of my jewish friends, and say, we love merry Christmas.

**Adin Ross**

**00:20:31**

I'm jewish. I love merry Christmas.

**Donald Trump**

**00:20:32**

Good. And, you know, Kamala doesn't, though. She doesn't like you. She doesn't want you to use merry Christmas. She thinks it's, uh, insulting to use merry Christmas. So we'll have to work on her.

**Adin Ross**

**00:20:42**

Uh, I wanted to ask you a question. Speaking of, you said some about common sense. Someone who has no common sense. Uh, Joe Biden. Uh, do you think he was pushed out, or do you think he made the decision to step down?

**Donald Trump**

**00:20:52**

No, he was, uh, not only pushed out, uh, it was a coup. I'm telling you. They went in to see him. He did badly. The debate was a disaster.

**Adin Ross**

**00:21:00**

That was horrible.

**Donald Trump**

**00:21:00**

Okay. Um, I don't know if I was brilliant or if he was horrible. Maybe it was a combination of both. Okay, I know one thing they were saying after I left. I said, uh, you know, that was one of the greatest debate performances we've ever seen. And then two days later, they just said, he was terrible.

**00:21:18**

They never gave. They took away. They took away the great debate performance. But

anyway. But no, I mean, I did fine. And he is, uh. He shouldn't have. Look, he's done tremendous damage to our country. He was a terrible president. He was the worst president we've ever had. She's, by the way, considered the most unpopular vice president we've ever had.

**00:21:40**

But she's a horrible. She's worse than he is. I actually think he's smarter than her, and I think he's a really not smart person, but I think he's smarter than she is. But she was convenient. She was there. Uh, they have better people. I mean, they have much better. In fact, all of the people that she's looking at are considered much better than her.

**00:21:59**

These were people that were thinking about running. They would have run, except that they didn't want to go through this roadblock with her. And, you know, because you're the vice president, so they wanted to go pick them. And I think virtually every one of them is considered better, smarter, uh, would be a better president than her, but we can't allow her to be president.

**00:22:18**

She's going to destroy our country.

**Adin Ross**

**00:22:20**

She'll ruin it. I mean, already the, uh. It's just, it's ridiculous what she's saying. Um, and by the way, the youth.

**Donald Trump**

**00:22:27**

Is so important because youth tends to be Democrat. And as they get older, they become Republican. That's what's happened. We can't wait 50 years. We can't make the move now. All of you young people, and he's got a lot of them. All I know is, my kids say, dad, you have no idea how big this interview is.

**00:22:46**

I said, don't tell me that, but, uh, make the move now. Don't wait 50 years. Our country doesn't have 50 years.

**Adin Ross**

**00:22:53**

Damn, you know, that's crazy to think about. Uh, I want to ask you a question. She did a uh, rally recently, uh, she had a rapper speak, and then she had a rapper twerk at a rally. A rapper was twerking at a rally. Um, I want to know your thoughts on that. Uh, it's crazy to

me to think that there could be twerking.

**00:23:12**

I know, at a rally.

**Donald Trump**

**00:23:13**

Well, what Hillary did is she would go out and get Bruce Springsteen. He'd get much smaller credits than, I got to be honest. And he had a guitar, right? I don't have a guitar, but he would fill up a place, and then he'd finish, and they'd all leave, and she'd be speaking. So now Kamala's doing the same thing because nobody wants to go watch her.

**00:23:33**

Nobody. No, I mean, she speaks for, like, a short. Nobody's going to want to watch her, and nobody does want to watch. Now, at least there's a little bit of curiosity, but there's no value, really, in going and watching her. So what she did is she's gotten a couple of rappers, and they fill, uh, up the place, but what she does is a little bit different.

**00:23:51**

She has them go last. That's smart. I give. So, in other words, they want her to finish her speech, get the hell off the stage, and then they can.

**Adin Ross**

**00:24:00**

Listen to the performance starts.

**Donald Trump**

**00:24:01**

No, it's pretty.

**Adin Ross**

**00:24:02**

It's kind of smart.

**Donald Trump**

**00:24:04**

Hillary. No, no, I give her credit. Give it to her a little. Hillary never figured that out. She'd get some star, and the star would fill up the place, and then the star would leave. They would leave. Everybody would leave. And she's talking to an empty stadium anyway. This is a little better idea.

**Adin Ross**

**00:24:21**

Yeah. Uh, I want to move on to the fun stuff now. I think we've definitely talked on some

ideas and, uh, policies. Excuse me, but I want all the fun stuff, because you are a fun guy. I've heard a lot from a lot of people how cool you are. Um, especially Dana. Shout to Dana.

**00:24:37**

I know you're watching.

**Donald Trump**

**00:24:37**

Oh, Dana.

**Adin Ross**

**00:24:38**

Yeah, he's.

**Donald Trump**

**00:24:39**

There's nobody like him, you know? You know, I always say everybody can be replaced except Dana, because this guy travels the world looking for fighters, okay? Kept me fighters. He doesn't care where they from, countries nobody ever heard of, and that's where he finds the best fighters. Now, he's. He cannot be replaced.

**00:24:56**

He's. He's truly great at what he does.

**Adin Ross**

**00:24:58**

He's the coolest. I know you're a UFC fan, right? Who are like, uh, your favorite fighters?

**Donald Trump**

**00:25:04**

Well, I think Khabib. I mean, how good is Khabib? Do you know who Khabib is?

**Adin Ross**

**00:25:08**

Of course I know who Khabib is.

**Donald Trump**

**00:25:09**

Khabib was 29, I guess. 29, 28 and 0 and then his father died, and he stopped. But I think he never lost. I don't think he ever lost a round. Like, he fought many times. He never lost, like a round. And I thought he was a great. I got to meet him, uh, at a fight two fights ago.

**00:25:25**

Cause I walk in with Dana sometimes. I do this walk in. That's pretty cool.

Yeah. That's where I first met you.

**Donald Trump**

00:25:30

That's right. If I didn't get any applause, you wouldn't want me on this show.

**Adin Ross**

00:25:34

You said, forget it.

**Donald Trump**

00:25:35

Now we get big applause. We walk in together.

**Adin Ross**

00:25:37

It's crazy. You shut it down.

**Donald Trump**

00:25:39

No. I met Khabibel, and he was very, uh. You know, he came to me and he said, you're the man that can stop the war. Cause he's talking about the war with Ukraine, Russia, of course, because he knows they're his people. I mean, on both sides, right? There's so many people dying in that war, and the whole culture is being destroyed.

00:25:57

You know, the cities are coming down, they're just pouring bombs in. And he really. It was amazing. We weren't talking about fighting. We were talking about a different kind of fighting, a much worse kind of fighting. And he was very concerned about that whole thing, that war. He said, you can get it stopped, and I can get it stopped.

00:26:14

I will have that stopped before. I assume I will. If I win the election, the first thing I'm going to do is get Putin and get Zelensky. I know them both very well. And get them to make a deal, because it's crazy.

**Adin Ross**

00:26:30

It is.

**Donald Trump**

00:26:30

It's crazy.

00:26:31

It is. And that's. It's like your rallies, the crowd, huh?

**Donald Trump**

**00:26:36**

I know. I like this crowd. I like you people. You know what they are? Ah, though? They're basically. They're people that want to see the country. It's people that just, like, they don't want to see crime, they don't want to be mugged, you know, because they're selfish in that respect. They prefer not being mugged.

**00:26:57**

Right. But they don't want other people to be mugged, beaten up, shot, and killed. You know, in Chicago on July 4 weekend, they had 117 people shot. Think of this. You live there. 117 people were shot, 17 died. This is in one weekend, July 4 weekend.

**Adin Ross**

**00:27:14**

Wow.

**Donald Trump**

**00:27:15**

I mean, nobody wants that. If you're living in Chicago, you have a good chance of, you know, something bad happening when you. You're going to go buy a loaf of bread and something really bad could happen. So we don't want to, and they don't want that. The people behind me, who I just met briefly, they are, uh, they're great, but they're like other people.

**00:27:35**

People don't want crime, they don't want to go to Warsaw. They want to be able to make money. They want to be able to have a good life. They want a great education, all the things that you want, just the basic things, and we don't have that now.

**Adin Ross**

**00:27:48**

It's really sad, honestly. Um, well, think of this.

**Donald Trump**

**00:27:51**

Israel. You're Jewish. Are you a fan of Israel?

**Adin Ross**

**00:27:54**

Yeah.

**Donald Trump**

**00:27:55**

Uh, it would have never happened. October 7 would have never happened. If I was president and everybody admits it, Iran was broke. They had no money. I wouldn't let anybody buy oil from Iran. As soon as Biden comes in, he didn't have any. He didn't have a clue. He let everything happen. But Iran was totally broke.

**00:28:12**

They had no money, and I wouldn't let them do. I wouldn't let them. Nobody. China. I said, you buy oil from Iran and you can't do business in the United States. They said, we'll pass. Uh, that's fine. But I did that with everybody. And we would have had a deal, 100%. We would have had a deal and there would have been no attack.

**00:28:30**

There was no money left. Iran had no money. We would have made a deal. We would have made a fair deal for them. I would have loved to have made a fair deal. I'm not looking to. I just want them. They can't have a nuclear weapon. It's very simple. They can't have a nuclear weapon.

**00:28:44**

You cannot let Iran have a nuclear weapon. So what happens is, uh, we worked very hard on that, and then he comes in and he allows everybody to go. China now is buying millions, billions and billions of dollars worth of oil, and Iran now is a very rich country, and October 7 would have never happened.

**00:29:02**

And it wouldn't happen because they didn't have the money to pay Hamas and Hezbollah and all of these, they call them instruments of terror, a lot of different names. And so October 7 would have never happened. The recent attack on the park would have never happened. That was so graphic. And so, you know, normally, you don't see that.

**00:29:20**

Normally the media cuts it off, but they didn't have time to cut it off because it was, during the day, very public, and you see children with their legs cut off. Those initial scenes were so horrible, where a rocket landed in a little soccer field. Just terrible. All of that stuff would have never happened.

**00:29:37**

And we'll get a stop fast, by the way. Uh, we'll get it stopped fast. There's no games.

**Adin Ross**

**00:29:45**

Amazing. Amazing. Everyone that's watching, everyone behind, just know that your vote really does matter. And, um, you guys really have a big decision coming up in November. You guys gotta really go out there and vote and vote for the right person, which is him.

**Donald Trump**

**00:30:01**

Wow. That's there. You know, it's funny that you do it, but now I know why you're so popular. Because I've been on for years with people that really do like me and they're even fair to me and everything else, but they wouldn't do what you just, they wouldn't say, vote for him. You know, they do.

**00:30:18**

They're short of that. They wouldn't do it. And they do and they vote for me, but they wouldn't say it. I think it's great that you can say something like that. I think it's so, it's so, uh, it's ethical, it's fair, it's smart. And if you felt that way about somebody else, that's okay too.

**00:30:36**

But, you know, you have journalists today, like that one that, uh, intercepted me, literally, that was, that was like a booby trap. I walk in and she starts saying, we gotta start immediately. She didn't say, oh, thank you very much for being here. No, just like the worst. And frankly, if I owned that network, I would fire her so fast.

**00:30:56**

It was so inappropriate. And I actually, I actually, once you sort of walk out, then you put the guard up and you actually give less information than what you would if they did it with sugar. Right? But she doesn't know about sugar. That one, that was sort of terrible. It became viral, number one.

**00:31:17**

Viral.

**Adin Ross**

**00:31:17**

Yeah, yeah.

**Donald Trump**

**00:31:18**

And it was the question. It was viral. I think my answers were sort of good.

**Adin Ross**

**00:31:22**

They were really good.

**Donald Trump**

**00:31:23**

I think they were, they considered to be, I don't, uh, I can't brag, but they were considered to be very good. But, but the level of hatred and craziness and you don't know, is that from the head of the network or is that from her? But ABC, I've said for a long time, ABC is one.

**00:31:41**

You have George Slapadopoulos, I don't know if you know him, but he's a nasty guy. You know, you sit down and yet to Biden, he interviews Biden. I said, there's no way that Biden can handle this guy if the guy is like normal, like he normally is.

**Adin Ross**

**00:31:56**

Yeah.

**Donald Trump**

**00:31:57**

He was so nice to Biden. He asked him to. And then when Biden couldn't answer, which he can't answer most of the questions because he has no clue where he is, Slapadopoulos is giving him the answers. He's giving the. And isn't it true that you really don't want to see war? Isn't that true?

**00:32:13**

Uh, yeah, yeah, no, the whole thing is crazy.

**Adin Ross**

**00:32:17**

Anyway, um, I want to real quick talk about one thing. It was super important to me when I saw it. Uh, censorship. I don't know if you saw what Elon had posted. Elon basically, uh, showed if you were to Google Donald Trump about a week ago. All you see is Kamala. That's all you see is Kamala.

**00:32:33**

Uh, it's crazy. Google was really, really trying to push her.

**Donald Trump**

**00:32:38**

So Google is really crooked. It's horrible. Uh, when they had the word assassination up, because, you know, there was a big moment, uh, a few weeks ago where I got whacked. I got right there. I got whacked. And, um, whether it's me or anybody else, it was a terrible thing. Terrible thing for our country.

It was terrible for everything. And when you put up the name, the word assassination, it went to Lincoln, it went to many other people, many of whom I didn't even know there was an attempted assassination. The only one it didn't have was Trump. Think of it. And when you put up the word assassination, it also sent you to Kamala, and people were really angry at it.

**00:33:23**

Look, something wrong with Google. I don't know if it's the people running it inside or the smaller people, so to speak. The people that are actually doing the nuts and bolts. I doubt it. It's got to come from the top, and it's so illegitimate. They have to do something about it. And, I mean, the market speaks.

**00:33:43**

Everybody should maybe just go off Google, not use it. There are so many other things. Watch your show instead. But there are so many things now. Mark Zuckerberg called me and he apologized. They actually had it where, you know, AI is dangerous. It's going to be with us, but it's very dangerous. They actually had.

**00:34:00**

The Secret Service agents were very brave because when I was being shot at, there were eight shots. And as soon as they heard that first gun, I did think I did a good job because I heard, and I went down. You know, when you hear bullets, you tend to drop to the floor of your intelligence.

**00:34:14**

Of course, you're not intelligent. Like, I don't think Joe would have dropped to the floor I think it's.

**Adin Ross**

**00:34:18**

No, I think it would have just been like, what's going on?

**Donald Trump**

**00:34:20**

What's. Hey, what's that?

**Adin Ross**

**00:34:21**

What is that?

**Donald Trump**

**00:34:22**

Where are those buildings that a bird. Oh, there they are. There they are. No, I don't think he would have dropped to the floor.

**Adin Ross**

**00:34:27**

Right.

**Donald Trump**

**00:34:27**

But anyway. But, uh, it's, um, when you. When you hear this and when you see what's going on, and he called up, and there's a very iconic picture that was taken, but there's a number of them, actually. But there's one in particular that was very iconic, and it's been on the covers with the fists up and the secret agents.

**00:34:45**

Service agents. And, you know, I know they're going through a little bit of questioning. Let me tell you. These people were brave because those bullets were coming at me, and I heard them. They were whizzing over my head. I had the one here, and I went down, and those. They were whizzing over, um, and I had seven people, maybe a lot of people, a lot of very big people on top of me within seconds, and a lot of people that I know would not have.

**00:35:12**

They would not have done that. Aidan, I'm telling you, when bullets are coming right over you, and you got people willing to. I asked a couple of them. They expected to die. They actually expected to die. And I understood that the other thing that happened that was amazing is within 5 seconds, the sniper, the secret service sniper, from a much further distance, one bullet, and didn't know about it.

**00:35:36**

Now, that was. It was a communication problem, a big one. And had it taken place, you know, 10 seconds earlier would have been good, but there was a communications problem, but he supposedly. I don't think he knew. I mean, I've gone through it, too. I don't think the sniper knew anything about it.

**00:35:54**

He may have heard there could be a problem, but he didn't know anything about it. Think of it. A thing like that happens. He went by the gun and the fire of the gun, and I guess when the bullets come out, you see fire, and he was able to see that from probably more than 300 yards away.

So that's three football fields. That's a lot. And one bullet took him out. And if he didn't shoot him, you would have had probably a lot of people dead. Probably a lot of people would have been dead. He had a lot of bullets up there. He had a powerful gun, and he had a lot of bullets up there.

**00:36:26**

Uh, the reason he stopped was he got hit. Uh, 5 seconds. That's pretty amazing job when you think, you know, it's sort of a surreal experience. And you could say that for them too. And they go years and they don't have to do that, they don't have to shoot people, and then all of a sudden they're confronted and they see somebody firing.

**00:36:45**

And a lot of people wouldn't react like that. They wouldn't, you know, they'd say, let's call in and find out what's going on. His reaction time, I think, was amazing. So there was a big communication problem, and they'll get that straight now. But, uh, the people, the secret service people were very brave and that sniper was very talented to hit the target, hit a target like that from so far away.

### **Adin Ross**

**00:37:07**

Right. Um, you know, mister President, I do want to say, first of all, um, you took a bullet for everyone in this room, everyone watching, everyone. The reaction that you gave. No other president is going to do that. They're going to either remain, you know where they are. You are a brave man.

**00:37:28**

You stood up and went like this. And, uh, that was a pretty badass picture, by the way.

### **Donald Trump**

**00:37:32**

Well, you know, the. I will say though, that the audience was very brave also the fans, the people. And it's much more than maggot, uh, although I think Maga is almost everybody because it's what we talk about. But all of those people with tens of thousands of people as far as the eye could see, and then the people in the back, and those are the people you see because the cameras are focused on that.

**00:38:00**

You know, we have the bleacher in the back with, I don't know, 100 to 150 people or something, but those people never moved. And if you go to crowd, we had a, like a crowd controlled type person said whenever a bullet is fired, they know a bullet and they know a sound. And, ah, we had a lot of bullets fired.

So when you think of it, plus the secret service, uh, whenever a bullet's fired, everybody empties out immediately. They immediately leave and they empty out the whole state and they call it a stampede. Like in cattle.

**Adin Ross**

**00:38:31**

Yeah.

**Donald Trump**

**00:38:32**

And people, a lot of people get killed with stampedes. You know, they get literally stunk, overdose. Many people die in soccer stadiums. But when a bullet goes off, everyone leaves. Almost every time, nobody left. And you had the man behind me, he's looking like this. He's looking, he's looking. There was no fear.

**00:38:49**

It was amazing. They knew that I was in trouble. They saw that. They saw the blood because the blood, I guess you get hit in the ear. I can tell you a lot of blood when you get hit in the air. That's one thing we learn. We learn all these things, unfortunately. But they saw there was, uh, a big problem.

**00:39:06**

Normally, when they hear that, they're all, you know, they disperse. Nobody left. I mean, you take a look at that now, that was a microcosm of what was out in front of me, because the speech was being made to thousands of people.

**Adin Ross**

**00:39:19**

Right?

**Donald Trump**

**00:39:20**

And nobody there was leaving, either. It was really amazing. They knew there was a problem. And when I got up, they were confused because secret, uh, service was lifting me, I guess. I was getting up, and I'm looking for my shoes. I didn't want to go on a, uh, you know, they had stretchers and stuff.

**00:39:39**

I didn't want to go on stretchers. I didn't want to do that. But it was amazing. And they were confused because you could be up, but you're not looking too good. And I felt it was important to let people know that I was okay and our country was okay in a true sense, that our country was okay.

Okay. And so I did that, and the audience was just. They were. They were. I mean. USA. USA. Wild. It was a, uh. It was a hell of a horrible experience, but I learned a lot about the love in this country. Think of it. A bullet goes off. Everyone leaves, and, um, his bullets go on.

**Adin Ross**

**00:40:15**

They just, again, a true hero.

**Donald Trump**

**00:40:17**

They were. No, but they were. But they were. They were heroes. The way they didn't move, the way they. You have to watch that group, because that was the same as the group in front, the big group. And it wasn't like, geez, you know, normally they say, let's get out of here. How do we do?

**Adin Ross**

**00:40:31**

That's true.

**Donald Trump**

**00:40:32**

They weren't. They saw I was in trouble.

**Adin Ross**

**00:40:34**

Yeah.

**Donald Trump**

**00:40:35**

And they didn't want to move. And many of them were standing up, and they were looking. One man in particular with a floppy hat and wearing, like, a black t shirt, and, uh, he's. He's out there just looking. It's a fascinating thing, uh, to see. And when you hear crowd control, people say, we can't even imagine that happened.

**00:40:56**

That shows their love. Love for me, maybe, but for the country. And it was pretty amazing.

**Adin Ross**

**00:41:02**

That's great.

**Donald Trump**

**00:41:03**

Thank you.

So I got you a gift. Well, a couple gifts.

**Donald Trump**

00:41:08

Oh, good. That's good.

**Adin Ross**

00:41:09

I'll show you another gift. Uh, I'll shoot the. Sorry, the second gift a little bit later. But I did get you a gift, and I got you this gift because, look, you are, uh. I feel like you constantly get beat on, but you're so strong. And, uh, you just, like I said, you live for the people, and, uh, you're a hero.

00:41:26

I want to present to you this gift right here. I hope you like, uh, watches, rolexes.

**Donald Trump**

00:41:31

Oh, that's a beautiful watch.

**Adin Ross**

00:41:32

Yeah.

**Donald Trump**

00:41:33

Should I open it?

**Adin Ross**

00:41:34

You should open it and then show the camera.

**Donald Trump**

00:41:35

That's a great watch, actually. Company. They're good company.

**Adin Ross**

00:41:39

You like Rolex?

**Donald Trump**

00:41:40

They like Jack Nicklaus and Gary player and Arnold Palmer and all the golf guys and all the other guys, too. I do. This is beautiful. Wow. Thank you. Don't they have nice packaging?

**Adin Ross**

00:41:51

They do. Really, really nice.

**Donald Trump**

00:41:55

Wow, that's so nice. Oh, should I show that to the audience?

**Adin Ross**

00:42:00

Yeah, they can see it.

**Donald Trump**

00:42:03

I didn't know this. Now I know it's. Now I know it's worth it. Well, uh, my boys said, uh, oh, that's such a big show. I don't know what you're doing, but you really are respected, amazing.

**Adin Ross**

00:42:15

I mean, I appreciate it.

**Donald Trump**

00:42:16

You know, I go into other shows. Nobody does a big deal about me.

**Adin Ross**

00:42:20

I do want to say all, thank you very much, boys. I know you and you love.

**Donald Trump**

00:42:23

Oh, they're great.

**Adin Ross**

00:42:24

They're the greatest.

**Donald Trump**

00:42:25

Well, that was through Dana. You know, Dana is very much into this world. Dana's a young guy, sort of, you know, he's a young guy, so. But Dana is, uh, into this world, like. Like, he could be an 18 year old or a 20 year old. He knows more about you and the Nelk brothers and the Nelk boys, and he asked me to do their show, and I will tell you, I got a tremendous response.

00:42:46

You do some of these big shows. You do, like, 60 minutes, and nobody cares. You do Nelk

or you, and I can already see so many people. I hear you're doing the show with Abe.

**Adin Ross**

**00:42:58**

Oh, wow.

**Donald Trump**

**00:42:58**

I said, oh, I've had a lot of calls. So it's like a new wave. It's a new thing. Who would think it? And sometimes television is not the big deal. I sort of feel that television will always be television, but numbers aren't like they used to be.

**Adin Ross**

**00:43:14**

No, I would say live streaming and YouTube is kind of like the new age television for younger people. Um, so I did have, uh, some clips I wanted to react to. This is the fun stuff I wanted to get into. Uh, let's get into the reactions right here. This is so cool. I'm actually reacting with you.

**00:43:31**

All right.

**Donald Trump**

**00:43:32**

You know, I put you on truth. Really? Yeah.

**Adin Ross**

**00:43:34**

Thank you.

**Donald Trump**

**00:43:35**

Truth is my voice, you know?

**Adin Ross**

**00:43:36**

Yeah.

**Donald Trump**

**00:43:37**

And it's doing great.

**Adin Ross**

**00:43:38**

Yeah.

Everybody should go. Go on. Truth.

**Adin Ross**

00:43:40

Yeah.

**Donald Trump**

00:43:40

But. But I will say that I put you on that we're doing the show together, and the response was very cool.

**Adin Ross**

00:43:46

I love it. I love it. Um, okay, so shout out to, uh, Nelk. But they kind of gave me this idea. I have two segments I want to do with you. The first one is use one word that comes to mind. Describe that person. Okay. It's a fun game.

**Donald Trump**

00:43:58

Fine.

**Adin Ross**

00:43:58

Let's start. All right, who is the first picture? And we got the milk boys. One word.

**Donald Trump**

00:44:03

Uh, great.

**Adin Ross**

00:44:05

I love that. Okay, great.

**Donald Trump**

00:44:07

Okay, so you're friends with them?

**Adin Ross**

00:44:09

Yeah.

**Donald Trump**

00:44:09

Are they competitors of yours?

**Adin Ross**

00:44:11

Not even. Honestly, you know, every time that, uh, uh, you know, I speak to Kyle or Steve,

it's just only they're really, really.

**Donald Trump**

**00:44:18**

No, they're just great. Yeah, but in a way, you would be competitors, but you don't.

**Adin Ross**

**00:44:22**

They're more bigger on the YouTube side of things. I'm more live, so it's a lot. It's a different world, but it's kind of like parallel.

**Donald Trump**

**00:44:27**

Look at them. I mean, they're just great people. That was Dana White. He said, you got to do them. I said, who are they? I didn't know. And after I did them, it was like an explosion.

**Adin Ross**

**00:44:36**

All right, let's see what we got next here. We got.

**Donald Trump**

**00:44:38**

Ah.

**Adin Ross**

**00:44:38**

Uh, me.

**Donald Trump**

**00:44:40**

Ah. Well, I can just tell you that one word, uh, would be outstanding. My son's told me about you, and, you know, they told me about how big. Dad, you know, my baron. Yeah, he said, dad, he's really big. I said, yeah, but what about else? He said, he's also a friend of mine.

**00:44:59**

Right? Yeah, but big, uh, stuff, Aidan. So I just have to say, outstanding to do what you've done at a young age. And I know how old you are. Ah, you're young. You're seriously young. My suit is older than you held your suit. I don't know.

**Adin Ross**

**00:45:19**

Thank you, mister President. Let's see who we got next. We got. And we got. Ah, you.

**Donald Trump**

**00:45:30**

Patriot. Um, I'm a patriot.

**Adin Ross**

**00:45:36**

Joe Rogane.

**Donald Trump**

**00:45:38**

Interesting. He really is. He's an amazing guy. He's a very interesting guy.

**Adin Ross**

**00:45:44**

So we got next. Mister White.

**Donald Trump**

**00:45:48**

Oh, uh, he's a fighter. I'll tell you, that guy. He fights. You wouldn't want to have him, uh, against you. A little bit true with all of these people that you show. And there's a good one, Elon, uh, genius. Truly a genius. You know, I see the rockets come down with the engines and they're coming down, and the engines are landing without any.

**00:46:10**

They have no wings, no nothing. That was a couple of years ago. I said, what is that? And I said, what was that all about? He says, well, we want to be able to save the engines. Not that they go into the ocean and all, but, uh, he really is. He's a genius.

**00:46:25**

He's also a very good person. Elondez.

**Adin Ross**

**00:46:28**

See what we got next here. We got Kanye.

**Donald Trump**

**00:46:33**

So he's very complicated. Let's say complicated because he is a really nice guy, but he can get himself into trouble and he can get some other people. But, you know, uh, he's got a good heart. He does. He does. But he's complicated. Kanye fake. Um, but in all fairness. Look, but she knows it.

**00:47:00**

She's got a thing going. It's a good thing. She's, uh, a good thing for her. But there's a certain something. She's got. She's got a spark. That's pretty amazing, actually. She's got a good spark. Um, so I'll change it. I'll say spark. She does have. She gets on. You know,

when she was running, she was running against a gentleman from Queens.

**00:47:24**

And I asked his people, I said, are you, uh, careful? This guy was going to be speaker of the house. It was going to be him, not Nancy Pelosi. And, Joe, he is a good politician, a real pro. Been around for a long time, many years in Congress. And I watched her on television one time, I saw a clip of her speaking, ranting, raving, going crazy.

**00:47:48**

And I said, uh, who's she running against? She's running against Joe. I said, oh, does he know what's going. Oh, he's got no problems there. He's got no problem. I said, is he doing any debates? No, he doesn't have to bother with the debates. He's got. No, he's been there for years. I said, tell him I said that he should be careful because I saw her, and I said, uh, she's Evita.

**00:48:13**

I called her Evita. Maybe that's the best Evita Peron. I said, she's Evita. She's in the street screaming, shouting, going crazy, hugging people, hugging. Everybody's being hugged. I said, he better be careful. And she took him out. So, you know, I give her credit, but, uh, she's got a lot of. She's got a lot of sizzle.

**00:48:36**

Well, there's a powerful, um, powerful man. He's a powerful man. I know him very well. I know him probably better than anybody in this country. Knows him and got, uh, to know him extremely well. We had a great relationship until Covid. Covid was a step too far. But we did very well with China and President Xi.

**00:48:58**

We did, uh, very, very well with China. We took in hundreds of billions of dollars. No president took in ten cents. I took in and I exposed China. Look, I want China to do great. Um, okay? But they can't take advantage of us like they were doing for years and years. We'd lose \$500 billion a year in trade, all of that.

**00:49:16**

But then Covid came in, and, uh, it really. I changed. But I will have a very good relationship with him. There's no going to war with him. Uh, he doesn't want to go to war. We're not going to go to war. And we had a very good relationship, actually. He was right in this room.

He came to this country, and he stayed here for a number of days, as you remember. And we had incredible meetings. A very famous meeting in the dining room, actually. But he loves his country, and he's very strong and very powerful and very, uh, interesting. But he really does love his country. I can tell you that.

**Adin Ross**

**00:49:54**

Let's see who we got next on this list.

**Donald Trump**

**00:49:59**

Yeah. Gavin, new scum. No, you spelled his last name.

**Adin Ross**

**00:50:05**

He literally ruined California. Beautiful state. California is beautiful. He ruined it.

**Donald Trump**

**00:50:10**

And when you watch him, he's always saying, oh, we're doing so great. We're not doing great. I mean, I have holdings in California, and, uh, I own a golf course right on the ocean, right on the Pacific Ocean in Palos Verdes. So beautiful. It's a club. It's big, you know, many acres. Hundreds of acres.

**00:50:26**

And it's. It's fantastic. But California is so precious. One of the most beautiful places in the world in terms of weather, in terms of everything, and they're just destroying it with crime. The crime is out of control. It's a very dangerous place. And he, you know, I think he's, you know, it's. It's a shame because I like him.

**00:50:48**

I got along with him great. I helped him a lot with his fires. I kept saying, you know what? In you do something about the forest vice. No reason to have that. There's no management. They have no management control over the forests. I said, you have to do things. But I got along with him great.

**00:51:03**

But he has not done the job. He has not done the job. Said.

**Adin Ross**

**00:51:09**

Got a few more. Let's see what we got next.

Yeah. Uh, he's turned very liberal, actually. They say he's the son of Fidel Castro and could, uh, be. I mean, anything's possible in this world. You know, you're going to learn as you get older. You've seen a lot already for your age, per age, I would say, per year spent, you've seen as much as anybody.

**00:51:32**

But Justin Trudeau is, um. I get along with him very well, actually. But he seems to be going very progressive, and the people of Canada are not liking it. I mean, if they had a good conservative person, which maybe they do, maybe they don't, I don't know. But somebody, uh, that's a strong conservative would.

**00:51:53**

Would win in Canada. Canada is very unhappy about the way they've been treated as people. But I got along with them well. Now, this man I really got along with well. We had little, uh, rocket man. We had a red button. He said, I have a red button on my desk. And I said, no, I have a red button, and mine's bigger than yours and mine work.

**00:52:19**

It was a, uh, really bad month and a half. You know, he, uh, was very, very tough on President Obama. Very tough on everybody. Uh, you know, it's the hermit nation, and it really is. I mean, it's. I said to him, uh, do you know Elton John? No, no, no. I said, uh, did you ever hear the song Rocket man?

**00:52:40**

And I actually played him the song Rocket man. He said, no, I've never heard it. I said, you're Rocket man. He said, no, you call me little rocket man? Not Rocket man. But I tell you what. So we had a very nasty. Too much. People were actually worried about it because it could have been dangerous.

**00:52:54**

But President Obama told me that this was the single biggest threat to the United States was Kim Jong un of North Korea. And one day I got a call from people that wanted to see me about him, and he wanted to meet. He did not want to meet with Obama. He did not want to meet with anybody.

**00:53:13**

Uh, got tremendous nuclear capability. He does. We've checked that closely, and he does. I got to know him very well, and I got along with him great. He's very smart. He's very strong. He's the absolute leader. You know, a lot of people say, oh, maybe he's not the

leader. He's the absolute. When he's around, his people are standing up at attention.

**00:53:31**

I've never seen. We were at a lunch, and they had 20 people on his side and 20 people on mine, you know, looking at each other, right. In Singapore. We had a meeting in Singapore. It was the biggest press conference I've ever had. There were thousands of paparazzi. I've never seen anything like it.

**00:53:46**

I think people said they've never seen anything like it. I was walking in, he was walking, and we met in the middle, remember? The place just went crazy. But we got along very well. Hes very, very smart. Um, and, you know, hes a real power. Hes a real power. I think hes upset that Im not there.

**00:54:05**

Nothing would have happened with him. We would have gotten along with him fine. I was trying to get him to do, you know, his country is, you talk about location, im a real estate guy. Hes right between, think of this, Russia, China one side and South Korea on the other. I said, you have a great piece of real estate.

**00:54:23**

You could make so much. You could have gorgeous thinking. I said to him, think about gorgeous condos going up on your shore. He's got a lot of ocean. He's got ocean frontage on both sides. But I got along with him great, and we would have had no problem with him. Now he's getting very angry with us and he's getting very angry with, uh, I understand he doesn't like her.

**00:54:43**

He doesn't know her, but he forms opinions and he doesn't like her. And he thought that Biden was a stupid man. A very stupid man. He would say that. But I say the same thing. So at least we agree on something. But Biden is, they really have hurt our country. These people have hurt our country.

**00:54:58**

Kim Jong un was great for as long as he was there. As long as I was there, there was going to be no problem, that I can tell you. We met in Singapore. I got to know him so well. Uh, and, you know, I always say that we have, we have enemies from within and we have enemies on the outside.

So he would be considered, I guess, an enemy. I think he would be absolutely fine. China, the same thing. I always say, if you have a smart president, you don't have a problem with the outside, but you still will have a problem with the inside, because these people are sick. They're sick. And the people, the people from the inside, I mean, they're willing to take down our country.

**00:55:37**

It's incredible. When I look at, uh, the guys like Adam, Shifty Schiff, he's such a bad guy, such a liar. With the Russia, Russia, Russia hoax. It was a total hoax. It went on for two and a half years and total exoneration. Nothing to do with Russia. The opposite. I was the worst thing that ever happened to Russia because I stopped the pipeline.

**00:55:57**

The Russia pipeline, it's called Nord stream two. Nobody ever heard of Nord stream two, but it was just too. Two years of this stuff and actually putting our country in danger, because you put your country in danger with another country. But, um, getting along with these people is really, um, getting along with the foreign leaders.

**00:56:18**

If you're smart, our country is safe. If you're stupid, and that's a problem. We have stupid people there now, and those people are very dangerous right now. Right now. You know, I'm hearing there's going to be an attack tonight by Iran of Israel. They're going to be attacked tonight. I'm telling you right now.

**00:56:36**

I hear it just through the same waves. There's no top secret information or anything, but I hear that Israel is going to be attacked tonight. If I were president, nobody would even be talking about that word, because it wouldn't happen 100%. But when you have Pelosi and when you have Schiff and you have all these people, when you have people, uh, like Schumer, you have all these people.

**00:57:01**

These people are a danger to our country. And they get a guy like Biden in, he's just a vessel. He has no idea where the hell he is. He's their perfect vessel, because he'll do anything that they want him to do. So we really have dangerous people. They go after their political opponent, like me.

**00:57:19**

I mean, me being especially. I mean, they've used law enforcement to go after me. They've

come at me with everything. We just won the big case in Florida. You saw that. That was the big case. That was the biggest of the cases. And, uh, we won that conclusively. We had a brilliant and very fair judge.

**00:57:36**

I mean, you know, if I have fair judges, I win every case. But we. They put you in cases where the judges are totally corrupt, where, like in New York, where the whole legal system is actually bringing down the state and bringing down the city because the corruption is so bad. But, um, we have to solve the problem from within.

**00:57:55**

The problem on the outside, if you have somebody smart, is you can handle it easily, actually. But the problem from within, we have people that truly hate our country. We have to have to solve that problem.

**Adin Ross**

**00:58:07**

I want to get this right with what I'm about to say, because you had said something about crooked, um, people. And I want to say, I want to get this right. That's why I'm pulling up my phone the same, uh, da. Fannie Willis.

**Donald Trump**

**00:58:21**

Right. Fannie Willis.

**Adin Ross**

**00:58:22**

Uh, she sees you very unfairly.

**Donald Trump**

**00:58:24**

She goes by the name of Fonny, even though it's f a n I. She wants to pronounce Fawney. She's little french, little french accent. And her lover. And her lover. Wade, right?

**Adin Ross**

**00:58:35**

Yeah.

**Donald Trump**

**00:58:35**

Mister and misses Wade.

**Adin Ross**

**00:58:37**

Would you say she's very unfair?

Well, not only to me. There are many people she wanted to indict. A senator, a couple of senators. I understand that didn't even. That had nothing to do with it. You know, there are many people, and this has taken place in Georgia. Georgia is phenomenal. Georgia is a great. I love the people of Georgia.

**00:58:56**

I've done great with the people of Georgia. Alabama, South Carolina, North Carolina. But Georgia is so good, and she's destroying it. And the governor should do something about it, because, look, these are innocent people. These are patriots.

**Adin Ross**

**00:59:12**

1 second. I was just going to switch this. So, um, I know Fannie Willis is treating you very unfair. I have a friend who's currently being treated unfair by her. Uh, he's a rapper named Young Thug. And I was just.

**Donald Trump**

**00:59:23**

I heard that, actually.

**Adin Ross**

**00:59:24**

Yeah. Uh, I just was wondering if there's a way that we can make sure you get treated fair. That's all.

**Donald Trump**

**00:59:30**

So I've heard about him, and I heard he's being treated very unfairly by her. And I would tell her she's got to treat these patriots that are being all terrible. They're going after him. And I hear young thug is being treated. I, uh, heard the name. Yeah, I heard it from other people where they say he's being treated very unfairly.

**Adin Ross**

**00:59:48**

Very unfair.

**Donald Trump**

**00:59:49**

So he's got to be treated fairly.

**Adin Ross**

**00:59:50**

Please. Thank you. So, um, let's. Let's see who we got next on the, uh, couple. We have a couple more people left.

Okay.

**Adin Ross**

**01:00:02**

Got some. Hopefully some good ones.

**Donald Trump**

**01:00:05**

So he was very good with me, because when they were doing the Russia hoax, they said I did something with him on a phone call, and basically, I congratulated him on his winning the presidency and said some other things which were turned out to be perfect. Better than perfect. If he sees any corruption, please report it to the attorney general of the United States, which we have an agreement with the country.

**01:00:30**

We have actually, uh, signed, uh, contract with them. A very important one. That because Ukraine has always been known as very corrupt. I don't know if you know that. Uh, it has been a very corrupt country. I think the people are great, but it's been very corrupt. And I said, if you find any corruption in the country, you should report it immediately to the attorney general.

**01:00:49**

That was. I did say that, and it was a very good thing to say. It turned out. I was 100% right in saying it. So they made up a phone call, but fortunately, the phone was essentially taped. The call was essentially taped. I didn't know this, but a lot of times when you're talking foreign leaders, they have tapes or they have stenographers, and we had two professional, really great military stenographers.

**01:01:14**

So every word. So when they said, I did these things, I said, no, I didn't. And then I said, was that taped, or did they have the stenographers? The answer was yes. And they got all the way down the line to impeach me. They wanted to impeach me over this phone call, a single phone call.

**01:01:30**

And I knew that I had them, um, because I had the tape or the stenographers. Everything perfect. Every word was said. And then they did the, um, impeachment. And just before that, because I remember Nancy Pelosi was crazy. We can't impeach him. Look at what the phone call was. She saw the phone call.

**Adin Ross**

**01:01:50**

Yeah.

**Donald Trump**

**01:01:50**

And then they decided, well, let's do it anyway. Can you believe how bad these people are? Let's do it anyway. Because they had the phone call. That's where Tim Scott, a great guy from, a senator from South Carolina, he said, wait a minute, I've just read the phone call. That phone call was, he was the first one to speak up, Tim Scott of South Carolina, then republican senators spoke up, and they were great.

**01:02:12**

I mean, you know, there was great, uh, of course, the only one was Mitt Romney, you know, real stiff, real stiffen. He couldn't get elected dog catcher right now. But although, and he actually voted, he actually only took a half a vote away. But everybody else voted for me, 100%, uh, unanimous with the Republicans.

**01:02:29**

And it was fine. But what they did was they made up a call, and then when they found out that I had it essentially on tape, they looked really bad, and they had a decision to make. Do they pull it? And she said, no, we shouldn't be doing this, but let's go ahead with it anyway.

**01:02:46**

I did nothing wrong, so you have to be careful. So let me just say about him. So when they called him and they asked him, did President Trump say anything that was inappropriate or wrong? He said, absolutely not. It was a very nice phone call. Uh, there was nothing unusual about it at all.

**01:03:03**

And he could have grandstand it. He could have said, well, you know, and, um, he didn't say that. So I respect him. I think that I will be able to make a deal with him. And I, Vladimir Putin very quickly.

**Adin Ross**

**01:03:14**

That's great.

**Donald Trump**

**01:03:14**

Even though it would have been a lot easier before this war started, and you wouldn't have a half a million people, or maybe much more than that, I think you're going to find that the number of people dead is far greater than what they're saying. That's a really nasty, it's a

nasty thing going on over there.

**01:03:31**

But I think I will be able to get him and Putin together and we'll get it ended. Uh, it would have never started if I were president. We had no chance of starting. You know, I knew Putin very well, known very well, and it was the apple of his eye. Ukraine was the apple of his eye.

**01:03:48**

He did love it. He did want it, but he knew he couldn't do it. He wouldn't, uh, he would not. He knew he could not do it. He would have never done it if I was president. And now when you look at all of the death and all of the destruction, even of their culture, because those cities are wiped to the ground.

**01:04:03**

You know, most of the cities horrible outside of Kievan, most of those cities are wiped down to the ground. And it's so sad. And when those buildings come down, there are plenty of people in the, you know, people think those buildings don't have people. They have a lot of people in those buildings that don't want to leave.

**01:04:19**

And those buildings come down. They're big buildings, big, heavy buildings. Then they come down and those. The people are crushed. M instantly. They're crushed. Horrible missiles hit them.

**Adin Ross**

**01:04:28**

I wanted to touch, uh, base real quick on the inflation thing. So, you know, I know I saw you when you went to go speak in, ah, Nashville. Uh, you talked about crypto. You said that crypto can help with debt. Uh, you know, you mentioned that's somewhat like gold. Um, do you think that, you know, if, when you get back into office, you would still fully support crypto?

**01:04:47**

And, uh, you know, I just saw that the us government, ever since you spoke about it, they're selling crypto. They're selling it. So would you, would you, how, what would you do if you were in office with crypto?

**Donald Trump**

**01:04:56**

It's something they shouldn't be doing because they should be trying to build it. So if we

don't do it, China's doing it, other places are doing it, and they're doing it anyway.

**Adin Ross**

**01:05:05**

Yeah.

**Donald Trump**

**01:05:06**

And it's a very modern, uh, currency. It's a very modern form. And I know a lot of very good people that are really into that world and into that market. They're smart. They're good people, and they think it's going to be very beneficial. And remember this, though, it's very important. It's like AI.

**01:05:22**

Do you love it? Do you not like it? Uh, if we don't do it, china's going to do it, or other people are going to do it, and we can't be left behind. And crypto is right in that sphere, and, uh, it is a form of currency. And again, china's already doing it, but if we don't do it, they're going to do it.

**01:05:39**

AI is something that's really at the top of the list, and there are pros and cons to everything, but china is trying to do everything, and we've got to beat him to the punch.

**Adin Ross**

**01:05:53**

I would love to see you and elon, you know, get together and talk about AI together. I think it's really, really important because, you know, elon, with what he's, with what he's doing, and then obviously, you, you guys could really come together, maybe try to find some solutions for AI, because it is getting out of hand.

**01:06:04**

You see a bunch of fake stuff. It's, uh, really getting crazy.

**Donald Trump**

**01:06:08**

It's, uh. You know, one thing about AI that's interesting is, and who would believe this to really be at the top of it and to dominate? Because China's very much into the artificial intelligence. Uh, even the name is sort of a weird name because artificial intelligence sounds like it's not really a very good name when you think about artificial, it says, like, fake intelligence.

**01:06:28**

Right. But regardless. So you need massive amounts of electricity to be able to compete. Did you know that? Electricity, yeah. And if you don't build twice the amount of electricity that the country currently has now, think of that number. You need more electricity than the country has for everything times two. No, thank you.

**01:06:51**

So nobody's going to be able to get that done but me. I'm the only one because you're going to have to build power plants at every plant. You're going to have to have a power plant for every plant. It's all electricity based. It's amazing. You need massive amounts of electricity. In the meantime, they built eight chargers in the middle west for cars, because we shouldn't have, obviously, all electric.

**01:07:12**

You know, they have this electric car mandate, and they don't go far. They cost a lot. They're going to be made in China. Um, and under Biden, he wants everybody to drive an electric car. Uh, no more gas propelled cars, no more hybrids, no more anything. Think of it how crazy and you can drive a car from here to Los Angeles on a tank of gas.

**01:07:30**

Same thing with trucks. They want trucks to go electric. They'd have to make six stops to get to Los Angeles. With diesel, they don't have to make any stops. And they have left over. And the truck gets lighter as you go. You know, one of the problems with that is the weight. The weight of the batteries is so heavy, it's two and a half times heavier than a truck without, you know, with diesel.

**01:07:51**

And you would have to rebuild all of your bridges all throughout the country. And I asked, the trucking industry supports me because of this. Uh, I mean, they probably like me, but they support me because of this, because they're not going to have an industry. I said, when you explain that you're going to have to rebuild all of your bridges in the country, when you explain that to the, to the government officials that come and harass you, don't they say, oh, I see.

**01:08:13**

Well, then it doesn't work. Just that one thing. It doesn't work. When you explain to them that you have to stop six times for 4 hours a stop, and you talk about a supply chain problem. Right. But what I said, when you explain that to people, just tell me, do they say, oh, then we can't really do it.

You know, it makes sense. We can't do it. It's all right. You could have a child go into a meeting, and within 1 minute or two minutes, they would convince you that it doesn't work. Maybe sometime. But I think it's, uh, essentially never going to work. In my opinion, it'll never work because you're always going to have a weight problem.

**01:08:47**

You're always going to have. It's never going to be the same kind of a thing where you can drive for two days without stopping. It's just not going to happen that way. And, uh, I said, what do they say when you go in and explain this? They don't care. They say, we don't care.

**01:09:02**

We want you to go electric. And one gentleman, the biggest guy in the business, he said to me, all my life I've been buying trucks. For 50 years, I've been buying trucks. And every year they got better, bigger, stronger, more beautiful. Every year for 50 years, they became more efficient, more fuel efficient, better pollution control, everything.

**01:09:24**

And if they make us do that, we'll go back 50 years. More than that. He said, a truck 50 years ago would have been better than what they're making us use right now. And I say, when you explain that, do they do anything. They sit there, they look and they say, we don't care.

**01:09:38**

That's our mandate. You have to go all electric. Uh. These people are going to destroy our country. We can't let them do it.

**Adin Ross**

**01:09:44**

Horrible. Horrible. Mister President, I know you're very busy. It's already 215. Uh. How much time would you say we have? Because I do want to give you this last gift.

**Donald Trump**

**01:09:54**

Well, let's go do the last gift.

**Adin Ross**

**01:09:55**

Let's go do it. Let's go do it.

**Donald Trump**

**01:09:57**

So far I like the gift.

**Adin Ross**

01:09:58

Well, you're gonna like this other one too. Hold on 1 second here.

**Donald Trump**

01:10:02

Whoops.

**Adin Ross**

01:10:02

I actually closed that out. Let me go full screen real quick. You go full screen on the Obs and then you should have the live view or the Iroquois.

**Donald Trump**

01:10:29

Okay. Let's go.

**Adin Ross**

01:10:30

Let's go, let's go.

**Donald Trump**

01:10:57

Please get a picture with her. Yes. Can I do that?

**Adin Ross**

01:10:59

Yeah, I'll take it. I got you guys. I'll take a great one.

**Donald Trump**

01:11:08

Thank you so much.

**Adin Ross**

01:11:09

I got some good ones.

**Donald Trump**

01:11:19

Uh, I'll bet she does. She's probably tougher than I am. Have a good time, everybody. See you tonight.

**Adin Ross**

01:11:30

So what's your good side? What do you like walking on? What side you like walking on?

Doesn't matter.

**Adin Ross**

**01:11:33**

Yeah, you look good from both sides. Yeah, it doesn't really matter at all. X. Come on outside with the truck. Yeah. By the way, do you like my buddy Felix's shirt? I love that Felix, by the way, Mister Trump.

**Donald Trump**

**01:11:44**

That's fantastic. Wow. Yeah, you got the grills on. I like that. Hey, I know. That's what I noticed. I noticed. Nice to see you. Thank you. Congratulations.

**Adin Ross**

**01:11:54**

All right, well, you could already see the gift.

**Donald Trump**

**01:11:56**

Yeah, I can.

**Adin Ross**

**01:11:57**

Wow. You can't miss it.

**Donald Trump**

**01:11:58**

That's an elon.

**Adin Ross**

**01:11:59**

It is an elon.

**Donald Trump**

**01:12:00**

Wow.

**Adin Ross**

**01:12:01**

Shout out to mister, uh. Musk.

**Donald Trump**

**01:12:02**

Beautiful.

**Adin Ross**

**01:12:05**

Am I gonna close the door really quick? Just. I wanna show. Show them the rap. Check out

this rap and let me know your honest thoughts.

**Donald Trump**

01:12:13

I think it's incredible. I think it's incredible. Go to the front. You know what they did? AI? Uh, what Google did is they took or they let it happen. See the secret service agency?

**Adin Ross**

01:12:24

Yeah.

**Donald Trump**

01:12:25

They're angry in there. They put smiles on their face.

**Adin Ross**

01:12:28

Right?

**Donald Trump**

01:12:29

You heard about that?

**Adin Ross**

01:12:29

Yeah. No, no.

**Donald Trump**

01:12:30

It's just terrible.

**Adin Ross**

01:12:31

Yeah, I know, but that's how easy it is to manipulate. Yeah, it is. It's very scary. We need. We need like a system where we can quickly fact check things and see if it's real and authentic.

**Donald Trump**

01:12:42

And right now they don't have that.

**Adin Ross**

01:12:43

No, they don't. So, um. Um, I know we're not gonna drive anywhere, but I was wondering if you wanted to, like, listen to, like, a song in here.

**Donald Trump**

01:12:50

Let's go.

**Adin Ross**

01:12:51

All right, cool. This how you open it up?

**Donald Trump**

01:12:53

It is incredible.

**Adin Ross**

01:12:55

Yeah, it is. I'll get on the other side of.

**Donald Trump**

01:13:05

Okay.

**Adin Ross**

01:13:05

Aidan. So good. We back? We good? Oh, we're good. All right, now this is cool.

**Donald Trump**

01:13:11

It's very good.

**Adin Ross**

01:13:12

I've never even seen you in a car before.

**Donald Trump**

01:13:13

Uh, not too many. Look at the playlist, huh?

**Adin Ross**

01:13:19

This is your playlist?

**Donald Trump**

01:13:20

It's a good. Yeah.

**Adin Ross**

01:13:21

Your team picked out.

**Donald Trump**

01:13:22

Yeah.

**Adin Ross**

01:13:22

You want to pick a song? Let's test out this.

**Donald Trump**

01:13:25

Let's try it. Um, and, you know, some of the artists I like better than others, but I like the other song better. So it's always.

**Adin Ross**

01:13:32

Who's, like, your top three artists?

**Donald Trump**

01:13:33

Well, we love Frank Sinatra.

**Adin Ross**

01:13:35

Right, of course.

**Donald Trump**

01:13:36

And, uh, you know, there's a couple that I really like, but I don't like the people, so I don't want to really mention their name. But look at. Look at this list as an example. So. It's such a great list. Aren't the beatles always good?

**Adin Ross**

01:13:49

Come on, they're the best.

**Donald Trump**

01:13:50

Rolling stones are always good.

**Adin Ross**

01:13:53

Uh, choose one. Choose what you like to choose. Swipe. Like this.

**Donald Trump**

01:13:57

Oh, yeah. Yeah. That's fantastic.

**Adin Ross**

01:14:00

Huh?

How about. And we like the beach boys. We always like the beach boys.

**Adin Ross**

**01:14:04**

We do like the beach boys.

**Donald Trump**

**01:14:05**

Who doesn't like the beach boys? How about if we did the following, about thinking that it's going to come back under proper management. How about California dreams?

**Adin Ross**

**01:14:16**

Let's do it. All right, elon, let's see about. Let's see how good this system is. I want to say one thing. This is by far the best livestream ever done. I want to say thank you. And, um. Um. I do want to say. I do want to do a little victory dance with you.

**01:14:37**

Um, I want to, um. Um, I want to step out the car, blast music and dance, because I just had the best room ever. You were right. You called the right before. What did you. You called me in the room and you said, watch, we're gonna have the most hits ever.

**Donald Trump**

**01:14:49**

I think you will. And do you know what the hits are yet? Do you know?

**Adin Ross**

**01:14:53**

Uh, I want to.

**Donald Trump**

**01:14:54**

When will you know?

**Adin Ross**

**01:14:55**

Uh, we crashed multiple times.

**Donald Trump**

**01:14:56**

I think you'll crash.

**Adin Ross**

**01:14:57**

Yeah, I think we're gonna see. I'm gonna get all the analytics. The real live. You count everything.

Well, you'll let me know, but I think you'll have the biggest show, you know, Nel kept by far? That biggest.

**Adin Ross**

**01:15:05**

I know. I hated it when you two took them down.

**Donald Trump**

**01:15:09**

So they had seven and a half million hits in, like, an hour, and then they were taken down. And I told them they'd be taken.

**Adin Ross**

**01:15:16**

Down and they still left it up.

**Donald Trump**

**01:15:18**

They were great. No, no, they left, but I said, YouTube or whoever it was took them there.

**Adin Ross**

**01:15:23**

Right.

**Donald Trump**

**01:15:23**

And I said that would happen. And I said, so let me ask you, if that happens, are you gonna fold? They said, nope, and they never did. But they were taken down. But they had seven and a half million in a very short period.

**Adin Ross**

**01:15:33**

Wow, that's crazy. I just seen somebody said with all the pages, you know, all the pages, all the people live re watching us. We had over a million. We hit over a million live, which is amazing.

**Donald Trump**

**01:15:43**

You're gonna have a lot.

**Adin Ross**

**01:15:44**

Yeah.

**Donald Trump**

**01:15:45**

I hope you're gonna break your record by a lot. And I think you will for whatever reason. I

mean, I won't get into that, but for whatever reason, um, people seem to like watching. I will say it's an honor to be with you, too.

**Adin Ross**

**01:15:56**

Thank you.

**Donald Trump**

**01:15:56**

You're a young guy that's got an amazing. Maybe someday you'll run for president.

**Adin Ross**

**01:16:00**

Um, I don't know about that. I'll leave it to Baron. Maybe one day, Baron. But I would love to, uh, help Baron, you know, when it comes to, you know, uh, we need you back in office, man. Let's. Let's hit this dance.

**Donald Trump**

**01:16:11**

How about this song by Elvis?

**Adin Ross**

**01:16:13**

Elvis, you know, don't. A great song.

**Donald Trump**

**01:16:20**

You know what dunk was? What he was. He had the greatest songs of people.

**Adin Ross**

**01:16:25**

That left him, I think Kamala Harrison here. You want to standing to her?

**Donald Trump**

**01:16:28**

Sure.

**Adin Ross**

**01:16:29**

I'm kidding. She's not really in here.

**Donald Trump**

**01:16:30**

I don't mind.

**Adin Ross**

**01:16:32**

I. You'll still let it go. Let it fly.

She's got to save the country. But it's not going to happen. They're not going to be able to come close. That's great. Great to be with you.

**Adin Ross**

**01:16:42**

It's great. It's great. I want to, uh. Uh. I just want to, um. Um.

**Donald Trump**

**01:16:46**

What's a good one?

**Adin Ross**

**01:16:47**

The YMCA, man. M. That's.

**Donald Trump**

**01:16:48**

Yeah, YMCA is the best.

**Adin Ross**

**01:16:49**

That's the best one. The outro out. You know what I mean?

**Donald Trump**

**01:16:52**

Right here, though, I think.

**Adin Ross**

**01:16:54**

Is it this one?

**Donald Trump**

**01:16:59**

I'll tell you about TikTok. Trump is going to keep tick tock going for his Biden Paris. Have no idea what it means. And all it's going to do is be good for China. The other way. We're going to keep. We're going to save TikTok. Uh, they want to destroy TikTok. So all the people on TikTok, uh, vote for Trump.

**Adin Ross**

**01:17:18**

Vote for Trump. Amazing stream. W's in the chat. Any last word? Live stream the industry.

**Donald Trump**

**01:17:28**

Make sure you break your record. If you don't break your record. Disappointed?

**Adin Ross**

**01:17:33**

I think you broke it. Thank you, Mr. President. We can end that.
